Independent Auditor's Report

Plan Administrator and Trustee
Del-Air Investor Employee Ownership Plan
Orlando, Florida

Opinion on the 2024 Financial Statements

We have audited the financial statements of Del-Air Investor Employee Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprises the statements of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2024 financial statements").

In our opinion, the accompanying 2024 financial statements present fairly, in all material respects, the net assets available for benefits of Del-Air Investor Employee Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Del-Air Investor Employee Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the 2024 financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of 2024 financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the 2024 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Del-Air Investor Employee Ownership Plan's ability to continue as a going concern within one year after the date that the 2024 financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the 2024 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2024 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the 2024 financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the 2024 financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the 2024 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Del-Air Investor Employee Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the 2024 financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the 2024 financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2024 financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2024 financial statements or to the 2024 financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the 2024 financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statements

The 2023 financial statements were audited by other auditors, and their report thereon, dated February 28, 2025, expressed an unmodified opinion.

Del-Air Investor Employee Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1. Description of Plan

The following description of Del-Air Investor Employee Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Del-Air Heating, Air Conditioning & Refrigeration, Inc. (the “Company”) established the Plan effective as of January 1, 2005 with an effective restatement date of October 28, 2022. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective September 1, 2022, the Plan was amended to terminate the ESOP Committee and provide that all employer securities held by the Trust shall be voted by the Trustee.

Effective November 2, 2022, the Plan sold its stock of the Company to ACP HVAC Holding, LLC, (“ACP”), an affiliate of Astara Capital Partners (the “Buyer”), and received \$6,000,000 and 11,474,159 of Class C Common Units of ACP’s shares as consideration for the sale of its Company stock. The Class C Common Units received represented approximately 24% of the total common member equity of ACP. The Rights of Class C Common Units are set forth in the Parent ILC Agreement.

As part of the sale of the Company stock, the Plan was amended, effective October 28, 2022, to provide for the following:

- Investments in participants accounts changed from the Company stock to cash and stock of the Plan’s two newly created subsidiary corporations, Del-Air Employee Investors I, Inc. and Del-Air Employee Investors II, Inc. (the “Subsidiaries”), which own the Class C Common Units of the Buyer. The Subsidiaries became the sponsors of the Plan instead of the Company.
- All individuals who were participants in the Plan as of December 31, 2021, vested 100% in their account balances.
- The Plan was frozen to new participants, and all assets of the plan are to be allocated to the accounts of current participants. No further contributions will be made to the Plan by the Plan sponsor.
- The Plan and Subsidiaries retained and segregated in a separate deposit account approximately \$2,000,000 of the cash proceeds (the “ESOP Obligations Fund”) to satisfy Plan obligations. Plan obligations include, but are not limited to, Plan participant stock repurchase obligations, customary and reasonable administrative expenses of Plan paid to the Plan trustee and third-party service providers.
- Participants received a pro rata allocation of the remaining cash (approximately \$4 million) received from the sale based on account balances as of October 28, 2022. Allocations to participant accounts were made before the end of 2022 and were available for withdrawal in early 2023.
- Each plan year, beginning in the 2023 plan year, participants have a 30-day window in which they can elect to receive part or all of the cash allocated to their account as of the prior December 31.
- For all active Participants on October 28, 2022, distributions of the allocated stock portion of their accounts will be made at fair value and will begin in 2028 and paid in no more than five equal annual installments.
- Participants who had terminated prior to October 28, 2022, and had begun receiving distributions will continue to receive distributions until their account balances are zero.
- The Subsidiaries received a limited put option with the Buyer.
- The Buyer received a call option with the Subsidiaries.
- The Plan’s name changed to the Del-Air Investor Employee Ownership Plan.

**Del-Air Investor Employee Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Allocation of Shares to Participant Accounts

At December 31, 2024 and 2023, there were no unallocated shares.

Participant Accounts

The Plan was a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on the proportion that an individual's compensation for the plan year bears to the compensation of all participants for the plan year.

Eligibility

As part of the sale of the Company stock on October 28, 2022, the Plan was frozen to new participants.

Vesting

All individuals who were participants in the Plan as of December 31, 2021, vested 100% in their account balances.

Payment of Benefits

Generally, no distributions from the Plan were made until a participant retired, died, or otherwise terminated employment with the Company. Distributions on account of death, disability, or retirement were made the first year following the event. The Plan may force distributions of inactive participants with vested account balances of less than \$1,000. The Plan, at its discretion, may forfeit distributable vested account balances that remain unpaid solely due to the inability to locate the participant after diligent efforts (as defined) are made. If a participant or beneficiary is located sub-sequent to such a forfeiture, the benefit shall be restored first from forfeitures and then from additional funding from the Subsidiaries, if needed. Distributions are made in the form of cash.

Plan Termination

The Company reserves the right to terminate or amend the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the trustees to pay all liabilities and expenses of the trust fund.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Trust buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The put option shall be exercisable after the Plan has used the \$2,000,000 of ESOP Obligations Fund. The put option shall take place no more than 60 days nor less than 10 days after the delivery of the put notice. The purpose of the put option is to ensure that the Plan has the ability to ultimately satisfy Plan obligations.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant of these estimates is the estimate of the value of the Plan's holdings in the Subsidiaries' Common Units. This value is based on an independent appraisal of the Subsidiaries' Common Units. The fair value of a unit of the Subsidiaries' Common Units was estimated to be approximately \$0.16 and \$0.09 at December 31, 2024 and 2023, respectively. Actual results could differ from those estimates.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Investment Valuation and Income Recognition

The Plan's investment in the Subsidiaries' Common Units is stated at estimated fair value and is maintained and allocated to each participant by Principal, the Plan's third-party administrator. The investment in the Subsidiaries' Common Units has no active quoted market. Company management, the Trustee, and an independent stock appraiser determined a combination of the income-based approach and the market-based approach to be the most appropriate methodology to estimate the fair value of the investment. Many factors, considerations and assumptions are included in this estimate including Subsidiaries' projections, growth rates, execution risk factors, regulatory risk, etc.

In accordance with the Plan's policy of stating investments at fair value, the appreciation or depreciation for each year is reflected in the Plan's statement of changes in net assets available for benefits. The net appreciation in fair value of investments during the year ended December 31, 2024 was approximately \$3,819,000.

The process of estimating the fair value of an investment that has no active quoted market requires a significant amount of judgment. The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. These favorable or unfavorable differences could be material. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a materially different fair value measurement at the reporting date.

Concentrations and Credit Risk

The Plan's investments are not insured by the Plan's Trustee, the Subsidiaries, Federal Deposit Insurance Corporation, or any other governmental agency; accordingly, the Plan is subject to the normal investment risks associated with employer stock and other similar types of investments that it may elect to invest in.

Financial instruments which potentially subject the Plan to concentrations of credit risk consist of the Plan's cash and investments. The Plan's investment holdings consist solely of equity securities of two non-public companies. Investment securities are exposed to various risks, such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows, and other techniques.

Due to the level of risk associated with private investment securities that have no active market, and market volatility, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination

Although it has not expressed any intent to do so, the Subsidiaries have the right, under the Plan, to terminate the Plan subject to the provisions of ERISA.

Payment of Benefits

Benefits are recorded upon distribution.

Investment Risk

The Plan's investments are not insured and are subject to credit and market risks.

The Plan's investment holdings consist solely of equity securities of two non-public companies. Subsequent Events

In preparing the financial statements, the Plan's management has evaluated events and transactions for potential recognition through October 13, 2025, the date the financial statements were available to be issued.

Note 3. Investments

The Plan's investments in common units (stock) at December 31, 2024 and 2023 are as follows:

	<u>Dec. 31, 2024</u> <u>Allocated</u>	<u>Dec. 31, 2023</u> <u>Allocated</u>
Cost	\$ 4,364,221	\$ 4,364,221
Market	\$ 8,728,442	\$ 4,909,748
Number of Common Shares	54,552,760	54,552,760

Note 4. Fair Value Measurement

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1** Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Company Common Stock

The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

December 31, 2024				
Fair Value Measurements Using				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value

Note 5. Related-Part and Party-In-Interest Transactions

The Plan owns 100% of the Subsidiaries' Common Units. This is a related-party and party-in-interest transaction.

Note 6. Tax Status

The Internal Revenue Service ("IRS") has informed the Company by letter dated September 13, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Contingencies

In connection with the sale of the Plan's stock of the Company to the Buyer, a class action lawsuit has been brought against the Buyer, the Plan Trustee, and the Company's board of directors (collectively, the "Defendants"). The complaint filed by certain participants of the Plan (the "Complainants") allege the following:

1. The Defendants forced the Plan to sell control of the Company for less than fair market value.
2. The Defendants looked out for their own interests instead of the interest of Del-Air employees.
3. The Defendants failed to satisfy their fiduciary duties and violated ERISA rule and regulations.

The Complainants wish to remedy the Defendants alleged unlawful conduct, recover losses to the Plan, and prevent future harm to the Plan and obtain appropriate relief. The Plan Trustee and Plan management believe the Complainants' allegations are unfounded and that they have meritorious defenses to the allegations. The Complainants' counsel stayed lawsuit pending the administrative process and have not reinstated the case since the Defendants provided their response.

Note 8. ERISA Bond

The Plan is subject to the provisions of ERISA, which includes a requirement for the Plan to maintain a fidelity bond to protect against losses caused by acts of fraud or dishonesty. ERISA mandates that the amount of the bond be at least 10% of the Plan's assets, subject to a maximum bond amount of \$1,000,000. During the year ended December 31, 2024 and 2023, the Plan was not in compliance with this requirement, as there was no fidelity bond in place. In 2025, the Plan's obtained adequate fidelity bond coverage in accordance with ERISA guidelines.

While no losses attributable to fraud or dishonesty are known during the period of non-compliance, this oversight represented a potential risk to the Plan and its participants.
