Independent Auditor's Report

Retirement Committee
Christie Clinic 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Christie Clinic 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Christie Clinic 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Christie Clinic 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a profit sharing plan covering all employees of Christie Business Holding Company, PC (the Company or Employer) who have completed 90 days of service. Employees are automatically enrolled, with a 4% deferral rate, in a default investment unless they elect not to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Retirement Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions: Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferral amount may not be more than the lesser of: (a) 100% of their compensation, (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code (IRC) or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who will be age 50 or older during the plan year are eligible to make catch-up contributions. Employees eligible for plan participation are automatically enrolled with an automatic deferral of 4% of eligible compensation unless the participant makes a contrary election. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans and such amounts are reflected as rollover contributions.

The Employer will match participant contributions up to 25% of that portion of the employee pre-tax contribution that does not exceed 4% and 100% on the next 3% of the participant's eligible compensation for the plan year. The employee must be actively employed on the last day of the plan year to receive the matching contribution. In addition, the Employer may elect to make a supplemental Employer matching contribution. The total supplemental Employer matching contribution, if any, will be a uniform discretionary percentage of each participant's elective contribution, as determined and authorized by the Employer's Board of Directors. The Plan also includes a safe harbor non-elective Employer contribution equal to 3% of each eligible employee's covered compensation, regardless of participation. For the year ended December 31, 2024, the total supplemental Employer matching contribution was \$2,298,339.

The Employer may also elect to make other discretionary contributions to the Plan. The additional profit sharing Employer contribution, if any, will go to participants who earn above \$100,000. This discretionary contribution, if any, will be an amount determined and authorized by the Employer's Board of Directors. For the year ended December 31, 2024, the contribution was calculated on these participant's earnings up to \$345,000. For the year ended December 31, 2024, the Employer also elected to make a discretionary contribution for the non-highly compensated employees who earn less than \$100,000, based on a set percentage of the participant's eligible compensation. A participant is eligible to receive an allocation of discretionary contributions if the participant is employed on the last day of the year or terminates employment during the year due to retirement after attaining the normal retirement age, disability or death.

Participant accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, transfers to the Plan and allocations of: (a) the Employer's contributions, (b) plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of Plan (Continued)

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions. Matching contributions are subject to vesting percentages based on years of continuous service. A participant is 100% vested after five years of credited service. Other discretionary Employer contributions are immediately vested. All Employer contributions vest immediately upon a participant's death, disability or attainment of the normal retirement age.

Forfeited accounts: Generally, when a participant terminates participation in the Plan, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeited amounts are used to pay the Plan's expenses or to reduce the Employer's contributions. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$103,345 and \$869, respectively. Forfeitures of terminated nonvested accounts allocated to reduce the Employer's contributions and pay Plan expenses were \$0 and \$78,091, respectively, for the year ended December 31, 2024.

Notes receivable from participants: Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The minimum loan amount is \$1,000. The loans are secured by the balance in the participant's account and bear interest at the prime rate quoted in the Wall Street Journal on the day the loan is requested, plus 1%. At December 31, 2024, the interest rates on outstanding participant loans were 4.25% to 9.50%. The loans are repaid ratably through payroll deductions over a period of five years or less for a general-purpose loan or over a period of 10 years or less for a primary residence loan. Loans outstanding at December 31, 2024, mature through May 2034.

Payments of benefits: On termination of service due to disability or retirement, if a participant's vested account balance is greater than \$5,000, the participant may elect to receive either a lump-sum amount equal to the value of his or her account, or partial lump-sum and installment payments (annual, quarterly, or monthly) to be received over a period of the lesser of 10 years or the life expectancy of the participant and his or her designated beneficiary. If a participant's vested balance is less than \$5,000, but more than \$1,000, the participant has the option to have his or her account rolled over into an individual Schwab account. If the participant's vested balance is less than \$1,000, it will be paid out in a single lump-sum distribution.

On termination due to death, the participant's beneficiary may elect to receive one lump-sum cash payment in the amount equal to the value of the account balance or partial withdrawals.

In the event of financial hardship or where a participant has attained the age of 59½, a participant may elect, while still employed by the Employer, to withdraw all or a portion of their vested balance. A participant may request a hardship withdrawal only after obtaining the maximum number of loans to which they are entitled. A participant may elect at any time to withdraw amounts that were contributed to the Plan as a rollover contribution, subject to certain limitations in the Plan's agreement.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates in preparing financial statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments held in the participant-directed brokerage account constitute a broad array of common stocks, mutual funds, money market funds, government and agency obligations and unit investment trusts. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: A portion of the administrative expenses associated with maintaining the Plan is paid by the Employer and the remaining expenses are paid by the Plan. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2024 or 2023.

Note 3. Information Certified or Provided by Charles Schwab Trust Bank

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information provided by Charles Schwab Trust Bank, the trustee the Plan. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

Investments:		
Shares of registered investment companies (mutual funds)	\$ 206,502,399	\$ 188,917,432

Note 3. Information Certified and Provided by Charles Schwab Trust Bank (Continued)

Charles Schwab Trust Bank, trustee, also certified to the completeness and accuracy of \$7,283,527 of interest and dividends related to the aforementioned plan assets, \$24,646,829 of net appreciation in fair value of investments and \$87,079 of interest income earned on notes receivable from participants for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Shares of registered investment companies: Shares of registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value (NAV) of the shares held by the Plan at year-end.

Participant-directed brokerage accounts: Predominantly valued at the closing price and the NAV of shares, as quoted in the active market in which the individual securities are traded.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level and asset class, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Shares of registered investment				
companies (mutual funds)	\$ 206,502,399	\$ -	\$ -	\$ 206,502,399
Participant-directed brokerage accounts	20,568,991	-	-	20,568,991
Total assets in the fair value hierarchy	<u>\$ 227,071,390</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 227,071,390</u>

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Shares of registered investment				
companies (mutual funds)	\$ 188,917,432	\$ -	\$ -	\$ 188,917,432
Participant-directed brokerage accounts	17,125,864	-	-	17,125,864
Total assets in the fair value hierarchy	<u>\$ 206,043,296</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 206,043,296</u>

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no transfers of assets between levels of the fair value hierarchy.

Note 5. Income Tax Status

Effective January 1, 2022, the Plan adopted a non-standardized pre-approved plan sponsored by FIS Business Systems LLC. The non-standardized pre-approved plan provider has received an opinion letter from the Internal Revenue Service as to the Plan's compliance with IRC section 403(b). The non-standardized pre-approved plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for incomes taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

Note 6. Party-in-Interest Transactions

The Plan invests in investment securities managed by the trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for these services totaled \$11,261 for the year ended December 31, 2024. The Company also provides certain administrative services at no cost to the Plan.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Reconciliation Between Financial Statements and the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023, to Form 5500:

	2024	2023
Net assets available for benefits per the financial statements	\$ 231,015,338	\$ 209,760,477
Difference in:		
Investments	10,191,617	10,132,531
Receivables—participant loans	(1,114,977)	(997,738)
Interest-bearing cash	(9,076,640)	(9,134,793)
Net assets per the Form 5500	<u>\$ 231,015,338</u>	<u>\$ 209,760,477</u>

Note 9. Subsequent Events

The Plan Administrator has evaluated events occurring subsequent to December 31, 2024, as to their potential impact to the financial statements through October 14, 2025, which is the date the financial statements were available to be issued.
