(1) Name: **KRONICK KALADA BERDY & CO, P.C.**

(2) EIN: **23-2667890**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Employee Benefits Committee, Plan Administrator and Participants in the Long Island Electric Utility ServCo LLC Retirement Income Plan:

Opinion

We have audited the financial statements of Long Island Electric Utility ServCo LLC Retirement Income Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years ended December 31, 2024 and 2023 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation

190 Lathrop Street, Kingston, PA 18704 Phone: 570-283-2727 Fax: 570-283-1670

of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2024 and Schedule H, Line 4j - schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements

but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The following description of the Long Island Electric Utility ServCo LLC Retirement Income Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General

The Plan was established by Long Island Electric Utility ServCo LLC (“ServCo”, the “Company”, or “Plan Sponsor”) to be generally effective January 1, 2014. (Component A of the Plan – Management Employees’ Cash Balance Plan – was effective December 16, 2013). ServCo is an indirect subsidiary of Public Service Enterprise Group Incorporated (“PSEG”). The Plan is a non-contributory defined benefit pension plan covering certain employees of ServCo under various Components.

The ServCo Employee Benefits Committee (“Benefits Committee”) is the Named Fiduciary of the Plan responsible for the management of its operation and administration (“Plan Administrator”). The ServCo Pension Investment Committee is the Named Fiduciary of the Plan responsible for the management of Plan assets.

The Bank of New York Mellon Corporation is the Trustee of the Plan (“Trustee”). The Plan’s investment assets are held in a trust account by the Trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and the Internal Revenue Code of 1986, as amended (“IRC”), as well as subsequent applicable laws.

Eligibility

The Plan is for the benefit of eligible employees as described in each of the Components. Generally speaking, these Components were effective as of January 1, 2014, with the exception of Component A (as defined below). Employees are eligible to participate if they were identified as a “Transition Employee” or as a “Late Transition Employees”, and participated in a comparable component of the Retirement Income Plan of Keyspan Corporation (the “Keyspan Plan”) or the Keyspan Retirement Plan. In addition, union employees who did not participate in the Keyspan Plan will be eligible to become participants in this Plan for periods on and after January 1, 2014, if stated eligibility criteria are satisfied.

The Components of the Plan are as follows:

- Component A. Management Employees’ Cash Balance Plan;
- Component B. Management Employees’ Pension Plan;
- Component C. Local 1049 Part-Time Clerical Employees’ Cash Balance Plan;
- Component D. Local 1049 Clerical Employees’ Pension Plan;
- Component E. Local 1049 Physical Employees’ Pension Plan;
- Component F. Non-Utility Workers’ Cash Balance Plan; and
- Component G. Former Brooklyn Union Gas Management Employees’ Pension Plan.

Vesting

Unless provided otherwise in a specific Component, a Participant shall be vested in the Plan upon attainment of five Years of Service for non-cash balance Components and three Years of Service for cash balance Components.

Early Retirement

The following are the early retirement unreduced benefits, reduced benefits, and eligibility requirements under each Plan Component:

- Components A, C, and F – No Early Retirement provision
- Components B and G – Early Retirement eligible if age 52 before Termination of Service and Vested
 - Between ages 52 and 60 (age plus service is less than 80): Participant's Accrued Benefit at Normal Retirement Age is reduced by 1/3 of 1% for each full month by which the Early Retirement Date precedes age 60.
 - Over age 60 or age plus Years of Service equals at least 80: Unreduced
- Components D and E – Early Retirement eligible if attained both age 55 before Termination of Service and has at least 10 Years of Service
 - Between ages 55 and 60 with at least 10 but less than 15 Years of Service (age plus service is less than 80): Participant's Accrued Benefit at Normal Retirement Age is reduced by 1/6 of 1% for each full month before age 60
 - Between ages 55 and 60 with 15 or more Years of Service (age plus service is less than 80): Participant's Accrued Benefit at Normal Retirement Age is reduced by 1/12 of 1% for each full month before age 60
 - Over age 60 or age plus Years of Service equals at least 80: Unreduced

A Participant is not vested in such early retirement subsidies until the Participant becomes eligible for them. Therefore, the nonvested benefits reported in Note 4 include those early retirement subsidies that are forfeitable as of January 1, 2014. In addition to these early retirement subsidies, nonvested benefits include the value of death or disability benefits. These benefits are considered nonvested since they are forfeitable and would only be paid if death or disability occurred before retirement.

Pension Benefits

Compensation for the qualified plan is limited by IRC Section 401(a)(17) for determining a Participant's accrued benefit under the Pension Plan. The Internal Revenue Service ("IRS") dollar limit on compensation for 2024 and 2023 is \$345,000 and \$330,000, respectively. Vested Participants entitled to pension benefits under the Plan are offered several optional forms of payment as defined by the Plan Documents for each Component of the Plan. The Plan also provides for disability pension benefits.

NOTES TO FINANCIAL STATEMENTS

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

The pension benefit, normal forms of payment, and optional forms of payment are specified as follows:

- Components A, C, and F
 - Pension benefit: The account balance at Normal Retirement Date, which includes accumulated pay and interest credits as defined by the Plan.
 - Optional forms include: Single Life Annuity, 50%, 75% or 100% Joint and Survivor Annuity, and Lump Sum Distributions
- Component B
 - Monthly pension benefit: For each year of active participation, 1/12 of the sum of 2% (2.5% if the employee is age 50 or older) of the employee's pensionable pay.
 - Normal form of payment: For a single participant a Single Life Annuity and for a married participant, a 50% Joint and Survivor Annuity
 - Optional form of payment: Single Life Annuity (for a married participant), Joint and Survivor Annuity option (1% - 100%), Joint and Survivor Annuity option (1% - 100%) with pop up feature, and Social Security level income option (Single Life Annuity or a Joint and 50% Survivor Annuity).
- Components D and E

Monthly pension benefit: For each year of active participation, 1/12 of the sum of 2% (2.5% if the employee is age 50 or older) of the employee's pensionable pay. Additionally, those employees who were actively employed by the Company as of December 31, 2023, received an increase to their December 31, 2023, accrued benefit of 6.5%. Effective January 1, 2025, the multiplier will increase to 2.15% (2.65% if the employee is age 50 or older) for employees who are hired prior to January 1, 2025.

 - Normal form of payment: For a single participant a Single Life Annuity and for a married participant, a 50% (100% if post-65) Joint and Survivor Annuity
 - Optional form of payment: Single Life Annuity (for a married participant), Joint and Survivor Annuity option (1% - 100%) with pop up feature, and Social Security level income option (Single Life Annuity). Participants who elect a Single Life Annuity before age 65 or a Social Security level income option before age 62, have a post-retirement election at age 65.
- Component G
 - Monthly pension benefit: 1.5% of the participant's final average compensation times years of credited service, where final average compensation equals the average of the 5 highest, consecutive years of compensation in the last ten calendar years of employment.
 - Optional forms include: Single Life Annuity (for a married participant), Joint and Survivor Annuity option (1% - 100%), Joint and Survivor Annuity option (1% - 100%) with pop up feature, and Social Security level income option (Single Life Annuity or a Joint and 50% Survivor Annuity).

Plan Amendment

The Plan was amended as of September 30, 2024 to provide that spousal beneficiaries are treated as if they were the deceased Participant for purposes of required minimum distributions beginning with the 2024 Plan Year.

Setting Every Community Up for Retirement Enhancement Act (SECURE) 2.0 Act

President Biden signed the Consolidated Appropriations Act (CAA), including SECURE 2.0 Act of 2022, into law on December 29, 2022. SECURE 2.0 builds on changes made by the SECURE Act of 2019, and the Plan document has been amended for provisions required to be effective in 2024 and will be amended in accordance with the required timeline of the act to meet the applicable provisions effective after December 31, 2024.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits. Actual results could differ from the estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments including cash equivalents, common stocks and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and those changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Valuation of Investments and Income Recognition

The Plan's investments are in various commingled funds with underlying investments in cash equivalents, common stocks and fixed income securities, all of which are presented at fair value based on quoted market prices or estimated fair value of the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Servco Pension Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and trustee. Those policies are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable

inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information. For additional information, refer to Note 5.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Expenses

Administrative expenses are paid by the Plan, except to the extent paid by the Plan Sponsor, in the manner provided in the Plan document. Expenses that are paid directly by the Plan Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the net appreciation of fair value on investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Payment of Benefits

Benefit payments to Participants or beneficiaries are recorded upon distribution.

Subsequent Events

Plan management has evaluated subsequent events through October 13, 2025, which is the date these financial statements were available to be issued.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by ServCo. The funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary, if required. The minimum funding requirements of ERISA were met for the years ended December 31, 2024 and 2023.

Although it has not expressed any intention to do so, ServCo has the right under the Plan, in certain circumstances and in accordance with its collective bargaining agreements, to amend or terminate the Plan subject to the provisions set forth in ERISA.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service Participants have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated Participants or their beneficiaries, (b) beneficiaries of Participants who have died, and (c) present Participants or their beneficiaries. Benefits under the Plan are accumulated based on Participants' compensation during each year of credited service.

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits. The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2025 and 2024 were (a) life expectancy of participants – healthy mortality based on collar-adjusted Pri-2012 mortality tables with rates for employees, healthy retirees, and contingent survivors projected forward from 2012 using the Aon U.S. Endemic Mortality Improvement Scale (blue collar for union employees and white collar for non-union employees) based on liability-weighted mortality development, and (b) retirement age assumptions (the average retirement age was 65), and (c) investment return. The interest rates used to discount the obligation for 2025 and 2024 were 5.84% and 5.13%, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of Plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

The actuarial present value of accumulated Plan benefits as of January 1, 2025 and 2024 is as follows:

	2025	2024
	(Thousands)	
Vested benefits:		
Participants currently receiving payments	\$ 160,937	\$ 150,746

NOTES TO FINANCIAL STATEMENTS

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

The changes in the actuarial present value of the Plan's accumulated Plan benefits for the years ended January 1, 2025 and 2024 are as follows:

	2025	2024
	(Thousands)	
Actuarial present value of accumulated Plan benefits as of the beginning of the year	\$ 430,987	\$ 370,380
Increase (decrease) during the year attributable to:		
Benefits paid	(13,789)	(11,243)
Increase in interest rate due to decrease in the discount period	23,283	20,848
Changes in actuarial assumptions	(40,914)	11,801
Plan amendments	-	9,832
Other increases attributable to normal Plan operation*	26,257	29,369
Net (decrease) increase	(5,163)	60,607
Actuarial present value of accumulated Plan benefits as of the end of the year	\$ 425,824	\$ 430,987

* Represents the normal operations of the Plan. It consists primarily of the increase due to ongoing benefit accruals (if any) and those items of Plan experience that are not associated with Plan asset performance.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1— Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2— Inputs to the evaluation methodology measurements include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3— Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables present information about the investments measured at fair value on a recurring basis as of December 31, 2024 and 2023 including the fair value measurements and the levels of inputs used in determining those fair values.

Assets at Fair Value Measurements as of December 31, 2024				
Description	Total	Quoted Market	Significant Other	Significant
		Prices for	Observable Inputs	Unobservable
		Identical Assets	(Level 2)	Inputs

Assets at Fair Value Measurements as of December 31, 2023				
Description	Total	Quoted Market	Significant Other	Significant
		Prices for	Observable Inputs	Unobservable
		Identical Assets	(Level 2)	Inputs

Investments at Fair Value	<u>\$ 433,093</u>	<u>\$ 34,126</u>	<u>\$ 398,967</u>	<u>\$ -</u>

- (A) Common stocks are measured using observable data in active markets and considered Level 1.
- (B) Investments in commingled equity and bond funds have a readily determinable fair value as they publish a daily net asset value (NAV) available to investors which is the basis for current transactions and contain certain redemption restrictions requiring advance notice of one to two days for withdrawals (Level 2).

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

LONG ISLAND ELECTRIC UTILITY SERVCO LLC RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

The Plan's policy is to recognize transfers on investments into or out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023 there were no transfers of investments into or out of Level 3. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

6. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are held in various commingled funds managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to \$613,038 and \$440,546 for the years ended December 31, 2024 and 2023, respectively.

Certain administrative functions are performed by the officers and employees of the Plan Sponsor and its affiliates (who may also be Participants in the Plan) at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions from ERISA's rules on prohibited transactions.

7. TAX STATUS

The IRS has determined and informed the Company by a letter dated April 27, 2015 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter to adopt IRS required amendments in connection with issuing the determination letter, the Plan administrator and the Plan's benefits counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three

LONG ISLAND ELECTRIC UTILITY SERVCO LLC RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF OR FOR THE YEARS ENDED DECEMBER 31, 2024 and 2023

years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits

Benefits to be provided via contracts under which Bank of New York Mellon Corporation is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of the benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Plan-related expenses

Equal to last year's actual plan expenses adjusted for inflation and estimated current plan year PBGC premiums. For 2024 it is equal to \$1,203,100.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

- **Healthy life mortality rates** Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
- **Disabled life mortality rates** Same as described above for Healthy Mortality.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit The later of age 65 or termination of employment
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment The form of payment for the traditional pension plan is 55% elect a single life annuity and 45% elect the QJSA annuity. 100% of cash balance participants are assumed to elect an immediate lump sum.

Percent married 85% of males; 50% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age Male participants: Wife 2 years younger than husband.
Female participants: Husband is 2 years older than wife

Loads No loads are applied

Covered pay Plan compensation for the year beginning on the valuation date was estimated as the reported base pay for the prior year, adjusted for assumed pay increases plus incentive compensation for non-union participants and, effective January 1, 2017, gainsharing for participants in Components D and E. Incentive compensation pay is equal to the average for the last 3 years actual experience. For bonus paid after 2023 it will be equal to 14.5% of base pay. The gainsharing is assumed to be 2.0% of base pay.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year (January 1)
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant

bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor and its third party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the 30-year Treasury rate for the month of August for the preceding calendar year, compounded monthly, subject to a minimum of 3.75%. The plan sponsor has selected an expected future 30-year Treasury rate of 4.13%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on market conditions at the measurement date. Since the selected rate was more than minimum rate, 4.13% was used in the valuation.
Rates of increase in compensation, National Average Wages (NAW), and CPI	Assumed increases were chosen by the plan sponsor and they represent an estimate of future experience. We believe that the assumptions chosen do not significantly conflict with what would be reasonable.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed termination rates differ by age, gender, and union membership because of expected differences in termination rates. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Disability

Disability rates were based on the rates used for pension participants in the National Grid pension plan, from which these participants were spun off and which is believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

Retirement rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed retirement rates differ for union and non-union employees because of expected differences in retirement rates.

Retirement rates for union employees differ by eligibility for unreduced retirement benefits because of the expected effects the availability of these benefits will have on retirement rates.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred benefits:

- Preretirement death benefit

Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

- Deferred vested benefit

Deferred vested participants' assumed commencement age reflects the results of a 2023 experience study. It is a single age to capture the average age at commencement.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Form of payment

The form of payment elections reflect the results of a 2023 experience study.

Marital Assumptions

- Percent married

The assumed percentage married is based on the results of a 2023 experience study.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

- Spouse age

The assumed age difference for spouses is based on the results of a 2023 experience study.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430 was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.

The assumed plan-related expenses added to the target normal cost were changed from \$2,543,400 for the prior valuation to \$1,203,100 for the current valuation to account for lower expected expenses to be paid from the trust.

The interest crediting rate (prior to reflecting the minimum rate of 3.75%) decreased from 4.30% to 4.13%. Since this is more than the minimum rate, 4.13% was used in the valuation.

The incentive compensation for non-union participants was decreased from 16.5% to 14.5% to reflect the average for the last 3 years actual experience.

The gainsharing percentage for union participants was decreased from 2.5% to 2.0% to reflect the average for the last 3 years actual experience.

Termination rates, retirement rates, spouse age, compensation increase and form of payment for the traditional plan were updated based on the recent experience study conducted in 2023 as defined under HR 621-01 of the SOX Controls.

Change in methods since prior valuation

There have been no changes in methods since the prior valuation.

Future Plan Changes

No future plan changes were recognized in determining funding requirements. WTW is not aware of any future changes that are required to be reflected.

Changes in Benefits Valued Since Prior Year

The following changes were made to the pension plan due to the recent negotiations for union employees earning benefits under the career average benefit formula:

1. Increasing the 2023 year-end accrued benefit by 6.5% at December 31, 2023 for active employees as of December 31, 2023.
2. Increasing the career average benefit formula from 2% (up to age 50) and 2.5% (older than age 50) to 2.15% and 2.65%, respectively, effective January 1, 2025 for participants hired on or before January 1, 2025.

Schedule SB, Line 24 Change in Actuarial Assumptions

The interest crediting rate (prior to reflecting the minimum rate of 3.75%) decreased from 4.30% to 4.13%. Since this is more than the minimum rate, 4.13% was used in the valuation.

The incentive compensation for non-union participants was decreased from 16.5% to 14.5% to reflect the average for the last 3 years actual experience.

The gainsharing percentage for union participants was decreased from 2.5% to 2.0% to reflect the average for the last 3 years actual experience.

Termination rates, retirement rates, spouse age, compensation increase and form of payment for the traditional plan were updated based on the recent experience study conducted in 2023 as defined under HR 621-01 of the SOX Controls.
