Independent Auditor's Report

To The Health System Benefits Committee
St. Luke's Health System Performance Incentive and 401(a) Matching Plan
Boise, Idaho

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of St. Luke's Health System Performance Incentive and 401(a) Matching Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

St. Luke's Health System Performance Incentive and 401(a) Matching Plan

Notes to Financial Statements
December 31, 2024 and 2023

Note 1 - Description of Plan

The following brief description of the St. Luke's Health System Performance Incentive and 401(a) Matching Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of St. Luke's Health System (the Employer and Plan Administrator). The Health System Benefits Committee (the Committee) oversees the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, (ERISA).

The Health System Investment Subcommittee oversees the appropriateness of the Plan's investment offerings, and monitors investment performance.

Eligibility

Employees of St. Luke's Health System are eligible to receive matching contributions if they have elected to participate in the Matched 403(b) Plan, a separate benefit plan (the Matched Plan). Employees are eligible to receive Performance Incentive contributions after reaching the age of 18. Additionally, each employee will be eligible to receive a contribution in the Performance Incentive portion of the Plan upon completion of 1,000 hours, however they must also remain employed on the last day of the year unless service is terminated due to death or disability.

Entry Date

Employees may enter the matching portion of the Plan at any time upon election to participate in the Matched Plan. Employees may enter the Performance Incentive portion of the Plan on the later of (i) the date he attains age 18 or (ii) his employment or re-employment commencement date.

Contributions

The Plan provides for the Employer to make discretionary annual contributions to a participant's account equal to the eligible salary multiplied by a percentage based on length of service using permitted disparity.

St. Luke's Health System Performance Incentive and 401(a) Matching Plan

Notes to Financial Statements
December 31, 2024 and 2023

During the years ended December 31, 2024 and 2023, contribution percentages were as follows:

<u>Amount</u>	<u>Years</u>
1.00%	0-5 years
2.00%	6-10 years
3.00%	11-15 years
4.00%	16+ years

Additionally, the Plan provides for the Employer to make a matching contribution to a participant's account equal to the lesser of 3% of the participant's total salary or 50% of the employee's individual contribution to the Matched Plan. Amounts contributed pursuant to the Plan are not taxable to the participants until distributed to the participants.

Participant Accounts

Pursuant to the Plan document, three accounts may be established for each participant within this Plan:

1. Performance Incentive Account – accumulates the Employer Performance Incentive
2. Matching Contribution Account – accumulates the Employer Matching contribution
3. Rollover Contribution Account (prior to transfer to Fidelity) – accumulates the Rollover contributions from other qualified plans

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the Employer's matching contribution and allocations of the Employer's Performance Incentive contributions and Plan earnings and charged with withdrawals and an allocation of Plan losses and administrative expenses. Dividends, interest, and net appreciation of investments on the Performance Incentive, Matching Contribution, and Rollover Contribution Accounts are allocated to the participants on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants who are not participating in the St. Luke's Health System Basic Pension Plan, may direct the investment of their Performance Incentive Account in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting and Forfeitures

Participants are vested immediately in their Match contribution and Rollover contributions, plus actual earnings thereon. Effective January 1, 2020, participants are immediately vested in the Employer's Performance Incentive portion of their accounts, plus actual earnings thereon. Forfeited balances of terminated non-vested participants are used to reduce future Employer contributions. During the years ended December 31, 2024 and 2023, \$107,083 and \$259,857, respectively, of the forfeited balances was used to offset the Employer's contribution and contribution receivable after which the forfeitures balance at the end of December 31, 2024 and 2023, was \$314,342 and \$138,317, respectively.

St. Luke's Health System Performance Incentive and 401(a) Matching Plan

Notes to Financial Statements
December 31, 2024 and 2023

Notes Receivable from Participants

Participants may, in accordance with the terms of the Plan, borrow against their Rollover Contribution Account, subject to statutory limitations. Such borrowings do not constitute a withdrawal from the Plan. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of a) 50% of the participant's total vested account balance in their account, or b) \$50,000 reduced by the highest note balance (including accrued interest) outstanding in all plans sponsored by the Employer in the twelve months prior to the date of the note. A participant may have no more than two notes from any Plan outstanding at any time.

Notes to participants are made at a reasonable rate of interest as determined by the Plan Administrator and shall be secured by the balance remaining in the Participant's Rollover Contribution Account and by such other security as deemed to be adequate pursuant to the applicable Treasury Regulations and Department of Labor guidelines. Note terms range from 1-5 years or up to 15 years for the purchase of a primary residence at interest rates of 3.93% to 9.50%. Principal and interest are paid ratably through payroll deductions.

Policy Loans

Participants investing through VALIC (Variable Annuity Life Insurance Company) were able to use their vested balance to collateralize loans directly from VALIC outside the Plan prior to the transfer to Fidelity. The balances of these policy loans are not paid through payroll deductions and are not included in the Plan assets. However, upon commencement of the loan, an amount equal to the principal amount loaned by VALIC is transferred from the participant's investment account to the Loan Collateral Fund and Loan Escrow Fund. These Funds are fixed income investments that earn a stated rate of interest that is allocated to the individual participant. As payments are made to VALIC outside the Plan, the collateral is released from the Loan Collateral and Loan Escrow Funds and reinvested according to participant elections for contributions. A policy loan is considered to be in default when no payments are made within 90 days after the due date of the payment. Upon default, VALIC will foreclose on the loan and remove the collateral from the Plan if the participant has a right to a current distribution. If the participant is not eligible for a current distribution, the collateral will remain in the Plan until the loan is paid in full or the participant becomes eligible for a distribution.

Payment of Benefits

Participants may elect to receive a distribution, including partial payments or substantially equal installment payments from all accounts upon retirement, termination, death, or disability. In addition, participants who are not part of the Basic Pension Plan may request an in-service distribution from any account upon attainment of age 59 ½. Participants with accounts at VALIC may elect to annuitize their account balance upon termination. Participant Rollover Account balances may be distributed at any time. A terminated employee with a balance of less than \$1,000 may be automatically paid out by the Plan upon termination.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. In the event the Plan is terminated, affected participants would become 100% vested in their Employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contracts (guaranteed interest accounts and fixed interest accounts) which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported above and in the statements of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Contributions

Employer contributions are recorded in the year in which participant contributions to the Matched Plan are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Employer, as provided by the Plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan Administrator has evaluated subsequent events through October 10, 2025, the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

December 31, 2024 and 2023

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds (including money market mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-Directed Brokerage Accounts: Account primarily consists of mutual funds. Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price and are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets outside at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Money Market Mutual Fund	\$ 494	\$ -	\$ -	\$ 494

Note 4 - Certified Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended was obtained by management and agreed to or derived from information certified as complete and accurate by VALIC and Fidelity Management Trust Company (the custodians of the Plan).

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan Administrator by a letter dated September 18, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of this determination letter, the Plan was amended. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and, therefore believe the Plan is qualified and related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Investment Contracts with Insurance Company

The Plan has benefit-responsive investment contracts with VALIC. VALIC maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the contracts are fully benefit-responsive, contract value is the relevant measurement for that portion of the net assets available for benefits attributable to the contracts. Contract value, as reported to the Plan by VALIC, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the investment contracts with VALIC at December 31, 2024 and 2023, was \$70,841 and \$75,748, respectively.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The VALIC annuity platform currently has a fixed rate option guarantee of 1% to 3% based on the date participants enter their individual contract. VALIC declares a "current" interest rate at the beginning of each month applicable to contributions received during that month. The current rate declared is guaranteed until the end of that calendar year for contributions received that month. It is VALIC's intent to continue to credit interest at that same rate for such contributions for an additional calendar year. At the beginning of the third calendar year, such contributions will earn interest at a new declared pool rate. This rate is established January 1 of each calendar year and guaranteed for that entire calendar year. The contractually guaranteed minimum interest rate is applicable for the lifetime of the contract. Short-term fixed crediting rates are established on a portfolio basis, whereby all deposits in the option receive the same crediting rate, regardless of initial date of deposit.

Notes to Financial Statements
December 31, 2024 and 2023

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Plan has a benefit-responsive investment contract with New York Life Insurance Company (New York Life). New York Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Because the contract is fully benefit-responsive, contract value is the relevant measurement for that portion of the net assets available for benefits attributable to the contract. Contract value, as reported to the Plan by New York Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the investment contract with New York Life at December 31, 2024 and 2023, was \$15,094,865 and \$14,720,330, respectively.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The New York Life Guaranteed Interest Account has two kinds of guaranteed interest rates:

- Minimum guaranteed interest rate: as provided in the contract, the minimum guaranteed interest rate on the account is 1%.
- Floor interest rate: a rate that is not less than 1% and determined by using the six-month average of the five-year Constant Maturity Treasury Rate as reported by the Federal Reserve for June through November (for each Rate Reset Period beginning January 1st) and December through May (for each Rate Reset Period beginning July 1st), rounded to the nearest one-twentieth of one percent (.05%), minus 1.25%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include: (1) an uncured violation of the Plan's investment guidelines (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments consist of insurance company general accounts, fixed interest accounts, mutual funds, and notes receivable from participants managed by VALIC and Fidelity, the custodians of the Plan as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
