Independent Auditor's Report

The Plan Administrator
The Arc New York Affiliated Employers 403(b) Plan
Latham, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of The Arc New York Affiliated Employers 403(b) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records of certain participating employers were maintained at a contract, not a plan, level prior to participating in the Plan; therefore, management has not maintained, and certain previous vendors of certain participating employers' plans did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H (Form 5500), Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Arc New York Affiliated Employers 403(b) Plan (the Plan) is provided for general information purposes only. Participants should refer to the comprehensive Plan document for a complete description of the Plan's provisions.

General

The Plan was adopted effective December 1, 2020 by NYSARC, Inc. D/B/A The Arc New York, the sponsor of the Plan and its unincorporated operating divisions, who are defined as participating chapters or employers (the Employer). The Plan is a contributory defined contribution plan covering all eligible employees of the Employer. Eligibility requirements are defined by the participating employers' separate participation agreements for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Trustee and Administration of the Plan

The trustee and recordkeeper of the Plan is AIG Federal Savings Bank (AIG or trustee). The administrator of the Plan is the Employer. The trustee holds the assets of the Plan in accordance with the service provider contract with the Employer. Certain participating employers hold assets with other custodians, including Voya Retirement Insurance and Annuity Company (VOYA), Mutual of America Life Insurance Company (MOA), TIAA and CREF (TIAA), Equitable Financial Life Insurance Company (Equitable), Fidelity Management Trust Company (Fidelity), Metropolitan Life Insurance Company (Metropolitan), and Brighthouse Life Insurance Company (Brighthouse), of which the net assets are consolidated into the Plan. The Fiduciary Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

The Plan allows for elective deferrals, discretionary employer matching contributions, and discretionary employer contributions, as defined in the Plan document and the participating employers' separate participation agreements for the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of net Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which participants are entitled is the vested portion of their accounts.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

Vesting

Participants are 100% vested in their individual deferral and rollover contributions and the allocated earnings thereon. Participants should refer to the Plan document and participating employers' participation agreement for a more complete description of the Plan's vesting provisions.

Participants become fully vested in the event of death, total disability, or Plan termination.

Payment of Benefits

A participant's entire interest in the Plan is payable upon death, attainment of normal retirement age, becoming disabled, as defined, or termination of service. A participant may elect to receive a lump-sum amount, receive installment payments equal to the vested portion of the participant's account, leave the account in the Plan, or roll over the vested balance to another qualified retirement plan or individual retirement account.

Lump-sum distributions are to be made to terminated participants if the participant's vested account balance is less than \$5,000. For terminated participants with vested balances less than \$5,000, their vested balance will be rolled into an individual retirement plan unless otherwise elected.

Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. Participants may also withdraw an amount at age 59½ if certain criteria are met.

Forfeitures

At December 31, 2024 and 2023, forfeited non-vested accounts totaled approximately \$441,000 and \$179,000, respectively. These accounts may be used to pay administrative expenses and reduce future employer contributions. Approximately \$153,000 of the forfeited funds were used to fund employer contributions in 2024.

Notes Receivable from Participants

Participants are permitted to borrow a minimum of \$1,000 of their vested benefits under the Plan. Participants may borrow up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000, reduced by the highest outstanding loan balance in their account during the prior 12-month period. Loans are secured by the participant's account and bear an interest rate at prime rate plus 1% and are fixed for the term of the loan. The notes are repaid ratably over a period of five years or less, unless used to purchase a principal residence, of which the notes are repaid over a period of 15 years or less. These loans are subject to certain restrictions as defined by the Plan document and applicable restrictions under the Internal Revenue Code (IRC). Also, each participant may not have more than two loans outstanding at any time.

Contract Loans

Under certain of the participating employers' previous plans, participants may borrow directly from the recordkeeper, using a portion of their Plan account as security for the loan. Such loans are subject to certain limitations and are not made from Plan assets and, therefore, are not recorded as a receivable on the statements of net assets available for benefits.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

Participants receiving such loans are required to pledge as collateral an annuity account value of 110% of the loan amount for the period of time the loan is outstanding. Loan balances outstanding from the recordkeeper to the Plan's participants were approximately \$164,000 and \$189,000 for the years ended December 31, 2024 and 2023, respectively. As such, approximately \$180,000 and \$208,000 for the years ended December 31, 2024 and 2023, respectively, of annuity account values serve as collateral for the related loans.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts that are stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employer determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Contributions Receivable

Participant contributions and any related employer matching contributions are recognized in the period during which the Employer makes the respective payroll deduction from the participant's compensation. Discretionary employer contributions are recorded in the relevant period in accordance with the terms in the Plan document.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued but unpaid interest is de minimis. No allowance for credit losses had been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Employer, except for certain expenses that are charged to participant accounts, including loan and Plan administrative fees. Certain investment expenses, which are charged within investments, are presented net of the appreciation in fair value of investments. All other expenses of the Plan for the year ended December 31, 2024 were paid by the Employer and are excluded from these financial statements.

3. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, VALIC Trust Company, Inc., Variable Annuity Life Insurance Company, VOYA, MOA, Equitable, Fidelity, Metropolitan, Brighthouse, and TIAA, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Investment income, net, and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investment information included in the Schedule of Assets (Held at End of Year) as of December 31, 2024, as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedules.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds - These assets are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Interest Contracts - The Plan invests in guaranteed interest contracts, which guarantee the participants' principal and a minimum interest rate. The contracts are valued at fair value, which approximates contract value. Contributions are maintained in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As the agreement with respect to these contracts specifies potential restrictions on certain transfers and withdrawals, the contracts are not considered fully benefit responsive. The investments are included in the financial statements at fair value, which approximates contract value.

Guaranteed Annuity Contracts - The Plan's guaranteed annuity contracts are comprised of the TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract, or Retirement Annuity, which is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract is reported at fair value using a discounted cash flow method, which is approximated by contract value. The TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract is not available for sale or transfer on any securities exchange. When the contract value accumulation of the TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract is converted to an annuity (plan withdrawal), participants may transfer their accumulation to a CREF account or to the Real Estate Account (REA) over a ten-year period. Participants cannot withdraw or transfer their TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract accumulation in a lump sum. When a participant's accumulation in the TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

accumulated balance, and the entire amount is recorded within benefits paid to participants in the statement of changes in net assets available for benefits.

Variable Annuity Contracts - The Plan's variable annuity contracts are comprised of both CREF and TIAA Access variable annuity contract assets. CREF variable annuity contract assets are generally valued using market quotations or prices obtained from independent pricing services, except those CREF money market fund contract assets valued at amortized cost. The values of the CREF variable annuity contracts are published on NASDAQ but are not publicly traded. The NAV is used as a practical expedient to estimate fair value. Each fund determines its share price or NAV each day calculated generally as of 4 p.m. (ET). The investment objective of the CREF variable annuity contracts is to have favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio. The CREF variable annuity contracts invest in various securities with value, growth, blended, and fixed-income strategies. The CREF money market fund is managed to maintain a constant, though not guaranteed, value of \$1 per share. There are no restrictions as to the redemptions of these investments and no unfunded commitments.

The value of the TIAA Access variable annuity contracts is determined at the close of each business day at NAV and based on the fair value of the underlying investments. The underlying investments in the variable annuity contracts are invested in registered investment companies, which are valued at quoted market prices in an exchange and active market. The NAV, as provided by TIAA, is used as a practical expedient to estimate fair value. There are no restrictions on the trading or withdrawals of these investments.

Pooled Separate Accounts - The Plan's pooled separate accounts are comprised of the TIAA REA, TIAA Stable Value Fund, and various pooled separate accounts held by Brighthouse, Equitable, Metropolitan, Variable Annuity Life Insurance Company, VOYA, and MOA. The REA generally invests in real estate properties and real estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally reported using values obtained from independent pricing sources. The Plan's investment in the account is valued using a unit value determined daily by TIAA based on the value of the underlying investments and other factors. The value of the REA is published on NASDAQ but is not publicly traded. The NAV is used as a practical expedient to estimate fair value. There are no unfunded commitments. Transfers out of the REA can be executed on any business day but are limited to once per every 90 days.

The TIAA Stable Value Fund invests primarily in fully benefit-responsive investment contracts. The stable value fund is valued at the NAV, which is based on the fair value of the underlying investments less its liabilities. The NAV is used as a practical expedient to estimate fair value, which approximates contract value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Transfers may be made to a competing fund following a 90-day waiting period after being transferred to a noncompeting fund. Transfers into the TIAA Stable Value Fund may not be made for 30 days following a transfer out. If the Plan should terminate its investments in the TIAA Stable Value Fund, contract value will be received in, at most, two years. If the two-year payout applies, a discontinuance fee will be assessed, which has the effect of reducing the interest credited during the two-year period by, at most, 75 basis points. There are no unfunded commitments related to this investment.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

The value of the Brighthouse, Equitable, Variable Annuity Life Insurance Company, VOYA, and MOA pooled separate accounts is measured by the accumulated unit value, which is determined daily based on the NAV of shares of the underlying funds and the separate account charges. The Plan's investments in the separate accounts may be redeemed daily. There are no redemption fees or notice periods and no unfunded commitments. The underlying funds of the investments in pooled separate accounts are various registered investment companies whose investment strategies are to seek capital appreciation through investment in common and preferred stocks and debt securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

December 31, 2024

TIAA Traditional Non-Benefit Responsive Guaranteed Annuity Contract	\$ 19,135,065	Discounted Cash Flow/Theoretical Transfer (Exit Value)	Risk-adjusted discount rate applied	4.00-6.75

During 2024 and 2023, total purchases of the non-benefit responsive investment contracts were \$2,583,505 and \$938,832, respectively, and total sales of the non-benefit responsive investment contracts were \$4,241,628 and \$2,579,937, respectively.

5. Investment Contracts

The Plan has benefit-responsive investment contracts with Variable Annuity Life Insurance Company, TIAA, VOYA, and MOA. Contributions are maintained in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Certain events limit the ability of the Plan to transact at contract value with Variable Annuity Life Insurance Company. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary), which cause a significant withdrawal from the Plan; (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; or (v) premature termination of the contract.

The Plan Sponsor does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

6. Related Party and Party-in-Interest Transactions

Certain Plan investments are in funds and accounts that are managed by the trustee and custodians. Participant loan-processing fees are paid to AIG by participants. The Plan paid for third-party administrator fees, which qualify as party-in-interest transactions. The Plan also issues loans to participants that are secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

7. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

8. Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

9. Income Tax Status

The Plan uses a volume-submitter plan from VALIC Retirement Services Company (VALIC). VALIC received an opinion letter from the IRS, dated April 5, 2018, which states that the pre-approved Plan document, as then designed, satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the date of the opinion letter, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

On March 28, 2024, the Plan received a letter from the DOL requesting information from January 1, 2021 through the date of the letter. On August 26, 2024, the DOL informed the Plan that no further action was warranted and that the DOL's limited investigation had concluded.

10. Delinquent Participant Contributions

Participant contributions totaling \$548,811 and \$211,759, were not remitted to the Plan within the period prescribed by DOL regulations for the years then ended December 31, 2024 and 2023, respectively. These transactions constitute prohibited transactions as defined by ERISA. The Plan

The Arc New York Affiliated Employers 403(b) Plan

Notes to Financial Statements

corrected \$156,604 of the delinquent participant contributions from the year ended December 31, 2024 and is in the process of taking corrective action on the remaining \$392,207. The Plan corrected \$211,759 of delinquent participant contributions that remained from the year ended December 31, 2023.

11. Annual Reporting Requirements

In November 2007, the DOL issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of ERISA. Prior to the amended regulations, certain participating employers' previous plans were not viewed as separate reporting entities, but rather as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the Plan Sponsor. Accordingly, various accounting and payroll records related to the participating employers' previous 403(b) plans' annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009 were not sufficiently maintained by the plans. Consequently, the financial statements have been prepared based on available records analyzed by Plan management. As certain records were not available for years prior to 2009, the effect, if any, on the completeness or accuracy of the Plan's financial statements cannot be determined.

12. Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including October 14, 2025, which is the date the financial statements were available to be issued. There were no significant subsequent events requiring adjustment to the financial statements or disclosures.
