Matthews Book Company Employee Stock
Ownership and Savings Plan
St. Louis, Missouri

Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Matthews Book Company Employee Stock Ownership and Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities For The Audit Of The Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Except as described in the Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required By ERISA

The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Participants and Plan Administrative Committee

Ownership and Savings Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 And 2023

1. Description Of Plan And Basis Of Presentation

The following description of Matthews Book Company Employee Stock Ownership and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

MMCI Holdings, Inc. (the Company) and its wholly owned subsidiaries Matthews Book Company, LLC, Matthews Medical and Scientific Books, Inc., McCoy Surgical Instruments and College Supplies, Inc. and International Wholesale Supply, Inc. established the Plan effective May 1, 1981. The Plan as a whole was amended and restated effective January 1, 2015. The 401(k) provision of the Plan operates, in relevant part, as a defined contribution profit sharing plan that includes a 401(k) provision.

The Plan also operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the Code), as amended.

The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the Administrative Committee comprised of persons appointed by the Company's Board of Directors. The Plan's trustees are responsible for the management and control of the Plan's assets and have responsibility for the investment and management of such assets.

Eligibility

All non-union employees of the Company and its participating subsidiaries who are 21 years of age and older are generally eligible to participate in the Plan.

Under the 401(k) provision, employees automatically become participants in the Plan on the 1st day of the month coincident with or next following the date on which the employee completes 90 days of continuous employment and has attained 21 years of age. Seasonal employees automatically become participants in the Plan on the first day of the month coincident with or next following the date which the employee completes 12 consecutive months of service and has attained 21 years of age. Participants have the option of opting out of participation at any time.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Under the ESOP provision, employees may become participants in the Plan on January 1 or July 1 coincident with or next following the date on which the employee completes 1,000 hours of service during a 12-consecutive month period. Participants who are not employed on the last working day of a Plan year or are not credited with at least 1,000 hours of service during the Plan year are generally not eligible for an allocation of Company ESOP contributions for such year.

401(k) Contributions

Participants may defer salary up to an annual maximum. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year the Company may make matching contributions to be determined annually based on a percentage of each eligible participant's compensation. For the years ended December 31, 2024 and 2023, the Plan provided a matching contribution of 15% for each eligible participant's elective deferral contribution to the Plan, up to 5% of employee deferrals. As of December 31, 2024 and 2023, this matching contribution was listed as a Plan receivable from the Company and was settled in full subsequent to year end.

Company ESOP Contributions

Company ESOP contributions to the Plan are determined by the Board of Directors. Company ESOP contributions may be in cash, shares of Company common stock, or a combination of both provided that the amount of the contributions shall not exceed the maximum amounts deductible under section 404(a)(3) of the Code. Company common stock contributions are recorded at fair value at the time of contribution as determined by an independent appraiser.

Participant Accounts

Under the 401(k) provision, each participant's account is credited with the participant's contributions and allocations of the Company's matching contributions and Plan's earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Under the ESOP provision, each participant's account is credited with an allocation of ESOP contributions and forfeitures of terminated participant's non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations to each participant's account are based upon the ratio that such participant's covered compensation for the Plan year bears to the total covered compensation of all active participants during the Plan year, as defined. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year balance to all participants beginning of the year balances, as defined by the Plan.

Investment Options

Upon enrollment in the Plan, participants may elect to invest their contributions, and any Company matching contributions, in one or more of the investment options offered by the Plan. The investment options are mutual funds and common/collective trusts with a range of investment objectives. Participants may change their investment options at any time.

Voting Rights

Generally, the trustees of the Plan exercise all voting rights with respect to the Plan's shares in Company common stock. Under very specific and defined circumstances, each participant is entitled to exercise any and all voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The Plan's trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Plan's trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries subject to the Plan's trustee's fiduciary responsibilities under ERISA.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants are immediately vested in their elective salary deferrals plus actual earnings thereon. Participants in the matching and ESOP provisions vest 20% per year of service after the first two years of service and are 100% vested after six years of service.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Forfeitures

Participants who terminate their employment and are less than 100% vested in their Company's contributions forfeit their non-vested portion. Forfeitures for the ESOP provision of the Plan are allocated to participants based upon the ratio that such participant's covered compensation for the Plan year bears to the total covered compensation of all active participants during the Plan year. Under the ESOP provision, a total of 0.90 and 2.62 forfeited shares of terminated non-vested participants were allocated to the remaining participants for the years ended December 31, 2024 and 2023, respectively.

Forfeitures for the 401(k) provision of the Plan are used to reduce future Company contributions to the Plan. Forfeitures available for future use amounted to \$1,642 and \$998 as of December 31, 2024 and 2023, respectively. Forfeitures of \$990 and \$2,344 were used to reduce Company matching contributions paid during the year ended December 31, 2024 and 2023, respectively.

Payment Of Benefits

The Plan provides for retirement benefits to begin upon Plan retirement age of 59.5. A participant may defer a distribution no later than April 1 of the calendar year in which the participant attains age 72. Balances attributable to Company contributions are to be distributed in the form of a joint and survivor annuity or lump sum, if elected.

Under the Plan, no distributions from the Plan will be made until a participant reaches Plan retirement age, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash in the form of an annuity or lump sum, if elected. The accounts of withdrawing participants due to termination of employment prior to attaining normal retirement age will be distributed no later than one year after the latter of the close of the fifth Plan year following termination or the close of the Plan year in which an acquisition loan is fully repaid with respect to cash distributions of the value of Company common stock acquired with the proceeds of that acquisition loan. The accounts of withdrawing participant's due to retirement, total disability, or death will be distributed no later than one year after the latter of the Plan year in which the participant's termination date occurs or the close of the Plan year in which an acquisition loan is fully repaid with respect to cash distributions of the value of Company common stock acquired with the proceeds of that acquisition loan.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Under the ESOP provisions in the Plan, the Company has the right of first refusal to repurchase participant shares prior to any sale or other disposition of any shares of Company common stock by a participant, beneficiary or other distributee under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company repurchased from participants 62,002 and 48,890 shares at prices determined from the independent appraisal for the years ended December 31, 2024 and 2023, respectively.

Put Option

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to its participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years after attaining the age and service requirements, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify shall have the proceeds reinvested in a segregated account known as the ESOP Diversification Account.

Notes Receivable From Participants

A participant may borrow from their 401(k) employee contribution account up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are for a period not exceeding five years, unless the purpose of the loan is to acquire a principal residence, and bear interest at an agreed-upon percentage based on prevailing market rates. Principal and interest are paid ratably through regular payroll deductions.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to provisions of ERISA. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Plan Administrative Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund. In the event of Plan termination, participants will become 100% vested in their Company contributions.

Administrative Expenses

The Company pays for a portion of the administrative and advisory fees. The Plan pays all remaining fees not covered by the Company.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Revenue Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The net change in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Contributions Receivable And Credit Loss Policy

Amounts due for contributions are stated at the amount that management expects to collect from outstanding balances less an allowance for expected credit losses. The expected credit losses amount reflects management's best estimate of amounts that will not be collected. This assessment considers historical experience, current conditions and, when appropriate, reasonable and supportable forecasts.

The Plan has concluded that no allowance for current expected credit losses was necessary at December 31, 2024 or 2023.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Financial Information

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information certified by Charles Schwab Trust Bank (the Trustee), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that the information provided to the Plan Administrator related to the following information is complete and accurate.

Accordingly, as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets as of December 31:

	<u>2024</u>	<u>2023</u>
Mutual funds	\$ 3,650,329	\$ 3,080,841

Notes receivable from participants	38,258	13,478
Interest bearing cash	—	15,292

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

The Trustee also certified to the completeness and accuracy related to the following investment income and interest income on notes receivable from participants for the years ended December 31:

	<u>2024</u>	<u>2023</u>
Net change in fair value of investments	\$ 617,095	\$ 901,925
Dividend income	234,499	126,152
Other income	1,355	1,219
Interest income from notes receivable from participants	2,868	1,309

4. Investment In Company Common Stock

Financial information relating to the Plan's nonparticipant-directed investment in MMCI Holdings, Inc. common stock and interest bearing cash as of December 31, 2024 and 2023 has been audited by the Plan's independent auditors and is summarized below:

	<u>December 31,</u>	
	<u>2024</u>	<u>2023</u>
MMCI Holdings, Inc. Common Stock		
Number of shares	496.257	496.257
Cost	\$ 1,204,807	\$ 1,204,807
Fair Value	\$ 4,842,478	\$ 4,492,120
Interest Bearing Cash	44,330	42,306
	<u>\$ 4,886,808</u>	<u>\$ 4,534,426</u>

5. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standards are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value:

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Common/Collective Trusts

Valued at the NAV of units of a common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidation will be carried out in an orderly business manner. As of December 31, 2024 and 2023, there were no redemption restrictions or unfunded commitments on these investments. All common/collective trusts file an annual report on the Form 5500 as a direct filing entity.

MMCI Holding, Inc. Common Stock

The fair value of the Company common stock held by the Plan is valued at fair market value based upon an independent appraisal. This appraisal was based upon a combination of the market approach and discounted cash flow valuation techniques.

The valuation process involves the Trustee's selection of an independent appraiser (the Appraiser). The Appraiser will make reviews, analyses, and inquiries that are deemed necessary and appropriate to express an opinion on the fair market value of the common stock held by the Plan. Among the information obtained by the Appraiser are reviewed financial statements, forecasts and projections prepared by Plan management, and publicly available financial data for certain companies that are deemed comparable to the Company. The Appraiser prepares a written report which Plan management and the Trustee reviews in detail, discusses with the Appraiser and approves.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) Investments in common collective trusts are measured at fair value using the NAV per share (or its equivalent) as a practical expedient and therefore have not been categorized in the fair value hierarchy. The fair value amounts presented on this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 asset for the years ended December 31, 2024 and 2023:

Quantitative Information About Significant Unobservable Inputs Used In Level 3 Fair Value Measurements

The following table sets forth the basic assumptions used in arriving at fair value and the range of value for unobservable inputs as of:

December 31, 2024			
Instrument		Principal Valuation Technique	Unobservable Inputs
MMCI Holdings, Inc. common stock	\$ 4,842,478	Income Approach - Discounted Cash Flow Method	Revenue growth rate Long-term pretax operating margin Weighted average cost of capital Changes in working capital
		Market Approach - Merger & Acquisition Method	Data from the merger and acquisition transactions in industry for similar companies

6. Related Party And Parties In Interest Transactions

Certain Plan investments are common/collective trusts managed by the Trustee. In addition, certain participants have outstanding notes receivable with the Plan as of December 31, 2024 and 2023. These transactions are considered party in interest transactions allowable under ERISA.

The Plan invests in shares of the common stock of MMCI Holdings, Inc., the Plan Sponsor, as defined by the Plan and therefore, these transactions qualify as allowable related party and party in interest transactions.

MATTHEWS BOOK COMPANY
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN

Notes To Financial Statements (*Continued*)

7. Income Tax Status

The Plan obtained its latest determination letter on December 29, 2014, in which the Internal Revenue Service stated that the Plan, as designed, met the applicable requirements of the Code. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan, is qualified, and the related trust is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

At December 31, 2024, approximately 39% of the Plan's assets are invested in the Company's common stock through the ESOP accounts.
