INDEPENDENT AUDITOR'S REPORT

October 10, 2025

To the Participants and Plan Administrator of the
UIL Holdings Corporation Retiree Health Plan For Selected Employees:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of UIL Holdings Corporation Retiree Health Plan For Selected Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and plan benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of UIL Holdings Corporation Retiree Health Plan For Selected Employees' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITOR'S REPORT

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of UIL Holdings Corporation Retiree Health Plan For Selected Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about UIL Holdings Corporation Retiree Health Plan For Selected Employees' ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of UIL Holdings Corporation Retiree Health Plan For Selected Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about UIL Holdings Corporation Retiree Health Plan For Selected Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter -Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

UIL HOLDINGS CORPORATION RETIREE HEALTH PLAN FOR SELECTED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the UIL Holdings Corporation (the Company) Retiree Health Plan for Selected Employees (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on November 15, 2010 as a retiree health plan and provides group health coverage benefits to eligible retirees (as defined) and their dependents of the following subsidiaries of the Company: Berkshire Gas Company (BGC), Connecticut Natural Gas Corporation (CNG) and Southern Connecticut Gas Company (SCG), (collectively, the Participating Employers). The Plan includes union and nonunion retirees and provides medical, dental, vision, Medicare Part B, death and prescription drug benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

An employee is eligible to participate in the Plan upon retirement upon meeting the following requirements:

- Was employed by the employer prior to retirement
- Is eligible to be covered by a group medical plan of the Company immediately prior to retirement
- Is eligible for postretirement coverage under the terms of the Company's group policies in effect at time of retirement

Administration

The Company is the sponsor of the Plan. Effective July 1, 2024, Empyrean Benefit Solutions, Inc. (Empyrean) became the Plan's third-party administrator, providing record-keeping services for the Plan. Prior to July 1, 2024, Alight Solutions, LLC (Alight) was the Plan's third-party administrator. The Northern Trust Company is the trustee and custodian of the Plan.

Benefits

Each participant is entitled to the health benefits that he or she has selected, as set forth in the summary plan descriptions of the retiree health plan applicable to such participant. Group health coverage benefits are provided by the Participating Employers' self-funded group health benefit plans or insurance companies. The Plan has purchased contracts with various health care providers that transfer some risk of health benefit payments to those providers. The maximum amount of benefits payable to or on behalf of any participant or dependent under this Plan during that individual's entire lifetime is as set forth in the summary plan description of the group health coverage selected.

Eligible retirees have been provided with a Health Reimbursement Account (HRA) in lieu of the Company sponsored group coverage. The HRA provides a set dollar amount which participants can use to purchase health insurance benefits. The annual HRA cap depends on retirement date and union status. The HRA benefit is intended to provide comparable coverage to the benefit provisions previously in effect.

1. DESCRIPTION OF PLAN (Continued)

Benefits (Continued)

The Plan's excess of benefit obligations over net assets at December 31, 2024 and 2023 relates primarily to the postretirement benefit obligations, the funding of which is not covered by the contribution rate provided by the current funding vehicle. It is expected that the deficiency will be funded through future contributions from the Company.

Administration Agreements with Insurance Carriers

Retiree health claims are processed through group health benefit contracts and administrative service only (ASO) agreements with various insurance companies. The agreements provide that the insurance companies evaluate and examine retiree claims to determine whether claims should be paid or denied, investigate continuing participant eligibility for benefits and perform other necessary administrative services as required. The Company, however, has the sole responsibility of deciding whether to pay a claim.

The agreements shall continue in full force as long as the Plan continues, except that the agreements are cancelable upon 30 to 90 days advance written notice by the Company or immediately by mutual agreement between the various parties.

Contributions

The amount of participant contributions, if any, depends on the group health coverage plan selected by the participant for themselves and their dependents. Each participating employer makes contributions to the Plan as determined by the cost of the coverage minus participant contributions, if any. The general assets of the Participating Employers will fund the excess of benefit obligations over net assets available for benefits.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to retirees, except for any limitations set forth in applicable collective bargaining agreements, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell assets or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See additional valuation details in Note 5.

The Plan also invests in the Avangrid, Inc. Defined Benefit Master Trust (the Master Trust, see Note 4). The Plan's investment in the Master Trust consists of assets held in a 401(h) account (See Note 9). These investments are valued at fair value as reported by the trustee.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

The Master Trust investment income is reported on the accrual basis and includes interest and dividends and the net appreciation (depreciation) in the fair value of the Master Trust's investments. In addition, included in the net appreciation (depreciation) in the fair value of the Master Trust's investments are the realized and unrealized gains or losses on transactions in, and translation of, foreign currency investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are either paid by the Plan or by the Participating Employers.

Fair Value Measurements - Definition and Hierarchy

Generally accepted accounting principles provide a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair market value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A description of where the Plan's investments fall within the fair value hierarchy is provided in Note 5.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is prepared based on certain assumptions pertaining to interest rates, inflation rates, and retiree demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to use estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes.

3. CERTIFIED INVESTMENT INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the following information was certified as complete and accurate by The Northern Trust Company, the trustee, and is included in the financial statements and accompanying supplemental schedule:

	<u>2024</u>	<u>2023</u>
Investments, at fair value	\$ <u>14,106,149</u>	\$ <u>15,139,091</u>

4. INVESTMENT IN MASTER TRUST

The Master Trust is maintained by The Northern Trust Company and was established for a portion of the investments of the Plan and several other Avangrid, Inc. sponsored benefit plans. The Plan's investments held in 401(h) accounts are maintained within the Master Trust. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on average monthly balances invested by each plan.

	<u>\$ -</u>	<u>\$ 8,778,263</u>	<u>\$ -</u>	<u>\$ 8,778,263</u>

The Plan's assets at fair value, within the fair value hierarchy, were as follows at December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market fund	\$ -	\$ 273	\$ -	\$ 273

	<u>\$ -</u>	<u>\$ 8,658,113</u>	<u>\$ -</u>	<u>\$ 8,658,113</u>

Following is a description of the valuation methodologies used for Master Trust and Plan assets measured at fair value.

Cash and cash equivalents: Valued at cost, plus accrued interest, which approximates fair value. Level 2 investments are valued based on yields currently available on similar investments.

Money Market Fund: The fund fair values its financial instruments under the amortized cost method, or at cost for repurchase agreements, which approximates fair value.

U.S. government securities and short term investments: Valued at the closing price reported in the active market in which the security is traded.

Corporate bonds and other fixed income securities: Valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Common stocks: Valued at the closing price reported in the active market in which the individual investment is traded.

Common collective trusts/Registered investment companies: Level 1 investments are valued at the closing price reported in the active market in which the security is traded. Value of Level 2 investments is primarily derived from the quoted prices in active markets of the underlying securities. Because the fund shares are offered to a limited group of investors, they are not considered to be traded in an active market.

Insurance contracts: Valued at the cash surrender value as reported by the insurance company.

Exchange traded funds: Valued at the latest quoted sales prices or official closing prices of the underlying securities, where readily available. Securities for which market quotations are not readily available are valued at their fair values calculated according to procedures including obtaining quotations from an independent pricing service.

5. FAIR VALUE MEASUREMENTS (Continued)

Other investments, primarily fixed income: Investments are primarily invested in U.S. bonds and may also include some non-U.S. bonds. Other asset classes, including alternative investments, are used to enhance long-term returns while improving portfolio diversification. Valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Other investments measured at net asset value (NAV): Fund shares offered to a limited group of investors and alternative investments, such as private equity, equity, fixed income, and real estate oriented common collective trusts and partnership/joint ventures are valued using the NAV as a practical expedient to estimate the fair value of the underlying investments. Since these assets are valued at NAV, they are not included in the fair value hierarchy table. There are generally no significant unfunded commitments, redemption restrictions or other restrictions on the investments.

For the assets held under the Master Trust, the primary investment objective of the Plan's administrative committee is to ensure that current and future benefit obligations are adequately funded and with volatility commensurate with their investment policy risk tolerance. Preservation of capital and achievement of sufficient total return to fund accrued and future benefits obligations are of highest concern. Their primary means for achieving capital preservation is through diversification of the trusts' investments while avoiding significant concentrations of risk in any one area of the securities markets. Further diversification is achieved by utilizing multiple asset managers with a systematic allocation to various asset classes, and providing broad exposure to different segments of the equity, fixed income and alternative investment markets, including a strategic balance between actively and passively managed investments. The asset allocation policy is the most important consideration in achieving their objective of superior investment returns while minimizing risk.

The administrative committee has established target asset allocation policies within allowable ranges for their pension benefit plan assets within broad categories of asset classes made up of return-seeking investments and liability-hedging investments, with target allocations ranging from 15%-70% for return-seeking assets and 30%-85% for liability-hedging assets. Return-seeking assets also include investments in real estate, global asset allocation strategies and hedge funds. Liability-hedging investments generally consist of long-term corporate bonds, annuity contracts, long-term treasury STRIPS and opportunistic fixed income investments. Systematic rebalancing within the target ranges increases the probability that the annualized return on the investments will be enhanced, while realizing lower overall risk, should any asset categories drift outside their specified ranges.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFIT OBLIGATION

The group health benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to those retirees eligible for health benefits as of December 31, 2024 and 2023, under the respective self-insured plans. The actuarial present value is determined by applying actuarial assumptions for current and future retirees and their beneficiaries eligible for health benefits as of the valuation date adjusted for the time value of money and the probability of payment between the valuation date and the date of payment.

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFIT OBLIGATION (Continued)

The postretirement benefit obligation, and changes therein, do not reflect Medicare prescription drug subsidies that the Company might receive under the *Medicare Prescription Drug Improvement and Modernization Act of 2003* as the Plan is not directly entitled to the Medicare subsidy. The benefit obligation reported in the statements of benefit obligations differs from the accumulated plan benefit obligation reported by the Company in its annual financial statements because the Company has included the effects of the Medicare subsidy in measuring the benefit obligation and changes in the benefit obligation.

The most significant assumptions underlying the actuarial computation are:

Valuation date:	December 31, 2024	December 31, 2023
Discount rate:	5.41% (CNG)	4.69% (CNG)
	5.33% (SCG)	4.65% (SCG)
	5.19% (Berkshire)	4.66% (Berkshire)
Plan provisions, demographic data, claims data and all assumptions (except discount rate) as of	December 31, 2024	December 31, 2023
Medical trend:		
Initial (pre-65 / post 65)	8.90% / 10.60%	8.10% / 8.60%
Ultimate (pre-65 / post 65)	4.50% / 4.50%	4.50% / 4.50%
Ultimate year (pre-65 / post 65)	2039 / 2039	2031 / 2032
Mortality table:	Pri 2012 with fully Generational Projection (MP 2021)	Pri 2012 with fully Generational Projection (MP 2021)

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the group health benefit obligation. A one percentage point increase in the assumed health care cost trend rates for future years would result in an increase to the actuarial present value of benefit obligations of approximately \$528,000; a one percentage point decrease in the assumed health care costs trend rates would result in a decrease to the actuarial present value of benefit obligations by approximately \$468,000. The effect of the changes in actuarial assumptions for 2024 of \$1,962,662 was the result of an increase in the discount rate for the year ended December 31, 2024 and an increase in expected medical costs.

7. PARTY-IN-INTEREST TRANSACTIONS

The Northern Trust Company is the trustee of the Plan and custodian of the Plan's investments. As such, transactions between The Northern Trust and the Plan qualify as party-in-interest transactions.

8. TAX STATUS

The Plan (via the Trusts) obtained determination letters in which the Internal Revenue Service stated that the Plan (and Trusts), as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letters. However, Plan management and the Plan's tax counsel believe that the Plan and Trusts are currently designed and being operated in compliance with the applicable requirements of the IRC. The Trusts are tax exempt under the provisions of Section 501(c)(9) of the IRC as VEBAs, except for taxes on unrelated business income.

9. 401(H) ACCOUNTS

Two of the Participating Employers' defined benefit pension plans include a medical benefit component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the IRC. Separate accounts have been established and maintained in these defined benefit pension plans for such contributions.

In accordance with Code Section 401(h), the investments in the 401(h) accounts may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not included in the defined benefit pension plans' obligations in the statements of net assets available for benefits but are reported as obligations in the financial statements of this Plan. The net assets held in the 401(h) account are maintained in the Avangrid, Inc. Defined Benefit Master Trust.

The following table presents the components of the net assets available for such obligations at December 31:

	<u>Net Assets Available for Postretirement Health and Welfare Benefits in 401(h) Account</u>
