Master Pension Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section—

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audits is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, Schedule H, Line 4i – Schedule of Assets (Acquired and Disposed of Within Year) for the year ended December 31, 2024, Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, and Schedule G, Part 1 (Loans and Fixed Income Securities in Default) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of the Plan

The following description of the FirstEnergy Corp. Master Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the provisions of the Plan.

General

The Plan is a trustee, non-contributory defined benefit plan covering substantially all employees of FirstEnergy Corp. and its subsidiaries ("Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits to participants upon normal retirement at age 65, disability retirement, surviving spouse benefits and reduced benefits upon retirement prior to age 60 for employees hired prior to January 1, 2005 and age 62 for employees hired after December 31, 2004. Benefit payments are based on each participant's length of service and compensation. Employees are vested in the Plan after having completed five years of service. Additional information with respect to the provisions and operation of the Plan is available in the Plan's Summary Plan Descriptions.

Non-bargaining employees hired on or after January 1, 2014, participate in the cash-balance portion of the Plan. Under the cash-balance provisions, the Company will make contributions to eligible employee retirement accounts based on a Pay Credit and an Interest Credit. The annual Pay Credit is based on an employee's age and years of service at year end. The annual Interest Credit is based on the employee's prior year balance using the 30-year treasury rates from October of the prior year. Employees are vested after completing three years of service. The balance of these accounts will be provided to employees when they leave the Company. Participation in the cash-balance plan for bargaining-unit employees was handled in accordance with individual collective bargaining agreements and was negotiated as required.

The Plan is a qualified plan under Section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended, and is therefore exempt from taxation.

Plan Termination

Although the Company has not expressed any intent to do so, subject to limitations set forth in certain collective bargaining agreements, the Plan may be terminated at any time by action of the Board of Directors of the Company. Upon termination of the Plan, the net assets of the Plan would be distributed as follows:

- a. First, to those participants, or their beneficiaries, who began receiving Plan benefits three years prior to the Plan's termination date, the amounts necessary to provide the least monthly retirement benefit to which they are entitled under the Plan; and to those participants, or their beneficiaries, who began receiving Plan benefits during the three-year period immediately preceding the Plan's termination date, the amounts necessary to provide the least monthly retirement benefit to which they would have been entitled under the Plan had they retired prior to the beginning of such three-year period.
- b. Second, to provide all other benefits (if any) of individuals under the Plan guaranteed under the termination insurance provisions of ERISA.
- c. Third, to provide all other non-forfeitable Plan benefits.
- d. Fourth, to provide all remaining Plan benefits.

If the benefits described in (a) or (b) above are in excess of the Plan's assets at the termination date, the assets would be allocated on a pro rata basis among such individuals based on the present value of their respective benefits.

There are also certain benefits guaranteed by the Pension Benefit Guaranty Corporation; however, the amount of benefit protection is subject to certain limitations. If assets remain after making the above termination distributions (a through d), then those assets would be returned to the Company.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to a participant's level of compensation and length of service rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated participants or their beneficiaries; (b) beneficiaries of participants who have died; and (c) present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits as of December 31, 2024 and December 31, 2023, was determined by the Company's actuary, Aon. The present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and expected payment date.

The significant actuarial assumptions and methods used in the valuations as of December 31, 2024 and December 31, 2023, were:

- **Mortality** - During 2024, the Society of Actuaries elected not to release a new mortality improvement scale due to data available being severely impacted by COVID-19. It was determined that the Pri-2012 mortality table with projection scale MP-2021, actuarially adjusted to reflect increased mortality due to the ongoing impact of COVID-19 was most appropriate and such was utilized to determine the obligation as of December 31, 2024. This adjustment acknowledges COVID-19 cannot be eradicated and assumes reductions in other causes will not offset future COVID-19 deaths enough to produce a normal level of improvements.

During 2023, the Society of Actuaries elected not to release a new mortality improvement scale due to data available being severely impacted by COVID-19. It was determined that the Pri-2012 mortality table with projection scale MP-2021, actuarially adjusted to reflect increased mortality due to the ongoing impact of COVID-19 was most appropriate and such was utilized to determine the obligation as of December 31, 2023. This adjustment acknowledges COVID-19 cannot be eradicated and assumes reductions in other causes will not offset future COVID-19 deaths enough to produce a normal level of improvements.

- **Discount Rates** - The discount rates used to determine present value of accumulated plan benefits were 5.72% and 5.05% in 2024 and 2023, respectively.
- **Retirement Age** - In 2024, active participants were assumed to retire at the following rates:

Rate at which participants retire at age indicated		
Age	Bargaining	Non-bargaining
55	4.0%	7.0%
56	4.0%	7.0%
57	5.0%	7.0%
58	5.0%	8.0%
59	10.0%	12.0%
60	13.5%	18.5%
61	15.0%	18.0%
62	20.0%	23.0%
63	20.0%	21.5%
64	20.0%	26.0%
65	33.0%	37.0%
66	33.0%	37.0%
67	20.0%	33.0%
68	20.0%	35.0%
69	20.0%	26.0%
70+	100%	100%

- **Actuarial Method** - In 2024 and 2023, the present value of accumulated plan benefits was determined by applying the Unit Credit Cost Method. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. In the event the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Recently Adopted Accounting Pronouncements

Effective January 1, 2024, the Plan adopted ASU 2022-03, "Fair Value Measurements of Equity Securities Subject to Contractual Sale Restrictions " (Issued in June 2022): ASU 2022-03 clarifies current guidance in Topic 820, Fair Value Measurement, when measuring the fair value of an equity security subject to contractual restrictions that prohibit the sale of an equity security, and introduces new disclosure requirements for those equity securities subject to contractual restrictions. Adoption of ASU 2022-03 did not have a material impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the amounts recorded in the financial statements and the accompanying notes. Actual results could differ from these estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments in securities are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date (an exit price). See Note 7 for further discussion of fair value measurements. Securities are valued at quoted market prices; if quoted market prices are not available, estimated fair values, as determined by Bank of New York Mellon ("Trustee") or insurers, are used. The fair value of real estate has been estimated based upon future income generation, location of property and current market rates for similar investments.

Actuarial fees and other Plan administrative expenses are charged against Plan assets.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends from investments are recorded on the ex-dividend date.

The Statement of Changes in Net Assets Available for Benefits presents the net appreciation or depreciation in the fair value of the Plan's investments, which consist of the net realized gains or losses and the net unrealized appreciation or depreciation of those investments.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in estimations and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Market values of securities fluctuate based on the magnitude of changing market conditions; significant changes in market conditions could materially affect Plan investments.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were issued.

In January 2025, FirstEnergy executed a lift-out transaction with MetLife, that transferred approximately \$640 million of plan assets and \$652 million of plan obligations, associated with approximately 2,000 former competitive generation employees, who will assume future and full responsibility to fund and administer their benefit payments. There was no change to the pension benefits for any participant as a result of the transfer and the transaction was funded by pension plan assets. FirstEnergy believes that this lift-out transaction, in addition to the lift-out in 2023, further de-risked potential volatility with the pension plan assets and liabilities, and will continue to evaluate other lift-outs in the future based on market and other conditions.

Note 3 - Plan Tax Status

The latest determination letter for the Plan is December 10, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 4 - Contributions by the Company

It is the Company's policy to make contributions to the Plan in amounts estimated to be necessary to fully provide for all employees' benefits by the time they retire. During the 2024 and 2023 Plan years, the employer contributions met or exceeded the minimum funding requirements as specified in ERISA.

Note 5 - Information Certified by the Plan Trustee

The Trustee certified the following information included in the 2024 and 2023 financial statements in accordance with 29 CFR Section 2520.103-5 of the DOL's rules and regulations for reporting and disclosure under ERISA: investments held, at fair value, accrued interest and dividends receivable, due to or from a broker for securities purchased or sold, net appreciation in fair value of investments and interest and dividends income. As of December 31, 2024 and December 31, 2023, the Plan held \$2,100,310,843 and \$2,841,111,662, respectively, of investments in hedge funds, derivatives, private equity, insurance-linked securities and real estate funds. These assets and their related interest, dividends and net appreciation (depreciation) in fair value are not covered by the certifications received from the Trustee as of December 31, 2024 and December 31, 2023 or for the year ended December 31, 2024.

Note 6 - Party-in-Interest

Certain Plan investments are managed by the Trustee, as defined by the Plan and, accordingly, these transactions qualify as party-in-interest transactions.

Note 7 - Investments and Fair Value Measurements

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Authoritative accounting guidance establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements.

The three levels of the fair value hierarchy are as follows:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets;
– Quoted prices for identical or similar instruments in markets that are not active; and
– Model-derived valuations for which all significant inputs are observable market data.

Models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors and current market and contractual prices for the underlying instruments, as well as other economic measures.

Level 3 – Valuation inputs are unobservable and significant to the fair value measurement. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

Private equity fund investments, insurance-linked securities, hedge funds and real estate funds are valued using the investments' Net Asset Value ("NAV") as a practical expedient of fair value. The NAV is based on the underlying assets owned by the funds. Such funds have not been categorized in the fair value hierarchy and are being presented in the tables below to permit a reconciliation of the fair value hierarchy to total pension plan assets.

There were no changes in valuation methodologies for assets measured at fair value during 2024.

^(a) Primarily include limited partnerships that invest in equity or directly originated senior loans of high-quality middle market operating companies. Distributions are received periodically through the liquidation of underlying assets in each fund. For most private equity and debt funds, immediate access to capital at the limited partner's discretion is not available and such funds prevent full redemption and return of capital until fund liquidation. The purpose of each fund is to maximize total return of capital with an emphasis on minimizing default risk. Each fund's NAV is made available to fund participants quarterly.

^(b) The insurance linked securities funds invest in securities which indirectly participate in portfolios of reinsurance and retrocession contracts which primarily cover catastrophe property risks. Redemptions can be achieved with 90-day notices with gating factors that may apply. The purpose of these investments is to generate attractive risk-adjusted returns that are demonstrably uncorrelated with traditional asset classes. Each fund's NAV is made available to fund participants monthly.

^(c) The hedge funds invest in a combination of long and short equity, multi-strategy, global macro and structured credit strategies. Redemptions can be achieved with 90-day notices with gating factors that may apply. The purpose of these investments is to deliver diversified risk-adjusted returns to traditional asset classes. Each fund's NAV is made available to fund participants monthly.

^(d) The real estate funds primarily invest in U.S commercial real estate markets that include office, residential, retail, industrial, life science/lab space, storage and student housing. The investment values of the real estate properties are determined on a quarterly basis by independent market appraisers hired by the board of directors of each fund. Distributions from each fund will be received as the underlying investments of the fund are liquidated. Each investor's ability to withdraw capital from certain funds may be limited depending on whether a queue has been established. The purpose of each fund is to invest in real estate and real estate related assets that generate a total return from current income and capital appreciation which exceeds the applicable fund's index. Each fund's NAV is made available to fund participants quarterly.

Note 8 - Derivatives

The Plan invests in certain derivative instruments, which are transactions whose values depend on or are derived from (in whole or in part) the value of one or more other assets, such as securities, currencies, commodities, or indices. The Plan records all derivatives at their fair value, which are included in investments held, at fair value on the Statements of Net Assets Available for Benefits and are recorded under the derivatives caption of the fair value table in Note 7.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes since the prior year:

- Plan Amendment 2 — The PEER Program was added to the Pension Plan for the select groups of non-bargaining employees that were eligible.
- Plan Amendment 3 — Added the retiree annuity lift-out for participants that were part of FE Solutions, Generation, Nuclear and the AYE Pleasants Station and were eligible to be transferred to the new company. This did not impact the liability.
- Plan Amendment 4 — Clarified language for the employees that transfer into Local 102 and allowing them to keep the run-up portion of their pension if they were already in an AYE Pension Plan. This did not impact the liability.
