Riverside Health System Retirement Income Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Riverside Health System Retirement Income Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of January 1, 2024, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplementary schedules of assets (held at end of year) and reportable transactions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

RIVERSIDE HEALTH SYSTEM RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following brief description of the Riverside Health System (RHS) Retirement Income Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Riverside Management Services, Inc. is the Plan sponsor. The Plan is a noncontributory defined benefit pension plan covering substantially all employees of participating RHS entities who have completed one year of service and are age twenty-one or older. The Plan covers employees of Riverside Management Services, Inc. and other RHS entities that have adopted the Plan as participating employers (collectively, the Company).

RHS has appointed the Compensation Committee of the Board of Directors of Riverside Healthcare Association, Inc. and certain employees to manage the operation and administration of the Plan. Principal Bank serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, participation in the Plan was frozen and no employee who was hired after this date is eligible to participate in the Plan.

Pension Benefits: Participants are generally eligible for monthly benefit payments upon attaining age 65 and the fifth anniversary of plan participation (normal retirement). The amount of the annual benefit is to be paid in monthly installments, based on the accrued benefit as of December 31, 1975, plus the sum of 2% of compensation for each year of credited service after December 31, 1975, for participants who have met the requirements for either early or normal retirement by December 31, 2006. Effective June 2006, for the participants who did not meet the requirements for either early or normal retirement by December 31, 2006, the normal retirement benefit is the accrued benefit as of December 31, 1975, plus the sum of 2% of compensation for each year of credited service between January 1, 1976, and December 31, 2006, plus the sum of 1% of compensation for each year of credited service after December 31, 2006. A participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service or where age plus vesting service equals or exceeds 75 and is at least 50 years of age. The Plan also makes provisions for delayed retirement. Under the current provisions of the Plan, a participant becomes fully vested after completion of five years of service. A vested participant who terminates employment on or after January 1, 2018, may receive a single lump sum provided it is less than \$15,000.

Participants from Shore Health Services, Inc. are eligible for monthly benefit payments upon attaining age 65 (normal retirement). The amount of the annual benefit is to be paid in monthly installments. The annual benefit based on service to normal retirement is .85% of average compensation (the average of the highest 15 consecutive complete calendar years of compensation out of the last 25 complete calendar years) for each year of service plus .65% of such compensation which is in excess of 1/6 of the Social Security Taxable Wage Base for each year of service, but not greater than 35 years. The minimum annual retirement benefit, exclusive of Social Security, shall be \$36 multiplied by years of service. Participants may elect early retirement upon attaining age 55 with at least 15 years of qualifying service or age 62 with at least 10 years of qualifying service.

RIVERSIDE HEALTH SYSTEM RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Death and Disability Benefits: Under the current provisions of the Plan, no disability benefits are provided. If a participant who is eligible for retirement or is vested dies before benefits commence, their spouse is entitled to a monthly benefit based on the assumption that the participant quits work on their date of death and elects a 50% joint and survivor option payable on the earliest possible retirement date.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates and assumptions.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustees and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events: Plan management has evaluated subsequent events through October 7, 2025, the date these financial statements were available to be issued. Plan management has determined that there were no subsequent events that required disclosure pursuant to the Financial Accounting Standards Board Accounting Standards Codification.

RIVERSIDE HEALTH SYSTEM RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2024 and 2023. Following is a description of the valuation methodologies used for assets measured at fair value.

- The money market fund is valued daily at the closing price reported on the active market on which the fund is traded.
- Common collective trusts and the pooled separate accounts are valued at the net asset value (NAV) based on the fair value of the underlying investments determined by the trustee or custodian. These investments are valued daily and there are no redemption restrictions or unfunded commitments.
- Alternative investments that are valued at NAV of the Plan's units, per audited financial statements of the investments. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the partnership account would be sold for an amount different from the reported NAV.

Note 3. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Common collective trusts	\$ -	\$ 440,039,453	\$ -	\$ 440,039,453

Money market fund	3,539,394	-	-	3,539,394
Total assets in the fair value hierarchy	\$ 3,539,394	\$ 460,373,595	\$ -	463,912,989
Investments measured at NAV (a)				66,994,285
Investments at fair value				\$ 530,907,274

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Common collective trusts	\$ -	\$ 465,647,950	\$ -	\$ 465,647,950
Alternative investments	-	23,225,736	-	23,225,736

Total assets in the fair value hierarchy	\$ 3,156,977	\$ 488,873,686	\$ -	492,030,663
Investments measured at NAV (a)				60,574,208
Investments at fair value				\$ 552,604,871

(a) In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

Note 5. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amount as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 6. Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died or become disabled; and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation during their credited service. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts are excluded from plan assets and are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, Mercer (US) Inc. (Mercer), and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions were (a) the life expectancy of participants (mortality assumptions were based on Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables in 2024 and 2023), (b) an assumed investment rate of return of 6.50% and 7.00%, respectively, before expenses for 2024 and 2023 and (c) an assumed withdrawal rate for 2024 and 2023 based on a 2022 review of actual experience. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

RIVERSIDE HEALTH SYSTEM RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Risk Transfer

Effective June 12, 2024, the Plan was amended to purchase an irrevocable annuity with respect to a subset of the Plan's in-pay status terminated participant, beneficiaries and alternative payees ("2024 Pension Risk Transfer"). 2024 Retiree Transferees are participants, beneficiary or alternate payee whose annuity starting date was on or before January 1, 2024 and whose monthly payment in effect as of January 1, 2024 was \$500 or less per month, excluding NY lives and certain period only payments expiring in 2024. The 2024 Pension Risk transfer will guarantee payment of Plan benefits for all 2024 Retire Transferees, maintain benefit payments in the same form that was in effect at the time of transfer, relieve the Plan permanently and irrevocable of any benefit obligation for the 2024 Retiree Transferees on or after October 1, 2024 and commence payment with the first monthly payment to be made on or after October 1, 2024. During 2024, the Plan paid \$42,094,244 for the purchase of the annuity contract.

Note 8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U. S. government agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC at that time.

RIVERSIDE HEALTH SYSTEM RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9. Exempt Party-In-Interest Transactions

Certain plan assets are managed by the custodians. The custodians receive fees for investment advisory services that reduce investment return reported in the financials. The Plan paid Principal Life Insurance Company \$341,360 and \$134,591 during 2024 and 2023 for administrative services, respectively. The Plan paid Mercer Investments, LLC \$951,939 and \$0 during 2024 and 2023 for investment management fees, respectively. These transactions qualify as exempt party-in-interest transactions.

Note 10. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 25, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics; all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Other economic assumptions

• Salary increases	3.00% per year
• Social Security wage base	3.00% per year – applies to former Shore participants only
• Inflation	2.50% per year
• Expected investment return	5.77% for 2022, 6.03% for 2023, 5.99% for 2024
• Expenses	\$5,149,661 added to current year normal cost

Rationale for Economic Assumptions

- **Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, adjusted for active management net of fees of 0.54%; but also adjusted for expected plan expenses, e.g. PBGC premiums, paid from the trust.
- **Salary increases** – The salary increase assumption was selected in conjunction with Riverside Health System as a best estimate of anticipated salary increases.
- **Social Security wage base assumption** – The Social Security wage base assumption is based on the inflation assumption, plus a load of 50 basis points to estimate future increases.
- **Inflation assumption** – This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their October 2023 Capital Markets Outlook with an adjustment for historical inflation increases.
- **Expenses** – Beginning with the 2024 plan year, Riverside intends to pay PBGC premiums from the plan's trust. The expense assumption is set equal to the expected premium payments during the year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Demographic assumptions**

• Withdrawal	Employee turnover rates for reasons other than death are assumed to follow 145% of the Mercer Modified SOA Basic Age Table. See table of sample rates.

Deferred participants over age 65 – Based on an analysis of historical plan data through January 1, 2022, only 70% of current deferred participants over age 65 are assumed to be located and commence benefits. Back payments to current deferred participants over age 65 are valued with interest accumulated at 6.00%.

Rationale for Demographic Assumptions

- **Withdrawal** – The withdrawal assumption was developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Retirement age** – The retirement age assumption was developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Benefit commencement age** – The benefit commencement age was set based on 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Spouse assumptions** – Spousal assumptions were developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Form of payment** – Form of Payment assumptions were developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.

*Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Actuarial Methods for Funding****Asset Methods**

The asset valuation method is an annual average of the adjusted market value for each month during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: June 1, 1962 Restated plan: January 1, 2015 Most recent amendment: First plan amendment signed 2017 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals; and new employees hired before January 1, 2012 are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None

Definitions

Covered employees	A person employed by Riverside. For Riverside Physician Services, Inc. "Employee" includes only persons employed by the Cost Centers identified under the heading "Riverside Physician Services, Inc." in Appendix B of the plan document.
Participation	Employees become participants on the first of the month coinciding with or next following later of the attainment of age 21 and the completion of one year of eligibility service. No new employee shall become a participant in the plan after January 1, 2013.
Employee contributions	None.
Vesting service	The number of plan years in which the employee works 1,000 or more hours.
Credited service	The number of plan years in which the participant works 1,000 or more hours, but excluding service before becoming a participant.
Compensation	Compensation is defined as total compensation including all compensation shown on the W-2 form.
Open window	There was an open window on August 1, 1997. To be eligible you must have been 60 years of age and met the Rule of 75 at that date. If a participant retired under the window they would have 3 years added to their age and service for calculation of benefits. Also, participants choosing to retire under the window would have postretirement medical benefits until age 65.
Accrued benefit	The accrued benefit is determined in the same manner as the normal retirement benefit using credited service to date.

Normal retirement

Eligibility	For an employee becoming a participant on or after January 1, 1988, normal retirement date is the first of the month coinciding with or next following the later of the attainment of age 65 and the fifth anniversary of plan participation. For employees who became participants prior to January 1, 1988, normal retirement date is the first of the month coinciding with or next following age 65.

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit**

The plan was amended in June 2006.

(a) The normal retirement is the accrued benefit as of December 31, 1975 plus the sum of 2% compensation for each year of credited service after December 31, 1975.

(b) Effective June 2006, the normal retirement benefit is the accrued benefit as of December 31, 1975 plus the sum of 2.00% of compensation for each year of credited service between January 1, 1976 and December 31, 2006 plus the sum of 1.00% of compensation for each year of credited service after December 31, 2006. For participants who have met requirement for either early or normal retirement by December 31, 2006, their accrued benefit calculation remains as stated in (a).

There is no reduction after meeting the Rule of 85.

Effective for employees with a plan participation date after January 1, 2007, a participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service and the early retirement factors are equal to those listed in the table in (a), but is not eligible for the Rule of 75/85 subsidies.

Schedule SB, Part V — Summary of Plan Provisions**Deferred vested**

- **Eligibility** A participant is 100% vested after completing 5 years of service.
- **Benefit** A vested participant will receive his accrued benefit payable at normal retirement date. If eligible for early retirement, a vested participant may receive his benefit under the early retirement provisions. A vested participant who terminates employment on or after January 1, 2021 may receive a single lump sum provided it is less than \$15,000 on an Actuarial Equivalence basis.

Late retirement

- **Eligibility** The Delayed Retirement Date is the first of the month coinciding with or next following termination after Normal Retirement Date.
- **Benefit** The delayed retirement benefit is the greater of the benefit determined in the same manner as the normal retirement benefit using credited service to actual retirement date and the benefit as of the normal retirement date increased by the appropriate late retirement adjustment factor.

Disability

- **Eligibility** Not applicable currently. Prior to January 1, 1995, a person who is receiving disability benefits from any Employer funded non-governmental program may retire on their early or normal retirement.
- **Benefit** None provided.

Pre-retirement death

- **Eligibility** If a participant who is eligible for retirement or is vested dies before benefits commence, his spouse is entitled to a monthly benefit.
- **Benefit** If a participant is married at the time of death, the benefit is determined as if the participant quits work on his date of death and elects a 50% joint & survivor option payable on the earliest possible retirement date.

Form of benefits

- **Automatic form for unmarried participants** Life annuity.
- **Automatic form for married participants** 50% joint and survivor.
- **Optional forms** Life annuity, joint and survivor option, ten year certain and continuous, Social Security leveling and lump sum are available.

Summary of major plan provisions – Former Shore Health Services, Inc. Pension Plan

Effective date and plan year	Original plan: January 1, 1974 Most recent amendment: August 1, 2012 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals for current active participants. Employees hired on or after January 1, 2006 are not eligible to participate in the plan. The plan was merged into Riverside Health System Retirement Income Plan effective December 31, 2010. For participants who are employees of Shore Life Care, Inc., benefit accruals are frozen effective December 31, 2013. Shore Life Care, Inc. shall no longer participate as an Employer in the Plan effective January 1, 2014.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Employees hired on or after January 1, 2006 are not eligible to participate in the plan. Employees who terminate and are reemployed after March 1, 2006 are not eligible to accrue additional benefits under the plan. Flexi-pool division employees are not eligible to participate.
• Participation	All employees of the Employer who work 1,000 hours a year or more are eligible to participate in the Plan on the earlier of (1) the January 1 following the completion of one year of service, or (2) the date six months after the completion of one year of service, with the exception of those not covered by the plan. Shore Life Care, Inc. shall no longer participate as an Employer in the Plan effective January 1, 2014.
• Employee contributions	None.

Schedule SB, Part V — Summary of Plan Provisions

• Service	Service shall equal total years of service with the Employer. A year of service is credited for each plan year in which an employee works 1,000 hours. If on or after March, 1 2006 a participant terminates and is reemployed no further benefits shall accrue. However, years of service for vesting purposes shall be credited. A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the Employer in such year. Service will not be interrupted by: (a) A leave of absence not in excess of one year granted by the employer. (b) A period of service in the Armed Forces of the United States under which employment rights are granted. (c) A period of disability during which the participant is being paid directly or indirectly by the employer. An employee will be given credit for his pre-break service if any of the following occurs: (a) The employee had a vested interest in his accrued benefit at the time of his break in service, or (b) The employee's number of years of breaks in service is less than the greater of five (one, prior to January 1, 1985) or his aggregate number of years of service before such breaks. (c) Former member or member has to complete a year of service after the break in service. An employee of Shore Life Care, Inc. shall not earn service for any period commencing after December 31, 2013.
• Pensionable earnings	Compensation shall mean W-2 compensation plus amounts deferred under tax-sheltered annuities and Section 125 plans. Compensation does not include expense allowances, fringe benefits, moving expenses, any welfare benefits or deferred compensation. For an employee of Shore Life Care, Inc. compensation paid after December 31, 2013 shall not be taken into account.
• Average Compensation	Average compensation is the average of the highest 15 consecutive complete calendar years of compensation out of the last 25 complete calendar years.
• Accrued benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the product of (a) and (b) where: (a) Is a fraction, the numerator of which is the years of service at the benefit accrual date and the denominator of which is the years of service expected at normal retirement date, and (b) Is the normal retirement benefit. For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement

- **Eligibility**

Normal retirement date is the first day of the month coincident with or next following attainment of age 65 or the 5th anniversary of participation in the plan, if later. The earliest normal retirement date is December 31, 1974.
- **Benefit**

The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is:

 - (a) .85% of average compensation for each year of service, plus
 - (b) .65% of such compensation, which is in excess of 1/6 of the Social Security Taxable Wage Base for each year of service, but not greater than 35 years.

The minimum annual retirement benefit (exclusive of Social Security) shall be \$36 multiplied by years of service.

The plan provisions in effect on December 31, 1999 will remain in effect and be used to calculate a prior plan minimum benefit until December 31, 2004 for all employees that were plan participants on January 1, 2000. On December 31, 2004, that benefit became a frozen minimum benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Early retirement

- **Eligibility**

Upon the completion of 15 years of service and the attainment of age 55, or upon the completion of 10 years of service and the attainment of age 62, a participant may elect to retire.
-

Schedule SB, Part V — Summary of Plan Provisions

- Benefit The participant may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being multiplied by the appropriate factor from the table below:

Early Retirement Reduction Factors	
Age	Percentage of Accrued Benefit Payable
65	100.00%
64	92.3%
63	84.6%
62	76.9%
61	73.1%
60	69.2%
59	65.4%
58	61.5%
57	57.7%
56	52.9%
55	48.6%

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Delayed retirement

- Eligibility A participant may continue in employment of the Employer after his normal retirement date.
- Benefit The participant will receive at actual retirement the benefit provided under the normal retirement benefit formula based on continued accrual of service and compensation as of the late retirement date. In no event shall this benefit be less than the actuarial equivalent of the participant's normal retirement benefit.
For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Deferred vested

- Eligibility Termination of employment after 5 or more years of service results in 100% vesting in the accrued benefit to be paid at the participant's normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit**

The participant will receive the accrued benefit at his normal retirement date, or may elect to receive a reduced benefit at age 62 if he has at least 10 years of service or at age 55 if he had at least 15 years of service at date of termination. See the description of the early retirement benefit.

If the actuarial equivalent of the benefit is less than \$1,000, it shall be paid in an immediate lump sum. If the actuarial equivalent of the benefit is more than \$1,000 but less than or equal to \$5,000, it may be paid as a lump sum if the participant consents.

If the actuarial equivalent of a participant's vested accrued benefit is \$0, the participant shall be deemed to have received a distribution of such vested accrued benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Disability

-
- **Eligibility**

A participant who becomes totally and permanently disabled after completion of 10 years of service may retire.
-
- **Benefit**

The participant will receive a disability retirement benefit calculated as his accrued benefit on date of disability. In the case of a single participant, the benefit is payable for life only and in the case of a married participant, the benefit is payable as a joint and one-half survivor annuity. The disability benefit is payable only to age 65 or until his recovery. At age 65, the participant may elect to receive his accrued benefit in an option form of payment.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Death benefit

-
- **Eligibility**

A participant is eligible for a death benefit if he has 5 or more years of vesting service.
-
- **Benefit prior to early or normal retirement**

If a married vested participant dies prior to becoming eligible for early or normal retirement, his surviving spouse shall receive a benefit, payable when the participant would have been eligible for retirement, based on a joint and one-half survivor benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit after early or normal retirement**

In the event of a married participant's death after having become eligible for early or normal retirement, the participant's surviving spouse shall be entitled to receive a benefit computed as if the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

If an unmarried participant dies after becoming eligible for normal retirement or after the attainment of age 62 and the completion of 10 years of service, it will be assumed the participant had retired on the first of the month in which he died and had elected a 10-year certain and life benefit. Married participants may also elect this form of benefit if they have met the requirements of the preceding sentence.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

 - **Option forms**

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option (a) below. The options are:

(a) A reduced benefit to be paid during the participant's lifetime with one-half the reduced benefit to be continued to his spouse for her lifetime after his death.

(b) A reduced benefit to be paid during the participant's lifetime with the same or 75% of the reduced benefit to be continued to his spouse for her lifetime after his death.

(c) A reduced benefit to be paid for 120 months certain and thereafter for life.

(d) A lump sum settlement shall be paid if the value does not exceed \$1,000. Lump sum settlements from \$1,000 to \$5,000 may be paid with the participant's consent.

 - **Option form conversion factors**

All optional methods of settlement, other than a lump sum settlement, for nondisabled participants are actuarially equivalent to the normal form of annuity on a unisex basis based on the UP-1984 Mortality Table adjusted for an 80% female content in the participant group and 7.5% interest. Lump sum payments will be based on the average annual interest rate on 30-year Treasury Securities for the second month (November) before the first day of the current plan year and the 1994 Group Annuity Reserving Table. Optional methods of settlement for disabled participants are based upon the female disabled mortality rates published by the Pension Benefit Guaranty Corporation.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2015 and amended through Amendment #1, are included in this valuation:

- **Most recent plan amendments included:** Amendment #1
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The actuarially increased normal retirement benefit is valued as a minimum benefit for any participant over normal retirement age.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued using the monthly retirement benefit payable at normal retirement age.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions Specific to Funding****Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Active participants who did not benefit under the plan in 2023 (e.g. 13 transfers) were excluded. Average pay is not shown for cells with fewer than 20 participants.

Schedule SB, line 24 — Change in Actuarial Assumptions

- The expense assumption was updated from \$5,1713,972 to \$5,149,661.

Schedule SB, line 32 — Schedule of Amortization Bases

Shortfall amortization Charge

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Other economic assumptions

• Salary increases	3.00% per year
• Social Security wage base	3.00% per year – applies to former Shore participants only
• Inflation	2.50% per year
• Expected investment return	5.77% for 2022, 6.03% for 2023, 5.99% for 2024
• Expenses	\$5,149,661 added to current year normal cost

Rationale for Economic Assumptions

- **Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, adjusted for active management net of fees of 0.54%; but also adjusted for expected plan expenses, e.g. PBGC premiums, paid from the trust.
- **Salary increases** – The salary increase assumption was selected in conjunction with Riverside Health System as a best estimate of anticipated salary increases.
- **Social Security wage base assumption** – The Social Security wage base assumption is based on the inflation assumption, plus a load of 50 basis points to estimate future increases.
- **Inflation assumption** – This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their October 2023 Capital Markets Outlook with an adjustment for historical inflation increases.
- **Expenses** – Beginning with the 2024 plan year, Riverside intends to pay PBGC premiums from the plan's trust. The expense assumption is set equal to the expected premium payments during the year.

Deferred participants over age 65 – Based on an analysis of historical plan data through January 1, 2022, only 70% of current deferred participants over age 65 are assumed to be located and commence benefits. Back payments to current deferred participants over age 65 are valued with interest accumulated at 6.00%.

Rationale for Demographic Assumptions

- **Withdrawal** – The withdrawal assumption was developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Retirement age** – The retirement age assumption was developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Benefit commencement age** – The benefit commencement age was set based on 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Spouse assumptions** – Spousal assumptions were developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Form of payment** – Form of Payment assumptions were developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.

*Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Actuarial Methods for Funding****Asset Methods**

The asset valuation method is an annual average of the adjusted market value for each month during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Effective date and plan year	Original plan: June 1, 1962 Restated plan: January 1, 2015 Most recent amendment: First plan amendment signed 2017 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals; and new employees hired before January 1, 2012 are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None

Definitions

• Covered employees	A person employed by Riverside. For Riverside Physician Services, Inc. "Employee" includes only persons employed by the Cost Centers identified under the heading "Riverside Physician Services, Inc." in Appendix B of the plan document.
• Participation	Employees become participants on the first of the month coinciding with or next following later of the attainment of age 21 and the completion of one year of eligibility service. No new employee shall become a participant in the plan after January 1, 2013.
• Employee contributions	None.
• Vesting service	The number of plan years in which the employee works 1,000 or more hours.
• Credited service	The number of plan years in which the participant works 1,000 or more hours, but excluding service before becoming a participant.
• Compensation	Compensation is defined as total compensation including all compensation shown on the W-2 form.
• Open window	There was an open window on August 1, 1997. To be eligible you must have been 60 years of age and met the Rule of 75 at that date. If a participant retired under the window they would have 3 years added to their age and service for calculation of benefits. Also, participants choosing to retire under the window would have postretirement medical benefits until age 65.
• Accrued benefit	The accrued benefit is determined in the same manner as the normal retirement benefit using credited service to date.

Normal retirement

• Eligibility	For an employee becoming a participant on or after January 1, 1988, normal retirement date is the first of the month coinciding with or next following the later of the attainment of age 65 and the fifth anniversary of plan participation. For employees who became participants prior to January 1, 1988, normal retirement date is the first of the month coinciding with or next following age 65.

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit**

The plan was amended in June 2006.

(a) The normal retirement is the accrued benefit as of December 31, 1975 plus the sum of 2% compensation for each year of credited service after December 31, 1975.

(b) Effective June 2006, the normal retirement benefit is the accrued benefit as of December 31, 1975 plus the sum of 2.00% of compensation for each year of credited service between January 1, 1976 and December 31, 2006 plus the sum of 1.00% of compensation for each year of credited service after December 31, 2006. For participants who have met requirement for either early or normal retirement by December 31, 2006, their accrued benefit calculation remains as stated in (a).
-

Early retirement

- **Eligibility**

A participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service or where age plus vesting service equals or exceeds 75 and a participant is at least 50 years of age.

There is no reduction after meeting the Rule of 85.

Effective for employees with a plan participation date after January 1, 2007, a participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service and the early retirement factors are equal to those listed in the table in (a), but is not eligible for the Rule of 75/85 subsidies.

Schedule SB, Part V — Summary of Plan Provisions**Deferred vested**

- **Eligibility** A participant is 100% vested after completing 5 years of service.
- **Benefit** A vested participant will receive his accrued benefit payable at normal retirement date. If eligible for early retirement, a vested participant may receive his benefit under the early retirement provisions. A vested participant who terminates employment on or after January 1, 2021 may receive a single lump sum provided it is less than \$15,000 on an Actuarial Equivalence basis.

Late retirement

- **Eligibility** The Delayed Retirement Date is the first of the month coinciding with or next following termination after Normal Retirement Date.
- **Benefit** The delayed retirement benefit is the greater of the benefit determined in the same manner as the normal retirement benefit using credited service to actual retirement date and the benefit as of the normal retirement date increased by the appropriate late retirement adjustment factor.

Disability

- **Eligibility** Not applicable currently. Prior to January 1, 1995, a person who is receiving disability benefits from any Employer funded non-governmental program may retire on their early or normal retirement.
- **Benefit** None provided.

Pre-retirement death

- **Eligibility** If a participant who is eligible for retirement or is vested dies before benefits commence, his spouse is entitled to a monthly benefit.
- **Benefit** If a participant is married at the time of death, the benefit is determined as if the participant quits work on his date of death and elects a 50% joint & survivor option payable on the earliest possible retirement date.

Form of benefits

- **Automatic form for unmarried participants** Life annuity.
- **Automatic form for married participants** 50% joint and survivor.
- **Optional forms** Life annuity, joint and survivor option, ten year certain and continuous, Social Security leveling and lump sum are available.

Summary of major plan provisions – Former Shore Health Services, Inc. Pension Plan

Effective date and plan year	Original plan: January 1, 1974 Most recent amendment: August 1, 2012 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals for current active participants. Employees hired on or after January 1, 2006 are not eligible to participate in the plan. The plan was merged into Riverside Health System Retirement Income Plan effective December 31, 2010. For participants who are employees of Shore Life Care, Inc., benefit accruals are frozen effective December 31, 2013. Shore Life Care, Inc. shall no longer participate as an Employer in the Plan effective January 1, 2014.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Employees hired on or after January 1, 2006 are not eligible to participate in the plan. Employees who terminate and are reemployed after March 1, 2006 are not eligible to accrue additional benefits under the plan. Flexi-pool division employees are not eligible to participate.
• Participation	All employees of the Employer who work 1,000 hours a year or more are eligible to participate in the Plan on the earlier of (1) the January 1 following the completion of one year of service, or (2) the date six months after the completion of one year of service, with the exception of those not covered by the plan. Shore Life Care, Inc. shall no longer participate as an Employer in the Plan effective January 1, 2014.
• Employee contributions	None.

Schedule SB, Part V — Summary of Plan Provisions

• Service	Service shall equal total years of service with the Employer. A year of service is credited for each plan year in which an employee works 1,000 hours. If on or after March, 1 2006 a participant terminates and is reemployed no further benefits shall accrue. However, years of service for vesting purposes shall be credited. A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the Employer in such year. Service will not be interrupted by: (a) A leave of absence not in excess of one year granted by the employer. (b) A period of service in the Armed Forces of the United States under which employment rights are granted. (c) A period of disability during which the participant is being paid directly or indirectly by the employer. An employee will be given credit for his pre-break service if any of the following occurs: (a) The employee had a vested interest in his accrued benefit at the time of his break in service, or (b) The employee's number of years of breaks in service is less than the greater of five (one, prior to January 1, 1985) or his aggregate number of years of service before such breaks. (c) Former member or member has to complete a year of service after the break in service. An employee of Shore Life Care, Inc. shall not earn service for any period commencing after December 31, 2013.
• Pensionable earnings	Compensation shall mean W-2 compensation plus amounts deferred under tax-sheltered annuities and Section 125 plans. Compensation does not include expense allowances, fringe benefits, moving expenses, any welfare benefits or deferred compensation. For an employee of Shore Life Care, Inc. compensation paid after December 31, 2013 shall not be taken into account.
• Average Compensation	Average compensation is the average of the highest 15 consecutive complete calendar years of compensation out of the last 25 complete calendar years.
• Accrued benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the product of (a) and (b) where: (a) Is a fraction, the numerator of which is the years of service at the benefit accrual date and the denominator of which is the years of service expected at normal retirement date, and (b) Is the normal retirement benefit. For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

-

Schedule SB, Part V — Summary of Plan Provisions

- Benefit The participant may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being multiplied by the appropriate factor from the table below:

Early Retirement Reduction Factors	
Age	Percentage of Accrued Benefit Payable
65	100.00%
64	92.3%
63	84.6%
62	76.9%
61	73.1%
60	69.2%
59	65.4%
58	61.5%
57	57.7%
56	52.9%
55	48.6%

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Delayed retirement

- Eligibility A participant may continue in employment of the Employer after his normal retirement date.
- Benefit The participant will receive at actual retirement the benefit provided under the normal retirement benefit formula based on continued accrual of service and compensation as of the late retirement date. In no event shall this benefit be less than the actuarial equivalent of the participant's normal retirement benefit.
For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Deferred vested

- Eligibility Termination of employment after 5 or more years of service results in 100% vesting in the accrued benefit to be paid at the participant's normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit**

The participant will receive the accrued benefit at his normal retirement date, or may elect to receive a reduced benefit at age 62 if he has at least 10 years of service or at age 55 if he had at least 15 years of service at date of termination. See the description of the early retirement benefit.

If the actuarial equivalent of the benefit is less than \$1,000, it shall be paid in an immediate lump sum. If the actuarial equivalent of the benefit is more than \$1,000 but less than or equal to \$5,000, it may be paid as a lump sum if the participant consents.

If the actuarial equivalent of a participant's vested accrued benefit is \$0, the participant shall be deemed to have received a distribution of such vested accrued benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Disability

-
- **Eligibility**

A participant who becomes totally and permanently disabled after completion of 10 years of service may retire.
-
- **Benefit**

The participant will receive a disability retirement benefit calculated as his accrued benefit on date of disability. In the case of a single participant, the benefit is payable for life only and in the case of a married participant, the benefit is payable as a joint and one-half survivor annuity. The disability benefit is payable only to age 65 or until his recovery. At age 65, the participant may elect to receive his accrued benefit in an option form of payment.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Death benefit

-
- **Eligibility**

A participant is eligible for a death benefit if he has 5 or more years of vesting service.
-
- **Benefit prior to early or normal retirement**

If a married vested participant dies prior to becoming eligible for early or normal retirement, his surviving spouse shall receive a benefit, payable when the participant would have been eligible for retirement, based on a joint and one-half survivor benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit after early or normal retirement**

In the event of a married participant's death after having become eligible for early or normal retirement, the participant's surviving spouse shall be entitled to receive a benefit computed as if the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

If an unmarried participant dies after becoming eligible for normal retirement or after the attainment of age 62 and the completion of 10 years of service, it will be assumed the participant had retired on the first of the month in which he died and had elected a 10-year certain and life benefit. Married participants may also elect this form of benefit if they have met the requirements of the preceding sentence.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-
- **Option forms**

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option (a) below. The options are:

(a) A reduced benefit to be paid during the participant's lifetime with one-half the reduced benefit to be continued to his spouse for her lifetime after his death.

(b) A reduced benefit to be paid during the participant's lifetime with the same or 75% of the reduced benefit to be continued to his spouse for her lifetime after his death.

(c) A reduced benefit to be paid for 120 months certain and thereafter for life.

(d) A lump sum settlement shall be paid if the value does not exceed \$1,000. Lump sum settlements from \$1,000 to \$5,000 may be paid with the participant's consent.
-
- **Option form conversion factors**

All optional methods of settlement, other than a lump sum settlement, for nondisabled participants are actuarially equivalent to the normal form of annuity on a unisex basis based on the UP-1984 Mortality Table adjusted for an 80% female content in the participant group and 7.5% interest. Lump sum payments will be based on the average annual interest rate on 30-year Treasury Securities for the second month (November) before the first day of the current plan year and the 1994 Group Annuity Reserving Table. Optional methods of settlement for disabled participants are based upon the female disabled mortality rates published by the Pension Benefit Guaranty Corporation.

Miscellaneous

- | | |
|------------------------|--|
| • Maximum compensation | Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000. |
| • Maximum benefits | Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000. |

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2015 and amended through Amendment #1, are included in this valuation:

- **Most recent plan amendments included:** Amendment #1
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The actuarially increased normal retirement benefit is valued as a minimum benefit for any participant over normal retirement age.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued using the monthly retirement benefit payable at normal retirement age.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions Specific to Funding****Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Subject: 2024 Form 5500 Schedule SB for the Riverside Health System Retirement Income Plan

Dear Jaime:

Enclosed is an electronic copy of the 2024 Schedule SB (Form 5500) with attachments for the Riverside Health System Retirement Income Plan that includes my full signature. It should be retained in your records along with the final signed Form 5500.

As you know, Form 5500 and all attachments must be electronically filed by October 15, 2025.

To submit your Form 5500 to the Department of Labor (DOL), each Filing Signer must register for an IREG UserID and PIN on the DOL website (www.efast.dol.gov); when registering, User type of Filing Signer must be selected.

We have also provided the electronic files needed to incorporate the Schedule SB into your electronic filing. You'll notice the PDF attachment of the Schedule SB includes only my initials, rather than my full signature. This is acceptable under the IRS rules and is a Mercer standard practice to prevent identity theft.

To incorporate the Schedule SB into your filing in-progress, your Filing Author must complete the two steps outlined below.

- Import the Schedule SB: Open your filing in-progress in IFILE and under "Available Schedules," highlight Schedule SB and select *Import* to import the provided XML file. This will add the Schedule SB results to your actual filing.
- Add Attachments: Select *Add Attachments* and import the attachment files provided. In the table below, we have listed the *Attachment Type* names from IFILE and the first portion of the name of the corresponding attachment file provided. The actual file names also include your EIN and the PN to help ensure the attachments are attached to the correct filing.

There are several areas where information included in the Schedule SB must correspond with entries on the remainder of your Form 5500 filing. We ask that you confirm in particular the following:

- Please ensure that each Schedule and attachment reflects the identical plan name, EIN (Employer Identification Number), and PN (Plan Number)
- Mark Item 4 of Form 5500 Schedule R "No"
- Mark Item 8 of Form 5500 Schedule R "N/A"

As the enrolled actuary signing Schedule SB, Section 103(d)(10) of ERISA requires that I disclose any event which was not taken into account in the actuarial valuation and which would be expected to produce a material increase in plan costs. I prepared the enclosed Schedule SB assuming there were no such events. If you know of such an event (plan amendment, significant increase in participation, etc.), please call me to discuss it and, if necessary, I will prepare a revised Schedule SB commenting on that fact.

Plan sponsors must post basic plan information and Schedule SB on any intranet websites they maintain to communicate exclusively with employees, in accordance with regulations to be issued by the DOL. In addition, the DOL will post this information on its website within 90 days after Form 5500 is filed. While the timing related to the employee intranet posting remains unclear, we recommend doing so within the same 90-day period, pending further guidance from the DOL or your outside counsel. Accordingly, please be sure to post this actuarial information within that 90-day period. If you do not maintain an intranet for employee communications, no internal posting is required.

We would appreciate receiving a copy of your entire signed Form 5500 filing package, including the auditor report, for our records.

Please note that Mercer is not a law firm and cannot provide legal advice. The information contained in this letter represents only our general understanding of the filing and posting requirements for Form 5500; we strongly recommend that you confirm the exact requirements that apply to your situation with your ERISA counsel before making any final decisions.

If you have any questions, please don't hesitate to call me at 804 344 3787.

Sincerely,

Michael T. Whalen, FSA, EA

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Other economic assumptions

- Salary increases 3.00% per year
- Social Security wage base 3.00% per year – applies to former Shore participants only
- Inflation 2.50% per year
- Expected investment return 5.77% for 2022, 6.03% for 2023, 5.99% for 2024
- Expenses \$5,149,661 added to current year normal cost

Rationale for Economic Assumptions

- **Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, adjusted for active management net of fees of 0.54%; but also adjusted for expected plan expenses, e.g. PBGC premiums, paid from the trust.
- **Salary increases** – The salary increase assumption was selected in conjunction with Riverside Health System as a best estimate of anticipated salary increases.
- **Social Security wage base assumption** – The Social Security wage base assumption is based on the inflation assumption, plus a load of 50 basis points to estimate future increases.
- **Inflation assumption** – This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their October 2023 Capital Markets Outlook with an adjustment for historical inflation increases.
- **Expenses** – Beginning with the 2024 plan year, Riverside intends to pay PBGC premiums from the plan's trust. The expense assumption is set equal to the expected premium payments during the year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Demographic assumptions**

• Withdrawal	Employee turnover rates for reasons other than death are assumed to follow 145% of the Mercer Modified SOA Basic Age Table. See table of sample rates.

Unpredictable contingent event assumptions	Not applicable.	

Deferred participants over age 65 – Based on an analysis of historical plan data through January 1, 2022, only 70% of current deferred participants over age 65 are assumed to be located and commence benefits. Back payments to current deferred participants over age 65 are valued with interest accumulated at 6.00%.

Rationale for Demographic Assumptions

- **Withdrawal** – The withdrawal assumption was developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Retirement age** – The retirement age assumption was developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Benefit commencement age** – The benefit commencement age was set based on 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Spouse assumptions** – Spousal assumptions were developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.
- **Form of payment** – Form of Payment assumptions were developed based on a 2022 review of plan experience. The plan sponsor expects that future experience will follow the study results, and plan experience is reviewed annually to confirm that it remains reasonable.

*Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Actuarial Methods for Funding****Asset Methods**

The asset valuation method is an annual average of the adjusted market value for each month during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: June 1, 1962 Restated plan: January 1, 2015 Most recent amendment: First plan amendment signed 2017 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals; and new employees hired before January 1, 2012 are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None

Definitions

• Covered employees	A person employed by Riverside. For Riverside Physician Services, Inc. "Employee" includes only persons employed by the Cost Centers identified under the heading "Riverside Physician Services, Inc." in Appendix B of the plan document.
• Participation	Employees become participants on the first of the month coinciding with or next following later of the attainment of age 21 and the completion of one year of eligibility service. No new employee shall become a participant in the plan after January 1, 2013.
• Employee contributions	None.
• Vesting service	The number of plan years in which the employee works 1,000 or more hours.
• Credited service	The number of plan years in which the participant works 1,000 or more hours, but excluding service before becoming a participant.
• Compensation	Compensation is defined as total compensation including all compensation shown on the W-2 form.
• Open window	There was an open window on August 1, 1997. To be eligible you must have been 60 years of age and met the Rule of 75 at that date. If a participant retired under the window they would have 3 years added to their age and service for calculation of benefits. Also, participants choosing to retire under the window would have postretirement medical benefits until age 65.
• Accrued benefit	The accrued benefit is determined in the same manner as the normal retirement benefit using credited service to date.

Normal retirement

• Eligibility	For an employee becoming a participant on or after January 1, 1988, normal retirement date is the first of the month coinciding with or next following the later of the attainment of age 65 and the fifth anniversary of plan participation. For employees who became participants prior to January 1, 1988, normal retirement date is the first of the month coinciding with or next following age 65.
---------------	--

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit**

The plan was amended in June 2006.

(a) The normal retirement is the accrued benefit as of December 31, 1975 plus the sum of 2% compensation for each year of credited service after December 31, 1975.

(b) Effective June 2006, the normal retirement benefit is the accrued benefit as of December 31, 1975 plus the sum of 2.00% of compensation for each year of credited service between January 1, 1976 and December 31, 2006 plus the sum of 1.00% of compensation for each year of credited service after December 31, 2006. For participants who have met requirement for either early or normal retirement by December 31, 2006, their accrued benefit calculation remains as stated in (a).
-

Early retirement

- **Eligibility**

A participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service or where age plus vesting service equals or exceeds 75 and a participant is at least 50 years of age.

There is no reduction after meeting the Rule of 85.

Effective for employees with a plan participation date after January 1, 2007, a participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service and the early retirement factors are equal to those listed in the table in (a), but is not eligible for the Rule of 75/85 subsidies.

Schedule SB, Part V — Summary of Plan Provisions**Deferred vested**

- **Eligibility** A participant is 100% vested after completing 5 years of service.
- **Benefit** A vested participant will receive his accrued benefit payable at normal retirement date. If eligible for early retirement, a vested participant may receive his benefit under the early retirement provisions. A vested participant who terminates employment on or after January 1, 2021 may receive a single lump sum provided it is less than \$15,000 on an Actuarial Equivalence basis.

Late retirement

- **Eligibility** The Delayed Retirement Date is the first of the month coinciding with or next following termination after Normal Retirement Date.
- **Benefit** The delayed retirement benefit is the greater of the benefit determined in the same manner as the normal retirement benefit using credited service to actual retirement date and the benefit as of the normal retirement date increased by the appropriate late retirement adjustment factor.

Disability

- **Eligibility** Not applicable currently. Prior to January 1, 1995, a person who is receiving disability benefits from any Employer funded non-governmental program may retire on their early or normal retirement.
- **Benefit** None provided.

Pre-retirement death

- **Eligibility** If a participant who is eligible for retirement or is vested dies before benefits commence, his spouse is entitled to a monthly benefit.
- **Benefit** If a participant is married at the time of death, the benefit is determined as if the participant quits work on his date of death and elects a 50% joint & survivor option payable on the earliest possible retirement date.

Form of benefits

- **Automatic form for unmarried participants** Life annuity.
- **Automatic form for married participants** 50% joint and survivor.
- **Optional forms** Life annuity, joint and survivor option, ten year certain and continuous, Social Security leveling and lump sum are available.

Schedule SB, Part V — Summary of Plan Provisions

Optional form conversion factors	1971 Group Annuity Mortality Table for male lives, with ages set back 5 years and ages for spouses and contingent pensioners set back 1 year at the interest rate of 6%. Effective December 31, 2007, the lump sum option is determined by the mortality prescribed by Revenue Ruling 2007-67 beginning with the 2008 plan year. The interest rate is prescribed by the Pension Protection Act for the month of December preceding year of distribution.
Miscellaneous	
Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.
Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Summary of Major Plan Provisions – Former Hampton Roads Specialty Hospital Income Plan

Effective date and plan year	Original plan: June 1, 2006 Most recent amendment: August 1, 2012 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals; however, participation in the plan is frozen as of January 1, 2013. The plan was merged into the Riverside Health System Retirement Income Plan effective December 31, 2010.

| • Vesting service | Vesting purposes service is the number of plan years in which the employee works 1,000 or more hours. Years of vesting service will also be credited based on a participant's service with Riverside Health System. |
| • Credited service | The number of plan years in which the participant works 1,000 or more hours, but excluding service before becoming a participant. |
| • Compensation | Compensation is defined as total compensation including all compensation shown on the W-2 form. |
| • Accrued benefit | The accrued benefit is determined in the same manner as the normal retirement benefit using compensation and credited service to date. |

Normal retirement

- | | |
|---------------|---|
| • Eligibility | Normal retirement date is the first of the month coinciding with or next following the later of the attainment of age 65 and the fifth anniversary of plan participation. |
| • Benefit | The normal retirement benefit is the sum of 2.00% of compensation for participants in the plan during the 2006 plan year <u>and</u> the sum of 1.25% of compensation for each year of credited service after December 31, 2006. |

Early retirement

- | | |
|---------------|---|
| • Eligibility | A participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service or where age plus vesting service equals or exceeds 75 and a participant is at least 50 years of age. |

- Benefit

There is no reduction after meeting the Rule of 85.

Effective for employees with a plan participation date after January 1, 2007, a participant is eligible for early retirement on the first of any month following the attainment of age 55 and the completion of 10 years of vesting service and the early retirement factors are equal to those listed in the table in (a), but is not eligible for the Rule of 75/85 subsidies.

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	A participant is 100% vested after completing five years of vesting service; or upon attainment of normal retirement age.
• Benefit	A vested participant will receive his accrued benefit payable at his normal retirement date.
Late retirement	
• Eligibility	The Delayed Retirement Date is the first of the month coinciding with or next following termination after Normal Retirement Date.
• Benefit	The delayed retirement benefit is the greater of the benefit determined in the same manner as the normal retirement benefit using credited service to actual retirement date and the benefit as of the normal retirement date increased by the appropriate late retirement adjustment factor.
Disability	
• Eligibility	Not applicable currently.
• Benefit	None provided.
Pre-retirement death	
• Eligibility	If a participant who is eligible for retirement or is vested dies before benefits commence, his spouse is entitled to a monthly benefit.
• Benefit	If a participant is married at the time of death, the benefit is determined as if the participant quits work on his date of death and elects a 50% joint & survivor option payable on the earliest possible retirement date.
Form of benefits	
• Automatic form for unmarried participants	Life annuity.
• Automatic form for married participants	50% joint and survivor.
• Optional forms	Life annuity, joint and survivor option, ten year certain and continuous, Social Security leveling and lump sum are available.
• Optional form conversion factors	1971 Group Annuity Mortality Table for male lives, with ages set back 5 years and ages for spouses and contingent pensioners set back 1 year at the interest rate of 6%. Effective December 31, 2007, the lump sum option is determined by the mortality prescribed by Revenue Ruling 2007-67 beginning with the 2008 plan year. The interest rate is prescribed by the Pension Protection Act for the month of December preceding year of distribution.

Summary of major plan provisions – Former Shore Health Services, Inc. Pension Plan

Effective date and plan year	Original plan: January 1, 1974 Most recent amendment: August 1, 2012 Plan year: January 1 – December 31
Status of the plan	The plan has ongoing benefit accruals for current active participants. Employees hired on or after January 1, 2006 are not eligible to participate in the plan. The plan was merged into Riverside Health System Retirement Income Plan effective December 31, 2010. For participants who are employees of Shore Life Care, Inc., benefit accruals are frozen effective December 31, 2013. Shore Life Care, Inc. shall no longer participate as an Employer in the Plan effective January 1, 2014.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Employees hired on or after January 1, 2006 are not eligible to participate in the plan. Employees who terminate and are reemployed after March 1, 2006 are not eligible to accrue additional benefits under the plan. Flexi-pool division employees are not eligible to participate.
• Participation	All employees of the Employer who work 1,000 hours a year or more are eligible to participate in the Plan on the earlier of (1) the January 1 following the completion of one year of service, or (2) the date six months after the completion of one year of service, with the exception of those not covered by the plan. Shore Life Care, Inc. shall no longer participate as an Employer in the Plan effective January 1, 2014.
• Employee contributions	None.

Schedule SB, Part V — Summary of Plan Provisions

• Service	Service shall equal total years of service with the Employer. A year of service is credited for each plan year in which an employee works 1,000 hours. If on or after March, 1 2006 a participant terminates and is reemployed no further benefits shall accrue. However, years of service for vesting purposes shall be credited. A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the Employer in such year. Service will not be interrupted by: (a) A leave of absence not in excess of one year granted by the employer. (b) A period of service in the Armed Forces of the United States under which employment rights are granted. (c) A period of disability during which the participant is being paid directly or indirectly by the employer. An employee will be given credit for his pre-break service if any of the following occurs: (a) The employee had a vested interest in his accrued benefit at the time of his break in service, or (b) The employee's number of years of breaks in service is less than the greater of five (one, prior to January 1, 1985) or his aggregate number of years of service before such breaks. (c) Former member or member has to complete a year of service after the break in service. An employee of Shore Life Care, Inc. shall not earn service for any period commencing after December 31, 2013.
• Pensionable earnings	Compensation shall mean W-2 compensation plus amounts deferred under tax-sheltered annuities and Section 125 plans. Compensation does not include expense allowances, fringe benefits, moving expenses, any welfare benefits or deferred compensation. For an employee of Shore Life Care, Inc. compensation paid after December 31, 2013 shall not be taken into account.
• Average Compensation	Average compensation is the average of the highest 15 consecutive complete calendar years of compensation out of the last 25 complete calendar years.
• Accrued benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the product of (a) and (b) where: (a) Is a fraction, the numerator of which is the years of service at the benefit accrual date and the denominator of which is the years of service expected at normal retirement date, and (b) Is the normal retirement benefit. For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement

- **Eligibility**

Normal retirement date is the first day of the month coincident with or next following attainment of age 65 or the 5th anniversary of participation in the plan, if later. The earliest normal retirement date is December 31, 1974.
- **Benefit**

The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is:

 - (a) .85% of average compensation for each year of service, plus
 - (b) .65% of such compensation, which is in excess of 1/6 of the Social Security Taxable Wage Base for each year of service, but not greater than 35 years.

The minimum annual retirement benefit (exclusive of Social Security) shall be \$36 multiplied by years of service.

The plan provisions in effect on December 31, 1999 will remain in effect and be used to calculate a prior plan minimum benefit until December 31, 2004 for all employees that were plan participants on January 1, 2000. On December 31, 2004, that benefit became a frozen minimum benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Early retirement

- **Eligibility**

Upon the completion of 15 years of service and the attainment of age 55, or upon the completion of 10 years of service and the attainment of age 62, a participant may elect to retire.
-

Schedule SB, Part V — Summary of Plan Provisions

- Benefit The participant may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being multiplied by the appropriate factor from the table below:

Early Retirement Reduction Factors	
Age	Percentage of Accrued Benefit Payable
65	100.00%
64	92.3%
63	84.6%
62	76.9%
61	73.1%
60	69.2%
59	65.4%
58	61.5%
57	57.7%
56	52.9%
55	48.6%

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Delayed retirement

- Eligibility A participant may continue in employment of the Employer after his normal retirement date.
- Benefit The participant will receive at actual retirement the benefit provided under the normal retirement benefit formula based on continued accrual of service and compensation as of the late retirement date. In no event shall this benefit be less than the actuarial equivalent of the participant's normal retirement benefit.
For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

Deferred vested

- Eligibility Termination of employment after 5 or more years of service results in 100% vesting in the accrued benefit to be paid at the participant's normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit**

The participant will receive the accrued benefit at his normal retirement date, or may elect to receive a reduced benefit at age 62 if he has at least 10 years of service or at age 55 if he had at least 15 years of service at date of termination. See the description of the early retirement benefit.

If the actuarial equivalent of the benefit is less than \$1,000, it shall be paid in an immediate lump sum. If the actuarial equivalent of the benefit is more than \$1,000 but less than or equal to \$5,000, it may be paid as a lump sum if the participant consents.

If the actuarial equivalent of a participant's vested accrued benefit is \$0, the participant shall be deemed to have received a distribution of such vested accrued benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Disability

-
- **Eligibility**

A participant who becomes totally and permanently disabled after completion of 10 years of service may retire.
-
- **Benefit**

The participant will receive a disability retirement benefit calculated as his accrued benefit on date of disability. In the case of a single participant, the benefit is payable for life only and in the case of a married participant, the benefit is payable as a joint and one-half survivor annuity. The disability benefit is payable only to age 65 or until his recovery. At age 65, the participant may elect to receive his accrued benefit in an option form of payment.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Death benefit

-
- **Eligibility**

A participant is eligible for a death benefit if he has 5 or more years of vesting service.
-
- **Benefit prior to early or normal retirement**

If a married vested participant dies prior to becoming eligible for early or normal retirement, his surviving spouse shall receive a benefit, payable when the participant would have been eligible for retirement, based on a joint and one-half survivor benefit.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.
-

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit after early or normal retirement**

In the event of a married participant's death after having become eligible for early or normal retirement, the participant's surviving spouse shall be entitled to receive a benefit computed as if the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

If an unmarried participant dies after becoming eligible for normal retirement or after the attainment of age 62 and the completion of 10 years of service, it will be assumed the participant had retired on the first of the month in which he died and had elected a 10-year certain and life benefit. Married participants may also elect this form of benefit if they have met the requirements of the preceding sentence.

For participants who are employees of Shore Life Care, Inc., the accrued benefit is frozen effective December 31, 2013.

 - **Option forms**

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option (a) below. The options are:

(a) A reduced benefit to be paid during the participant's lifetime with one-half the reduced benefit to be continued to his spouse for her lifetime after his death.

(b) A reduced benefit to be paid during the participant's lifetime with the same or 75% of the reduced benefit to be continued to his spouse for her lifetime after his death.

(c) A reduced benefit to be paid for 120 months certain and thereafter for life.

(d) A lump sum settlement shall be paid if the value does not exceed \$1,000. Lump sum settlements from \$1,000 to \$5,000 may be paid with the participant's consent.

 - **Option form conversion factors**

All optional methods of settlement, other than a lump sum settlement, for nondisabled participants are actuarially equivalent to the normal form of annuity on a unisex basis based on the UP-1984 Mortality Table adjusted for an 80% female content in the participant group and 7.5% interest. Lump sum payments will be based on the average annual interest rate on 30-year Treasury Securities for the second month (November) before the first day of the current plan year and the 1994 Group Annuity Reserving Table. Optional methods of settlement for disabled participants are based upon the female disabled mortality rates published by the Pension Benefit Guaranty Corporation.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2015 and amended through Amendment #1, are included in this valuation:

- **Most recent plan amendments included:** Amendment #1
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The actuarially increased normal retirement benefit is valued as a minimum benefit for any participant over normal retirement age.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued using the monthly retirement benefit payable at normal retirement age.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions Specific to Funding****Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 32 — Schedule of Amortization Bases

Shortfall amortization Charge

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
