Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BROWN EDWARDS & COMPANY, LLP**

(2) EIN: **54-0504608**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		5000000

Independent Auditor's Report

To the Plan Administrator and Those Charged with Governance of
Alpha Legacy Company Pension Plan
Bristol, Tennessee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Alpha Legacy Company Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the year ended December 31, 2024 and the period from inception (December 31, 2023) to December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, for the year ended December 31, 2024, and for the period ended December 31, 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional

procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Alpha Legacy Company Pension Plan

Notes to Financial Statements

December 31, 2024

Note 1 – Plan Description

The following description of the Alpha Legacy Company Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was established effective December 31, 2023 by Alpha Natural Resources, LLC (the “Plan Sponsor”), with the merger of the Retirement Plan for Certain Hourly Employees of Foundation Coal, the Retirement Plan for Salaried Employees of Foundation Coal, and the Massey Energy Retirement Plan. The Plan is administered by the Plan Sponsor for the benefit of eligible Alpha Natural Resources, LLC employees, including eligible employees of certain subsidiaries which have adopted the Plan. The Plan Sponsor is a wholly owned subsidiary of ANR, Inc. (the “Parent Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Retirement Plan for Certain Hourly Employees of Foundation Coal and the Retirement Plan for Salaried Employees of Foundation Coal were frozen with respect to eligibility effective as of December 31, 2008 and with respect to accruals effective as of December 31, 2010.

Effective December 31, 2011 for the Massey Energy Retirement Plan, each participant’s accrued benefit as defined by the Plan was frozen and no new or additional benefits accrued after such date. In addition, compensation as defined by the Plan did not include any amounts paid after December 31, 2011. Each participant’s credited service as defined by the Plan was frozen as of December 31, 2011, and no additional credited service would be credited after such date. In addition, for purposes of determining the final average compensation, as defined by the Plan, of any participant who separates from service after January 1, 2012, final average compensation as defined by the Plan did not take into account any compensation paid after December 31, 2011.

Plan Mergers

The Massey Energy Retirement Plan, the Retirement Plan for Certain Hourly Employees of Foundation Coal, and the Retirement Plan for Salaried Employees of Foundation Coal were merged into the Alpha Legacy Company Pension Plan, effective December 31, 2023, following the approval of the Board of Directors of Alpha Natural Resources, Inc. At that date, all investments remained with the respective custodians. The following net assets were transferred into the Alpha Legacy Company Pension Plan on that date:

	Massey Energy Retirement Plan	Foundation Coal Hourly Plan	Foundation Coal Salaried Plan
Investments at fair value	\$ 257,573,030	\$ 75,423,725	\$ 31,231,039
Investment at contract value	12,753,682	-	-
Plan Sponsor contributions receivable	11,991,570	-	328,581
Administrative expenses payable	(335,156)	(116,654)	(57,695)
Net assets transferred	<u><u>\$ 281,983,126</u></u>	<u><u>\$ 75,307,071</u></u>	<u><u>\$ 31,501,925</u></u>

The Plans’ accumulated benefit obligations transferred to the Alpha Legacy Company Pension Plan from Massey Energy, Foundation Coal Hourly, and Foundation Coal Salaried amounted to \$369,025,473, \$85,482,551, and \$41,509,354, respectively, totaling \$496,017,378. This merger did not affect the participants’ pension benefits because the benefits provisions of the merged plans were incorporated into the new Alpha Legacy Company Pension Plan.

Alpha Legacy Company Pension Plan

Notes to Financial Statements

December 31, 2024

Contributions

The Plan is a noncontributory defined benefit pension plan with the Plan Sponsor's contribution based on the actuarially determined amount required to provide benefits as defined under the Plan. For the year ended December 31, 2024 and the period ended December 31, 2023, the Plan met the minimum funding requirements of ERISA.

Pension Benefits

The Plan incorporated benefits from the former Plans as noted below.

Foundation Coal Hourly Plan Participants are entitled to annual pension benefits, as defined in the Plan document, beginning at the normal retirement age of 65, or, if later, the fifth anniversary of the employee's commencement of participation in the Plan. Generally, participants can receive their pension benefits in the form of a joint and survivor annuity or a single life annuity. If employees terminate before completing five years of service, they forfeit the right to receive the portion of their accumulated plan benefits. Generally, the monthly benefit upon normal retirement age is based upon a rate multiplied by the years of credited service, as defined within the provisions of the Plan.

Foundation Coal Salaried Plan Participants with five or more years of credited service are entitled to annual pension benefits, as defined in the Plan document, beginning at the normal retirement age of 65 or the fifth anniversary of the employee's commencement of employment, whichever is later. Pension benefits are calculated using 1.7% of the employee's average annual compensation multiplied by the number of years of service. The benefit is reduced by 1.1% of the participant's social security offset, multiplied by the number of years of service, not to exceed 35 years. The Plan permits early retirement at age 55 with 10 or more years of vesting service with actuarially reduced benefits. Generally, participants may receive their pension benefits in the form of a joint and survivor annuity, single life annuity, or lump sum distribution. If any employee terminated before completing five years of service, the employee forfeits the right to receive accumulated plan benefits.

For Massey Plan Participants, normal retirement age generally for participants employed on October 1, 2001, or later, is the later of the participant's 62nd birthday or the fifth anniversary of participation, and benefits generally commence on the first day of the month coinciding with, or following that date. Effective October 1, 2001, the Plan had five benefit formulas which cover three groups of participants: former participants of the Coal Company Employees' Pension Plan ("Coal Company Plan"), including former participants of the Tennessee Consolidated Coal Company Employee Retirement Plan ("TCC Plan"), former participants of the Central Appalachian Coal Company Employees' Pension Plan ("Central Appalachian Plan"), including former Upper Big Branch Mine ("UBB") participants, and all other participants ("MERP participants").

For former Coal Company Plan participants, the monthly retirement allowance is one-twelfth of the product of: 1.5% of the participant's final average compensation at retirement date and the participants credited service not in excess of 35 years, but not more than the maximum benefit allowed under ERISA.

In no event shall the combined annual benefit payable with respect to any Plan participant on a single life basis exceed the lesser of \$275,000 and \$265,000 for 2024 and 2023, respectively [or other such dollar limitation as in effect for the applicable limitation year under 415(b)(1)(A) of the *Internal Revenue Code (IRC)*], or 100% of the participant's average compensation during the three consecutive calendar years as an active participant in which such compensation is the highest.

Notes to Financial Statements

December 31, 2024

For former Central Appalachian Plan participants (other than designated employees, as defined), the monthly retirement allowance shall be one-twelfth of the greatest of (1), (2), or (3) and subject to (4) below:

- (1) 43% of the participant's final average compensation not in excess of \$20,000, at the participant's normal retirement date, plus 50% of the participant's final average compensation in excess of \$20,000, at the normal retirement date, reduced by 1/15th for each full year of credited service less than 15 assuming that the participant works until normal retirement age or actual retirement date, if later;
- (2) \$3,600, reduced by 1/15th for each full year of credited service less than 15 assuming that the participant works until normal retirement age or actual retirement date, if later; or
- (3) The participant's accrued benefit as of December 31, 1988, determined as the sum of \$3,600 plus 50% of the participant's final average compensation in excess of \$10,000, at the participant's date of retirement, reduced by 1/15th for each full year of credited service less than 15 assuming that the participant works until normal retirement age or actual retirement date, if later.
- (4) For any Central Appalachian Plan participant whose compensation is limited by the application of Code Section 401(a)(17), effective January 1, 1994, such Central Appalachian Plan participant's accrued benefit shall not be less than his Accrued Benefit under the Plan as of December 31, 1993, based on Compensation and Credited Service determined as of that date; plus his accrued benefit based on the formula in subsection (1) or (2) above, using his Credited Service from January 1, 1994, to the date of determination.

In regard to TCC Plan participants, the benefit calculation is calculated to be the greater of the amount described above for Coal Company Plan participants or the amount they would have been entitled to under the provisions of the TCC Plan in effect on December 31, 1992.

For former UBB participants, normal retirement age generally is the earlier of (i) the attainment of age 62 and 10 years of combined service or (ii) the attainment of age 65 and the fifth anniversary of participation. The monthly benefit generally is the sum of \$49.50 for each year of UBB service plus \$8.00 for each year of United Mine Workers of America ("UMWA") 1974 pension plan service for any member employed as of January 1, 2001. Benefits generally are reduced for any benefits paid by the UMWA for service credited by the UMWA 1974 Pension Plan.

MERP participants are credited with contribution and interest credits for each Plan year. For 2011, each participant was credited with \$1.40 for each eligible hour worked. In addition, MERP participants' accumulated contribution credits are credited as of the last day of the Plan year with an annual interest credit of 6.5% for contributions accumulated prior to January 1, 2004, and 4% for contributions accumulated after December 31, 2003.

The Massey Plan permits participants early retirement after a participant attains age 55 with at least 5 years of continuous service. If an eligible participant elects to receive an early retirement benefit prior to the normal retirement date, then the early retirement benefit is reduced for payment prior to age 62 as follows:

- The early retirement benefit for MERP participants is actuarially reduced for payment prior to age 62.
- The early retirement benefit for former Coal Company Plan participants, except for participants employed by the Plan Sponsor as pilots, is reduced by applying the following reduction factors to the participants' accrued normal retirement benefit:

Age	Factor
55	.69
56	.74
57	.79
58	.84
59	.89
60	.94
61	.97

Alpha Legacy Company Pension Plan

Notes to Financial Statements

December 31, 2024

However, the early retirement benefit for former Coal Company Plan participants employed by the Plan Sponsor as pilots is reduced by applying the following reduction factors to the participant's accrued normal retirement benefit:

Age	Factor
55	.75
56	.80
57	.85
58	.90
59	.95
60	1.00

- The early retirement benefit for former Central Appalachian Plan participants is reduced by applying the following reduction factors to the participant's accrued normal retirement benefit:

Age	Factor
55	.62
56	.66
57	.71
58	.75
59	.81
60	.87
61	.97

- The early retirement benefit for former UBB Plan participants is reduced by 3% for each year by which early retirement precedes normal retirement age with the UMWA reduction factor reduced by the early retirement factors under the UMWA 1974 Pension Plan.

Benefits shall be payable monthly commencing on the first day of the month following the participant's retirement. A participant may elect one of the following forms of payment of benefits:

- The MERP, former Coal Company Plan, and former Central Appalachian Plan participants' automatic benefit payment options are life only annuity payable until date of death with 10 years guaranteed (single participants only) or actuarially reduced qualified 50% joint and survivor annuity (married participants only). The elective benefit payment options for these participants are a joint and last survivor life 75% or 100% annuity option; a straight participant life annuity option; a Social Security annuity reduction option; or a lump sum option only if the present value of the participant's benefit is less than \$1,000 (MERP participants only).
- The former UBB participants' automatic benefit payment options are life only annuity payable until date of death (single participants only); a surviving spouse benefit annuity whereby the participant's spouse receives a lifetime annuity after the participant's death equal to 75% of the participant's life benefit (married participants with 20 years of service only); or an actuarially reduced 50% joint and survivor annuity.

Delayed retirement benefits available to participants are the greater of the accrued benefit at the delayed retirement date or the actuarial equivalent of the participant's normal retirement benefit.

Disability Benefits

For Foundation Coal Hourly Plan Participants, a participant is eligible for a disability retirement benefit if the participant has completed a period of vesting service of at least 10 years, terminates employment because of total and permanent disability, and has applied for disability retirement benefits prior to the date he or she terminates employment.

Alpha Legacy Company Pension Plan

Notes to Financial Statements

December 31, 2024

The monthly benefit payable to a participant who is eligible for a disability retirement benefit would be equal to the greater of (a) the amount of retirement benefit determined in accordance with normal retirement accrued as of the date eighteen months after his disability date and without actuarial reduction to reflect commencement of payment before normal retirement age or (b) \$500. Any disability retirement benefit shall be paid solely in the form of a single life annuity generally ending at normal retirement age when an optional form of payment is chosen. Payment of a disability retirement benefit will begin as of the participant's disability retirement date, as defined in the Plan.

For Foundation Coal Salaried Plan Participants, active participants who become totally disabled and are receiving long-term disability benefits are eligible to receive annual disability benefits generally commencing at normal retirement age. Vesting service continues to accrue for the first 24 months of a participant's long-term disability status. A participant with at least 10 years of vesting service can elect to begin receiving disability retirement benefits with actuarially reduced benefits as early as age 55.

For Massey plan participants, disability retirement benefits are available under the Plan for vested participants of the former Coal Company, Central Appalachian, and UBB Plans. Such benefits for former Coal Company Plan participants and former Central Appalachian Plan participants commence at normal retirement date with credited service up to normal retirement date and final average compensation at date of disability as long as the disabled participant remains on a disability plan sponsored by the Plan Sponsor until normal retirement age. For former UBB participants, disability benefits are based on years of credited service through the date of disability with the benefit unreduced and paid immediately provided the participant is eligible for Social Security Disability Insurance benefits as a result of a UBB mine accident. If the participant had completed less than ten years of service as of the date of disability, a minimum disability benefit of \$200 per month is paid to the participant.

Death Benefits

For Foundation Coal Hourly and Salaried Plan Participants, if a vested participant dies with at least 10 years of vesting service before normal retirement benefits begin or during the payment of disability retirement benefits, the surviving spouse, if any, will be paid, commencing as of the first day of the month following the participant's death (or, if later, what would have been the participant's earliest retirement date under the Plan), the survivor retirement benefit that would have been payable if the participant had retired the day before his death and elected to commence benefits in the form of a qualified joint and survivor annuity. If the vested participant has less than 10 years vesting service, the surviving spouse will receive payment on the first day of the month in which the normal retirement benefits would commence for the participant.

For Massey plan participants, pre-retirement death benefits are determined and paid in a similar manner as early retirement benefits with benefit accrual ceasing upon the date of death.

Plan Administration

The Plan is administered by the Benefits Committee (the "Plan Administrator"), a committee appointed by the Parent Company's Board of Directors. Internal costs of the Company to administer the Plan are paid by the Company. Certain administrative expenses for actuary, accounting, legal and trustee fees, and fees paid to the Pension Benefit Guaranty Corporation ("PBGC") are paid by the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosures of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The fair value of the Plan's investments in common/collective trusts and the commingled short-term investment fund held in trust by Russell Investments Trust Company and Comerica Bank, are valued at the Net Asset Value ("NAV") of shares or units held by the Plan based on quoted market value of the underlying assets.

The Plan's immediate participation guarantee contract with New York Life Insurance Company ("New York Life") is stated at contract value. Contract value reflects the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan and is the relevant measure for the portion of assets attributable to fully benefit-response investment contracts. Contract value is determined by New York Life by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 8).

The Plan's interest in the Foundation Coal Defined Benefit Plans Master Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and investment income (net realized and unrealized appreciation/depreciation), less actual distributions and administrative expenses. These assets of the Plan are held in trust and are invested in accordance with investment guidelines that had been established by the Benefits Committee in consultation with the outside investment advisors. Asset allocation targets are set with the expectation that the Plan's assets will fund the expected liabilities within an appropriate level of risk. In determining asset allocations, the Benefit Committee considered the demographics of the Plan's participants, the funding status of each plan, the Company's contribution philosophy, the Company's business and financial profile, and other associated risk factors.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices

Alpha Legacy Company Pension Plan

Notes to Financial Statements

December 31, 2024

in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 – Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used to value the Plan's investments.

Common/Collective Trusts

The Plan's investments (including those of the Master Trust) in fixed income securities and equity funds are held in common/collective trusts. These investments are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The funds consist of individual security positions that are mostly securities easily traded on recognized market exchanges. These securities are priced and traded daily, and therefore these funds are valued daily. Due to the significant observable inputs, the common/collective trusts are included in Level 2 of the fair value hierarchy.

Commingled Short-Term Investment Fund

Valued at par, which approximates fair value. The NAV is based on the value of the fund's underlying assets, minus its liabilities, and then divided by each participating plan's units of participation, which represent an undivided interest in the underlying assets of the account. Due to the significant observable inputs, the commingled short-term investment fund is included in Level 2 of the fair value hierarchy.

Private Equity Funds

These investments are valued using the NAV or its equivalent provided by the manager of the fund. The NAV or its equivalent is based on the value of the underlying assets owned by the fund, minus its liabilities. The NAV or its equivalent is used as a practical expedient to estimate fair value and the funds are, therefore, excluded from classification in the fair value hierarchy.

Notes to Financial Statements

December 31, 2024

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Accumulated plan benefits for active, retired, or terminated employees or their beneficiaries are based on the Plan's benefit formulas applicable to the participant. Benefits payable under retirement, early or delayed retirement, disability, and death are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Parent Company, as provided by the plan document. Expenses that are paid directly by the Parent Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 – Funding Policy

The Plan Sponsor's general funding policy is to make contributions to the Plan in amounts as determined necessary by the Plan's actuary given the requirements of the Plan's governing document. Required contributions to the Plan are determined by the Plan's actuary using the funding target liability method, and substantially the same actuarial assumptions are used in determining the actuarial present value of accumulated plan benefits (described in Note 5). The Plan Sponsor met the minimum funding requirements of ERISA for 2024 and 2023. The amounts of \$16,701,604 and \$12,320,151 were included as contributions receivable in the statements of net assets available for benefits as of December 31, 2024 and 2023, respectively.

The merged in Plans adopted provisions under the American Rescue Plan Act (ARPA) signed into law on March 11, 2021, which provided certain funding relief items to defined benefit pension plans that were eligible to be applied retroactively. ARPA replaces the Pension Protection Act of 2006 (PPA) 7-year shortfall amortization installments with a "fresh start" 15-year amortization beginning with any plan year from 2019 to 2022. The merged in plans elected to adopt ARPA's 15-year amortization provisions effective with the 2019 plan year. ARPA also revises PPA's interest rate stabilization provisions for funding purposes under *IRC* Section 430 and for benefit restriction purposes under *IRC* Section 436 in a manner that will increase interest rates used in near-term funding valuations and Adjusted Funding Target Attainment Percentage (AFTAP) measurements beginning with any plan year from 2020 to 2022. The merged in plans elected to adopt ARPA's interest rate stabilization provisions for both *IRC* Section 430 and 436 purposes effective with the 2020 plan year.

Alpha Legacy Company Pension Plan

Note 4 – Plan Termination

The Plan Sponsor has the right under the Plan to terminate the Plan at any time subject to the provisions set forth in ERISA.

Upon termination of the Plan, the accrued benefit of each participant to the extent funded (subject to restrictions contained in the Plan governing document) as of the date of termination will become fully vested and not subject to forfeiture except as provided in the following paragraph, except that recourse shall be limited to the assets of this Plan or any benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC"). If, after all distributions to participants for accrued benefits are made and funds remain in the hands of the Trustees of the Plan after payment of all expenses, such funds may revert to the Plan Sponsor.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, among Plan participants and beneficiaries in the following order:

- Expenses, fees, and other charges under this Plan not previously paid by the Plan Sponsor shall be paid.
- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the PBGC up to the applicable limitations as discussed below.
- Other vested benefits under the Plan not insured by the PBGC.
- All other benefits under the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, if benefits have been increased within the five years before the Plan termination, the entire amount of the Plan's vested benefits or the benefit increase may not be guaranteed. There is a ceiling on the amount of monthly benefit that the PBGC guarantees which is adjusted periodically. For Plan terminations occurring in 2024, that ceiling was \$7,108 per month. That ceiling applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan terminations (whichever is later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

In the event of the withdrawal of a subsidiary or affiliate of the Plan Sponsor, the Plan Administrator, in consultation with the Plan's actuary, shall determine the equitable share of the Plan's assets allocable to the withdrawing subsidiary or affiliate of the Plan Sponsor. If the Plan is terminating with respect to the withdrawing subsidiary or affiliate, that portion shall be further allocated among the participants and beneficiaries of that terminating entity in accordance with the requirements of ERISA. If the Plan is not to be terminated with respect to the withdrawing subsidiary or affiliate, that portion shall be turned over to such trustee designated by the Board of Directors of the withdrawing subsidiary or affiliate.

Note 5 – Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial method used to determine the normal cost for the Plan year ended December 31, 2024 and 2023, was the projected unit credit actuarial cost method. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

Significant assumptions underlying the actuarial computations for December 31, 2024 and 2023, are summarized as follows:

Discount Rate	5.65% for 2024; 5.12% for 2023	
Rate of Return	5.70% for 2024; 5.70% for 2023	
Mortality	Custom mortality table based on plan experience that was approved under IRC §430(h)(3)(c)	
Termination	Age 25	10%
	Age 30, 35, 40	15%
	Age 45	10%
	Age 50	15%
	Age 55	10%
Retirement Age Assumption	10% of participants retire from age 55 through age 57	
	20% of participants retire from age 58 through age 59	
	25% of participants retire at age 60	
	15% of participants retire at age 61	
	25% of participants retire at age 62	
	20% of participants retire from age 63 through age 64	
	40% of participants retire from age 65 through age 69	
Disability Rates	100% of participants are assumed to be retired by age 70	
	Age 25	0.15%
	Age 40	0.30%
Age of Spouse and Marriage	Age 55	1.25%
	Male participants are assumed to be 3 years older than their spouses, female participants are assumed to be 3 years younger than their spouses, and 80% of participants are assumed to be married.	

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 6 – Certified Investment Information

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by New York Life, Comerica Bank, and Russell Investments Trust Company (Trustees), except for comparing such information certified by them to information included in the Plan's financial statements and supplemental schedules.

Investment Information Certified By New York Life

The contract value of the immediate participation guarantee contract (see Note 8), as certified by New York Life, at December 31, 2024 and 2023, amounted to \$13,084,000 and \$12,753,682, respectively. Included in the value of the immediate participation guarantee contract, as certified by New York Life, was accrued interest income on the immediate participation guarantee contract of \$595,800 and \$525,210 as of December 31, 2024 and 2023, respectively.

The Plan's investment interest in the Master Trust was originally established for the investment of assets of the Retirement Plan for Hourly Employees of Foundation Coal and the Retirement Plan for Salaried Employees of Foundation Coal. Each participating retirement plan had a divided interest in the Master Trust with each retirement plan's interest in the Master Trust held in a separate account within the Master Trust. Effective December 31, 2023, the assets of both Plans were merged in their entirety into the Plan; however, were maintained within the Master Trust arrangement.

Comerica Bank and Russell Investments Trust Company certified the completeness and accuracy of the appreciation in the fair value of investments (including gains and losses on investments bought, sold, and held during the year) and the Trustees certified the completeness and accuracy of interest income related to the aforementioned investments for the year ended December 31, 2024.

Notes to Financial Statements

December 31, 2024

The following table summarizes the investments held by the Master trust, which are measured at fair value based on NAV per share:

		December 31, 2024		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Private equity funds ¹	<u>\$ 447,718</u>	<u>\$ 343,855</u>	N/A	N/A

		December 31, 2023		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Private equity funds ¹	<u>\$ 655,504</u>	<u>\$ 352,364</u>	N/A	N/A

¹ The private equity funds include investments in funds that seek to achieve long-term capital appreciation by investing in a diversified portfolio of private equity investment partnerships operating primarily in the United States and Europe. These funds return capital to the limited partners as the investment time horizon winds down and as the funds exit the investments they have made.

Note 8 – Immediate Participation Guarantee Contract with Insurance Company

In 1977, the Trustees of the former TCC Plan entered into an immediate participation guarantee contract with New York Life. The contract became an asset of the Massey Energy Retirement Plan at the time the TCC Plan was merged into and made part of the Plan as of December 31, 1992, which was subsequently merged into the Plan as of December 31, 2023. Under the contract, funds are maintained in a deposit administration account of New York Life sufficient to provide for the remaining pension benefits for the current retirees paid under the contract. New York Life adds interest as of the last day of each contract year at New York Life's Interest Year Method rates applicable to those funds for that year. The crediting interest rate to the contract was 4.67% for the year ended December 31, 2024.

The contract also involves utilization of New York Life's allocated account from which retirement annuity payments are made to certain TCC Plan retirees resulting from annuity contracts previously purchased. The contract provides for periodic adjustments at the discretion of New York Life on the basis of its experience under the contracts. Such experience adjustment of \$23,264 was due to the Plan for the year ended December 31, 2024 and \$31,022 was due from the Plan for the period ended December 31, 2023. In reporting changes in net assets, the experience adjustment has been netted in interest income.

Note 9 – Income Tax Status

The plan's qualified status under Section 401(a) of the *Internal Revenue Code (IRC)* is subject to review by the Internal Revenue Service (IRS). The plan has a pending application to the IRS for a favorable determination letter. The merged in plans previously received individual determination letters and the Plan continues to operate in accordance with those provisions. Accordingly, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the *IRC* at December 31, 2024 and 2023.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

Alpha Legacy Company Pension Plan

Notes to Financial Statements

December 31, 2024

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Party-in-Interest Transactions

Certain Plan investments are held in funds managed by the Trustees, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the Trustee services were \$1,376,773 for the year ended December 31, 2024.

Additionally, certain administrative functions are performed by employees of the Plan Sponsor at no cost to the Plan.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Note 12 – Subsequent Events

Plan management reviewed all subsequent events through October 10, 2025, the date the financial statements were available to be issued, to determine whether any events required either recognition or disclosure in the financial statements.

Effective January 1, 2025, the Benefits Committee appointed The PNC Financial Services Group, Inc. as replacement trustee for the Plan from Russell Investments Trust Company.

Schedule SB, Part V Summary of Plan Provisions

Benefits included or excluded

The plan was established as a result of the consolidation of the Massey Energy Retirement Plan, the Retirement Plan for Salaried Employees of Foundation Coal and the Retirement Plan for Certain Hourly Employees of Foundation Coal effective January 1, 2024.

Plan amendments excluded None

IRC Section 436 benefit restrictions:

- Unpredictable contingent event benefits: This valuation excludes any restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- Plan amendments: See above.
- Prohibited payments: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- Benefit accruals: The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Scheduled benefit increases:

- Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

Late retirement Increases:

- Active Participants: The plan applies late retirement actuarial increase for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
- Deferred vested participants: Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- Unpredictable contingent event benefits: The plan does not have any unpredictable contingent event benefits.
- IRC Section 415(b) benefit limitations: The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

- IRC Section 416 rules for top-heavy plans: We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Former Participants of Massey Energy Retirement Plan (other than Coal Company or Central Appalachian)

Eligibility requirements

A permanent full-time employee of a participating Massey Coal Company who is not designated as a Coal Company participant, a Central Appalachian participant, or an Upper Big Branch participant is eligible to participate in the plan on his date of hire or October 1, 2001, if later. As of December 31, 2011, the plan is closed to new entrants.

Normal retirement

Date	First day of the month following the later of age 62 or the fifth anniversary of participation in the plan.
Benefits	Effective as of December 31, 2011, each Participant's Accrued Benefit under the Plan is frozen and no new additional benefits shall accrue for any Participant after such date under any provision of the Plan.
Retirement plan account	An account used to determine the amount of pension benefits payable to a participant. Each year the retirement plan account will be credited with Contribution Hour Credits and Interest Credits.
Contribution hour credits	The amount credited to the Retirement Plan Account each year for MERP participants not employed at new Above Ground Operations is as follows:

Year	Contribution per hours worked
October 1, 2001-December 31, 2001	\$1.20
2002	\$1.20
2003	\$1.30
2004 through 2011	\$1.40
After 2011	\$0.00

Plan Name: Alpha Legacy Company Pension Plan
EIN / PN: 56-2298262/005
Plan Sponsor: Alpha Natural Resources, LLC
Valuation Date: January 1, 2024

SCHEDULE SB ATTACHMENTS

The amount credited to the Retirement Plan Account each year for MERP participants employed at or by any New Above Ground Operations is as follows:

Year	Contribution per hours worked
October 1, 2003 through July 31, 2006	\$0.50
August 1, 2006 through 2011	\$1.40
After 2011	\$0.00

Interest credits

The Retirement Plan Account as of January 1, 2004 will increase with interest each year at a guaranteed interest rate of 6.0%. Account balances accrued in 2004 and beyond will increase with interest each year at a guaranteed interest rate of 4%.

The Retirement Plan Account as of the participant's normal retirement date will be converted to a 10-year certain and life annuity using the plan's actuarial equivalent factors.

Early retirement

Date First day of the month after age 55 and 5 years of continuous service.

Benefits The accrued benefit (see normal retirement benefit above) payable:

- (a) At normal retirement date without reduction, or
- (b) At early retirement date determined as the actuarial equivalent of the retirement Plan Account as of the early retirement date

Delayed retirement

Date First of any month a participant retires after normal retirement date.

Benefits The greater of the accrued benefit at the delayed retirement date and the actuarial equivalent of the participant's normal retirement benefit.

Actuarial equivalent basis

UP84 mortality and an interest rate of 6.5% for account balances as of January 1, 2004. UP84 mortality and an interest rate of 4% for account balances accrued in 2004 and beyond.

Continuous benefit service

Each participant's credited service shall be frozen as of December 31, 2011 and no Participant shall be credited with any additional credited service after such date under any provision.

Vesting

All participants employed on December 31, 2011 are fully vested in their frozen accrued benefit under the plan.

Benefit

Accrued benefit is the actuarial equivalent of the Retirement Plan Account as of the date of termination increased with interest credits to the normal retirement date. No participant shall accrue any additional benefits under the plan after December 31, 2011.

Death before retirement

Prior to eligibility for early retirement If a participant is entitled to a deferred benefit at date of death, the surviving spouse will receive, at participant's early retirement date, a benefit computed assuming the participant had terminated on date and had elected a 50% joint & survivor option at early retirement date.

After eligibility for early retirement

Surviving spouse will receive a benefit computed assuming the participant had retired on the first of any month following the date of death and had elected a 50% joint and survivor option.

Normal form of benefit

- 10 years certain & life – single participant
- Actuarially reduced 50% joint & survivor – married participant

Optional forms

- Joint & last survivor (50%, 75% or 100%) annuity
- Straight life annuity
- Social security level income annuity

Former Coal Company Participants

Disability retirement

Date	First day of any month after 10 or more years of continuous service, provided the Committee determines disability.
Benefit	Commencing at the participant's normal retirement date with service up to normal retirement date and final average compensation at date of disability.

Continuous benefit service

The period of time from the participant's date of hire through the date a participant resigns, retires, is discharged or dies.

If a participant ends employment for some other reason and does not return within one year, years of service will end one year from the date last worked.

If a participant ends employment and is re-employed within 12 months, this period of time will be counted as service.

Credited service is a participant's continuous service.

Final average compensation

One-fifth of a participant's total annual compensation for the 60 consecutive months prior to 2012 during which pay was highest.

Compensation means total eligible earnings paid to a participant by the employer, including overtime payments and semi-annual pay adjustments, but excluding bonuses and commissions. Annual compensation is limited to the amount specified in IRC Section 401(a)(17) for each year.

Vesting

Eligibility	Five years of service.
Benefit	Accrued benefit at date of termination commencing on normal retirement date. Accrued benefit is the normal retirement benefit with credited service and final average compensation at date of termination of employment.

Death before retirement

If a participant is entitled to a deferred benefit at date of death, the surviving spouse will receive, at participant's early retirement date, a benefit computed assuming the participant had terminated on date of death and had elected a 50% joint and survivor option at early retirement date.

d. For service earned after 1/1/94 to date of termination from UMWA	41.50
---	-------

C. Actual benefit earned under the UMWA plan to the date of termination from UMWA.

Effective as of December 31, 2011, each Participant's Accrued Benefit under the Plan is frozen and no new additional benefits shall accrue for any Participant after such date under any provision of the Plan.

Early retirement

Date First day of the month coincident with or next following attainment of age 55 and 5 years of continuous service.

Benefits The accrued benefit (see normal retirement benefit above) payable:

At normal retirement date without reduction, or

At early retirement date with parts A and B reduced by 3.0% for each year by which early retirement precedes normal retirement and with part C reduced by the early retirement factors under the UMWA plan.

Disability retirement

Date	First day of any month after 10 years of service where disability is a result of a mine accident and is eligible for disability benefits under the Social Security Act.
Benefit	The accrued benefit based on years of credited service through the date of disability. The benefit is unreduced and is paid immediately. If the participant has completed less than ten years of service as of the date of disability, the benefit is equal to the disability minimum benefit of \$200 per month.

Service

One year of vesting service is completed for each calendar year during which an employee completes at least 1,000 hours of service. For benefit accrual purposes, a year of service is credited for each calendar year with at least 1,000 hours worked. Partial benefit accrual during plan years in which less than 1,000 hours are worked will be credited according to the following table.

Hours Worked	Percentage of year of benefit service
Less than 250	0%
250 – 499	25%
500 – 749	50%
750 – 999	75%

In addition to receiving credit for service worked at the Upper Big Branch mine, the Plan includes service for time granted by the UMWA 1974 Pension Plan. Because this credit for UMWA service is included, the benefits paid by this plan are reduced by the benefit paid by the UMWA 1974 Pension Plan.

Termination of employment – deferred vested benefit

If a participant terminates employment prior to attainment of age 55 following completion of at least five years of service, the participant is entitled to a vested deferred retirement benefit commencing on normal retirement date equal to the accrued benefit. Alternatively, the participant may elect to receive a benefit commencing as early as age 55 that is actuarially reduced from age 62. The amount of the actuarial reduction is determined according to tables specified by the plan document. This reduction is significantly larger than the 3% per year reduction that applies for a person who retires after age 55 with 10 years of service.

Termination of employment – special deferred vested benefit

If a participant terminates employment after attainment of age 50 and prior to attainment of age 55 after completing 20 or more years of service and is involuntarily terminated because of physical reasons or lay off, the participant is entitled to a vested deferred retirement benefit commencing on normal retirement date equal to the accrued benefit. Alternatively, the participant may elect to receive a benefit commencing upon attainment of age 55 equal to the deferred benefit reduced by 3% for each year by which early retirement precedes the normal retirement age.

Death before retirement – surviving spouse benefit

If a participant is entitled to a deferred benefit at date of death, the surviving spouse will receive, at participant's early retirement date, a benefit computed assuming the participant had terminated on date of death and had elected a 50% joint & survivor option at early retirement date.

Upon the participant's death, the Surviving Spouse Benefit provides a reduced benefit, equal to 75% of the participant's benefit, until the spouse's death. To be eligible for a Surviving Spouse Benefit, the participant must be married for at least the nine-month period immediately prior to death and must satisfy one or the two requirements listed below. If the nine-month requirement is waived for purposes of determining entitlement to widow's or widower's insurance benefits under the Social Security Act, the plan will waive this nine-month requirement.

There are two ways for the participant to qualify to have his spouse receive a Surviving Spouse Benefit upon his death.

1. If, at the time of death, the participant was receiving or was eligible to receive one of the following pensions:
 - Normal retirement pension,
 - Early retirement pension
 - Disability pension,
 - Minimum disability pension, or
 - Deferred vested benefit based on 20 or more years of combined service.
2. If, at the time of death, the participant was not employed by the company and met the following requirements:
 - Age 55 or older,
 - Was not receiving and had not applied for a retirement benefit from the Plan, and
 - Was eligible for a retirement benefit based upon 20 or more years of combined service

Death before retirement – other

If a participant does not satisfy the retirement for a Surviving Spouse benefit and is married and has been married for at least the nine-month period immediately prior to death, has a vested retirement benefit, and dies before payments are due to start, the spouse can begin to receive Survivor Annuity payments from the Plan. The spouse can start receiving payments as early as the day that would have been the participant's early retirement date.

The amount of the benefit that begins at the earliest retirement date is the amount that would have been payable if the participant had terminated employment at date of death, survived to the earliest retirement date, elected a benefit in the form of a joint and 50% survivor annuity with the spouse as beneficiary and then immediately died.

If the participant is single and dies before his benefits are due to start, no benefit payments will be made.

Normal form of benefit

- Straight life annuity – single participant
- Actuarially reduced 50% joint & survivor – married participant

Optional forms

- Joint & last survivor (50% or 75%) annuity
- Straight life annuity

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 5.0% for each year of payment before age 62 unless otherwise provided under special rules (i.e., 75-Point Retirement, 30-Year Retirement, 90-Point Retirement).
Postponed retirement	Monthly pension benefit determined as of the date the Participant terminates employment, without actuarial adjustment for commencement after NRD.
Termination with deferred vested benefit	Monthly pension benefit determined as of termination date, payable at NRD. Participants with ten years of Vesting Service may receive an actuarially reduced benefit at age 55.
Death with pre-retirement spouse benefits	If married, 50% joint and survivor early retirement benefit If Participant dies after attaining age 55 with 10 years of Vesting Service, the benefit is determined as if Participant retired the day before death. If Participant dies before age 55, but with 10 years of Vesting Service, the Accrued Benefit is reduced to Actuarially Equivalent of present value to reflect early commencement, which is the benefit that would have been payable if the Participant terminated employment on the date of death and survived to age 55.
Disability retirement benefit	Monthly pension benefit computed on the basis of Benefit Service, Compensation and Social Security Offset credited as if Participant continued employment until ERD or NRD. Participant may commence benefit after ERD, but benefit is reduced by 5% for each year benefit begins before age 62.

Other Plan Provisions

Forms of payment

Normal form of benefit payment is a single-life annuity if unmarried, or actuarially equivalent 50% QJSA if married.

Optional forms of benefit payment include 100%, 75% or 50% joint and survivor annuity or a lump-sum payment.

Participants in a Predecessor Plan may have other options under the Plan.

Actuarial equivalence (other than lump sum) is based on the UP 1984 Unisex Mortality Table and 6% interest.

Lump sums are based on the UP 1984 Unisex Mortality Table and the interest rate that would be used by the PBGC for determining lump sums on plan termination; but not less than the amount calculated using applicable mortality table and interest rate assumptions under IRC Section 417(e).

Lump sums are available using the same early retirement reductions that apply to monthly annuities (unreduced to age 62) if termination occurs after eligibility for early retirement. Otherwise, lump sums are available as early as age 55 if the participant has 10 years of service (calculated without early retirement subsidy). For participants with less than 10 years of service, lump sums are only available after age 65.

Timing of benefit payments

Benefit payments are assumed to be made uniformly throughout the year and on average at mid-year.

Methods**Valuation date**

First day of plan year

Funding target

Present value of accrued benefits

Decrement Timing

The assumptions used are collectively called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Alpha Metallurgical Resources, Inc.'s and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, the following assumptions were made for missing or apparently inconsistent data elements:

Vesting service was used to estimate accrued benefits for certain terminated vested participants who were determined to be eligible for a benefit.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Interest rates

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are selected by the plan sponsor from among the options prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are selected by the plan sponsor from among the options prescribed by IRC §430(h).

Termination

Assumption based on an experience study conducted in 2022 represents the sponsor's best estimate of future experience. For this reason, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Disability

Assumption represents the plan sponsor's best estimate of future experience.

Retirement

Assumption based on an experience study conducted in 2022 represents the plan sponsor's best estimate of future experience. For this reason, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start immediately unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value. For these reasons, we believe the assumptions selected do not significantly conflict with what would be reasonable.
- Deferred vested benefit
Assumption based on an experience study conducted in 2022 represents the plan sponsor's best estimate of future experience. Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. For these reasons, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Marital Assumptions

- Spouse age and percent married
The assumed age difference for spouses and percentage of participants assumed to be married is based on general population statistics on the age difference for married individuals of retirement age and represents the plan sponsor's best estimate of future experience. For these reasons, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
