THE HUMAN RESOURCES COMMITTEE
SAN FRANCISCO MUSEUM OF MODERN ART RETIREMENT PLAN
San Francisco, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **SAN FRANCISCO MUSEUM OF MODERN ART RETIREMENT PLAN (the Plan)**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date of this report.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material, if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

Note 1 - Plan Description:

The following brief description of the San Francisco Museum of Modern Art Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established May 28, 1957, and initially restated effective January 1, 2009. The Plan is sponsored by San Francisco Museum of Modern Art (the Museum) to provide benefits to eligible employees, as defined in the Plan document. The Plan is a combination annuity contract plan and custodial account plan invested in annuity contracts and mutual funds. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was restated effective January 1, 2014, as the Plan migrated to new accounts and investment platform administered by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF). Employees are required to choose from a new menu of investment options, or default to a Target Date Fund. While employees may maintain already existing funds in the former accounts, current employer and employee contributions may only go to the new platform.

Effective January 1, 2019, the Plan adopted a standardized form of the simplified ERISA 403(b) volume submitter plan sponsored by TIAA. The restatement incorporated an automatic enrollment feature, which was successfully implemented on February 1, 2019. Refer to the restated Plan document for a full description of the provisions.

Effective July 1, 2020, the Plan was amended to allow the Museum to make discretionary nonelective contributions and provide for an early retirement age. Refer to the Plan amendment for a full description of the provisions.

Effective April 7, 2020, the Plan adopted the distribution provision of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act that was signed into law on March 27, 2020. A CARES Act distribution allows the Plan's participants to take a COVID-19 related distribution up to \$100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. The Plan has also implemented certain other requirements by the CARES Act whose laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions.

Effective July 12, 2022, amendments were adopted by the Plan stating that it will provide any or all the relief allowed by the CARES Act, such as Coronavirus-related distributions, increased loan limits, and loan repayment extensions to qualified individuals.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Effective January 1, 2025, the Plan was amended to exclude appreciation bonus, review bonus, and honoraria from compensation for all types of contributions. In addition, the Plan's entry date for participants was amended to allow immediate participation in the first pay period in which eligibility conditions are met.

Eligibility

All employees are eligible to make pre-tax compensation deferrals in the Plan on the first day following the date of employment.

Contributions

Participants may make salary deferral contributions up to the maximum amount allowable under current income tax regulations to the Plan. Participants may rollover amounts representing distributions from other qualified plans. The Plan has an automatic enrollment feature for new and re-hired employees. The provision provides that in the absence of a participant's written election, a fixed percentage of the participant's compensation will automatically be contributed. The amount to be automatically withheld from an employee's pay each pay period is equal to 3% of that employee's eligible compensation, and that amount will continue to be automatically withheld from the employee's pay in succeeding plan years unless the Museum amends the Plan or the employee enters into a Salary Reduction Agreement. If an employee is automatically enrolled and does not want to participate in the Plan, TIAA will refund the employee's salary deferrals provided the employee notifies TIAA within 90 days.

The Plan allows the Museum to make discretionary nonelective contributions for eligible employees who have attained the age of 18 and have completed at least two years of eligible service. For the year ended December 31, 2024, the Museum made discretionary contributions of 5% of eligible employees' compensation. These contributions are made to each eligible participant's account based on the participant's eligible compensation for the applicable year.

Payment of Benefits

Upon attaining age 59 1/2, death or disability, a participant may elect to receive an amount equal to the value of the participant's account in either a lump sum distribution or various types of annuities. Upon termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. None of the terminated participants as of December 31, 2024 or 2023 have requested to withdraw from the Plan as of that date.

Withdrawals from a participant's account during the participant's employment are limited to financial requirements meeting the hardship provisions of the Plan.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Participant Accounts

The Plan assets are held in separate funds with TIAA and CREF. Each participant's account is credited with the participant's salary deferral contributions, the participant's qualified rollover contributions, the Museum's contributions and the earnings of the participant's account and is charged with an allocation of administrative expenses. Allocations of earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Investment Options

Upon enrollment in the Plan, a participant must direct employee and the Museum's contributions to any of the available investment options. Participants may change their investment options any time throughout the year via TIAA and CREF's direct access internet website or by phone.

Vesting

Participant contributions, including rollovers of funds from other qualified retirement plans and earnings thereon are immediately 100% vested. The portion of the participants' accounts attributable to the Museum's contributions are vested 100% upon eligibility.

Notes Receivable from Participants and Plan Loans (Policy Loans)

The Plan allows participants to borrow not less than \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the participant's balance. Such loans bear interest at the available market financing rate and must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period is 10 years. A participant may have up to three loans outstanding at a time. The Plan Administrator establishes the specific terms and conditions of such loans. As of December 31, 2024 and 2023 there were 15 and 11 loans outstanding totaling \$141,621 and \$79,666, respectively, with interest rates on these loans ranging from 4.25% to 9.50% per annum as of December 31, 2024.

There are also Plan loans (policy loans) held by TIAA and CREF that are not considered part of Plan assets. The terms are the same as the participant loans, except a participant may have up to five loans outstanding at a time. However, the interest rate is determined by TIAA and CREF. Effective January 1, 2022, TIAA stopped issuing these collateralized policy loans. As of December 31, 2024 and 2023, there were 3 and 6 Plan loans totaling \$1,928 and \$11,488, respectively. At December 31, 2024, interest rates on these loans ranged from 5.02% to 5.73% per annum.

Plan Record Keeper/Trustee/Custodian

TIAA and CREF serve as the record keepers for the Plan. TIAA, FSB, a federal savings association, may also serve as a directed Trustee or Custodian of the Plan assets record kept by TIAA.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that may affect reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments of the Plan are held by the Custodians and invested based solely upon instructions received from participants. The Plan's investments in mutual funds, variable annuity contracts, pooled separate account and fixed annuity contracts (non-fully benefit responsive) are reported at fair value as of the last day of the Plan year. The TIAA fixed annuities (fully benefit responsive) are valued at contract value as described in Note 5. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Museum's management determines the Plan's valuation policies, utilizing information provided by TIAA and CREF. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) of investments in the Statement of Changes in Net Assets Available for Benefits includes both the unrealized appreciation (depreciation) in the aggregate fair value of investments and realized gains and losses on sale of investments bought and sold as well as held during the year.

The market volatility of equity-based investments may substantially impact the value of such investments at any given time. It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2024.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction to net appreciation (depreciation) in fair value of investments.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

Contributions

Contributions from Plan participants and the employer discretionary nonelective contributions are recorded in the year in which the employee contributions are withheld from compensation.

Benefits to Participants

Benefits to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Museum. Expenses that are paid by the Museum are excluded from these financial statements. Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments, while others are reflected separately as administrative expenses (See Note 6).

Revenue Sharing

The Plan recognizes the income from revenue sharing agreements when received. During 2024, the Plan received \$4,600 revenue sharing income which was utilized for plan expenses by recording it as an offset to administrative expenses in the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan Administrator has evaluated subsequent events from December 31, 2024, through October 10, 2025, the date these financial statements were available to be issued and has determined that there were no material subsequent events that required recognition or additional disclosure in these financial statements, except as disclosed in Note 1 general section.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Note 3 - Certified Information:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF (the Custodians of the Plan).

Note 4 - Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying Statement of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: The College Retirement Equities Fund (CREF) variable annuity accounts are valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the funds. The CREF variable annuity accounts consist of eight investment portfolios: Stock, Global Equities, Growth, Equity Index, Core Bond, Inflation-Linked Bond, Social Choice, and Money Market accounts.

The Plan may redeem units at fair value on any day the New York Stock Exchange is open for business. Participants cannot redeem units from the CREF portfolios (with the exception of the Money Market account) for 90 days if a purchase, sale, and/or repurchase is made within that account within a 60-day period.

The TIAA Access variable annuity accounts are funded through a separate investment account of TIAA registered under the Investment Company Act of 1940, which invests in proprietary and non-proprietary mutual funds through various sub-accounts. Subaccount unit values are calculated daily and are available on the TIAA website, TIAA.org. The underlying investments are generally valued using market quotations. These contracts are valued using the NAV practical expedient as reported by TIAA. The NAV practical expedient is based on the underlying investments. These contracts do not have any unfunded commitments and can be redeemed daily.

Pooled separate account: The TIAA Real Estate account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account. Redemptions are permitted daily except participant transfers out of the fund, which are limited to one per calendar quarter.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

Fixed annuity contracts: The Plan has investments in non-fully benefit-responsive TIAA Traditional Annuity (RA and RC) contracts, which are presented at contract value which approximates fair value, on the Statement of Net Assets Available for Benefits. Transactions involving the purchases and sales of individual RA and RC contracts are not observable in a public marketplace, but contract value is a good approximation of fair value as supported by the fact that new contributions represent current transactions between willing buyers and sellers as prescribed in the relevant U.S. GAAP guidance. As these transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue to contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss. Further, TIAA has concluded that contract value approximates fair value using a quantitative model based on assumptions of future interest rates and related discounted cash flows. The contract value equals the accumulated cash contributions and interest credited to the Plan's contract, less withdrawals.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

San Francisco Museum of Modern Art Retirement Plan

Notes to the Financial Statements

There were no unfunded commitments as of December 31, 2024 and 2023.

- (a) This category is primarily comprised of the TIAA Access Nuveen Lifecycle funds, the TIAA Access Nuveen International Equity T4 Fund, and the TIAA Access Nuveen Large Cap Value T4 Fund.

The TIAA Lifecycle funds seek high total return over time through a combination of capital appreciation and income. The funds invest in underlying funds according to an asset allocation strategy designed for investors planning to retire in or within a few years of the retirement year noted in the fund name. Over time, the target allocations become more conservative as the targeted retirement year approaches, reaching a final allocation of approximately 40% equity/60% fixed income seven to ten years beyond the retirement year noted in the fund name.

The TIAA Access International Equity T4 Fund seeks a favorable long-term total return, mainly through capital appreciation, primarily from equity securities of foreign issuers. It normally invests at least 80% of its assets in equity securities of foreign issuers. The Fund maintains investments of equity securities of foreign issuers in at least three countries other than the United States. The Fund's management team looks for companies of any capitalization size that demonstrate an ability to generate free cash flow and market share.

The TIAA Access Nuveen Large Cap Value T4 Fund seeks a favorable long-term total return, mainly through capital appreciation, primarily from equity securities of large domestic companies. The Fund invests at least 80% of the sum of its net assets and the amount of any borrowings for investment purposes in equity securities of large-capitalization value companies. Advisors generally focuses on companies with normalized earnings and high operating leverage, which may cause the Fund to be more volatile in down markets than other large-cap value funds that have more defensive investment strategies. The Fund may invest up to 20% of its assets in foreign investments. The Fund may also purchase and sell futures, options, swaps and other equity derivatives to carry out the Fund's investment strategies.

There were no transfers of Level 3 investments during the year ended December 31, 2024.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

		TIAA Traditional <u>Non-Benefit-Responsive</u>
Balance, beginning of year	\$	6,102,841
Interest income		79,303
Net appreciation in fair value		204,268
Purchases		582,429

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes to economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value as of December 31, 2024	Fair Value as of December 31, 2023	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values (weighted average)
TIAA Traditional Non-Benefit-Responsive	\$ 5,343,220	\$5,352,953	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA 3.65% - 6.50%
TIAA Traditional Non-Benefit-Responsive 2	\$ 978,518	\$749,888	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RC 3.90% - 6.75%

Calculation of a weighted average was not feasible. Additionally, a Plan level weighted average would not be a meaningful measurement with respect to an individual contract.

Note 5 - Fully Benefit Responsive Contracts With TIAA:

The plan has entered into traditional fully benefit-responsive guaranteed investment contracts that totaled \$1,998,076 at December 31, 2024, which consisted of \$1,762,207 in TIAA Traditional fully benefit-responsive investment contracts and \$235,869 in TIAA Stable Value fully benefit-responsive investment contracts. At December 31, 2023, traditional fully benefit-responsive guaranteed investment contracts totaled \$2,791,494, which consisted of \$2,522,659 in TIAA Traditional fully benefit-responsive investment contracts and \$268,835 in TIAA Stable Value fully benefit-responsive investment contracts. TIAA maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA, represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contracts. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contracts, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Notes to the Financial Statements

Participants are permitted to transfer funds between their CREF accounts and into their TIAA Retirement Annuity at any time. However, transfers out of the TIAA annuity into any CREF account by an active participant can only be made through a Transfer Payout Annuity (TPA), which provides for the transfer of funds in substantially equal installments over a period of ten years.

Note 6 - Related Party and Party-in-Interest Transactions:

Certain Plan investments are managed by TIAA and CREF. Such an arrangement, while considered a party-in-interest transaction under ERISA regulations, is permitted under the provisions of the Plan and is specifically exempt from the prohibition of party-in-interest transactions under ERISA.

TIAA and CREF provide certain administrative services to the Plan pursuant to a Recordkeeping Services Agreement (RSA) between the Plan and TIAA and CREF. TIAA and CREF receive revenue from investment service providers for services TIAA and CREF provide to the funds. This revenue is used to offset certain amounts owed to TIAA and CREF for their administrative services to the Plan.

If the revenue received by TIAA and CREF from such investment service providers exceeds the amount owed under the RSA, TIAA and CREF remit the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2024, the Plan earned approximately \$4,600 of revenue sharing income (includes approximately \$2,800 of fee leveling income), which was netted against administrative expenses in the Statement of Changes in Net Assets Available for Benefits. Plan administrative expenses paid by the Plan for 2024 were approximately \$76,600 included as administrative expenses in the Statement of Changes in Net Assets Available for Benefits. At December 31, 2024 and 2023, approximately \$1,300 and \$1,100, respectively, are included in Plan assets available for benefits to be applied to pay Plan administrative expenses or allocated to participants. The Plan or Plan Sponsor may make payment to TIAA and CREF for administrative expenses not covered by revenue sharing.

Certain administrative functions are performed by officers or employees of the Museum. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Museum.

Note 7 - Plan Termination:

Although the Museum has not expressed any intent to do so, the Museum has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. All participants are currently 100% vested in their entire account.

Note 8 - Tax Status:

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). Effective January 1, 2019, the Plan adopted a standardized form of the ERISA 403(b) volume submitter plan sponsored by TIAA. A favorable opinion letter from the IRS was issued on August 7, 2017 regarding the qualified status of the volume submitter 403(b) plan on which the terms of the Plan are based. The Plan has been amended since the volume submitter plan received its opinion letter and qualified status under the Code. The Plan administrator believes that the Plan, as amended, is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes that the Plan is qualified and the related accounts are tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that is more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9 - Risks and Uncertainties:

The Plan provides for various investment options in any combination of the variable and fixed annuity contracts, mutual funds, and a pooled separate account offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

All of the Plan's investments were held with TIAA and CREF at December 31, 2024 and 2023. This is considered to be a concentration of credit risk.

Approximately 11% and 12% of the Plan's investments were held in the CREF Stock R2 Fund at December 31, 2024 and 2023, respectively. This is considered to be a concentration of credit risk.
