Independent Auditor's Report

To the Audit Committee and Participants
Elizabethtown College Defined Contribution Retirement Plan
Elizabethtown, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform the audits of the financial statements of Elizabethtown College Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 6 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section, it is inappropriate to, and we do not, express an opinion on the supplemental schedule referred to above.

Elizabethtown College Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1 - Description of Plan

The following description of the Elizabethtown College Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution and Internal Revenue Code (IRC) Section 403(b) plan covering substantially all employees of Elizabethtown College (the College). All employees of the College are immediately eligible to make salary deferrals. To be eligible for employer contributions, employees must be age 21 and complete two years of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to make annual contributions to the Plan up to the maximum contribution as defined by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year or have 15 years of service are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. Effective January 1, 2024, the College matches 7% of eligible compensation if the participant's deferrals equal or exceed 5% of eligible compensation. Prior to January 1, 2024, the College's matching contribution was 10% of eligible compensation if the participant's deferrals equaled or exceeded 5% of eligible compensation. The College also makes a nonelective contribution of 3% of eligible compensation to each eligible participant who does not contribute 5% or more. Contributions are subject to certain IRS limitations.

Prior to January 1, 2023, participants who deferred at least 5% of eligible compensation and were between the ages of 55 to 61, with a minimum of ten years of service, could enroll in an Accelerated Match Program. Under the program, the College accelerated the matching contribution to the Plan, based on a factor correlating to an elected retirement age. Other than already enrolled participants, the Accelerated Match Program is no longer active. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and the College's matching contributions, as well as allocations of (a) the College's contribution, (b) plan earnings, (c) forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions, plus actual earnings thereon.

December 31, 2024 and 2023

Note 1 - Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years, unless the loan is to acquire the participant's principal residence, in which case the loan may be for up to fifteen years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, set the first day of each month. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or in installment payments or an annuity.

In addition, the Plan allows for hardship distribution if certain criteria are met and in-service withdrawals for participants, which have attained age 59-½.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value except for a certain contract held by TIAA and CREF as described in Note 5. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the College. Expenses that are paid by the College are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Plan Loans

Participants may borrow from TIAA and CREF using a portion of the account balance as security for the loan. The minimum loan is \$1,000 and may be up to the lesser of \$50,000 or 50% of their account balance. The loans bear interest at rates that range from 5.02% to 5.89%, which are commensurate with local prevailing rates as determined periodically by TIAA and CREF. Principal and interest are paid ratably through monthly or quarterly payments by the participant to TIAA and CREF. The plan administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions.

At December 31, 2024 and 2023, the balance of Plan-related loans was \$-0- and \$17,672, respectively. At December 31, 2024 and 2023, under the borrowing terms of these loans, \$-0- and \$19,439, respectively, of plan assets serve as collateral to these loans. Interest paid by participants on such loans during the plan years ended December 31, 2024 and 2023 was approximately \$-0- and \$2,200, respectively.

In the event of default, such loans are reportable to plan participants as taxable income, but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. As of December 31, 2024 and 2023, loans in default amounted to \$-0- and \$1,942, respectively. These amounts include the principal and accumulated interest.

Note 3 - Information Certified and Provided by TIAA and CREF

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to, or derived from, information certified as complete and accurate by TIAA and CREF, the custodian of the Plan.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Elizabethtown College Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 4 - Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies are valued at the net asset value of shares held by the Plan at year-end.

Pooled separate account is valued at the daily unit value published on NASDAQ, beginning in October 2014. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

Insurance annuity contract is reported at contract value, which approximates fair value. The contract value of the TIAA and CREF Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. Within this contract are subcontracts, which have varying characteristics based on the type of subcontract issued. The Retirement Annuity (RA) subcontract does not allow lump-sum cash withdrawals and transfers must be spread over a period of ten annual installments. The holdings within the RA subcontract have liquidity restrictions and are non-benefit-responsive. The Supplemental Retirement Annuity (SRA) and Group Supplemental Retirement Annuity (GSRA) subcontracts have no liquidity restrictions and are benefit-responsive.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	\$ 110,372,344	\$ -	\$ 38,709,371	\$ 149,081,715

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	2024	2023
Balance at Beginning of Year	\$ 38,709,371	\$ 39,133,446

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

	Fair Value		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values at	
	December 31, 2024	December 31, 2023			December 31, 2024	December 31, 2023

Note 5 - Insurance Annuity Contract with TIAA and CREF

The Plan has a fixed annuity contract with TIAA and CREF. Under this contract are subcontracts, some of which are fully benefit-responsive while others are not. TIAA and CREF maintains the contributions in a general account. The contract is included in the financial statements at contract value, which approximates fair value, as reported to the Plan by TIAA and CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1% to 3% (generally 3%). The crediting rate is reviewed on an annual basis for resetting. There are certain withdrawal limitations for the investment contract. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the contract issuer's ability to meet its financial obligations. The contract issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

December 31, 2024 and 2023

Note 5 - Insurance Annuity Contract with TIAA and CREF (continued)

The annuity contract consists of the following at December 31:

	<u>2024</u>	<u>2023</u>
Retirement Annuity (RA)	\$ 31,418,578	\$ 32,594,279
Supplemental Retirement Annuity (SRA)	1,909,558	2,096,681
Group Supplemental Retirement Annuity (GSRA)	<u>4,173,800</u>	<u>4,018,411</u>
	<u>\$ 37,501,936</u>	<u>\$ 38,709,371</u>

Note 6 - Excluded Contracts

The plan administrator has elected to exclude from investments certain annuity and custodial accounts that may have been issued to current and former employees without the plan administrator's knowledge prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The plan administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 7 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The plan administrator believes that the terms of the Plan have been prepared to conform with the requirements of Section 403(b) of the IRC, and are currently being operated in conformity with the applicable requirements of the IRC and; therefore, believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Elizabethtown College Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Approximately 24% and 26% of the Plan's investments are held in one account with TIAA and CREF at December 31, 2024 and 2023, respectively. As such, this is considered to be a concentration of credit risk.

Note 10 - Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are shares of registered investment companies, units of a pooled separate account, and an insurance annuity contract, managed by TIAA and CREF. TIAA and CREF is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 11 - Subsequent Events

Plan management has evaluated subsequent events through October 7, 2025. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2024 were noted.
