of the Capital Group Companies Inc.:

Opinion

We have audited the financial statements of the Health and Welfare Benefits Plan for Retirees of the Capital Group Companies (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of plan's benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in plan's benefit obligations for the year ended December 31, 2024 and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan's benefit obligations of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in its plan's benefit obligations for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including

maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

HEALTH AND WELFARE BENEFITS PLAN FOR RETIREES OF THE CAPITAL GROUP COMPANIES

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2024 AND 2023, AND FOR THE YEAR ENDED DECEMBER 31, 2024

1. DESCRIPTION OF THE PLAN

The following description of the Health and Welfare Benefits Plan for Retirees of the Capital Group Companies (the "Plan") provides only general information. Participants should refer to the Plan agreement for a detailed description of the Plan's provisions.

General – The Plan is a defined benefit health and welfare plan sponsored by The Capital Group Companies, Inc. (the "Company"). The Plan provides medical, dental, and employee assistance benefits for retirees, their spouses and eligible dependents. Employees are eligible to enroll in the Plan immediately upon retirement, provided they have attained age 55 with at least 10 years of full-time service; or have attained age 50 with at least 25 years of service including 10 or more years of full-time service; or are grandfathered under the Company's retiree health program guidelines in effect prior to 1990. New hires and associates under age 45 as of January 1, 2018 are not eligible for a subsidy under the retiree health plan. The Plan is administered by the Retiree Health and Welfare Benefits Committee of the Company (the "Committee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

As of January 1, 2022, the Plan was amended such that Medicare-eligible participants no longer have medical, prescription drug and dental coverage under the Plan. Instead, the Plan provides an annual Health Reimbursement Account (HRA) contribution that can be used for eligible health care expenses. The HRA contribution is based off age and years of service and may be adjusted over time to align with market conditions.

Contributions – The costs of the Plan are generally shared by the Company and participants. In addition to deductibles and copayments, participants contribute specified amounts based on applicable monthly premiums for their age, years of service, and respective benefit elections. Participant contributions range from 55%-100% of the cost of these benefits based on their eligibility for a subsidy. Participant contributions are made by remitting payment to a third-party billing administrator. The Company, at its discretion, may fund the Plan annually up to the maximum deductible amount allowed by the Internal Revenue Code (the "Code"). There were no company contributions made to the Plan during 2024.

401(h) Account – A separate account has been established and maintained in the Capital Retirement Savings Plan, a defined contribution plan that is also sponsored by the Company, to fund the postretirement health care benefits for retirees, their spouses, and eligible dependents in accordance with Section 401(h) of the Code. In accordance with the Code, the assets pertaining to the Section 401(h) account may not be used for, or diverted to, any purpose other than providing health care benefits for retirees, their spouses, and eligible dependents or covering reasonable administrative expenses of the Plan. The related obligations for health care benefits are not included in the Capital Retirement Savings Plan but are reported as obligations in the Plan's financial statements. The 401(h) account invests in certain commingled funds and mutual funds managed by Capital Bank & Trust Company ("CB&T") and Capital Research and Management Company ("CRMC"), wholly owned subsidiaries of the Company, respectively.

The trustee for the Plan is CB&T. Amounts contributed are invested in one or more of the funds for which CRMC and CB&T are the investment advisors.

Insured Benefits – The Plan offers medical and dental plans that participants that are not Medicare-eligible can choose. The Plan also sponsors an employee assistance program. The Company pays premiums for these insured benefits to the insurance companies from its general assets and is then reimbursed by the Plan using 401(h) assets. The related amounts are included in premiums paid to insurance companies in the Statement of Changes in Net Assets Available for Benefits.

Self-insured Benefits – All other Plan benefits are self-insured. The claims for self-insured benefits are processed by the Plan's third-party claims administrators under administrative services arrangements. The Company pays claims directly to or for participants, and is then reimbursed by the Plan using 401(h) assets. Despite the Plan's use of third-party claim's processors, ultimate responsibility for payments to providers and participants is retained by the Plan. The related amounts are included in claims paid, net in the Statement of Changes in Net Assets Available for Benefits.

Stop Loss Coverage – The Plan has entered into a stop-loss arrangement in an effort to limit its exposure for self-insured benefits (individual participant claims over a specific dollar amount). Stop loss recoveries totaling \$980,451 have been netted with claims paid in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.

Refunds – Refunds due from the Plan's Pharmacy Benefits Manager are recorded when earned. Refunds due as of the financial statement date are reported as a receivable, with the offset being netted against claims paid. Pharmacy rebates totaling \$1,131,360 have been netted with claims paid in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, and disclosure of contingent liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – 401(h) assets are invested in various financial instruments, including mutual funds, commingled funds, and U.S. government securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The actuarial present value of postretirement benefit obligations is reported based on certain assumptions pertaining to interest rates; health care inflation rates; and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation process, it is at least reasonably possible that changes in these estimations and assumptions in the near term could materially affect the financial statements.

Claims Incurred But Not Reported – The Plan's obligation for participant health claims incurred but unreported at year-end is estimated using historical claims data provided by the Plan's third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Claims and Premiums Paid – Claims and premiums are recorded as paid when paid by the Company.

Medicare Subsidy – The Plan's postretirement benefit obligation in the Statements of Plan's Benefit Obligations as of December 31, 2024 and 2023, and the changes in the postretirement benefit obligation in the Statement of Changes in Plan's Benefit Obligations for the year ended December 31, 2024 does not reflect an amount associated with the Medicare Part D subsidy (the "Subsidy") allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the "Act"), because the Plan is not directly entitled to the Subsidy. The Company and its actuarial advisors determined that benefits provided to certain participants are at least actuarially equivalent to Medicare Part D (the federal prescription drug benefit), and accordingly, the Company is entitled to the Subsidy under the Act. However, the Company in consultation with the third-party administrator has included the subsidy benefit in estimating the annual premium for participants.

Investment Valuation and Income Recognition – 401(h) investments in commingled funds, mutual funds and U.S. government securities are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. Shares of commingled funds are valued at NAV per unit as reported by the commingled fund managers. U.S. government securities are valued using benchmark yields and interest rate volatilities.

Purchases and sales of mutual funds, commingled funds, money market funds and U.S. government securities are recorded on a trade-date basis. Realized gains and losses are recorded based on average cost. Interest income is recorded on the accrual basis. Dividends and capital gains distributions are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and commingled funds are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Postretirement Benefits – The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employee service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current plan participants. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributable to that employee's service rendered to the valuation date. The postretirement benefit obligation represents the amount that is to be funded by contributions from the Company and from existing Plan assets.

The actuarial present value of the expected postretirement benefit obligation is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as those for death, withdrawal, or retirement) between the valuation date and the expected date of payment, and to reflect the portion of those costs expected to be borne by the retired participants.

For measurement purposes, weighted average health care cost trend rates were assumed to be 6.5% for 2024 and 2023, which gradually decreases to 4.65% in the year 2030, and remain at that level.

The weighted average health care cost-trend assumption has a significant effect on the amounts reported. If the assumed rates for 2024 and 2023 increased by one percentage point for each future year, the obligation as of December 31, 2024 and 2023, would increase by \$2,697,000 and \$3,207,000, respectively.

For measurement purposes, the Health Reimbursement Account (HRA) cost-trend rate was assumed to be 4.00% for 2024 and 2023, and all other actuarial assumptions used for the postretirement benefit obligation also apply to the HRA.

Other significant assumptions used to determine the postretirement benefit obligations as of December 31, 2024 and 2023, are as follows:

- Weighted-average discount rates of 5.76% and 5.24%, respectively
- Life expectancy of participants is based on the Headcount Weighted Pri-2012 Healthy White Collar and MP-2021 projection scale, with a long-term improvement rate of 0.75% from ages 65 to 84.
- Retirement Age: Various ages based on age-related probability scales.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

Administrative Expenses – The Company pays certain administrative fees to third-party vendors and is then reimbursed by the Plan using 401(h) assets. These expenses are reported on the Statement of Changes in Net Assets Available for Benefits. Other administrative expenses are borne by the Company.

Recent Accounting Pronouncements – There are no recent accounting pronouncements that are expected to have an effect on the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities for which other observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques – Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Commingled Funds – Valued at the NAV per unit. The NAV, as provided by the commingled fund managers, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Commingled funds are redeemable on a daily basis. No other redemption restrictions exist and there are no commitments associated with these investments.

The strategy of the commingled funds held by the Plan focuses primarily on investing in companies with attributes that are associated with long-term growth and resilience to market declines, such as strong management, participation in a growing market, strong balance sheets, payment of dividends and the potential for above average growth in earnings, revenues, book value, cash flow and/or return on assets.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held in the 401(h) account are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price.

Money Market Funds – Valued at quoted market prices that represent the published net asset value of the shares serving as the basis for current transactions.

U.S. Government Securities – Valued using pricing models maximizing the use of observable inputs for similar securities.

The following tables present, by fair value hierarchy level and major categorization, the Plan's investments that are carried at fair value as of December 31, 2024 and 2023:

	2024			
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Investments held in 401(h):				
Commingled funds ^(a)	\$ –	\$ –	\$ –	\$ 57,474,010
Mutual funds	120,126,028	–	–	120,126,028
Money market funds	338,192	–	–	338,192
U.S. government securities	–	49,306,734	–	49,306,734
Total investments held in 401(h)	<u>\$ 120,464,220</u>	<u>\$49,306,734</u>	<u>\$ –</u>	<u>\$ 227,244,964</u>

2023

	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Investments held in 401(h):				
Commingled funds ^(a)	\$ –	\$ –	\$ –	\$ 58,872,579
Mutual funds	98,682,004	–	–	98,682,004
U.S. government securities	–	74,781,964	–	74,781,964
Total investments held in 401(h)	<u>\$ 98,682,004</u>	<u>\$74,781,964</u>	<u>\$ –</u>	<u>\$ 232,336,547</u>

(a) Investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient permitted in ASC 820 are not categorized in the fair value hierarchy. The total fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or the availability of observable inputs may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the year ended December 31, 2024, there were no transfers between levels.

4. BENEFIT OBLIGATIONS FUNDING

The Plan had no deficiency of net assets over benefit obligations at December 31, 2024 and 2023. Any deficiency in the Plan's net assets over benefit obligations is expected to be funded through future increases in the Company's contributions and the participants' contribution rate.

5. NET ASSETS AVAILABLE IN 401(h) ACCOUNT AND RELATED CHANGES IN NET ASSETS AVAILABLE IN 401(h) ACCOUNT

The Plan's obligations are funded through contributions to the Company's Capital Retirement Savings Plan in accordance with Section 401(h) of the Code. The components of the net assets available for such benefits as of December 31, 2024 and 2023, are as follows:

Net Assets Available for Postretirement Health Care Benefits in 401(h) Account	2024	2023
Investments at fair value—mutual and commingled funds, U.S. government securities	\$ 227,244,964	\$ 232,336,547
Accrued investment income	283,260	197,908
Payables for securities purchased	<u>(283,260)</u>	<u>(197,908)</u>

7. RELATED PARTY TRANSACTIONS AND EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in mutual funds and commingled funds for which CRMC and CB&T serve as the investment advisors. The trustee for the Plan is CB&T, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each mutual and commingled fund. Certain fees to administer the Plan were paid by the Company.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan sponsor has the right under the Plan to discontinue its contributions as well as to amend and terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the Company will contribute the necessary amounts to fund all claims incurred prior to the termination of the Plan.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service had determined and informed the Company by a letter dated February 13, 2009, that the Revised Master Retirement Plan of the Capital Group Companies, Inc., the former plan of the Capital Retirement Savings Plan which holds the 401(h) account, is designed in accordance with applicable regulations of the Code and is not subject to federal income taxes. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan did not have any uncertain tax positions as of December 31, 2024 and 2023. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. SUBSEQUENT EVENTS

The Plan's management evaluated activity of the Plan through October 14, 2025 the date the financial statements were available to be issued, and concluded that no additional subsequent events have occurred that would require recognition or disclosure in the Plan financial statements.
