Independent Auditor's Report

To the Plan Administrative Committee
AWC, Inc. Employees' Savings Plan
Baton Rouge, Louisiana

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of AWC, Inc. Employees' Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of AWC, Inc. Employees' Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Respectfully submitted,

AWC, INC. EMPLOYEES' SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 1 - Description of Plan -

The following description of the AWC, Inc. Employees' Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of Plan

AWC, Inc. and Subsidiaries (the Companies) have a defined contribution plan covering all employees who have completed three months of service or 1,000 hours worked and attained the age of twenty-one (21). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrative Committee (the Committee) oversees governance of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Effective December 23, 2019, in connection with a conversion of AWC, Inc. common stock accounts of inactive participants into cash, the Plan purchased shares of AWC, Inc. common stock from former employees of the Companies at a cost of \$13,572,819. In connection with the conversion, pursuant to a Redemption Agreement between the Plan and AWC, Inc., the Plan sold approximately 22,367 shares of AWC, Inc. common stock to AWC, Inc. for total cash consideration of \$13,572,819.

Immediately following the redemption, the Plan repurchased 22,367 shares of AWC, Inc. common stock from AWC, Inc. using the proceeds of an exempt loan from AWC, Inc. and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 40 years by employer contributions to the trust fund. As the Plan makes each loan payment, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations and the Plan's provisions. See Note 7 for details of this loan payable.

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated common stock (allocated) and stock not yet allocated to employees (unallocated).

Contributions

Participants may elect to defer a portion of their salaries under Section 401(k) of the Internal Revenue Code, and participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Unless the participant elects otherwise, the Companies automatically enroll eligible employees and withhold three percent of their compensation for each payroll period for their tax-deferred contributions to the Plan. The Companies' discretionary matching contributions to the Plan were 50% of the participant's deferral not to exceed 7.5% of the participant's annual compensation for 2024 and 2023, which totaled \$1,928,290 and \$1,748,100, respectively. In connection with the loan payable discussed in Note 7, the Companies made contributions for each of the years ended December 31, 2024 and 2023 of \$504,256. For the years ended December 31, 2024 and 2023, AWC, Inc. elected to make profit sharing

contributions in AWC, Inc. common stock which totaled \$4,634,044 and \$4,252,616, respectively, which was 9% and 10% of eligible compensation, respectively. The Companies also contributed cash of \$1,617,928 and \$2,095,576 during the years ended December 31, 2024 and 2023, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Companies' contributions and Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based upon participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and profit sharing contributions made prior to January 1, 2004, and the actual earnings on these contributions. Vesting in the Companies' matching contributions and profit sharing contributions made subsequent to January 1, 2004 is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
One Year	0%
Two Years	20%
Three Years	40%
Four Years	60%
Five Years	80%
Six Years	100%

Right of First Refusal

The Plan and the Companies will have the right of first refusal to repurchase the AWC, Inc. common stock if the participant desires to sell such shares.

Voting Rights

The Trustee, as directed by the Committee, shall vote all AWC, Inc. common stock held by it as part of the plan assets. If the Trustee does not timely receive voting directions from a participant or beneficiary with respect to any AWC, Inc. common stock allocated to that participant's or beneficiary's company stock account, the Trustee shall vote such common stock.

Put Option

Under federal income tax regulations, if the AWC, Inc. common stock that is held by the Plan and its participants is not readily tradable on an established market at the time it is distributed to a participant, then the participant will have the right to require the Companies to repurchase such stock under a fair valuation formula in accordance with the Plan provisions. The price at which a put option must be exercised is the value of the stock determined by an independent appraiser as of the valuation date. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments that are more diversified. Participants whose company stock accounts exceed \$500 and who are at least age 55 with 10 or more years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the total number of shares of company stock allocated to the participant's account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a distribution in cash and/or company stock.

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum equal to the lesser of \$50,000 or 50 percent of their total vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, death, disability, or retirement, participants are entitled to receive a lump-sum payment or installment payments equal to the value of their vested account balance. Distributions of the vested amount of the Company's stock account will be made as soon as administratively feasible following the completion of the most recent stock valuation or upon completion of a valuation utilizing an alternate accounting date as determined by the Committee.

The Committee, with approval of the Board of Directors of the Companies, may determine, on an annual basis, in a nondiscriminatory manner, the timing and form in which distributions will be made. The participant's vested ESOP account may be distributed to the participant over a period up to five years or, for larger ESOP account balances, over a period of up to ten years.

Account Segregation

Effective January 1, 2023, the distribution policy was restated to allow for the segregation of Company stock. All shares of Company stock allocated to the account of a participant who terminates employment may be liquidated by the Company over a period of time as determined annually by the Company's Board of Directors at the most recent fair market value of Company stock coinciding with or immediately preceding the liquidation. The liquidated shares will be invested by the trustee in a money market account until the participant elects to take a distribution. For the year ended December 31, 2024, the Company contributed \$1,617,928 to fund the account segregation and approximately 1,036 shares of stock held in terminated participants' accounts, who did not elect immediate distribution, were converted to cash. These shares were recycled to the accounts of participants eligible to share in the recycling and cash was transferred to the segregated investment account.

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are used to reduce future contributions of the Companies and pay administrative fees. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$4,087 and \$9,801, respectively, exclusive of any forfeitures of AWC, Inc. stock. For the year ended December 31, 2024, forfeitures totaling \$87,872 were used to reduce the Companies' matching contributions. For the AWC, Inc. stock, there were no unallocated shares of stock that had been forfeited from non-vested accounts as of December 31, 2024 and 2023. During 2024, approximately 175 shares of stock and \$29,746 in cash from forfeitures were reallocated to participants.

Note 2 - Summary of Accounting Policies -

Basis of Accounting

The financial statements of the Plan are prepared in accordance with the accrual basis of accounting.

The Plan's investments in the pooled separate accounts and the guaranteed interest account are participant directed investments held by Standard Insurance Company. The non-participant directed investments held by TI-Trust, Inc. include the AWC, Inc. common stock and the money market fund. See Notes 5 and 6 for the changes in the AWC, Inc. common stock during 2024. For the money market fund, the significant changes in the fund during 2024 include interest income of \$139,184, contributions of \$2,039,445, release and allocations of \$504,256, and distributions of \$842,430.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2024 and 2023, the Plan has no fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates, and such differences may be material.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Pooled separate accounts are valued at the current quoted market prices (fund NAV) of the underlying investments and the account charges. AWC, Inc. stock is valued by an independent investment firm. Management of the plan sponsor determines the Plan's valuation policies utilizing information provided by the Plan's custodian. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes gains and losses on investments sold during the year, as well as appreciation and depreciation of the investments held at the end of the year. Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2024 and 2023, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Risk and Uncertainties

The Plan provides for various investment options in any combination of selected pooled separate accounts and a guaranteed interest account. These accounts are exposed to various risks, such as interest rate, market, and credit risks. Plan investments also consist of AWC, Inc. common stock, which is exposed to various risks including interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of these accounts will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Companies and are excluded from these financial statements. Fees for certain transactions, such as withdrawals and loan processing, are charged directly to the account of the participant reporting such a transaction and included in administrative expenses. Investment related expenses are included in net appreciation of the investments.

Subsequent Events

The Plan evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 10, 2025, the date the financial statements were available to be issued.

Note 3 - Plan Termination -

Although they have not expressed any intent to do so, AWC, Inc. has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 4 - Tax Status -

The Plan has received a determination letter from the Internal Revenue Service stating that the Plan is qualified under the applicable section of the Internal Revenue Code (IRC) and, therefore, is exempt from taxation. Once qualified, the Plan is required to operate in accordance with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in these financial statements.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations for years prior to 2021.

Note 5 - Fair Value Measurements -

The fair value measurement accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs to the valuation methodology are based on unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are unobservable and are based on assumptions market participants would utilize in pricing the asset.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money Market Fund: Valued based on preserving the net asset value of \$1 with underlying investments in a federated money market fund.

Pooled Separate Accounts: Valued daily as the number of units held by the Plan multiplied by the accumulation unit value (AUV). The AUV is determined based on the quoted market prices (fund NAV) of the underlying investments and the account charges.

AWC, Inc. Common Stock: Valued by an independent third party investment firm using generally accepted valuation methodologies, which include discounted cash flow analysis and selected public companies analysis.

Guaranteed Interest Account: Valued at contract value (which approximates fair value) established by multiplying contributions by an established interest rate, less withdrawals and administrative expenses.

Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Note 9 - Related Party and Party-in-Interest Transactions -

AWC, Inc. Common Stock is not an investment choice for plan participants, however AWC, Inc. Common Stock is included in the Plan assets. The Common Stock held in trust is the result of a transfer from the employee stock ownership plan in a prior year and contributions by the Companies. As of December 31, 2024 and 2023, the Plan held 161,618 and 180,403 shares, respectively. The stock was valued by an independent investment firm for both years presented in these financial statements.

Certain plan investments are held and managed by Standard Insurance Company (Standard) and TI-Trust, Inc. (TI-Trust). Since Standard is the Plan custodian for participants' 401(k) accounts and TI-Trust is the Plan trustee for participants' ESOP accounts, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of the pooled separate accounts, as they are paid through revenue sharing, rather than a direct payment. The Companies also directly pay other fees related to the Plan's operations.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 10 - Delinquent Participant Contributions -

During the year ended December 31, 2024, participant deferrals totaling \$183,834 were not timely remitted to the Plan in accordance with the requirements of the Department of Labor. The contributions were remitted to the Plan upon discovery of the error in 2024.
