Independent Auditor's Report

To the Plan Administrator
APTURA Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of APTURA Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of APTURA Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of APTURA Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about APTURA Employee Stock Ownership Plan's ability to continue as a going concern within one year after the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of APTURA Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about APTURA Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

APTURA EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024, and 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of APTURA Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: APTURA Group, Inc. and its affiliated participating employers (collectively, the Employer) established the Plan effective June 1, 2021, as an employee stock ownership plan (ESOP) designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the APTURA ESOP Committee, as appointed by the Employer's Board of Directors. Brian Eagle serves as the Plan's trustee.

Eligibility: Employees of the Employer are generally eligible to participate in the Plan after completing one year of service and having attained age 20. Participants generally enter the Plan on the first day of the Plan year preceding the satisfaction of the minimum service and age requirements.

Employer Contributions: The Employer may elect to make discretionary contributions in cash or whole or partial shares of Employer common stock to the Plan. Contributions are allocated to participants based on their eligible compensation during the year, subject to the maximum amount permitted under the IRC. Participants generally must be employed on the last day of the Plan year and be credited with 1,000 hours of service to receive an allocation of Employer contributions for such year.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Employer's common stock and forfeitures of terminated participants' nonvested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the sum balance for all participants, as defined in the Plan Agreement.

Voting Rights: The Trustee votes all of the Employer's common stock held by it as part of the Plan assets as directed by the Employer, provided that the participant or participant's beneficiary is entitled to direct the Trustee as to the manner in which voting rights on shares of the Employer's common stock which are allocated to the participant's account are to be exercised with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets, or such similar transaction. If the participant does not exercise their right to vote the Employer's common stock, the Trustee will vote such shares on behalf of the collective best interest of Plan participants and beneficiaries, subject to the Trustee's fiduciary duties under ERISA.

Vesting and Forfeitures: If a participant's employment with the Employer ends for any reason other than retirement, permanent disability or death, the participant will vest in the balances in their account based on total years of service with the Employer. A participant becomes vested 20% after two years of service, increasing each year thereafter by 20%, with full vesting after six years of credited service. Although participants become vested in their account balances, the timing of the payment of their benefits is subject to certain restrictions as specified below under *Benefits*.

At December 31, 2024 and 2023, there were no forfeited nonvested accounts of terminated participants, as forfeited amounts are reallocated annually. During the year ended December 31, 2024, forfeited nonvested accounts of \$34,928 were reallocated to remaining participant accounts. These accounts were reallocated to remaining participants in the same manner as Employer contributions.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Benefits: Distributions from the Plan are made in the form of a lump-sum cash payment. The timing of a participant's distribution is based on respective participant's vested account balance.

Upon termination of employment for a reason other than death, disability, or retirement, as defined by the Plan Agreement, a participant with an account balance of less than \$5,000 will automatically receive a lump-sum cash distribution equal to the value of the participant's vested interest in their account to be distributed no later than the close of the fifth Plan year following the Plan year in which the participant terminates employment. A participant with an account balance in excess of \$5,000 will receive distributions commencing no later than the close of the fifth Plan year following the Plan year in which the participant terminates employment; such distributions will be made in substantially equal installments over a period of five years, with no installment being less than \$5,000 or the participant's remaining account balance.

Distributions of accounts of participants who terminate employment due to death, disability, or retirement will commence as soon as reasonable following the last day of the Plan year in which the event occurred.

Put Option: Under federal income tax regulations, the Employer's common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Employer buy any shares of its common stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Employer could pay for the purchase with interest over a period of five years. The purpose of the put option was to ensure that the participant had the ability to ultimately obtain cash.

During the year ended December 31, 2024, the Plan distributed, and the Employer repurchased, approximately 27,691 shares from Plan participants at a price based on the current appraised value.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Employer's common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year-end based upon the shares of the Employer's common stock in the participant's account at year-end.

At December 31, 2024, account balances totaling \$4,395,529 were available for distribution for diversification. Participants who elect to diversify may receive a cash distribution or directly rollover the amount to another eligible retirement plan.

Plan Termination: The Employer reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employer's Board of Directors should direct the Trustee to pay all liabilities and expenses of the trust fund. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan Agreement and the IRC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition: The shares of the Employer's common stock are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year ended December 31, 2024.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. The Employer has historically paid the administrative expenses for the Plan.

Tax Status: The Plan is based on a pre-approved defined contribution plan document whose sponsor has received an opinion letter from the Internal Revenue Service (IRS) dated December 29, 2020, stating that the pre-approved defined contribution plan document was designed in accordance with the applicable sections of the IRC. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through October 13, 2025, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodology used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodology used at December 31, 2024 and 2023.

Common Stock of APTURA Group, Inc.: Valued at the aggregate fair value as determined annually by the Trustee based on a report from an independent valuation specialist at the December 31, 2024 and 2023 reporting dates. The independent valuation specialist utilized a weighted average approach utilizing the Discounted Cash Flow and Guideline Transaction methods to value the common stock based on the Employer’s current and historical operations and future financial projections, with a certain adjustment related to a lack of marketability.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan’s management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of these assets could result in a different fair value measurement at the reporting date.

Following is a summary, within each level of the fair value hierarchy, of the Plan’s assets that are measured at fair value on a recurring basis as of December 31, 2024 and 2023:

2024	Level 3	Total
Common stock of APTURA Group, Inc.	<u>\$38,992,889</u>	<u>\$38,992,889</u>
2023		
Common stock of APTURA Group, Inc.	<u>\$35,399,545</u>	<u>\$35,399,545</u>

Following is a summary of the changes in the fair value of the Plan’s Level 3 assets for the year ended December 31, 2024:

	Common Stock of APTURA Group, Inc.
Balance at beginning of year or period	\$35,399,545
Issuance of common stock shares	1,055,378
Unrealized appreciation in estimated fair value	4,868,418
Common stock shares redeemed	<u>(2,330,452)</u>
Balance at end of year or period	<u>\$38,992,889</u>

Quantitative fair value disclosures about significant unobservable inputs used in the fair value measurement for the Employer’s common stock have been omitted as the Plan has adopted ASU No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04*, which allows for the indefinite deferral of these disclosure requirements.

NOTE 4 - INVESTMENT IN EMPLOYER COMMON STOCK

The Plan's investment in the Employer's common stock at December 31, 2024 and 2023 were as follows:

	2024	2023
Number of shares	403,862	420,622
Cost	<u>\$26,480,964</u>	<u>\$28,079,046</u>
Fair Value	<u>\$38,992,889</u>	<u>\$35,399,545</u>

The net appreciation of the Employer's common stock was \$4,868,418 for the year ended December 31, 2024.

NOTE 5 - TERMINATED PARTICIPANTS

Included in net assets available for benefits are amounts allocated to terminated participants who have vested account balances but are not eligible for a withdrawal from the Plan until they reach retirement age, become disabled or deceased, or until the close of the fifth Plan year following the Plan year in which the participant terminated employment. Net assets available for benefits allocated to these individuals totaled \$1,536,645 at December 31, 2024.

NOTE 6 - PLAN AMENDMENT

Effective February 16, 2024, the Employer amended the Plan Agreement to recognize Tinder's, LLC as a participating employer in the Plan. Employees of Tinder's, LLC are required to complete the age and service eligibility requirements of the Plan. The amendment provides for the recognition of service with Tinder's, LLC for purposes of vesting credits but not for eligibility or contribution allocation purposes. There were no changes in the Plan's provisions.

NOTE 7 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan's assets are invested in the Employer's common stock. In addition, the Plan has arrangements with several third-party service providers. Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. The Employer has historically paid the administrative expenses for the Plan. These transactions qualify as exempt party-in-interest transactions under ERISA.

The Employer provides certain accounting and administrative services to the Plan for which it receives no compensation.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests solely in the Employer's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the Employer's common stock and to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the Employer's common stock, will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.
