Independent Auditors' Report

To the Plan Administrator
Phelps County Bank Employee Stock Ownership Plan
Rolla, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Phelps County Bank Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Phelps County Bank Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America described in Note 2, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Phelps County Bank Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material

if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Phelps County Bank Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Phelps County Bank Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived

from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Phelps County Bank Employee Stock Ownership Plan

Notes to the Financial Statements

Years Ended December 31, 2024 and 2023

1. Description of Plan

The following description of the Phelps County Bank Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Phelps County Bancshares, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company established the Plan effective January 1, 1980. The Plan is overseen by an administrative committee (the Committee), which makes recommendations to the Plan's trustee. The administrative committee is comprised of three or more individuals appointed by the Company's Board of Directors.

Participant accounts are allocated between an Employee Stock Ownership Plan (ESOP) and a 401(k) Plan component. Participant deferrals are allocated to the 401(k) component while employer contributions can be allocated to either the 401(k) component or the ESOP component.

Eligibility: Employees of the Company are eligible to become a participant in the Plan immediately upon employment, with entry dates of January, April, July, or October for ESOP participation and deferral contributions.

Contributions: Participants may contribute up to 50% of annual compensation, not to exceed the annual IRS contribution limit, to the 401(k) account. Participants may elect to classify any portion of their contributions as post-tax (Roth) or pre-tax (Traditional). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (Rollover).

Each year, the Company may make regular, discretionary, and/or matching contributions with approval by the board of directors, subject to limits of the Internal Revenue Code (Code). To be eligible for the Company contributions, participants must meet the eligibility requirements described above and have completed at least 1,000 hours of service during the plan year and be employed on the last day of the plan year. Participants who have terminated employment due to death, disability, or normal retirement are eligible to receive a contribution regardless of hours of service. Contributions to the ESOP account may be made in either cash or shares of the plan sponsor's common stock. Company contributions to the Plan totaled \$1,120,000 and \$1,050,000 for years ended December 31, 2024 and 2023, respectively. The Company contribution was made into the ESOP component. The Company did not elect to make a matching or discretionary contribution to the 401(k) component for the years ended December 31, 2024 and 2023.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Benefit payments: Participants' 401(k) account balances are distributed in a single distribution of cash or rolled over to another eligible retirement plan, depending on the participant's election. Participants may elect to receive a distribution of all or a portion of their 401(k) balance of the Plan while still working, provided they have reached age 59 1/2.

Phelps County Bank Employee Stock Ownership Plan

Notes to the Financial Statements

Years Ended December 31, 2024 and 2023

In accordance with the Plan's cash out and required rollover rules, if the combined vested account balance payable to a terminated individual is less than or equal to \$5,000, such account will be distributed to the participant without the participant's consent before the participant's normal retirement age.

The balance of a participant's ESOP account that is distributable due to retirement, death, or termination will be paid in the manner provided by the Plan depending on the participant's value of vested balance, age, and the nature of the participant's separation from service with the Company. The distributable balance of a participant's account will be determined as of the December 31 which coincides with or immediately precedes the participant's distribution date. Participants with at least five years of service may elect to receive a distribution from the ESOP portion of the Plan while still working. The Committee will determine the maximum amount of in-service distributions that may be made.

The aggregate lump sum payment permitted to all participants may be limited as determined in good faith by the Committee, taking into account the reasonable liquidity needs of the Plan, including whether there are any outstanding loans.

Participants who are entitled to a distribution from a Company stock account with a vested balance of \$100,000 or less will receive the distribution in a single lump sum. Participants who are entitled to a distribution from a Company stock account with a vested balance in excess of \$100,000 (and have attained normal retirement age and not incurred an involuntary termination of employment) may elect to receive payment of the participant's ESOP account in the form of a lump sum or in a series of five annual installments.

All vested shares of Company stock allocated to the account of a participant who terminates employment will be liquidated, subject to sufficient liquidity. The shares will be liquidated at their fair market value as of the December 31 date which coincides with or immediately follows the participant's termination. To the extent that the Plan does not have sufficient cash or other assets available to liquidate the Company stock accounts for all participants who have terminated employment since the previous December 31, the liquidation will take place on a pro rata basis with available cash or other assets. The Plan distributed 9,551 and 11,688 shares of Phelps County Bancshares, Inc. common stock valued at \$2,994,252 and \$2,997,947 to participants during the years ended December 31, 2024 and 2023, respectively.

Put option: The employer stock that is held by the Plan and its participants is not readily tradable on an established market and includes a put option. The put option is a right to demand that the Company (or the Plan) buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for the value of their shares.

Participant accounts: Employer contributions and Plan forfeitures are allocated to participants based on the ratio of an individual participant's compensation to total compensation of all eligible participants. Income on plan investments is allocated to each participant's account based on respective account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. Forfeitures of terminated non-vested account balances allocated to remaining participants during the year ending December 31, 2024 and 2023 totaled \$55,002 and \$103,551, respectively.

Phelps County Bank Employee Stock Ownership Plan

Notes to the Financial Statements

Years Ended December 31, 2024 and 2023

Each participant's 401(k) account is credited with the participant's contribution, any rollover contributions, and allocations of earnings. Each participant is entitled to direct the manner in which assets credited to his or her 401(k) account can be invested. Upon enrollment in the Plan, a participant may direct contributions into one or more of various investment options offered by the 401(k) Plan.

Vesting: Vesting in employer contributions is based on years of service, as defined by the Plan. A participant is vested according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Participants are immediately vested in their individual 401(k) contributions plus actual earnings thereon, and rollover contributions. A participant is entitled to 100% of his or her account balance upon normal retirement, death or disability.

If a participant separates from service, the portion of the participant's account balance which is not fully vested will be forfeited, retained in the trust, and reallocated to eligible participants. Any terminated participants who have forfeited their non-vested account balances, and who are subsequently re-hired by the Company within five years of their initial termination, will have their previously forfeited amounts reinstated to their account.

Voting rights: Each participant or beneficiary is entitled to direct the Committee as to the manner in which voting rights of the shares of Company stock, which are allocated to the Company stock account of such participant or beneficiary, are to be exercised with respect to certain corporate matters. The Committee will direct the voting of Company stock in all other matters.

Plan termination: Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the Plan will become 100% vested and distributed to such participant or beneficiary, regardless of years of service, at the time prescribed by the Plan agreement and the Code. Upon termination of the Plan, the Committee shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account (unallocated shares) to the extent it determines such sale to be necessary in order to repay the related loan.

Diversification: Diversification is offered to participants so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Qualified participants with a Company stock account value of \$500 or more may make the election within 90 days after the last day of each plan year. The portion of the participant's stock account subject to diversification is subject to certain limits, as outlined in the plan document.

Years Ended December 31, 2024 and 2023

2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are presented in accordance with U.S. generally accepted accounting principles, using the accrual method of accounting.

Cash equivalents: Cash and cash equivalents include time deposits, certificates of deposit, money market funds, and all highly liquid debt instruments with maturities of three months or less at the date of their acquisition.

Payment of benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition: All investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent events: Management has evaluated subsequent events between the most recent fiscal year end and October 14, 2025, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

4. Certified Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments held as of December 31, 2024 and 2023, and net appreciation in fair value of investments for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from the information certified as complete and accurate by the Plan's asset custodian for 401(k) assets, John Hancock Life Insurance Company, a qualified institution.

Phelps County Bank Employee Stock Ownership Plan

Notes to the Financial Statements

Years Ended December 31, 2024 and 2023

5. Tax Status

The Plan obtained its latest determination letter on September 25, 2013, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrators believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. A tax liability would be recognized if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Notes Payable

The Plan has entered into loan agreements with the Company in order to provide funding to purchase shares of the Company's common stock and to satisfy participant distribution requests.

All the borrowings are collateralized by unallocated shares of the Company's common stock. As the Plan makes payments of principal and interest against the notes, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, present separately the assets and liabilities and the changes therein pertaining to:

(a) the accounts of employees in allocated stock (allocated) and

(b) stock not yet allocated to employees (unallocated).

At December 31, 2024 and 2023, the Plan owned 142,092 and 151,643 shares of the Company's common stock, respectively. Allocated and unallocated shares are as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	101,509	40,583	109,310	42,333
Fair Market Value	\$ 36,644,682	\$ 14,650,586	\$ 34,268,641	\$ 13,271,502

Cost basis for tax purposes from the perspective of the participants is calculated and updated annually by the ESOP recordkeeper. Original cost basis for the shares owned by the Plan is not available.

7. Related Party Transactions and Party-in-Interest Transactions

Certain professional fees related to the administration of the Plan are paid by the Company on behalf of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Substantially all of the Plan's investments held in the ESOP component are shares of Company's common stock.

Certain Plan 401(k) investments are shares of mutual funds managed by John Hancock USA. John Hancock Life Insurance Company is the asset custodian and, therefore, these transactions qualify as party-in-interest transactions. Investments in these funds totaled \$2,813,793 and \$2,436,575 at December 31, 2024 and 2023, respectively.

8. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Group annuity pooled separate accounts (PSAs): Valued at the net asset value of the units held by the group annuity contract provider using the quoted net asset value of the shares of the underlying mutual funds adjusted for any dividends or distributions received by John Hancock Life Insurance Company and the daily equivalent of any fee charged pursuant to the contract. Mutual funds are registered with the Securities and Exchange Commission and are carried at the net asset value at which the mutual fund shares are actively traded.

Phelps County Bancshares, Inc. common stock: The fair value of the Phelps County Bancshares, Inc. common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. A fair market value of \$361.00 and \$313.50 per share was placed on the Company's outstanding stock as of December 31, 2024 and 2023, by Stern Brothers Valuation Advisors, an independent appraisal consultant, in its reports dated April 9, 2025 and April 1, 2024, respectively. This appraisal was based upon a combination of the market approach, which compares the investment to similar investments that have

been sold in the public or private marketplace, and the income approach, which values the investment based on the present value of future benefits to be derived from the ownership interest.

The preceding methods may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Group annuity PSAs	\$ 2,813,793	\$ -	\$ -	\$ 2,813,793
