Report of Independent Auditors

To the Administrator of Eileen Fisher, Inc. Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Eileen Fisher, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2024 and 2023

1. Plan Description

The following description of the Eileen Fisher, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Plan is an employee stock ownership plan covering all eligible employees of Eileen Fisher, Inc. (the Company and Plan Sponsor). The Plan, established effective January 1, 2005 and amended effective January 1, 2014 and January 1, 2016, is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company appointed TI-Trust, Inc. (the "Trustee") as trustee for all assets held under the Plan. On August 11, 2006, a trust established in connection with the Plan (the Trust), purchased 310,000 shares of the Company's Series C convertible preferred stock, with cumulative annual dividends of 6% per annum, from the shareholder of the Company, at a price of \$96.77 per share for an aggregate purchase price of \$30,000,000.

The Plan purchased Company Series C convertible preferred shares using the proceeds of borrowings from a commercial bank and holds the stock in the Trust. As the Plan made each payment of principal, a percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC and the Plan. The borrowings were repaid in full in 2012. On December 31, 2012, the Plan purchased 15,000 shares of Series B common stock directly from the majority shareholder at a price of \$132.00 per share for an aggregate purchase price of \$1,980,000. On December 31, 2012, the Plan converted all 310,000 Series C convertible preferred stock with a total par value of \$310 to 310,000 Series B common stock with a total par value of \$310.

On December 21, 2013, the Plan purchased 40,000 shares of Series B common stock directly from the majority shareholder at a price of \$155.00 per share for an aggregate purchase price of \$6,200,000.

On December 31, 2014, the Plan purchased 40,000 shares of Series B common stock directly from the majority shareholder at a price of \$110.00 per share for an aggregate purchase price of \$4,400,000.

At both December 31, 2024 and 2023, the Plan's investments included a total of 405,000 shares of Eileen Fisher, Inc. Series B Common Stock.

Eligibility

Employees of the Company are eligible to participate in the Plan after completing 1,000 hours of service within their first full 12 months of employment, have attained the age of 21 during such plan year, and are not covered by a collective bargaining agreement.

Eileen Fisher, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Payment of Benefits

Distributions are payable to participants or their beneficiaries upon death, disability, separation of service or retirement. Distributions of account balances of \$1,000 or less will be made in a lump sum and consent is not required. The Plan is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. In December 2024, the Plan repurchased 42,063 shares from participants at prices determined by an independent appraisal. Distributions for separation of service commence in the fifth year following the separation and are made in five annual installments. Distributions are generally made in cash.

Voting Rights

The participant or the participant's beneficiary will be entitled to direct the Trustee as to the manner in which voting rights are exercised on shares of stock held by the Plan, that are allocated to the participant's account, (i) with respect to any corporate matter that involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction, and (ii) with respect to all corporate matters if, at the time of the vote thereon, the Company stock is or should be registered under the Securities Exchange Act of 1934.

Plan Termination

The Company reserves the right to discontinue its contributions and terminate the Plan at any time, subject to the Plan's provisions. Upon such termination of the Plan, the interest of each participant in the Trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Company shall direct the distribution of the assets of the Plan in accordance with the provisions of the Plan agreement.

Administrative Expenses

As provided in the Plan agreement, Plan expenses may be paid by either the Plan or by the Company. All expenses of maintaining the Plan have historically been paid by the Company.

Employer Contributions

The Company may make voluntary contributions in cash to the Plan. Employee contributions are not permitted.

Participant Accounts, Allocations and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each year with an allocation of shares of the Company's Series B common stock, forfeitures of terminated participants' nonvested accounts and dividends. Only those participants who are eligible employees of the Company as of the last day of the year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Employer contributions, Plan earnings and forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Dividends on shares repurchased by the Plan resulting from benefits paid to participants, were also allocated to each participant's account, based upon the relation of the participant's eligible compensation to total compensation for the year ended December 31, 2024, at the Company's discretion as an additional benefit to participants.

Notes to Financial Statements

December 31, 2024 and 2023

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, the vested portion of any participant's account shall be a percentage of the total amount credited to his or her account determined on the basis of the participant's number of years of service according to the following schedule:

Years of Service	Vesting Percentage
Less than two	0 %
Two	25 %
Three	50 %
Four	75 %
Five	100 %

Put Option

As required under federal income tax regulations, the stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations and, therefore, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants which are not readily tradable on established securities markets. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments, which are more diversified. Participants who are at least age 55 and have completed ten years of active participation in the Plan following the effective date of January 1, 2005, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of their cumulative stock account balance less amounts previously diversified. In the sixth year, the percentage changes to 50% less amounts previously diversified. Participants who elect to diversify receive a cash distribution. The Trustee may offer alternative investments under another qualified plan maintained by the Company in lieu of distributing cash directly to the participant. For the year ended December 31, 2024 the cash distributions related to diversifications were \$338,033.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining eligible participants totaled 1,187 shares for the year ended December 31, 2024.

2. Summary of Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with the accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments in Company stock and money market funds are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Note 5 for discussion of fair value measurements.

S Corporation distributions are classified as dividend income on these financial statements and accrued on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments is computed based on the fair value of assets at the end of the plan year over the fair value of assets at the beginning of the plan year. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid to participants.

3. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 24, 2015. This letter approved the Plan as qualified under IRC Section 401(a) and an Employee Stock Ownership Plan (ESOP) under IRC Section 4975(e) (7). The Company's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Company's management believes that the Plan is qualified and the related Trust is generally tax-exempt. Further, the Plan holds only qualifying employer securities and a money market fund. Therefore, the Company's management has concluded that the Plan owes no tax on the S Corporation taxable income attributed to the Plan's holdings consistent with IRC Section 512(e)(3).

The Company's management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan Administrator believes that, with few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for years before 2019.

4. Administration of Plan Assets

The Plan's assets, which consist principally of Eileen Fisher, Inc. Series B common shares, are held by the Trustee.

Company contributions are held and managed by a third-party administrator, FuturePlan, (the "TPA"). The TPA administers contributions as determined by the Company. The TPA also invests cash received and makes distributions to former participants of the Plan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.

5. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

All transfers between fair value hierarchy levels are recognized by the Plan at the end of each reporting period. There were no transfers between Levels 1, 2 and 3 during the year.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

December 31, 2024 and 2023

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Series B Common Stock

The fair value of the Eileen Fisher, Inc. Series B common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal methodology uses a combination of market and income valuation techniques. In applying the valuation approach, the appraiser considered historical and discounted cash flow and net income, return on assets, return on equity, market comparables and fair value of Company assets and liabilities. The share price value of the Eileen Fisher, Inc. Series B common stock was \$57.51 and \$61.99 at December 31, 2024 and 2023, respectively.

Money Market Funds

The investment in the money market fund is valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at the end of the Plan year. The money market fund is classified as a Level 1 investment as the fund's share price has a readily determinable fair value and it is published on the exchange for public knowledge.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

6. Risks and Uncertainties

The Plan investments consist primarily of the Company's series B common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. Related Party and Parties-in-Interest Transactions

The Plan invests in Company's Series B common stock. Transactions involving the Company common stock are related party and a party-in-interest transactions. As described in Note 1, all expenses of maintaining the Plan have been paid by the Company. The Plan has a number of service providers, such providers are parties-in-interest under ERISA. In addition, pursuant to ERISA Sections 3(14)(A), (C) and (H), the Company, as sponsor of the Plan, the owner of the Company stock not owned by the Plan and the Trustees of the Plan are considered to be parties-in-interest of the Plan.

8. Subsequent Events

The Plan's management has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued. No additional subsequent events that would require disclosure in these financial statements have been noted as of this date.
