Independent Auditor's Report

To the Participants and Plan Administrator of
The Medical and Prescription Drug Plan for Employees of The College of Wooster

Opinion

We have audited the financial statements of The Medical and Prescription Drug Plan for Employees of The College of Wooster (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and benefit obligations for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As disclosed in Note 1 to the financial statements, the Plan merged into The College of Wooster Health and Welfare Benefit Plan, effective January 1, 2025, and as a result, all benefit obligations were transferred out of the Plan on that date. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The Medical and Prescription Drug Plan for Employees of The College of Wooster

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of The Medical and Prescription Drug Plan for Employees of The College of Wooster (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The College of Wooster (the College) is the sponsor of the Plan. The Plan is self-insured and provides health and prescription drug benefits to eligible employees and their dependents. The Plan is administered by the College with claims administration being performed by a designated third-party administrator.

The Plan was funded through a trust that was administered by Educational & Institutional Insurance Administrators, Inc. (EIIA). The Plan and its funding through the related trust were subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective January 1, 2024, the Plan terminated its trust agreement with EIIA and as a result, the College began directly funding the Plan without the use of a trust. Remaining funds from the trust were returned to the College in September 2024.

The Plan merged into the The College of Wooster Health and Welfare Benefit Plan, effective January 1, 2025, and as a result, all benefit obligations were transferred out of the Plan on that date.

Eligibility and Benefits

The Plan provides the benefits described above to eligible employees and their dependents. Participation in the Plan by eligible employees is voluntary. Employees are generally eligible on their date of hire. Certain eligible future and current retired employees hired prior to March 1, 1994 who have not yet reached age 65, and their dependents, are entitled to benefits provided that the retiree has attained at least age 60 and has completed 10 years of service with the College prior to retirement.

Contributions

The costs of the Plan are shared by the College and the Plan's participants. Participating employees contribute a portion of their wages into the Plan through pre-tax payroll deductions. Employee contributions are calculated based on the employee's annual pay. Employees may contribute specified amounts to extend coverage to eligible dependents. Retiree participants, who are pre-age 65, contribute specified amounts to the Plan based on the number of dependents elected for coverage. All participants are required to pay certain deductibles, coinsurance, and copayments.

The College makes contributions to the Plan to fund claims in excess of employee contributions. Any deficiency of the Plan's net assets under benefit obligations is funded by the College on a pay-as-you-go basis.

Stop-Loss Coverage

The Plan has entered into a stop loss insurance arrangement in an effort to limit its exposure for self-insured benefits (individual claims over a specified dollar amount, as well as its aggregate exposure for all claims).

Self-Insured Benefits

The College self-insures the benefits offered by the Plan. The claims for self-insured benefits are processed by the Plan's claims processors. The claims processor pays claims directly to or on behalf of participants and are then reimbursed by the College.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Premiums paid for insurance coverage and benefits paid on behalf of participants are recorded when paid. Amounts due to the claims processors that have yet to be reimbursed by the Plan are recorded as payable to the claims processors in the benefit obligation, as disclosed below.

Expenses

All administrative expenses are paid by the Plan and are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits.

Stop Loss Coverage

Premiums for stop loss insurance are included in premiums paid for insurance coverage in the accompanying Statement of Changes in Net Assets Available for Benefits. There were no stop loss reimbursements in 2024.

Benefit Obligations, Including Postretirement and Claims Incurred but Not Reported

The amounts reported as postretirement benefit obligations represent the actuarial present value of those estimated future benefits attributed by the terms of the Plan to employees' service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from the current plan participants. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired or terminated participants and their beneficiaries and dependents and (2) active participants and their beneficiaries and dependents after retirement. The postretirement benefit obligations represent the amount that is to be funded by contributions from the College, participants and from existing plan assets. Prior to an active participant's full eligibility date, the postretirement benefit obligation includes only amounts attributable to that participant's service rendered through the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an independent actuary and results from applying actuarial assumptions to historical claims data to estimate future annual incurred claim costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

For measurement purposes, a 7.50% weighted average annual rate of increase in the average per capita cost of covered healthcare benefits was assumed for 2025. The rate was assumed to decrease gradually by 0.25% per year until reaching 6.00% in the year 2031 and from there the rate was assumed to decrease gradually by 0.50% per year until reaching 4.50% by the year 2034 and remain at that rate thereafter. These assumptions are consistent with those used to measure the benefit obligation at December 31, 2023.

The Medical and Prescription Drug Plan for Employees of The College of Wooster

Notes to Financial Statements

December 31, 2024 and 2023

The weighted average health care cost-trend rate assumption has a significant effect on the amounts reported as post-retirement benefit obligations. If the assumed rates increased by one percentage point in each year, it would increase the obligation by approximately \$0.4 million and \$1.6 million as of December 31, 2024 and 2023, respectively.

Other significant assumptions used to determine the Plan's benefit obligations as of December 31, 2024 and 2023 are as follows:

Discount rate	5.56% in 2024 and 5.01% in 2023
Mortality	Private-2012 separate amount weighted employee, retiree, and surviving beneficiary generation mortality table, projected using scale MP-2021
Retirement age	Graded by age from 60 to 70 and over

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the postretirement benefit obligation.

During 2024, due to various changes in actuarial assumptions, including changes in the discount rate for benefit obligations, postretirement benefit obligations decreased by approximately \$0.5 million.

The Plan's obligation for claims incurred but not reported is estimated based on claims data subsequent to the financial statement date provided by the Plan's third-party claims administrators. The estimate also takes into consideration prior claims experience and the expected time period from the date such claims are incurred to the date that the related claims are submitted and paid. This amount is paid by the Plan only if claims are submitted and approved for payment.

In connection with the plan merger disclosed in Note 1, total benefit obligations of approximately \$5.2 million were transferred to The College of Wooster Health and Welfare Benefit Plan, effective January 1, 2025.

Investment Valuation and Income Recognition

The Plan's investment was reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis.

Subsequent Events

Subsequent events were evaluated through October 13, 2025, the date the financial statements were available to be issued.

The Medical and Prescription Drug Plan for Employees of The College of Wooster

Notes to Financial Statements

December 31, 2024 and 2023

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Interest-bearing cash: This investment is stated at cost, which approximates fair value.

The Plan held no assets measured at fair value as of December 31, 2024. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023.

Assets at Fair Value as of December 31, 2023	Level 1	Level 2	Level 3	Total
Interest-bearing cash	\$ 23,182	\$ -	\$ -	\$ 23,182
Total investments at fair value	\$ 23,182	\$ -	\$ -	\$ 23,182

4. Related-Party and Party in Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the College. No such officer or employee receives compensation from the Plan.

The Medical and Prescription Drug Plan for Employees of The College of Wooster

Notes to Financial Statements

December 31, 2024 and 2023

5. Tax Status

Prior to the termination of the Plan's trust agreement as disclosed in Note 1, the trust that was established to hold the Plan's assets as a welfare benefit fund was defined under Section 419(e) of the Internal Revenue Code (IRC). The plan administrator believed that the trust was designed and operated in accordance with applicable provisions of the IRC. Under Section 419(e), the trust's realized investment income was not exempt from income taxes. The amount of taxes that would be due was not significant with respect to the College.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2023, to Form 5500:

Net assets available for benefits per the financial statements	\$ 23,182
Benefit obligations	(824,522)
Net assets available for benefits per Form 5500	\$ (801,340)

The following is a reconciliation of the net decrease per the financial statements for the year ended December 31, 2024 to Form 5500:

Net decrease per the financial statements	\$ 23,182
Add amounts currently payable at end of year	1,613,781
Less amounts currently payable at beginning of year	(824,522)
Net loss per Form 5500	\$ 812,441

Claims and premiums that have been processed and approved for payment at year-end, but not paid and claims incurred but not reported are not considered liabilities under GAAP and, therefore, are not presented as liabilities or claims and premiums paid in the accompanying financial statements but are recorded on the Form 5500 as a liability.
