INDEPENDENT AUDITORS' REPORT

Board of Directors
Sterling Staffing, Inc. Employee Stock Ownership Plan
Westchester, Illinois

Opinion

We have audited the financial statements of Sterling Staffing, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

(Continued)

Responsibilities of Management for the Financial Statements (Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Auditors' Responsibilities for the Audit of the Financial Statements (Continued)

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In our opinion:

- The form and content of the supplemental schedule is presented in all material aspects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Sterling Staffing, Inc.
Employee Stock Ownership Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Sterling Staffing, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

Sterling Staffing, Inc. (the Company) established the Plan, effective January 1, 2013, to enable eligible employees of the Company and Sterling Engineering, Inc. (Affiliate) to acquire stock ownership interests in the Company. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). A committee appointed by the Board of Directors of the Company administers the Plan (the Committee). TMI Trust Company (the Custodian) is the Plan's custodian.

In December 2013, the Plan purchased 720,000 shares of Common Stock directly from stockholders using the proceeds of a \$9,120,000 loan from the Company in the form of a note (see Note F). The Company's borrowing from the stockholders is collateralized by the unallocated shares of the Plan. Neither the Company nor the stockholders have any rights against allocated shares. The Plan holds the stock in a trust established under the Plan.

The Company makes contributions to the Plan in amounts which are sufficient to make all scheduled payments of principal and interest on the loan. A portion of the shares is then released from the suspense account and allocated to participants, based upon the ratio of principal and interest paid for that year on the loan to the amount of principal and interest payable on the loan for that and all future years. The Company accrued \$394,766 of employer contributions to pay the loan payable. The Company may also make discretionary contributions to participants (Note H).

As the stockholders and the Company have no rights against shares once they are allocated under the ESOP, the financial statements of the Plan for 2024 and 2023 present separately the assets and liabilities and changes therein pertaining to:

- the accounts of employees with vested rights in allocated stock (allocated), and
- stock not yet allocated to employees (unallocated).

NOTE A - DESCRIPTION OF THE PLAN (Continued)

2. Voting Rights

The Committee shall have the sole responsibility for determining when a corporate matter has arisen that involves the voting of company stock by each participant. During such matters, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by Robert Lesser (the Trustee) prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

3. Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make regularly scheduled payments of principal and interest due on its term loan. The Company contributed \$394,766 of such payments on June 5, 2025. This contribution was deemed to have been made to the Plan as of December 31, 2024, which was authorized by the Committee, in order to release shares from the suspense account and allocate those shares to participants during 2024, as described in Note A-1.

The Company also contributed \$594,103 during the year ended December 31, 2024, in order to execute the terms of the share exchange for terminated participants (Note H).

4. Eligibility

Employees of the Company and the Affiliate become participants of the Plan on January 1 or July 1 following commencement of employment, provided that they are over 21, are not covered by a collective bargaining agreement, have completed 12 consecutive months of employment including completion of 1,000 hours, and are not considered nonresident aliens without United States of America source income.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

5. Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Plan from the unallocated account, forfeitures of terminated participants' nonvested accounts, shares repurchased from participants, and an allocation of plan earnings, and charged with distributions. The contribution, forfeiture of shares and investments, and repurchased shares allocations are based on a participant's eligible compensation relative to total eligible compensation. Dividend allocations are based on a participant's share balance and eligible compensation, when applicable.

6. Vesting

A participant's account is unvested until 3 years of service, at which point the employee becomes 100% vested. In the event of death, disability, or retirement at designated ages, participants become fully vested.

7. Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

8. Payment of Benefits

Distributions are made at the later of the termination of the participant's employment, retirement, or ten years from the anniversary date on which the participant commenced participation. Distributions for participants with an account balance greater than \$20,000 are made payable in a series of annual installments commencing no later than the 60th day after the last day of the plan year following the events occurring noted above. Distributions for participants with an account balance less than or equal to \$20,000 are paid lump sum, as soon as administratively practicable in the first plan year following the plan year in which the participant terminates employment.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Payment of Benefits (Continued)

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2024, the Company repurchased and recycled 4,805 shares from participants at prices determined from the independent appraisal. These participants have exercised the diversification provision (Note A-9) as allowed under the plan.

9. Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to distribute a part of the value of their investment in Company common stock into an eligible retirement plan, as defined by the Plan. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

10. Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be non-forfeitable and distributed to such participant or his or her beneficiary as defined in the plan document. Upon termination of the Plan, the Committee should direct the Custodian to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

11. Forfeitures

Forfeited shares and forfeited cash are allocated pro rata based on eligible participants' compensation on the last day of the plan year, but are first used to restore forfeitures to participants that are reemployed before a five year consecutive break in service. Approximately 2,847 shares were forfeited during 2024, all of which were allocated to participant accounts. Cash of \$212,877 was allocated to participant accounts during 2024.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

12. Administrative Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Cash and Cash Equivalents

The Plan considers all highly liquid investments with a maturity of three months or less at the date of acquisition to be cash equivalents.

3. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Sterling Staffing, Inc.
Employee Stock Ownership Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Fair Value Measurements (Continued)

- Level 2 Inputs to the valuation methodology include the following:
- * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's investments measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Sterling Staffing, Inc. Class A Common Stock: Valued at fair value based on an independent appraisal performed annually. This appraisal was based upon a combination of market and income valuation techniques. The appraiser took into account historical and projected cash flows and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the Trustee, reviews in detail, discusses and approves.

4. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by an independent appraisal for shares of the Company's common stock and information provided by the Custodian for other investments. See Note B-3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date, as applicable. Unrealized gains or losses from appreciation or depreciation of the Company's stock and other investments are recognized as increases or decreases in net assets available for benefits.

5. Risk and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Company's common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

6. Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

7. Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE C - TAX STATUS

The Plan obtained its determination letter on June 18, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE D - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist of shares of Sterling Staffing, Inc. Class A Common Stock, are held by the Custodian of the Plan.

Company contributions are held, managed, and controlled by the Custodian, which invests cash received, interest, and dividend income and makes distributions to participants, as applicable. The Custodian also administers the payment of interest and principal on the loan, which is reimbursed to the Custodian through contributions, as determined by the Company.

Certain plan administrative functions are performed by officers or employees of the Company or its affiliate, or are subcontracted to a third party. No such officer or employee receives compensation from the Plan. Administrative expenses for the Custodian's fees are paid directly by the Company.

Sterling Staffing, Inc.
Employee Stock Ownership Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Notes A and D, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

NOTE H - SHARE EXCHANGE FOR TERMINATED PARTICIPANTS

The Plan includes a provision for a share exchange for terminated employees and provide a mechanism to shift the investment of the vested and non-forfeitable accounts of participants who have terminated employment from Company stock accounts to cash. The Company stock previously held by such terminated participants is then reallocated to existing participants eligible for share allocation under Plan provisions.

During 2024, the Company accrued and contributed \$594,103 to the Plan and the Plan used these funds, as well as existing cash balances in the plan, to execute the shares exchange (at the 2024 stock price) for participants who had terminated employment during 2024. As a result of shares exchange in 2024, total shares reallocated from terminated participants to existing participants totaled approximately 24,473.

NOTE I - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through October 14, 2025, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions, other than the item described in Note A-3, have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.
