INDEPENDENT AUDITOR'S REPORT

To Teksouth Corporation ESOP Committee of
the Teksouth Corporation Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Teksouth Corporation Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Teksouth Corporation Employee Stock Ownership Plan as of December 31, 2024 and 2023 and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Teksouth Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Teksouth Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Teksouth Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Teksouth Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at year end) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

TEKSOUTH CORPORATION
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE A - DESCRIPTION OF PLAN

The following brief description of the Teksouth Corporation Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

Teksouth Corporation (the Company) established the Teksouth Corporation Employee Stock Ownership Plan (the Plan) effective as of January 1, 2019. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Teksouth Corporation ESOP Committee (the ESOP Committee) comprised of no fewer than three individuals appointed by the Company's Board of Directors. An independent third-party is the Plan's Trustee.

The Plan purchased Company common shares using proceeds of a borrowing from the Company and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of fourteen years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Shares vest fully upon completion of six years of credited service by an employee.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with vested rights in allocated common stock (Allocated) and
2. Common stock not yet allocated to employees (Unallocated).

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

Eligibility

Employees of the Company are eligible to participate in the Plan on the first day of the month coinciding with or next following the date of attainment of age 21 and completion of one hour of service. Employees covered by a collective bargaining agreement are eligible to participate, unless prohibited by a collective bargaining agreement. Leased employees, non-resident aliens, independent contractors, and one specified employee are not eligible to participate. Participants who do not have at least 1,000 hours of service during the plan year and are not employed on the last working day of the plan year are generally not eligible for an allocation of the Company contributions for the year.

Contributions

The Company makes discretionary contributions in cash to the Plan generally equal to the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employees are not permitted to make contributions.

Payment of Benefits

Distributions on account of death, disability, or retirements are made in a lump sum or in annual installments no later than one year after the close of the Plan year in which such event occurs. Distributions for other separations from service commence in the fifth Plan year following the separation from service. For accounts valued at \$1,130,000 or less, distributions are made either as a lump sum payment or in annual installments over a period not to exceed five years. For accounts with values greater than \$1,130,000, distributions are made in annual installments over five years, plus one additional year (but not more than five additional years) for each such \$225,000 or fraction thereof by which the balance exceeds \$1,130,000. Distributions of a participant's account will be made in shares of Company securities, cash, or a combination of both.

In the event that a participant is eligible to receive a distribution, and does not elect to take such distribution, the vested balance of all of the participant's account may be liquidated and transferred to the Company 401(k) Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is to be notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Amendments and Plan Termination

The Company reserves the right to amend or terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant at the time prescribed by the Plan terms and the Internal Revenue Code (IRC). Upon termination of the Plan, the ESOP Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Individual accounts are also maintained for all former participants who still have an interest in the Plan. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations of current year contributions are based 50% on a participant's eligible compensation (subject to the maximum compensation limits set annually by the IRS), relative to total eligible compensation and 50% on a participant's years of service, relative to total eligible years of service. Plan earnings are credited to participant's accounts based upon each participant's total balance of shares as of the preceding allocation date relative to the total account balances for all participants as of that date.

Diversification

Diversification is offered to participants close to retirement so that they may have an opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over

a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. No diversification election is permitted if the balance in a participant's stock account as of the allocation date of the first plan year in the election year has a fair market value of \$500 or less. As of December 31, 2024 and 2023, no participants are eligible to diversify in this manner.

Vesting

A participant will vest in the balances in his or her account based on total years of service with the Company. Participants begin vesting after two years of service. Vesting increases 20% per year of service and participants are 100% vested after six years of service. A participant who, while employed by the Company, dies, attains normal retirement age, or incurs a disability will be 100% vested in his or her account balance.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no active market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Forfeitures

Any portion of the final balances in a participant's account that is not vested will become a forfeiture as of the close of the plan year in which he or she incurs a consecutive five-year break-in-service or the date a cash-out distribution is issued. All forfeitures will be reallocated to participants who are eligible employees of the Company as of the last day of the plan year. Allocations are based 50% on a participant's eligible compensation, relative to total eligible compensation and 50% on a participant's years of service, relative to total eligible years of service. A total of 2,164.77 and 2,639.2388 shares were forfeited for the years ended December 31, 2024 and 2023, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at fair value, based on an annual independent appraisal. Because of the inherent uncertainty of the valuation process, the estimated values of the independent appraisal values may differ significantly from the values that would have been used had a ready market for the stock existed, and the differences could be material. At December 31, 2024 and 2023, the appraised value of the stock per share was \$14.26 and \$7.91, respectively. See Note H for discussion of fair value measurements.

Net appreciation (depreciation) includes the Plan's gains and losses on Company stock held during the year. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits to participants are recorded when paid.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company. Bank service fees incurred in the Plan's cash account are reported as administrative expenses.

NOTE C - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan administrator by letter dated March 27, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE D - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist primarily of Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

NOTE E - INVESTMENT

The Plan's investment in Teksouth Corporation common shares, which represents a significant concentration of the Plan's net assets available for benefits at December 31, is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	242,013.7941	281,246.2059	210,764.2157	312,495.7843
Cost	\$ 1,792,695	\$ 2,083,305	\$ 1,561,216	\$ 2,314,784
Estimated fair value	\$ 3,451,117	\$ 4,010,571	\$ 1,667,145	\$ 2,471,842

NOTE F - LOAN PAYABLE

In 2019, the Plan entered into a \$3,876,000 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments plus dividends for the year designated for loan payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 31,249.5784 shares being released and allocated for the plan years ended December 31, 2024 and 2023. The agreement provides for the loan to be repaid over fourteen years. The fair value of the note payable as of December 31, 2024 was \$2,138,457. The loan bears interest at 2.21%.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2025	\$ 217,367
2026	222,170
2027	227,080
2028	232,099

NOTE G - RISKS AND UNCERTAINTIES

The Plan's investments consist of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Financial instruments that potentially subject the Plan to credit risk include cash on deposit with a financial institution. The Plan maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits as guaranteed by the Federal Deposit Insurance Corporation (FDIC). The Plan maintains its cash deposits in a large well capitalized financial institution. The Plan has not experienced any losses in such accounts nor does the Plan believe it is exposed to any significant credit risk on cash accounts. At December 31, 2024 and 2023, the cash in excess of the FDIC insured limit was \$251,460 and \$-0- respectively.

NOTE H - FAIR VALUE MEASUREMENTS

The Plan reports its assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

TEKSOUTH CORPORATION
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Common Stock: The Plan's investment in shares of the Company's common stock is reported at its fair value as determined by an independent appraiser retained for the purpose by the Plan's trustee. The independent fair value appraisal is dependent upon historical and forecasted operations of the Company as represented by management, and general industry and market conditions affecting the Company's business.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of assets is as follows:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ <u> -</u>	\$ <u> -</u>	\$ <u> 7,461,688 </u>	\$ <u> 7,461,688 </u>

Total assets at fair value	\$ <u> -</u>	\$ <u> -</u>	\$ <u> 4,138,987 </u>	\$ <u> 4,138,987 </u>

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2024, are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The Plan’s policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no significant transfers into or out of Level 3.

The following table represents the Plan’s Level 3 financial instruments, the valuation techniques used to measure the fair value of those instruments, and the significant unobservable inputs.
