## INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the  
Savings Program for Employees of  
Consolidated Nuclear Security, LLC at the  
U.S. Department of Energy Facilities at  
Oak Ridge, Tennessee

### Opinion

We have audited the financial statements of the Savings Program for Employees of Consolidated Nuclear Security, LLC at the U.S. Department of Energy Facilities at Oak Ridge, Tennessee (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of or for the year ended December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2024 and 2023**

**NOTE 1 - DESCRIPTION OF THE PLAN**

The following description of the Savings Program for Employees of Consolidated Nuclear Security, LLC at the U.S. Department of Energy Facilities at Oak Ridge, Tennessee (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions, which is available from the plan administrator.

**General** - The Plan is a defined contribution plan which covers all eligible employees of the adopting employers with contracts with the U.S. Department of Energy (DOE) at the Oak Ridge, Tennessee facilities with Consolidated Nuclear Security, LLC (CNS or the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the CNS Benefits and Investment Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance. See Note 13.

**Contributions** - Participants may contribute 1% to 75% of eligible earnings (as defined by the Plan) each pay period (or 16% for highly compensated employees) subject to annual contribution limits. Participants' contributions will be matched at a rate of 100% of the first 2% of eligible earnings and 50% of the next 4% of eligible earnings, regardless of credited service. Participants who are members of the International Guards Union of America (IGUA), and Beta 9 Operators will be matched at a rate of 100% up to 5% of eligible earnings. IGUA Security Police Officers will be matched at the rate of 100% up to 6% of eligible earnings. All employee contributions to the Plan may be made on a before-tax, or Roth basis up to the annual limits. Employees may contribute on an after-tax basis which is not subject to annual limits. Participants age 50 or older may also make catch-up contributions.

In addition, the Plan also has the Enhanced Defined Contribution Program. Eligible participants are (a) non-bargaining employees hired on or after January 1, 2012 and not vested in the Retirement Program Plan for Employees of Consolidated Nuclear Security, LLC at the U.S. Department of Energy Facilities at Oak Ridge, Tennessee (CNS Y-12 Retirement Plan), (b) Atomic Trades and Labor Council (ATLC) and IGUA Alarm Station Operators, CTF Instructors and Beta 9 Operators hired on or after January 1, 2016, (c) United Steel Workers (USW) employees hired on or after February 1, 2016, and (d) IGUA Security Police Officers hired on or after August 15, 2016. The Enhanced Defined Contribution Program is a non-discretionary contribution of 3% of eligible earnings for participants with less than 5 years of credited service and 4% of eligible earnings with 5 or more years of credited service.

Newly hired employees are automatically enrolled in the Plan as soon as administratively feasible following their eligibility date. Protective force bargaining unit employees are enrolled at a 2% contribution rate. All other employees are enrolled at 6%.

**Investment Options** - Participants may direct contributions in increments of 1% to one or more of the available investment options offered by the Plan. The assets of the Plan were held in trust under an agreement between the Company and Northern Trust Company (Northern Trust).

**NOTE 1 - DESCRIPTION OF THE PLAN (Continued)**

**Participant Accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Earnings and revenue sharing allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - Participants are 100% immediately vested in their contributions. Company matching contributions become 100% vested after three years of service. A participant vests in the Enhanced Defined Contribution Program after six years of credited service. In addition, a participant will become 100% vested in all Company matching contributions and Enhanced Defined Contributions at age 65 while a Company employee; upon retirement and eligibility to receive an immediate pension; or upon departure from the Company because of permanent disability, death, or involuntary termination for reasons other than cause. Prior to attainment of six years of credited service, the vesting schedule for Enhanced Defined Contributions, based on number of years of service, is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

**Notes Receivable from Participants** - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 minus their highest outstanding loan balance during the previous twelve months or 50% of their vested account balance at the time of the loan. The loans are collateralized by the balance in the participant's account and bear interest at the Reuters Prime rate plus 1%. Interest rates ranged from 4.25% to 9.50% during 2024. The minimum loan term is 6 months and the maximum loan term is 5 years for general loans and 15 years for residential loans. Principal and interest are paid ratably through payroll deductions.

**Payment of Benefits** - Upon termination of employment, death, disability or retirement, a participant with an account balance exceeding \$5,000 may elect to receive either a lump-sum payment equal to the participant's account balance or monthly installments over a specified period. Participants with account balances of less than \$5,000 receive a lump-sum payment. In-service distributions are allowed if the participant has attained aged 59½, qualifies for a hardship withdrawal, or made regular after-tax contributions to their account.

**Forfeited Accounts** - At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$230,157 and \$130,346, respectively. These accounts will be used to reduce the matching contributions due from the participating employers and to reduce any corrective allocations or contributions and restorations due from the employers. For the year ended December 31, 2024, employer contributions were reduced by \$1,363,192 through forfeited non-vested accounts.

**Administrative Expenses** - Expenses related to general administration and record keeping are paid out of the assets of the Plan unless paid by the Company.

**Plan Termination** - Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and approval by NNSA. In the event of plan termination, participants will become 100% vested in their accounts. See Note 13.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** - The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

**Use of Estimates** - The preparation of financial statements in conformity with US GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition** - The Consolidated Nuclear Security, LLC Master Retirement Plan Trust (Master Trust) holds the investments of the Plan in addition to other CNS-sponsored defined benefit and defined contribution retirement plans.

Investments are reported at fair value except for the fully benefit-responsive investment contract (FBRIC) which is reported at contract value. Fair value, as defined by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (FASB ASC 820), is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

The value of the Plan's interest in the Master Trust is based on the beginning of the period's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Gains and losses (realized and unrealized) are reported in net appreciation in fair value of investments in the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net investment gain or loss includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

**Contributions** - Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

**Notes Receivable from Participants** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

**Payment of Benefits** - Benefits paid directly to participants or their beneficiaries are recorded when paid.

**Subsequent Events** - Plan management has evaluated subsequent events through October 13, 2025, which is the date the financial statements were available to be issued and has determined that there are no subsequent events that require disclosure.

**NOTE 3 - MASTER TRUST INVESTMENTS AND RELATED INVESTMENT INCOME**

### NOTE 3 - MASTER TRUST INVESTMENTS AND RELATED INVESTMENT INCOME (Continued)

The Plan holds a divided interest in the Master Trust fund or funds in which it participates. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon each individual Plan's ownership interest in the fund or funds in which it participates. These allocated expenses are netted against the net investment income from the Plan's interest in the Master Trust.

During the year ended December 31, 2024, the defined benefit and defined contribution plans covering employees of the Pantex plant, previously sponsored by CNS, transferred their net assets out of the Consolidated Nuclear Security, LLC Master Retirement Plan Trust and into the PanTeXas Deterrence Master Retirement Trust. The total amount of the transfer was approximately \$1.7 billion.

### NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

**Cash and Cash Equivalents, Interest-Bearing** - Valued at amortized cost which approximates fair value due to the short-term nature of cash equivalents. Cash and cash equivalents consist of overnight sweep accounts, money market funds, certificates of deposit, and commercial paper.

**Corporate Bonds** - Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

**Government Securities** - Valued at the closing price reported on the active market on which the individual securities are traded.

**Partnerships and Joint Ventures** - Value is provided by the partnership or joint venture. The fair value of the Plan's investment in these funds has been estimated using the net asset value (NAV) of the Plan's ownership interest in the partners' capital account. The value of these partnership or joint ventures is based on the fair value of the underlying fund investments. Marketable investments are valued based on observable inputs such as quoted market prices. Non-marketable investments are valued based on observable and unobservable inputs to determine the value that might reasonably be expected to be received in the normal course of business.

**NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)**

**Common / Collective Trusts** - Valued at the underlying NAV of units reported using audited financial statements of the collective trust and changes in such amounts through the Plan's year end. These funds publish their daily NAV and transact at that price.

**Common Stocks** - Valued at the closing price reported on the active market on which the individual securities are traded.

**Registered Investment Companies (Mutual Funds)** - Valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

**Self-Directed Brokerage Accounts** - Valued based on the fair value of the underlying investments. The underlying investments are carried at fair value based on quoted marked prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the investments in the Master Trust as well as investments measured at NAV practical expedient as of December 31, 2024 and 2023 (in thousands of dollars):

<sup>(1)</sup> Certain investments that are measured at fair value using net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

**NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)**

The following table sets forth the Plan's other investments at fair value by level, within the fair value hierarchy, as of December 31, 2024 and 2023 (in thousands of dollars):

**NOTE 5 - NET ASSET VALUE PER SHARE**

Under the guidance of FASB ASC 820 Subtopic No. 10, entities are permitted, as a practical expedient, to estimate the fair value of investments within its scope using the NAV per share of the investment as of the reporting entities' measurement dates. The guidance also requires additional disclosures to better enable users of the financial statements to understand the nature and risks of the reporting entity's investments that fall under these rules.

The following tables set forth a summary of the Master Trust's investments with a reported NAV as of December 31, 2024 and 2023 (in thousands of dollars):

## **NOTE 6 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS**

The Plan participates in the Invesco Stable Value Fund (the Fund) held by the Master Trust. The Fund entered into synthetic investment contracts with financial institutions and insurance companies which meet the FBRIC criteria and therefore, are reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. Total contract value of synthetic investment contracts held by the Master Trust at December 31, 2024 and 2023 was approximately \$205,891,000 and \$307,850,000 respectively.

Under certain events, the amounts withdrawn from investment contracts may be payable at fair value rather than contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from an investment contract or if the terms of a successor plan do not meet the contract issuer's criteria for the issuance of a similar contract. In some cases, an investment contract issuer may terminate a contract with the Plan and settle at an amount different than the contract value. Examples of these events include the Plan's loss of its qualified status, material breaches of responsibilities that are not cured or material and adverse changes to the provisions of the Plan.

## **NOTE 7 - SECURITIES LENDING**

The Master Trust is authorized to engage in the lending of certain investments under the terms of a Securities Lending Authorization Agreement. Securities lending is an investment management enhancement that utilizes certain existing securities of the Master Trust to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers. In return for the loaned securities, the trustee, prior to or simultaneous with delivery of the loaned securities to the borrower, receives collateral in the form of cash or fixed income securities as a safeguard against possible default of any borrower on the return of the loan under terms that permit the Master Trust to repledge or sell the securities.

The Plan has the right under the Securities Lending Authorization Agreement to recover the securities from the borrower on demand. If the borrower fails to deliver the securities on a timely basis, the Plan could experience delays or losses on recovery. Additionally, the Plan is subject to the risk of loss from investments that it makes with the cash received as collateral. The Plan manages credit exposure arising from these lending transactions by entering into collateral agreements with third party borrowers that provide the Plan, in the event of default (such as bankruptcy or a borrower's failure to pay or perform), the right to net a third party borrower's rights and obligations under such agreement and liquidate and set off collateral against the net amount owed by the counterparty.

Each loan is initially collateralized at a minimum of 102% of the market value of the loaned securities. The collateral is marked to market on a daily basis. In the event the counterparty is unable to meet its contractual obligation under the securities lending arrangement, the Master Trust may incur losses equal to the amount by which the market value of the securities differ from the amount of collateral held. The Master Trust mitigates credit risk associated with securities lending arrangements by monitoring the fair value of the securities loaned on a daily basis, with additional collateral obtained or refunded as necessary. The maturity of the interest bearing cash collateral is one year or less. The maturity of the non-cash collateral fixed income securities is up to 30 years.

The Master Trust maintains full ownership rights to the securities loaned and accordingly, classifies loaned securities as investments. Because the securities received as collateral may be repledged or sold, the Master Trust recognizes the amount of collateral received and a corresponding obligation to return such collateral on the statement of net assets. The fair value of securities on loan was \$34,484,554 and \$75,382,037 and the fair value of collateral was \$35,237,640 and \$77,352,264, respectively, at December 31, 2024 and 2023. Securities lending income earned by the Master Trust is recorded on the accrual basis and was \$115,243 for the year ended December 31, 2024.

## **NOTE 8 - DERIVATIVES**

The Master Trust enters into futures contracts in the normal course of its investing activities to manage market risk associated with the Master Trust's fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statement of net assets available for benefits. The credit risk associated with these contracts is minimal because they are traded on organized exchanges and settled daily.

During 2024 and 2023, the Master Trust was party to futures contracts held for trading purposes for U.S. Treasury notes and bonds. Upon entering into a futures contract, the Master Trust is required to deposit either in cash or securities an amount (initial margin) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the plan, depending on the daily fluctuation in the value of the underlying contracts.

At December 31, 2024 and 2023, the Master Trust had futures contracts to purchase U.S. Treasury note and bond contracts with notional amounts of \$36.2 million and \$30.6 million, respectively, and sell U.S. Treasury note and bond contracts with notional amounts of \$16.0 and \$19.8 million, respectively.

Notional amounts do not quantify risk or represent assets or liabilities of the plan but are used in the calculation of cash settlements under the contracts. The fair value of futures contracts in the Master Trust is zero at December 31, 2024 and 2023 because changes in the value of the contracts are settled by cash payments daily. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

## **NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS**

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company, and certain others. The Plan and the Master Trust invest in common/commingled trust funds managed by Northern Trust. The amount of the Plan's investment in the common/commingled trust funds at December 31, 2024 and 2023 was \$520,379 and \$2,804,285, respectively. The amount of the Master Trust's investment in the common/commingled trust funds at December 31, 2024 and 2023 was \$9,092,805 and \$38,271,833, respectively. The Master Trust also holds a synthetic guaranteed investment contract (GIC) from Voya Financial. The total value of the Voya GIC held by the Master Trust was \$34,262,513 and \$51,138,873 at December 31, 2024 and 2023, respectively. Northern Trust is the trustee, as defined by the Plan, and Voya Financial is the Plan recordkeeper. Therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions. A statutory exemption from the prohibited transaction regulation exists for the transactions previously mentioned.

For the year ended December 31, 2024, the Plan paid approximately \$1,003,000 and the Master Trust paid approximately \$3,402,000 in expenses related to plan operations and investment activity to various service providers. These transactions are considered to be party-in-interest transactions.

## **NOTE 10 - PLAN TAX STATUS**

The Plan obtained its latest determination letter on February 15, 2013, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the relevant taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **NOTE 11 - CONTINGENCIES**

The Plan is subject to various claims and lawsuits which arise in the ordinary course of plan operations, primarily related to participant benefits. It is the opinion of Management that the disposition of ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position of the Plan.

In previous years, Plan management became aware of certain Plan compliance issues that will result in corrective contributions to current participants. Plan management is working with ERISA counsel and the Plan recordkeeper to determine the total impact and the necessary corrective actions. At this time, Plan management estimates that the total impact to the Plan will be minor.

#### **NOTE 12 - RISKS AND UNCERTAINTIES**

The Plan invests in various securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the financial statements.

#### **NOTE 13 - PLAN ADMINISTRATION**

In 2020, CNS was notified by the National Nuclear Security Administration (NNSA) that their contract to manage the Y-12 National Security Complex in Oak Ridge, Tennessee would not be renewed after the current contract and related extensions expire. In 2024, CNS was notified by the NNSA that their contract would be extended through September 30, 2027. When the contract expires, the new contract holder will be responsible for the management of the Plan.
