INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of
Saint John's School 1165(e) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Saint John's School 1165(e) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements – (continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Other Matters - Supplemental Schedule Required by ERISA – (continued)

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of plan

The following description of the Saint John's School 1165(e) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in September 1, 1996, as a defined contribution plan, covering substantially all employees of Saint John's School Inc. (the Company or the Plan Sponsor) who have completed 1 year of service and are age 21 or older, pursuant to the Popular Master Defined Contribution Retirement Plan document. Effective January 1, 2014, the Plan Sponsor adopted the Popular Master Defined Contribution Retirement Plan Master Trust (the Master Trust) managed by Banco Popular de Puerto Rico (the Trustee).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Puerto Rico Internal Revenue Code (the Code).

Contributions

Participants may contribute a percentage of their compensation, as defined in the Plan, not exceeding the maximum deferral amount specified by local law. The Company matches participants' contributions at the rate of one dollar for each dollar of participant's pre-tax contribution, up to a maximum of 3% of compensation for participants with 9 years of service or less, and 5% of compensation for participants with 10 or more years of service.

Participants who have attained age 50 before the end of a Plan year are eligible to make catch-up contributions of \$1,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions).

Participants direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for its participants.

Participants accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the participant's share of the Plan's earnings or losses. Allocations of income or losses are based on the proportion that each participant's account balance bears to the total of all participants' account balances. The benefit to which a participant is entitled upon termination of employment is the vested portion of the amount accumulated in the participant's account.

Note 1 - Description of plan – (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service.

A participant is fully vested in the Company's contributions after five years of credited service, as follows:

<u>Completed Years of Service</u>	<u>Vested Percentage</u>
Less than 2 full years	20%
2 years less than 3	40%
3 years less than 4	60%
4 years less than 5	80%
5 years or more	100%

Notes receivable from participants

Notes receivable from participants are not permitted.

Payment of benefits

On termination of service due to death, disability or retirement, a participant or the participant's beneficiaries may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum amount or periodic installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

In addition, the Plan provides for in-service distributions in certain circumstances, including financial hardship withdrawals, subject to certain limitations. Also, in-service distributions may be available to participants as special disaster distributions, as determined by the Puerto Rico Treasury Department.

Note 1 - Description of plan – (continued)

Forfeitures

Upon termination from employment or withdrawal from the Plan for any reason other than death, retirement or disability, the Company's contributions on behalf of the participants not then vested are forfeited and used to reduce future Company contributions or to pay for Plan expenses. At December 31, 2024 and 2023, forfeited non-vested accounts amounted to \$12,226 and \$10,039, respectively.

Administrative expenses

Administrative expenses are paid by the Company. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their account balances.

Note 2 - Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments consist of its interest in the Master Trust, which is reported at fair value, except for the investment in a collective trust fund. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Notes to Financial Statements – (Continued)

December 31, 2024 and 2023

Note 2 - Summary of significant accounting policies – (continued)

Investment valuation and income recognition – (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits payable

The Plan accounts for benefits payable in accordance with guidance provided by the American Institute of Certified Public Accountants (AICPA), *Audit and Accounting Guide, Audits of Employee Benefit Plans*. This guidance requires that benefits payable to persons who have withdrawn from participation in a defined contribution plan be disclosed in the notes to the financial statements rather than recorded as a liability of the Plan. Benefits payable as of December 31, 2023 amounted to \$6,000. There were no benefits payable as of December 31, 2024.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform them with the current year presentation.

Note 3 - Certified investments information

Certain information in the accompanying financial statements and ERISA required supplemental schedule, related to investments held as of December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Banco Popular de Puerto Rico, a qualified institution.

Saint John's School 1165 (e) Plan

Notes to Financial Statements – (Continued)

December 31, 2024 and 2023

Note 4 - Interest in the Master Trust

The Plan's investment consists of its interest in the Master Trust, which was established for the investment of the assets of plans sponsored by those single employers or groups of employers under common control that execute the corresponding adoption agreement. The Plan has a divided interest in the Master Trust. The assets of the Master Trust are held by the Trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's specific interest in the Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the Master Trust is allocated to the Plan based upon the specific investments comprising the Plan's interest in the Master Trust.

Note 5 - Fair value measurements

Financial Accounting Standards Board, Accounting Standards Codification (ASC) No. 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Saint John's School 1165 (e) Plan

Notes to Financial Statements – (Continued)

December 31, 2024 and 2023

Note 5 - Fair value measurements – (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's interest in the Master Trust that is measured at fair value consists of shares of mutual funds that are valued at the net asset value of the specific shares corresponding to the Plan at year end and money market funds and deposits that are valued at cost, plus accrued interest, which approximates fair value. Such mutual funds and money market funds and deposits are classified as Level 1.

The preceding valuation methods may result in fair values that may not be indicative of net realizable values. The use of different methodologies or assumptions to determine the fair value of certain investments could have resulted in different fair value measurements at the reporting date.

The Plan management believes such valuation methods are appropriate and consistent with other market participants. There were no changes in the Plan's valuation methodologies used at December 31, 2024 and 2023.

Note 6 - Party-in interest transactions

Certain Plan investments are managed by the Trustee; therefore, these transactions qualify as party in interest transactions.

Note 7 - Tax status

The Plan constitutes a qualified plan, exempt from income taxes under the provisions of the Code. The Plan obtained a favorable determination letter on June 26, 2015, in which the Commonwealth of Puerto Rico tax authorities stated that the Plan was in compliance with the applicable requirements of the Code.

Notes to Financial Statements – (Continued)

December 31, 2024 and 2023

Note 7 - Tax status – (continued)

The Plan has been amended since receiving its determination letter, however, the Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Code and the Plan and related trust continue to be tax-exempt.

Management has evaluated the tax positions taken by the Plan and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that will require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements.

Note 8 - Subsequent events

The Plan has evaluated subsequent events through October 10, 2025, which is the date the financial statements were available to be issued. No events have occurred subsequent to the statement of net assets available for benefits date and through the date the financial statements were available to be issued, that would require additional adjustments to, or disclosure in, the financial statements.
