Report of Independent Auditors

The Retirement Plan Investment Board of FedEx Corporation
FedEx Corporation Retirement Savings Plan for Puerto Rico

Opinion

We have audited the financial statements of FedEx Corporation Retirement Savings Plan for Puerto Rico (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

**Shape the future
with confidence**

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

**Shape the future
with confidence**

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2024, and delinquent participant contributions for the year then ended (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

FedEx Corporation Retirement Savings Plan for Puerto Rico

Notes to Financial Statements

December 31, 2024

1. Description of Plan

The following description of the FedEx Corporation Retirement Savings Plan for Puerto Rico (the Plan) is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the plan document.

General

The Plan is a defined contribution plan established by FedEx Corporation (FedEx) for the benefit of eligible employees of Federal Express Corporation and other sponsoring employers who work in Puerto Rico (collectively referred to as the Company), as defined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees are eligible to participate in the Plan at age 21 and upon completing one month of service. Employees who were active participants in a qualified plan of a controlled group member (FedEx and subsidiaries) immediately prior to their employment with the Company are immediately eligible to participate provided they also meet the age and service requirements, including service with controlled group members. Employees who are covered by a collective bargaining agreement are not eligible to participate unless the Plan is specifically incorporated into such agreement.

Plan Administration

Responsibility for administering the Plan resides with the Retirement Plan Investment Board (Investment Board), which was appointed by the Compensation Committee of the Board of Directors of FedEx.

Effective June 1, 2024, the Investment Board delegated responsibility for day-to-day administrative activities and vendor management to the Retirement Services Department of Federal Express Corporation; prior to this date, these responsibilities were handled by the Retirement Services Department of FedEx Services, Inc.

1. Description of Plan (continued)

Under a trust agreement, Banco Popular de Puerto Rico (the Trustee) was appointed trustee for the Plan. The trust agreement authorizes the Trustee to invest and reinvest all or part of the Plan's assets in accordance with the participants' investment directions in any available investment fund selected by the Investment Board. Participant's may select a brokerage option under which they select other investment vehicles not available under the standard Plan's investment options. (See Note 4). The Trustee has been granted authority to make payments from the plan assets as directed by the Investment Board. Under a service agreement, The Vanguard Group, Inc. was appointed the record-keeper and custodian for the Plan.

Contributions

Eligible employees can generally contribute an amount up to 50% pretax and 10% after-tax of eligible compensation, subject to certain limitations under the prior Puerto Rico Internal Revenue Code of 1994 (PRIRC-94), and the Internal Revenue Code for a New Puerto Rico, effective January 1, 2011 (the Puerto Rico Code). Participants may contribute rollover contributions representing distributions from other plans that are qualified only under Section 1081.01(a) of the Puerto Rico Code (Section 1165(a) of the PRIRC-94 for tax years before 2011).

Participants direct the investment of their contributions and the company matching contributions. The Plan currently offers several funds as investment options for participants, and no contributions can be directed into company stock. Participants who do not select an investment option(s) will be automatically invested in a Qualified Default Investment Arrangement (QDIA), which is a Vanguard Target Retirement Trust based on the participant's age and an assumed retirement age of 65.

The Plan allows participants age 50 or older and those who attain age 50 by the close of the plan year to make catch-up contributions of up to 30% of their eligible compensation for each plan year, not to exceed \$1,500 or as otherwise provided under the PRIRC-94 and the Puerto Rico Code and subject to limitations by the PRIRC-94 and the Puerto Rico Code.

1. Description of Plan (continued)

Effective January 1, 2022, FedEx introduced an all 401(k) plan retirement benefit structure for eligible employees with a higher company match of up to 8% across all U.S.-based operating companies. Eligible employees hired prior to January 1, 2020, who participated in a company sponsored pension plan were given a one-time option to continue receiving pension compensation credits under the existing Portable Pension Account (PPA) formula and be eligible for a company match of up to 3.5%, or to cease receiving compensation credits under the pension plan and become eligible for a maximum company match of 8%. Employees hired or rehired on or after January 1, 2020, automatically moved to the new match formula effective January 1, 2022.

The company matching contribution is equal to 100% of the first 1% of participants' compensation contributed and 50% of the next 5% of compensation contributed for those who accrue a pension benefit and a company matching contribution equal to 200% of the first 2% of participants' compensation contributed and 100% of the next 4% of participants' compensation contributed for those who do not accrue a pension benefit.

Participants become fully vested in the company matching contribution account after 12 months of service.

Contributions from plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Benefits

Benefits are generally paid upon termination of service due to death, disability, termination, or retirement. Participants can elect to receive the value of their accounts in the form of a lump-sum distribution or a direct rollover. Effective January 1, 2017, participants can also elect to receive distributions in the form of fixed installments or partial distributions. A participant may request that all or any portion of his or her distribution be paid directly to an eligible retirement plan. The Plan provides for in-service withdrawals in accordance with the terms of the Plan.

1. Description of Plan (continued)

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the Company's contributions, participant contributions, and the participant's share of the Plan's income or loss. Participants are fully vested in all of their accounts in the Plan as of December 31, 2007. For participants who first perform service for a sponsoring employer on or after January 1, 2008, the vesting schedule for company matching contributions will be as follows: fewer than 12 months – 0%; 12 or more months – 100%.

Forfeitures

Participants who do not have a vested interest in the entire value of their accounts will have the difference (if any) between the value of such accounts and the vested amount forfeited upon termination from service for reasons other than death, disability, or retirement. Such forfeiture shall occur as of the valuation date coinciding with or next following the earlier of (i) the date the participant (or his or her beneficiary) commences a distribution of any of the vested portion of his or her accounts and (ii) the date the participant incurs a period of severance of five consecutive years. Forfeitures hereunder will be used to reduce future company matching contributions and pay reasonable administrative expenses of the Plan. There were no unallocated forfeiture balances as of December 31, 2024 or 2023, and \$2,650 of forfeitures were used in 2024 to reduce company contributions.

Loans to Participants

Participants may borrow from their participant accounts amounts ranging from a minimum of \$1,000 to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. The terms of loans to participants range from one to five years or, in connection with the purchase of a primary residence, up to ten years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. A participant may have one outstanding loan at a time. A participant is not eligible for another loan until a period of one year has elapsed from the date on which a previous loan to the same individual has been fully repaid. Repayments from plan participants are made through regular payroll deductions. Principal and interest are amortized and allocated on each payment.

1. Description of Plan (continued)

Administrative Expenses

Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. The Company pays all administrative expenses of the Plan, except for the administrative costs of certain mutual funds and brokerage transactions, loan origination fees, hardship origination fees, and managed account advice fees, which are charged directly to the participants. Mutual fund expenses may include, but are not limited to, investment management, record-keeping, and administration as well as ancillary expenses incurred in conjunction with operating the defined contribution Plan.

A \$14 per year fee is assessed to the accounts of those who have separated from employment beginning the quarter following separation.

The loan origination fee and hardship withdrawal fee is \$50.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. Plan loans to participants must be repaid in accordance with the terms of the loan, the Plan's loan provisions, and the Commonwealth of Puerto Rico's Department of Treasury (Treasury) rules. The Treasury requires that loans be kept current, and failure to make scheduled substantially level loan repayments at least quarterly puts a participant's loan in default, which will be reported to the Treasury as a taxable distribution if it is not brought current in a timely manner.

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates that affect the accompanying financial statements and accompanying notes and supplemental schedules. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments held by the Plan directly and indirectly through its investment in the FedEx International Active Equity Fund Master Trust (International Active Equity Trust) and the FedEx Company Stock Fund Master Trust (FDX Stock Fund Trust) are reported at fair value. See Note 4 for discussion of fair value measurements and Note 5 for discussion of the master trusts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Termination

The Company intends to continue the Plan indefinitely. However, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested and all plan assets will be distributed to the participants or their beneficiaries.

Notes to Financial Statements (continued)

3. Risks and Uncertainties

The Plan invests in various investment securities. The fair values of investment securities are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

4. Fair Value Measurements

Fair value is defined as the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Inputs are quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Valuations are derived from unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for investments measured at fair value.

Shares of mutual funds and money market funds are valued at quoted market prices as determined in an active market, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Collective trusts and the fixed-income collective funds are valued at the NAV of shares held as determined by the issuer. The NAV is considered published but trades in nonpublic markets.

FedEx Corporation Retirement Savings Plan for Puerto Rico

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The FedEx Corporation Common Stock Fund, which is held in the Master Trust (Note 5), is valued at the daily unit closing price, which comprises the daily quoted market price plus any uninvested cash position.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan includes a brokerage feature. The brokerage window option provides participants access to individual stocks, bonds, mutual funds, exchange-traded funds (ETFs) and limited options trading through the brokerage provider, TD Ameritrade. Participants may invest up to 90% of their vested account balance in the self-directed brokerage account. TD Ameritrade was acquired by Charles Schwab in 2019 and effective September 2023, the brokerage service moved to the Charles Schwab platform.

The following table sets forth by level within the fair value hierarchy, the Plan investments as of December 31, 2024 (in thousands):

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 34,267	\$ –	\$ –	\$ 34,267

Common/collective trust funds	17,234	–	–	17,234
Total assets at fair value	\$ 53,311	\$ –	\$ –	\$ 53,311

In the prior year's financial statements, the money market fund was classified as Level 2. Upon further analysis, it was determined that a Level 1 classification was more appropriate. In 2024, the Plan revised its fair value hierarchy classification from Level 2 to Level 1, and the 2023 presentation has been adjusted accordingly for this immaterial amount.

5. Master Trusts

The FedEx Corporation Retirement Savings Plan for Puerto Rico participates in the International Active Equity Trust along with the FedEx Office and Print Services, Inc. 401(k) Retirement Savings Plan, the FedEx SCA Employees' 401(k) Retirement Savings Plan, the FedEx Corporation Retirement Savings Plan, and the FedEx Corporation Retirement Savings Plan II (effective January 1, 2022). Each participating plan has a specific interest in the International Active Equity Trust determined by participants' investment elections. The master trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to the fair value of the assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the master trust. The net appreciation in fair value of investments of the International Active Equity Trust was \$25,480 thousand for the year ended December 31, 2024.

6. Income Tax Status

The Plan has received a determination letter from the Commonwealth of Puerto Rico's Department of Treasury (Treasury) dated January 8, 2024, stating that the Plan is qualified under Section 1081.01 of the Internal Revenue Code for a New Puerto Rico (the Puerto Rico Code), and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Puerto Rico Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Puerto Rico Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Party-in-Interest Transactions

Certain plan investments are shares of mutual funds and collective trust funds managed by the custodian; therefore, these transactions qualify as party-in-interest transactions. Additional party-in-interest transactions include the Plan's investments through the FDX Stock Fund Trust, which holds shares of FedEx Corporation common stock and receives dividends paid on FedEx common stock.

8. Reconciliation of Financial Statements to Form 5500
