Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Investment Committee of Indian Head Industries, Inc. and the Participants
Indian Head Industries, Inc. Pension Plan for Hourly Employees of the Murphy Employing Unit
Charlotte, North Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Indian Head Industries, Inc. Pension Plan for Hourly Employees of the Murphy Employing Unit (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from Comerica Bank as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Investment Committee of Indian Head Industries, Inc. and the Participants
Indian Head Industries, Inc. Pension Plan for Hourly Employees of the Murphy Employing Unit

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Plan Description

The following description of the Indian Head Industries, Inc. Pension Plan for Hourly Employees of the Murphy Employing Unit (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan was formed on April 8, 1984 when the operations of the Company commenced. The Plan is a noncontributory defined benefit pension plan covering substantially all hourly employees of the Murphy, North Carolina plant of Indian Head Industries, Inc. (the “Company” or “Sponsor”). The Investment Committee of the Board of Directors of the Company controls and manages the operation and administration of the Plan. Comerica Bank (the “Trustee”) serves as the trustee of the Plan, and together with an investment manager, manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Pension Benefits

Participants with five years of continuous service, as defined by the Plan, are entitled to pension benefits upon retirement. If employees terminate before rendering five years of continuous service, they forfeit the right to receive pension benefits upon retirement. The Plan permits early retirement at ages 55-64 with ten years of vesting service at a reduced benefit. Employees who terminate employment with at least five years of service and before retirement age are eligible to receive benefits when they reach retirement age. There are five different annuity methods and a lump sum option for receiving pension benefits upon retirement.

Death and Disability Benefits

In the event of a vested employee’s death, his or her designated beneficiary will be entitled to receive a survivor benefit equal to 50% of the participant’s accrued benefit according to the Plan provisions. The survivor benefit commences on the earliest date that the deceased participant could have elected to receive retirement benefits. If a participant, age 50 or older, with fifteen or more years of service becomes disabled, he or she may elect disability retirement. Disabled participants are eligible for early retirement when the benefits under the Sponsor’s long-term disability insurance expire.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

**Indian Head Industries, Inc. Pension Plan for
Hourly Employees of the Murphy Employing Unit
Notes to Financial Statements
December 31, 2024 and 2023**

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 1, 2025, the date the financial statements were available to be issued.

Note 3. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amount as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during their years of credited service. The accumulated plan benefits for active employees are based on their compensation, as defined, during their years of employment preceding the valuation date. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

**Indian Head Industries, Inc. Pension Plan for
Hourly Employees of the Murphy Employing Unit
Notes to Financial Statements
December 31, 2024 and 2023**

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the valuations as of January 1, 2024 and 2023 were:

Actuarial cost method	Projected unit credit method
Discount rate	6.00% in 2024 and 6.00% in 2023
Mortality basis	Pri-2012 mortality table with generational projection using MSS-2023 Mortality Improvement Scale as of December 31, 2024
	Pri-2012 mortality table with generational projection using MSS-2022 Mortality Improvement Scale as of December 31, 2023
Retirement age	Age 62 or age on actuarial value date, if greater
Disability rate	Based on Revenue Ruling 96-7 table for all years

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits, based upon the most recent actuarial date of January 1, 2024 and 2023 is as follows:

	<u>2024</u>	<u>2023</u>
Vested benefits		
Retired participants, currently receiving payments	\$ 1,736,825	\$ 1,798,566
Other participants	<u>1,502,832</u>	<u>1,590,857</u>
	3,239,657	3,389,423
Nonvested benefits	<u>14,205</u>	<u>25,362</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,253,862</u>	<u>\$ 3,414,785</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the 2024 and 2023 Plan years consisted of the following:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits, beginning of year	\$ 3,414,785	\$ 3,354,309

Change in discount period	<u>189,025</u>	<u>185,739</u>
Net increase (decrease)	<u>(160,923)</u>	<u>60,476</u>

Note 5. Unaudited Information Certified By Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2024 and 2023, and for the years then ended that was obtained from data prepared and certified to be complete and accurate by the Plan's Trustee:

	<u>2024</u>	<u>2023</u>
Investments, at fair value	\$ 3,392,002	\$ 3,208,330
Net appreciation (depreciation) in fair value of investments	\$ 205,579	\$ 226,388
Interest and dividends	\$ 88,787	\$ 77,273

Note 6. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1** Observable inputs such as quoted prices in active markets.
- Level 2** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2024 and 2023. The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Money Market Funds

Money market funds are public investment vehicles valued using the Net Asset Value ("NAV").

**Indian Head Industries, Inc. Pension Plan for
Hourly Employees of the Murphy Employing Unit
Notes to Financial Statements
December 31, 2024 and 2023**

The following tables set forth by level, within the fair value hierarchy, the Plan's assets accounted for at fair value on a recurring basis as of December 31:

December 31, 2024				
Fair Value Measurements Using				
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 3,308,532	\$ 3,308,532	\$ -	\$ -
Investment measured at NAV ^(A)	83,470			
Investments at fair value	<u>\$ 3,392,002</u>			
December 31, 2023				
Fair Value Measurements Using				
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 3,042,931	\$ 3,042,931	\$ -	\$ -
Investment measured at NAV ^(A)	165,399			
Investments at fair value	<u>\$ 3,208,330</u>			

(A) In accordance with Topic 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31, 2024	Fair Value at December 31, 2023	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Money market fund	\$ 83,470	\$ 165,399	None	Daily	0-45 days

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2024 and 2023**

Note 7. Income Tax Status

The Internal Revenue Service (the “IRS”) has determined and informed the Company by letter dated September 8, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the “IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the Plan’s investment balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9. Plan Termination

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

**Indian Head Industries, Inc. Pension Plan for
Hourly Employees of the Murphy Employing Unit
Notes to Financial Statements
December 31, 2024 and 2023**

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Actuarial Assumptions/Methods

Actuarial assumptions for January 1, 2024 funding valuation

Discount rate sponsor elections			
• Segment rates or full yield curve	Segment		
• Look-back months	4		
	Stabilized	Nonstabilized	PBGC
• First 5 years	4.75%	3.62%	5.01%
• Next 15 years	4.87%	4.46%	5.13%
• Over 20 years	5.59%	4.52%	5.15%
Mortality sponsor elections			
• Healthy participants	Section 430(h)(3) prescribed generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.		
• Disabled participant	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits		
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on valuation interest rates rather than 417(e) rates and current year 417(e) unisex mortality.		
Other economic assumptions			
• Expected investment return	6.00% per year for 2024, 2023 and 2022		
• Expenses	\$45,000 added to current year normal cost		

Rationale for Economic Assumptions

- **Expected investment return:** The expected investment return is based on a hypothetical historical return based on the plan’s current asset mix adjusted to reflect differences between past returns and expected future returns. Expected future investment returns are based on capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook. The expected investment return assumption is net of an adjustment of 11 bps for expenses assumed to be paid from plan assets, limited to be no more than the 65th percentile of expected returns over a 20 year projection horizon and rounded to the nearest 25 bps.
- **Expenses:** Based on a three-year average of the most recent years’ actual expenses paid, adjusted to reflect one-time items.

65+	0.000	0.000	.000	.000

Rationale for Demographic Assumptions

- **Funding Mortality** – The funding mortality is prescribed by the IRS.
- **Withdrawal / Retirement age:** An annual review comparing expected vs actual departures has shown that these rates do not result in significant gains or losses.
- **Benefit commencement age:** Developed based on the actuary’s experience with similar plans. Annual review of the experience has shown that these rates do not result in significant gains or losses.
- **Spouse assumptions:** Developed based on the actuary’s experience with similar plans. Annual review of the experience has shown that these rates do not result in significant gains or losses.
- **Form of payment:** Developed based on the actuary’s experience with similar plans. Annual reviews of the annuity experience have shown that these rates do not result in significant gains or losses. As a result of the implementation of a lump sum form of payment in 2015, experience will be incorporated as it is developed.

Schedule SB, Part V — Summary of Actuarial Assumptions/Methods

Actuarial methods

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Effective date and plan year	Original plan: April 8, 1984 Restated plan: January 1, 2015 Plan year: Calendar year
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None
Definitions	
• Plan sponsor	Indian Head Industries, Inc.
• Company contributions	The Plan requires contributions sufficient to meet minimum funding standards.
• Employee	Any person employed by the company on an hourly basis who is included in the Murphy Employing Unit
• Eligible employee	Any person employed by the company on an hourly basis who is included in the Murphy Employing Unit or who is not covered by a collective bargaining agreement.
• Participant	All employees who were participants in the TBI Plan, or were eligible employees on April 8, 1984, commence participation on that date. All other eligible employees participate on their date of hire.
• Vesting years of service	An employee receives one (1) vesting year of service for each plan year in which he has 870 or more hours of service. Partial credit to the nearest 1/10th is given for less than 870 hours of service equivalent to the ratio of actual hours of service earned to 2,280. Credit is also received for vesting years of service earned under the TBI Plan.
• Benefit accrual years of Service	An employee receives one (1) year of benefit accrual year of service for each plan year in which he has 1,700 or more hours of service. Proportionate credit to the nearest 1/10th is given for less than 1,700 hours of service. No benefit accrual years of service are given for service under the TBI plan.
• Accrued benefit	Benefit determined under the normal retirement formula based on the employee's benefit accrual years of service at date of determination

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement											
• Eligibility	Age 65										
• Benefit	For retirements on or after April 1, 2000, \$6.00 multiplied by benefit accrual years of service prior to April 8, 1984, plus benefit accrual years of service earned after April 8, 1984 multiplied by the benefit per the following schedule. Benefit is reduced by the amount of the accrued benefit payable from the TBI Plan

January 1, 2000 – December 31, 2014	\$20.00										
On and after January 1, 2015	\$20.50										
Early retirement											
• Eligibility	Age 55 and 10 years of vesting service										
• Benefit	Accrued normal retirement benefit reduced 0.55% for each month by which benefit payments commence prior to normal retirement date										
Late retirement											
• Eligibility	After age 65										
• Benefit	Normal retirement benefit based on benefit accrual years of service at late retirement.										
Disability											
• Eligibility	Age 50, 15 years of vesting service and permanently disabled (as determined by the administrative committee)										
• Benefit	Benefits commence on the first day of the month following the cessation of benefits payable from the company's sickness and accident insurance plan or the participant's normal retirement date, if earlier. Accrued normal retirement benefit (unreduced for early commencement) is payable less Workers' Compensation or other disability benefits provided under any state or federal laws. Upon reaching their normal retirement date, a participant's disability retirement benefit is reduced by the amount of the accrued benefit payable under the TBI Plan.										
Deferred vested											
• Eligibility	Five vesting years of service										
• Benefit	Accrued benefit is payable at 65. Reduced benefit (on the same basis as early retirement) is available on or after age 55 if participant has 10 vesting years of service.										

Schedule SB, Part V — Summary of Plan Provisions**Pre-retirement death**

• Eligibility	Five vesting years of service
• Benefit	A monthly benefit is payable to the spouse equal to 50% of the employee's accrued normal retirement benefit, reduced .55% for each month by which payments commence prior to age 65 and reduced for election of the joint annuitant option. The benefit is payable to the spouse on the first day of the month following the later of the date of the employee's death or the date the employee would have become eligible for early retirement. The employee's benefit at retirement is not reduced to pay for this coverage.

Form of benefits

• Automatic form for unmarried participants	Monthly life annuity
• Automatic form for married participants	50% joint and survivor annuity which is actuarially equivalent to the automatic form for unmarried participants
• Optional forms	50% joint & survivor, 75% joint & survivor, 100% joint and survivor, life annuity with a 10-year certain, one time lump sum (available only for participants who terminated on or after September 1, 2015)
• Actuarial equivalence	For optional annuity forms, the mortality table defined in Revenue Ruling 2001-62 and a 6% interest assumption are used. Lump sums are calculated in accordance with Internal Revenue Code Section 417(e)(3) with two-month look-back for interest rates.

Miscellaneous

• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through effective January 1, 2015, are included in this valuation.

- **Most recent plan amendments included:** The second amendment adopted November 7, 2019 allows participants who are receiving a required distribution under IRC Section 401(a)(9) while actively employed to change their benefit form of payment election upon retirement from active service.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age and less than age 70.5 are valued including the late retirement actuarial increase. Additionally, those over age 70.5 also include late retirement increase from normal retirement to age 70.5 and then back payments with interest from age 70.5 to current age.

Schedule SB, Part V — Summary of Plan Provisions

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* None.
 - *Plan amendments:* See above.
 - *Prohibited payments:* None.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
