Independent Auditors' Report

To the Participants and Plan Administrator of
Rhode Island Energy Retiree Health and Life Insurance Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Rhode Island Energy Retiree Health and Life Insurance Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. PLAN DESCRIPTION

The Rhode Island Energy Retiree Health and Life Insurance Plan (the Plan), is a health and welfare plan established August 1, 2022 to provide benefits to eligible employees of Rhode Island Energy (RIE) and their qualified dependents. The Plan is sponsored by PPL Services Corporation (the Company), an unregulated subsidiary of PPL Corporation (PPL). The Company provides corporate service and support functions to PPL and its subsidiaries. Contributions to the Plan are held in Voluntary Employee Benefit Association (VEBA) trusts held by The Bank of New York Mellon Corporation (the Trustee), which is intended to qualify as a tax-exempt trust under Section 501(c)(9) of the Internal Revenue Code (the Code). A portion of the Plan's obligations can also be funded through contributions to the Rhode Island Energy Retirement Plan in accordance with Code Section 401(h). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan provisions, copies of which may be obtained from the Company.

The Plan was closed to non-union employees hired on or after January 1, 2024. In addition, the Plan was closed to Union 12431 employees hired on or after June 2, 2025.

The Plan provides health and life insurance benefits to participants through contracts with insurers, third party administrators, and Preferred Provider Organizations (PPO). Participants can choose between various levels of coverage to manage their health care costs.

Although the Company intends to sponsor the Plan for an indefinite period, the Company has the right to amend or terminate the Plan at any time.

The Rhode Island Energy Retirement Plan includes a medical-benefit component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Code. A separate account has been established and maintained in the Rhode Island Energy Retirement Plan for such contributions. In accordance with Code Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not included in the Rhode Island Energy Retirement Plan obligations but, are reported as obligations in the financial statements of the Plan.

Eligible and reasonable audit fees and administrative fees charged by medical and prescription drug providers for the processing of claims under the Plan are paid by the Plan, and are reported as administrative expenses. Eligible and reasonable trustee fees, investment manager fees, and expenses incurred in connection with investment transactions are paid by the Plan, and are reported as investment expenses. The fees of actuaries, consultants, counsel and administration of the Plan are paid by the Company and are not included in the financial statements. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared on the accrual basis of accounting.

For the following disclosures, dollar amounts are presented in thousands.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See the Rhode Island Energy Retirement Plan financial statements for disclosure of fair value measurements related to the 401(h) account.

RHODE ISLAND ENERGY RETIREE HEALTH AND LIFE INSURANCE PLAN
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Investment income (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has recorded a payable to plan sponsor in the Statements of Net Assets Available for Benefits to reflect the net amount of benefit costs paid by the plan sponsor, offset by pharmacy refunds received by the plan sponsor for 2024 and 2023. This was done to allow time to ensure the proper vendor setup and processes to reconcile claims and refunds for payment from the separate bargaining unit and non-bargaining unit VEBA trusts. Pharmacy rebates totaling \$1,859 have been netted with health care benefit payments in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024. The Plan has begun the process of reimbursing the plan sponsor in 2024 and has begun to pay claims directly out of the Plan trusts.

Postretirement benefit obligations (Note 6) represent the actuarial present value of those estimated future benefits that are attributable to employee service rendered to the valuation date. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired participants and their dependents, and (2) active employees and their dependents after retirement from service with participating companies. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligations is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment, and to reflect the portion of those costs expected to be paid by Medicare, the retired participants, and other providers.

For measurement purposes at December 31, 2024, a 7.00% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2025, gradually decreasing to 5.0% in 2033 and thereafter. At December 31, 2023, a 6.25% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2024 gradually decreasing to 5.0% in 2029 and thereafter.

Significant assumptions used in the valuation as of December 31, were as follows:

	<u>2024</u>	<u>2023</u>
Discount Rate	5.90%	5.49%
Average retirement age	61	61

---------------------------------	--	--

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October xx, 2025, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

RHODE ISLAND ENERGY RETIREE HEALTH AND LIFE INSURANCE PLAN
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Management believes such inputs are predicated on the assumptions market participants would use to measure the asset or liability at fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables summarize assets measured at fair value on a recurring basis for the Plan at December 31, 2024 and 2023:

	Fair Value Measurements at December 31, 2024			
	Total	Level 1	Level 2	Level 3
Money market fund	\$ 6,715	\$ 6,715	\$ —	\$ —
Global equity exchange-traded fund	69,624	69,624	—	—
Long-term bond exchange-traded fund	73,773	73,773	—	—
	<u>\$ 150,112</u>	<u>\$ 150,112</u>	<u>\$ —</u>	<u>\$ —</u>

	Fair Value Measurements at December 31, 2023			
	Total	Level 1	Level 2	Level 3
Money market fund	\$ 8,295	\$ 8,295	\$ —	\$ —
Global equity exchange-traded fund	71,821	71,821	—	—
Long-term bond exchange-traded fund	74,261	74,261	—	—
	<u>\$ 154,377</u>	<u>\$ 154,377</u>	<u>\$ —</u>	<u>\$ —</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Investments in a money market fund represent investments in a fund that invests primarily in a diversified portfolio of investment grade money market instruments, including, but not limited to, commercial paper, repurchase agreements and other evidences of indebtedness with a maturity not exceeding 13 months from the date of purchase. The primary objective of the fund is a high level of current income consistent with stability of principal and liquidity. Valuation is based on quoted prices in an active market. Redemptions can be made daily on this fund.

Exchange-traded funds: Valued at the daily closing price as reported by the fund. Exchange-traded funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

4. FUNDING POLICY

While no funding is required for the Plan, funding is evaluated each year based on tax effectiveness, their funded status, and their respective deductible limits under the Code.

RHODE ISLAND ENERGY RETIREE HEALTH AND LIFE INSURANCE PLAN
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

In addition, employer contributions may be made to the Plan trust or to a 401(h) account established under the Rhode Island Energy Retirement Plan (Note 5) in accordance with limits set forth under Code Section 401(h) and the tax effectiveness of the contributions and ongoing income. There were no employer contributions made to the VEBA or 401(h) account for the years ended December 31, 2024 and 2023.

5. 401(H) ACCOUNT/MASTER TRUST

A portion of the Plan's obligations are funded through contributions to the Rhode Island Energy Retirement Plan in accordance with Code Section 401(h). The assets of the 401(h) account are combined with the assets of several PPL retirement plans and associated 401(h) accounts to form the PPL Services Corporation Master Trust (Master Trust). At December 31, 2024 and 2023, the assets of the 401(h) account invested in the Master Trust are \$23,595 and \$23,298, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

6. BENEFIT OBLIGATIONS

The funding of the postretirement benefit obligations is at the discretion of RIE. Refer to Note 4 for the Plan funding policy.

The postretirement benefit obligation at December 31 relates to the following categories of participants, including their dependents:

	<u>2024</u>	<u>2023</u>
Current retirees	\$ 97,303	\$ 92,182
Employees fully eligible for benefits	25,337	21,679
Employees not yet fully eligible for benefits	36,264	40,850
	<u>\$ 158,904</u>	<u>\$ 154,711</u>

The health care cost-trend rate assumption (Note 2) has a significant effect on the amounts reported. If the assumed rates increased by one percentage point in each year, the aggregate obligations as of December 31, 2024 and 2023 would increase by \$16,276 and \$16,253, respectively.

The changes in postretirement benefit obligation for the year are as follows:

	<u>2024</u>
Balance at beginning of year and period	\$ 154,711
Assumption changes (a)	(1,046)
Benefits earned, paid and interest on obligation, net	5,239
Balance at end of year and period	<u>\$ 158,904</u>

- a. The change in actuarial assumptions for 2024 resulted in an decrease in benefit obligation due to an increase in the discount rate from December 31, 2023 to December 31, 2024. See Note 2 for additional information.

7. INFORMATION CERTIFIED BY THE TRUSTEE

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, the Trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements Net Assets Available for Benefits as of December 31, 2024 and 2023 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits and Schedule H Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

8. TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(c)(9) of the Code, and accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax ruling from the Internal Revenue Service (the "IRS"), and the Plan's internal legal counsel and the Company believe that the Plan, as amended, continues to comply with the applicable requirements of the Code, and the Company believes the Plan is currently operated in accordance with applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PARTY-IN-INTEREST TRANSACTIONS

As detailed in Note 1, the Plan has recorded a payable to plan sponsor in the Statements of Net Assets Available for Benefits to reflect the net amount of benefit costs paid by the plan sponsor that will be reimbursed by the Plan. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rule.

10. RISKS AND UNCERTAINTIES

Contributions to the Plan and the expected postretirement benefit obligation are determined based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to the changing nature of these assumptions, it is at least reasonably possible that changes will occur in the near term and the effect of such changes could be material to the financial statements.

RHODE ISLAND ENERGY RETIREE HEALTH AND LIFE INSURANCE PLAN
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan has investments in ISHARES MSCI World ETF of \$69,624 and \$71,821 at December 31, 2024 and 2023, respectively and, as well as in the Vanguard Long-Term Bond ETF \$73,773 and \$74,261 at December 31, 2024 and 2023, respectively, representing concentrations of risk.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	<u>2024</u>	<u>2023</u>
