INDEPENDENT AUDITORS' REPORT

To the Trustee and ESOP Committee of
GTS Employee Stock Ownership Plan

Opinion

We have audited the financial statements of GTS Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets (deficit) available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 3, the financial statements include investments in employer securities representing 100% of total assets as of December 31, 2024 and 2023, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the Plan's trustee. Because of the inherent uncertainty of the valuation, those estimated values may differ significantly from the values that would have been used had a market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures including examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

GTS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024

NOTE 1 – Description of the Plan

The following description of GTS Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 2023, GTS Technology Solutions, Inc. (the Company) established the Plan to enable eligible employees to acquire stock ownership interests in the Company through the Plan. The Plan is intended to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Share Acquisition Transaction

In December 2023, the Plan purchased 1,000,000 shares of the Company's common stock (Stock Purchase Agreement) in a leveraged transaction using proceeds from secured borrowings from the Company (ESOP loan payable) (See Note 5). The purchase was funded by a loan from the Company of approximately \$25,000,000. As the Plan makes loan payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The ESOP loan payable is collateralized by the unallocated shares of common stock. The note holder has no rights against shares once they are allocated to the Plan's participant accounts. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with vested rights in allocated common stock (allocated); and
- Common stock not yet allocated to employees (unallocated)

The Stock Purchase Agreement provides for upward or downward purchase price adjustment based on stated EBITDA targets for the years ended December 31, 2024 and 2025. In the event of an EBITDA target shortfall the agreement provides for corresponding amendment and downward adjustment to the ESOP loan payable. Adjustments are limited to \$10,000,000 and will be determined, and recorded, if necessary, upon the completion of the Company's audited financial statements for the year ended December 31, 2025.

NOTE 1 – Description of the Plan (Continued)

Administration

Under the terms of the Plan, the Company has appointed an independent trustee (Trustee) to control the operation, administration, and investment direction of the Plan. A third-party administrator, appointed by the Company, processes and maintains the records of participant data. The Trustee administers the payment of interest and principal on the ESOP loan payable, which is reimbursed to the Trustee through contributions as determined by the Company. Expenses incurred for administering the Plan are paid by the Plan to the extent they are not paid by the Company.

Eligibility

Employees of the Company enter the Plan on January 1st or July 1st in the plan year in which they attain the age of 21 and complete one year of service (1,000 hours of service). Independent contractors, nonresident aliens without any U.S. source of income, and employees covered under a collective bargaining agreement are not eligible to participate in the Plan. Generally, leased employees are not eligible to participate in the Plan, however, they may become eligible if the individual primarily works under the direction of the Company on a substantially full time basis for at least one year. Participants who are not employed on the last day of a plan year are generally not eligible for an allocation of the Company's contributions for such year.

Employer Contributions

Employer contributions are paid in cash or in shares of the Company's common stock as determined by the Board of Directors of the Company. For the plan year ended December 31, 2024, the Company made a cash contribution of \$1,463,750 to the Plan in December 2024. Employee contributions are not permitted.

The Company may, in addition to its contributions to the Plan, contribute cash in the form of dividends. Such dividends may first be used to repay the ESOP loan payable. If there is no outstanding indebtedness with respect to the ESOP loan payable, the Company shall allocate dividends to participants. There were no dividends for the year ended December 31, 2024.

NOTE 1 – Description of the Plan (Continued)

Payment of Benefits

Distributions on account of death, disability, or attainment of the normal retirement age shall begin no later than the plan year following the plan year in which the event occurs. Distributions for other separation from service are offered no later than the sixth plan year following the plan year in which the participant terminated employment with the Company.

Vested account balances that are less than or equal to \$7,000 but greater than \$1,000 will be distributed as soon as administratively feasible. If a participant does not provide instructions, the amounts will be directly rolled over to an individual retirement account designated by the plan administrator.

If the value of the vested account balance of a participant exceeds \$7,000 as of the distribution date, no portion of the participant's account may be distributed before the participant attains age 65 without the participant's written consent. Payments will generally be made in substantially equal payments, at least annually, over a period not to exceed five years, plus one year for each \$265,000 by which the value of the participant's vested account balance exceeds \$1,330,000 subject to annual cost of living adjustments.

Diversification

Participants who are at least age 55 and with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may transfer the eligible portion of the participant's account balance directly to another qualified plan of the Company that accepts such transfers or may elect a distribution.

NOTE 1 – Description of the Plan (Continued)

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to the participant's account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective interest of plan participants and beneficiaries.

Participant Accounts

Each participant's share of plan assets is recorded in two accounts: 1) the Company's stock account, which generally represents the participant's allocable portion of the Company's common stock included in plan assets, and 2) the other investment account, which generally represents the participant's share of investments other than Company's common stock, net income or loss of the ESOP trust, or cash dividends, if any, Company contributions, and forfeitures in other than the Company's common stock.

Each participant's account is credited with an allocation of the Company's contributions, if any, an allocation of shares of the Company's common stock released by the Trustee from the unallocated account, and forfeitures of terminated participants' non-vested accounts, and unrealized appreciation in the value of the Plan's investments. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than attainment of normal retirement age, permanent disability, or death, he or she will vest in the balances in his or her account based on years of participation in the Plan. Participants are 20% vested after two years of service and are 100% vested after six years of service. Participant service prior to the Plan's effective date of January 1, 2023 shall be disregarded.

GTS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – Description of the Plan (Continued)

Put Option

Under federal income tax regulations, the Company's common stock that is held by the Plan and its participants which is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The first put option period runs for a period of at least sixty days commencing on the date of distribution of the Company's common stock to the participant. The second put option period runs for a period of at least sixty days commencing on the first day after the new determination of the appraised value of the Company's common stock is made in the subsequent plan year. The Company can pay for the purchase by a lump-sum cash payment of the purchase price or on an installment method together with interest over a maximum period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Forfeited Accounts

Plan forfeitures may be used to reinstate previously forfeited account balances of inactive participants or are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 totaled 5,752 common shares.

NOTE 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

GTS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE 2 – Summary of Accounting Policies (Continued)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. The fair value of the Company's common stock is determined at least annually by an independent appraisal. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date and dividends on the Company's common stock are recorded on the date declared. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported using the specific identification method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2025, the date the financial statements were available to be issued.

The increase in value of the Company’s common stock is reported in net unrealized appreciation in fair value of investments on the statement of changes in net assets (deficit) available for benefits and totaled \$2,070,000 for the year ended December 31, 2024.

GTS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024

NOTE 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Company common stock: The fair value of the Company's common stock held by the Plan is valued at fair value based upon independent appraisal. Specifically, the discounted cash flow, capitalization of earnings, guideline public company method, and guideline transaction methods were used. The final valuation gives equal weight to each of these methods. The valuation reflects the conclusion that market participants would recognize a discount for lack of marketability.

NOTE 4 – Fair Value Measurements (Continued)

***Quantitative Information about Significant Unobservable Inputs Used in Level 3
Fair Value Measurements***

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during and as of the year ended December 31, 2024 and 2023.

<u>Instrument</u>	<u>December 31, 2024</u>	<u>Principal Valuation Technique</u>	<u>Significant Unobservable Inputs</u>
GTS Technology Solutions, Inc. common stock	\$ 3,750,000	Income approach	Weighted-average cost of capital Long-term growth rate Discount for lack of marketability
		Market approach	Public comparables Enterprise value to EBITDA multiple Discount for lack of marketability

<u>Instrument</u>	<u>December 31, 2023</u>	<u>Principal Valuation Technique</u>	<u>Significant Unobservable Inputs</u>
GTS Technology Solutions, Inc. common stock	\$ 1,680,000	Income approach	Weighted-average cost of capital Long-term growth rate Discount for lack of marketability
		Market approach	Public comparables Enterprise value to EBITDA multiple Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – ESOP Loan Payable

On December 27, 2023, the Plan entered into a loan agreement with the Company for \$25,000,000. The proceeds of the loan were used to purchase 1,000,000 shares of the Company’s common stock. The loan bears interest at a fixed rate of 5.03%. The Plan must generally make principal and interest payments of \$1,463,750 annually through December 2063. The Plan may prepay the loan at any time without penalty. At December 31, 2024 and 2023, the loan balance was \$22,287,084 and \$25,000,000, respectively.

Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments, divided by the total of this year’s payment, plus all future years’ principal and interest payments. During the year ended December 31, 2024, 83,969 shares were released and allocated.

The following is a schedule of future loan amortization:

<u>Year Ending December 31,</u>	
2025	\$ 342,710
2026	359,948
2027	378,054
2028	397,069
2029	417,042
Thereafter	<u>20,392,261</u>
	<u>\$ 22,287,084</u>

NOTE 6 – Related-Party Transactions and Party-in-Interest Transactions

The Plan invests in the Company’s common stock and has an ESOP loan payable to the Company. These are related-party and party-in-interest transactions. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation for these duties from the Plan. Administrative expenses and Trustee fees are paid directly by the Company.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7 – Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Company's common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets (deficit) available for benefits.

NOTE 8 – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay liabilities and expenses of the trust fund and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 9 – Tax Status

The Plan has received a determination letter from the IRS dated September 24, 2024, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
