Independent Auditor's Report

To the Plan Administrator and Participants of
Donnelly Service Group, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Donnelly Service Group, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Donnelly Service Group, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Donnelly Service Group, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Donnelly Service Group, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Donnelly Service Group, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Donnelly Service Group, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Donnelly Service Group, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Donnelly Service Group, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a employee stock ownership plan ("ESOP") established effective January 1, 2019. The Plan covers all employees, excluding individuals covered by collective bargaining agreement, leased employees, nonresident aliens with no earned income from U.S., and those the employer did not treat as an employee, of Donnelly Service Group Inc. (the "Company" or "Employer") who have completed one year of service, providing they worked at least 1,000 hours during the year and are employed on the last working day of the plan year. and are age 21 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Trustee is responsible for oversight of the Plan.

Contributions

Each year, the Company may make contributions, in the form of common stock or cash, to the Plan. Contributions for each year are never less than the amount required to enable the Plan to meet its current distribution requirements, as defined by the Plan. Employee contributions are not permitted. Additionally, Company safe harbor contributions are to be allocated to each participant's account based upon 3% of their annual eligible compensation, at the Company's discretion. For the year ended December 31, 2024, the Company made \$92,567 in safe harbor contributions.

Payment of Benefits

Distributions shall be made when a participant retires, becomes disabled, or dies in the Plan year following the event. Payments are made in substantially equal installments over a period of five years based on the account balance at the time of the event. For distributions for separation from service due to termination, a participant can elect to receive their account balance by the close of the sixth Plan year following the Plan year in which separation occurs. If no election is made distributions will begin in the Plan year following six years break in service. The amount to be distributed is based upon the immediately preceding valuation date. If at the time a participant terminated employment and their vested account balance is \$1,000 or less, the participant shall receive their vested account balance in a lump sum by the end of the following Plan year.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20% vested after two years of credited service and continues to vest in increments of 20% until 100% vested after six years of credited service.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Upon reaching age 55, a participant may diversify up to 25% (in years 1 to 5) and 50% (in year 6 and thereafter) of the number of shares allocated to his or her account, less any shares previously diversified. Participants who elect to diversify receive a cash distribution to be rolled over to another qualified plan or reported as taxable income. The decision to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Donnelly Service Group, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The participant is given sixty days after the stock is distributed to require the Company to purchase your stock. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2024 and 2023, there were no forfeited amounts to be allocated in future years. During 2024, no amounts were applied to plan activities from forfeited nonvested accounts.

Voting Rights

The trustees of the Plan will vote all employer stock held in the Plan in accordance with instructions from the Plan Committee. On certain major matters which affect the structure of the employer, such as a dissolution of the employer, sale of substantially all its assets, or merger or consolidation with another company, participants will be entitled to direct the trustees on how to vote the allocated shares of stock in employee accounts.

Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination, participants would become 100% vested in the Company contributions and earnings thereon, and the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary in accordance with the terms of the Plan. Upon termination of the Plan, the senior management team shall direct the trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term in the fair value of the Plan's investment in employer securities.

Risks and Uncertainties

The Plan's assets are held in cash and Company stock. Cash carries a lower risk than Company stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock would occur and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Concentration of Credit Risk

As of December 31, 2024 and 2023, the Plan's investments in the Company represented approximately 12% and 0% of its total assets, respectively.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

Donnelly Service Group, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to a) the accounts of employees with rights in allocated stock (“allocated”) and b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

3. Investment in Common Stock

The Plan's investments in the Company's common shares at December 31, 2024 and 2023, are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	1,000	-	-	1,000
Cost	\$ 52,140	\$ -	\$ -	\$ 52,140
Estimated fair value	\$ 58,000	\$ -	\$ -	\$ 52,140

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Company Common Stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ -	\$ 58,000	\$ 58,000
Total assets at fair value	\$ -	\$ -	\$ 58,000	\$ 58,000

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ -	\$ 52,140	\$ 52,140
Total assets at fair value	\$ -	\$ -	\$ 52,140	\$ 52,140

Changes in Fair Value of Level 3 Assets

The fair value of Company common stock is not readily determinable and was valued using a third party appraisal. The stock is a level 3 asset. This appraisal was fully based on the income approach using the discounted cash flow method of valuation. In applying the discounted cash flow methodology, the appraiser took into account projected revenues and EBITDA trends, as well as projected working capital and capital expenditure trends. Factors considered by the appraiser in developing a discount rate for minority interest includes known control premiums paid in transactions within a similar industry and company size. In developing a discount for lack of marketability, factors considered by the appraiser include known discount rates related to prices paid for restricted stocks in private sales compared to prices paid for the same securities in public markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

	<u>Common Stock</u>
Beginning balance	\$ 52,140
Unrealized appreciation	5,860
Ending balance	\$ 58,000

For the year ended December 31, 2024, there were no significant transfers between Levels 1, 2, or 3.

Gains included in changes in net assets for the period above are reported in net appreciation in fair value of company stock in the statement of changes in net assets available for benefits.

5. Tax Status

The IRS has determined and informed the Company by a letter dated April 3, 2023, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party In Interest Transactions

The Plan funds are held in a separate bank account. Village Bank, the custodian of the Plan, holds all cash accounts on behalf of the Plan and makes distributions to participants. The Plan invests in shares of common stock of the Company and has indebtedness to the majority shareholder of the Company. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA. Additionally, during the year ended December 31, 2024, the Company paid certain expenses related to the administration of the Plan. These transactions qualify as party-in-interest transactions

7. Administration of Plan Assets

The Plan's assets, which consist solely of cash, are held by the custodian of the Plan. Company contributions are held by the custodian and managed by Menke & Associates, Inc. ("Menke"), the recordkeeper of the Plan. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. As provided by the Plan agreement, all administrative expenses will be paid by the Company if not paid from trust assets. During 2024, the Company paid all expenses related to the Plan.

8. Subsequent Events

The Plan evaluated subsequent events through October 10, 2025, the date these financial statements were available to be issued. Based on that evaluation, the Plan has determined that no material subsequent events require recognition or disclosure in these financial statements.
