Plan Administrator of the
Garret Transportation I Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Garrett Transportation I Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

GARRETT TRANSPORTATION I INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Garrett Transportation I Inc. Pension Plan (originally known as the Garrett Motion, Inc. Pension Plan) (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: On October 1, 2018, Honeywell International, Inc. completed the spin-off to Honeywell shareowners of its Transportation Systems business into a standalone publicly-traded company, Garrett Motion, Inc. (“Garrett Motion”). The Plan, effective October 1, 2018 (“Effective Date”), is a defined benefit pension plan which provides benefits to certain employees of Garrett Transportation I Inc., (the “Company”) a subsidiary of Garrett Motion. Garrett Transportation I Inc. is the sponsor of the Plan. Each eligible employee who was accruing credited service or compensation, as applicable, in the Honeywell REP immediately prior to the Effective Date and whose accrued benefit under the Honeywell REP was transferred to this Plan as of the Effective Date shall be an active participant in this Plan as of the Effective Date. Each other individual whose accrued benefit under the Honeywell REP was transferred to this Plan shall be an inactive participant in this Plan as of the Effective Date, and shall not be credited with credited service or compensation (or their equivalent under the applicable Plan supplement), on or after the Effective Date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Northern Trust Company (the “Trustee”) is the Trustee of the Plan.

Benefits: The Plan offers the following benefits.

Traditional Plan Formula: The Plan provides for regular retirement benefits for participants who have attained the normal retirement age. Normal retirement age is generally the latter of the fifth anniversary of the date upon which an employee became a participant in the Plan or age sixty-five, or as provided by the applicable Plan supplement. Monthly annuity benefits are based on benefit formulas that are related to the participant’s final average compensation or fixed dollar amount, and years of service, as well as in certain situations, a level of integration with the participant’s social security benefit. The Plan also provides for early retirement benefits, at reduced benefit amounts, for those participants who meet the age and service requirements for early retirement. Effective December 31, 2015, final average compensation was frozen for all non-union participants. The final average compensation was also frozen for certain union participants as of the date specified in the Collective Bargaining Agreement.

Retirement Earnings Plan Formula: The Retirement Earnings Plan formula is based on the participant’s final average compensation times the annual percentage and years of service, dependent upon the participants’ group plan. Participants in the Retirement Earnings Plan formula can elect to receive their benefit in a single lump-sum.

Cash Balance Plan Formula: An account, for recordkeeping purposes only, has been established and is maintained for each participant in a cash balance formula. A participant’s account balance shall equal the sum of their initial account balance, if any, pay-based credits and interest credits. A pay-based credit shall be credited to each participant’s account as prescribed by the applicable formula. The amount credited will be equal to a percentage of the participant’s compensation. The account of each participant will also be increased by the interest credit percentage in effect for the applicable period as prescribed by the applicable formula.

Survivor Benefits: Eligible participants shall be deemed to have automatically elected the joint and survivor benefit option as prescribed by their applicable Plan Supplement which provides for reduced benefits for the life of the participant and for the life of the surviving spouse. Election of other joint and survivor annuities (as prescribed by their applicable Plan Supplement), single life annuity or other allowable options are also permitted under the Plan.

December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Disability Benefits: Participants who meet their applicable Plan Supplement's definition of Disabled are eligible to receive disability benefits upon meeting the age and service requirements.

Administration: The administration of the Plan, which includes determining administrative actions and interpreting and applying the Plan's provisions, is performed by the Company ("Plan Administrator"). The Plan Administrator is assigned with the right to settle claims or debts, and to defend any claims arising from the operation of the Plan. The Plan Administrator is also responsible for advising The Trustee regarding benefits that become payable.

Administrative and Investment Management Expenses: The Plan's Trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. Certain other expenses may also be paid from the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, credit risks, and market risks including global events. Due to the level of risk associated with certain Plan investments, it is at least reasonably possible that changes in the values of certain Plan investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 – CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by The Northern Trust Company (the Trustee of the Plan).

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. All the Aon Hewitt collective trusts, except for the Core Real Estate Fund and Multi-Asset Credit Fund, provide for daily redemptions by the Plan at reported net asset values per share, with 15 days of advance notice requirement. The Core Real Estate Fund and Multi-Asset Credit Fund provide for quarterly and daily redemptions, respectively, by the Plan at reported net asset values per share, with 30 to 90 days and 10 days of advance notice requirement, respectively. The Aon Enhanced Liability Driven Investing Fund provides for redemptions on a daily, monthly, quarterly, or annual basis, depending on the underlying investment, with notice periods generally ranging from none to 60 days. The NISA Ultra Long Treasury CIF, the NISA Ultra Mid Treasury CIF, and the Northern Trust collective trusts fund each provide for daily redemption at reported net asset value with no advance notice requirement.

The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31, 2024, Using		
	<u>Total</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

	<u>Total</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
*Collective trusts	\$ 173,403,439	\$ -	\$ -	\$ -
Total	\$ 173,403,439	\$ -	\$ -	\$ -

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 5 – FUNDING POLICY

Employer contributions to the Plan are made in amounts approved by the Company. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. There were no employer contributions to the Plan for the years ended December 31, 2024 and 2023, which satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

(Continued)

GARRETT TRANSPORTATION I INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 6 – PLAN TERMINATION (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Under certain Plan benefit formulas, Plan benefits are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the "Valuation Date"), and the corresponding monthly benefit amount does include future Plan increases. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2023, are as follows:

Mortality: Pri-2012 mortality table with generational improvements projected using the Mortality Improvement Scale MP-2021

Retirement age: Graded from age 55 to 70

Investment return: 4.86%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2023 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 107,055,362
Other participants	<u>64,889,869</u>
	171,945,231

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Certain Plan investments consist of units in collective trusts managed by the Trustee and are considered party-in-interest investments. Aon Investments USA, Inc. (formerly known as Aon Hewitt Investment Consulting, Inc.) is a fiduciary and investment manager of the Plan and is the issuer of collective trusts held by the Plan. Amounts paid by the Plan to parties in interest included fees paid for investment management and actuarial services. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 9 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated November 22, 2021 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the

financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 10 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 14, 2025, which is the date the financial statements were available to be issued.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provisions — Allied Salaried

Participation in Plan

Salaried employees at locations historically covered by the Allied Salaried plan.

Employees hired before 2000 who were active on October 1, 2000 had the one-time option of electing the Retirement Earnings formula. Employees hired after 1999 participate in the Retirement Earnings formula.

Effective December 31, 2015, the formula was amended to freeze pensionable pay for all participants.

Eligibility for Benefits

Normal Pension

Age 65.

Early Pension

A participant may retire prior to his normal retirement date under the following conditions:

- (1) Age and service equals 80 points.
- (2) Age 50, five years of service, and 60 points.

Disability Pension

Ten years of service.

Deferred Vested Pension

Five years of service.

Preretirement Spouse's Benefit

Five years of service.

Amount of Pension

Normal Pension

Basic Benefit

1.1% of final average monthly pay (using the best consecutive five years of last 10 years) plus 0.4% of final average pay in excess of the Social Security breakpoint, multiplied by years of service.

Minimum Benefit

2% of final average pay multiplied by the first 25 years of service less 64% of primary Social Security benefit.

Former Oak Materials Plan participants and Signal Research employees are subject to proration rules under the Allied Salaried Plan. The date used for proration is January 1, 1988 for Oak Materials and January 1, 1989 for Signal Research.

Early Pension

With 80 points, the basic benefit is computed as for normal retirement, except that the 0.4% benefit based

Schedule SB Attachment (Form 5500) —2024 Plan Year
Garrett Transportation I Inc. Pension Plan
EIN: 82-4723195 PN: 002

on excess pay is discounted by 3.0% for each year that early retirement precedes age 62.

Under 60 points retirement, the basic benefit is computed as for normal retirement, discounted by 3% for each year that early retirement precedes age 62.

The minimum benefit before offset is reduced 3% for each year that early retirement precedes age 62, and the offset is multiplied by a fraction the numerator of which is service at retirement and the denominator of which is projected service at age 65. The offset is also reduced $6\frac{2}{3}\%$ for each of the first five years that early retirement precedes age 65 and $3\frac{1}{3}\%$ for each year in excess of five.

Disability Pension

Accrued benefit payable immediately. If LTD and Social Security are available, benefit is deferred to age 65 with credit for time on disability (maximum 18 months).

Deferred Vested Pension

Accrued benefit payable at age 65 (except that the offset is prorated as for early retirement); reduced $6\frac{2}{3}\%$ for each of the first five years and $3\frac{1}{3}\%$ for each year in excess of five for early commencement.

Preretirement Spouse's Benefit

For vested active employees, one half of the employee's accrued benefit, payable immediately.

Normal Form of Payment

With Spouse

50% joint and survivor annuity actuarially equivalent to the single life annuity; automatic unless rejected in writing.

Without Spouse

Single life annuity.

Optional Forms of Payment

75% or 100% joint and survivor annuity, level income option, and 10 year certain and life.

Definitions

Compensation

Plan Provisions — Bendix Salaried

Participation in Plan

Salaried employees of former Bendix Companies. For employees of Honeywell Technology Solutions Inc. (BFEC), some benefits are not available — see specific descriptions.

Employees hired before 2000 who were active on October 1, 2000 had the one-time option of electing the Retirement Earnings formula. Employees hired after 1999 participate in the Retirement Earnings formula.

Friction Materials employees (including new hires) continue to participate in the Bendix Salaried formula.

Effective December 31, 2015, the formula was amended to freeze pensionable pay for all participants.

Eligibility for Benefits

Normal Pension

Age 65 and five years of vesting service.

Early Pension

(1) Age 55 with five years of vesting service.

(2) Age plus vesting service equals 80 points.

Disability Pension

Immediate eligibility upon qualifying disability of five months.

Deferred Vested Pension

Five years of vesting service.

Preretirement Spouse's Benefit

(1) Age 50.

(2) Five years of vesting service.

Amount of Pension

Normal Pension

The basic benefit is the difference between (1) and (2):

(1) 2% of average salary for each year of service up to 25 years, plus $\frac{1}{2}\%$ for each year in excess of 25.

(2) 2% of the primary Social Security benefit for each year of service up to 25 years.

The alternative minimum benefit is $\frac{3}{4}\%$ of average salary plus \$8, for each year of service up to 30.

In addition, a Medicare Part B Premium supplement of \$8.20 per month is payable to any retiree (except terminated vested retirees) or eligible surviving spouse age 65 or older.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Garrett Transportation I Inc. Pension Plan
EIN: 82-4723195 PN: 002

Early Pension

The benefit is computed as for normal retirement with the following reductions:

Basic Benefit

Part (1) is reduced by 2% for each of the first five years plus 4% for each year in excess of five by which retirement date precedes age 65, subject to a maximum reduction of 25% if the employee has 80 “points.”

The Social Security offset is applied only when Social Security is actually available (currently age 62) and is then reduced $6\frac{2}{3}\%$ per year for the first three years by which the later of retirement date and age 62 precedes the age for unreduced Social Security benefits. If the age for unreduced Social Security benefits is greater than age 65, the offset is further reduced 5% per year for up to another two years.

Alternative Minimum Benefit

Reduced by 7.2% for each of the first five years plus 4.8% for each year in excess of five by which retirement date precedes age 65, except that if the employee has at least 80 “points,” this reduction does not apply and a \$385 monthly supplement is added prior to eligibility for Social Security (currently age 62).

Disability Pension

A participant will accrue service (maximum 18 months) while disabled, up to an overall maximum of 25 years, for purposes of determining a normal or early retirement benefit when otherwise eligible, at the participant's election.

Deferred Vested Pension

Projected monthly pension, commencing at age 65, based on average salary prior to termination and on projected service to age 65, multiplied by the ratio of service at termination to projected service at age 65. If eligible, an early pension may be taken, but the benefit is reduced for early commencement.

Preretirement Spouse's Benefit

Where death occurs after the employee had satisfied the requirements for vesting, the spouse's benefit is subject to a minimum calculated as if the employee had retired early and elected a joint and 50% survivorship option, payable at the later of employee's death and earliest retirement age.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Garrett Transportation I Inc. Pension Plan
EIN: 82-4723195 PN: 002

	If a terminated vested participant dies before benefit commencement, spouse automatically receives 50% of the employee's accrued benefit, reduced for early retirement, survivorship option, and coverage. Benefit is payable at later of employee's death and earliest retirement age.
Postretirement Survivor's Benefit	A lump sum benefit equal to 15% of average salary (prorated for service less than 10 years at retirement), with a minimum of \$2,000, is paid upon death after retirement. (Not applicable to BFEC retirements after January 1, 1992.)
Normal Form of Payment	
With Spouse	50% joint and survivor annuity reduced per plan factors; automatic unless rejected in writing.
Without Spouse	Single life annuity.
Optional Forms of Payment	75% or 100% joint and survivor annuity, level income, 10 year certain and life, reduced per plan factors.
Definitions	
Salary	Base rate of compensation plus incentive compensation, plus other qualifying payments as specified by the Plan Administrator.
Average Salary	Average of the 60 highest consecutive months of salary in the last 120 months of employment.
Primary Social Security Benefit	Estimated benefit available at age 65 under the Social Security Act in effect on the date of termination. For retirement eligible participants, an assumption of zero future earnings is used. For others, level future earnings is assumed.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Garrett Transportation I Inc. Pension Plan
EIN: 82-4723195 PN: 002

Early Pension

The benefit is computed as for normal retirement with the following reductions:

Basic Benefit

Part (1) is reduced by 2% for each of the first five years plus 4% for each year in excess of five by which retirement date precedes age 65, subject to a maximum reduction of 25% if the employee has 80 “points.”

The Social Security offset is applied only when Social Security is actually available (currently age 62) and is then reduced $6\frac{2}{3}\%$ per year for the first three years by which the later of retirement date and age 62 precedes the age for unreduced Social Security benefits. If the age for unreduced Social Security benefits is greater than age 65, the offset is further reduced 5% per year for up to another two years.

Alternative Minimum Benefit

Reduced by 7.2% for each of the first five years plus 4.8% for each year in excess of five by which retirement date precedes age 65, except that if the employee has at least 80 “points,” this reduction does not apply and a \$385 monthly supplement is added prior to eligibility for Social Security (currently age 62).

Disability Pension

A participant will accrue service (maximum 18 months) while disabled, up to an overall maximum of 25 years, for purposes of determining a normal or early retirement benefit when otherwise eligible, at the participant's election.

Deferred Vested Pension

Projected monthly pension, commencing at age 65, based on average salary prior to termination and on projected service to age 65, multiplied by the ratio of service at termination to projected service at age 65. If eligible, an early pension may be taken, but the benefit is reduced for early commencement.

Preretirement Spouse's Benefit

Where death occurs after the employee had satisfied the requirements for vesting, the spouse's benefit is subject to a minimum calculated as if the employee had retired early and elected a joint and 50% survivorship option, payable at the later of employee's death and earliest retirement age.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Garrett Transportation I Inc. Pension Plan
