Report of Independent Auditors

To the Manager of IR&M Core Bond Fund LLC

Opinion

We have audited the accompanying financial statements of IR&M Core Bond Fund LLC (the "Fund"), which comprise the statement of assets, liabilities, and members' equity, including the condensed schedule of investments, as of December 31, 2024, and the related statements of operations and of changes in members' equity, including the related notes for the year then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2024, and the results of its operations and changes in its members' equity for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

IR&M Core Bond Fund LLC

Notes to Financial Statements December 31, 2024

1. Organization

IR&M Core Bond Fund LLC (the "Fund") is a Delaware limited liability company formed in 2002 pursuant to a Limited Liability Company Agreement (the "LLC Agreement"). The Fund is not registered as an investment company under the Investment Company Act of 1940, as amended, and the Fund's limited liability company interests have not been registered under the Securities Act of 1933, as amended, nor under securities laws of any state. The Fund is expected to operate indefinitely, unless terminated earlier in accordance with the provisions of the Fund's LLC Agreement. The investment manager of the Fund is Income Research & Management (the "Manager"). The Manager, in its sole discretion, may dissolve the Fund on any date, which date shall be at least 30 days after written notice is provided to the Fund's members. The Manager is responsible for the management of the Fund's assets.

The Fund seeks to outperform the Bloomberg Barclays U.S. Aggregate Index ("Index") by investing primarily in investment-grade fixed income securities, including obligations issued or guaranteed by the U.S. Government, its agencies, or instrumentalities; corporate securities; municipal securities; 144A securities; convertible securities; inflation-indexed securities; U.S. dollar-denominated debt of foreign issuers; structured securities including residential mortgage-backed securities (RMBS), mortgage pass-throughs and collateralized mortgage obligations (CMOs), asset-backed securities (ABS), and commercial mortgage-backed securities (CMBS); exchange-traded funds (ETF); preferred and hybrid capital securities and money market instruments. These securities may have all types of interest rate payment and reset terms, including fixed rate, variable rate, floating rate, adjustable rate, zero coupon, contingent, deferred, payment-in-kind, and auction rate features. While there is no limit on the duration of the individual securities in the Fund's portfolio, the Fund normally expects to maintain a dollar-weighted average portfolio duration within +/- 10% of the duration of the Index.

The Fund's custodian is The Bank of New York Mellon Corporation.

2. Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund is a non-registered investment company that follows the accounting and reporting guidance in FASB Accounting Standards Codification Topic 946. The Fund has determined that no material events or transactions occurred through the available for issuance date of the Fund's financial statements, March 14, 2025, which require additional disclosure in or adjustment of the Fund's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

IR&M Core Bond Fund LLC

Notes to Financial Statements December 31, 2024

2. Significant Accounting Policies - (continued)

Security Valuation

Securities are valued at the close of business each "Business Day" defined in the amended LLC Agreement as any day the New York Stock Exchange is open for regular trading. The Fund principally utilizes independent pricing services to value its securities but may also use prices from dealers who make markets in such securities.

When current market prices or quotations are not readily available or the Manager believes that such prices or quotations do not accurately reflect fair value, valuations may be determined in good faith by the Manager who will consider factors such as market or security specific events, changes in interest rates, and credit quality.

The Fund categorizes the inputs to valuation techniques used to value its securities into a disclosure hierarchy established by GAAP consisting of three levels as shown below.

Level 1 – unadjusted quoted prices in active markets for identical securities.

Level 2 – directly or indirectly observable inputs for the pricing of securities. Such inputs could be from quoted prices in markets that are not active, quoted prices for similar securities, credit spreads, dealer prices, or collateral performance.

Level 3 – unobservable inputs, to the extent observable inputs are not available, representing the Fund's assumptions on security valuation based on conditions in the marketplace.

Changes in valuation techniques may result in transfers in or out of a security's assigned level within the hierarchy.

Fixed income securities are valued based on evaluated prices received from independent pricing services or from dealers who make markets in such securities. Pricing services utilize matrix pricing for corporate bonds, municipal securities, and U.S. government and government agency obligations, which considers yield or price of bonds of comparable quality, coupon, maturity and type as well as dealer supplied prices and are generally categorized as Level 2 in the hierarchy. When independent prices are unavailable or unreliable, fixed income securities may be valued utilizing pricing methodologies which consider similar factors that would be used by third party pricing vendors. These are generally categorized as Level 2 in the hierarchy but may be Level 3 depending on the circumstances. For asset backed securities, collateralized mortgage obligations, commercial mortgage backed securities and mortgage backed securities, pricing services utilize matrix pricing which considers prepayment speed assumptions, attributes of the collateral, yield or prices of bonds of comparable quality, coupon, maturity and type as well as dealer supplied prices and, accordingly such securities are generally categorized as Level 2 in the hierarchy. Short-term securities with remaining maturities of sixty days or less for which quotations are not readily available are valued at amortized cost, which approximates fair value and are categorized as Level 2 in the hierarchy. Investments in open-end investment companies are valued at their net asset value and are categorized as Level 1.

The levels used for classifying investments are not necessarily an indication of the risk associated with investing in those investments.

Notes to Financial Statements December 31, 2024

2. Significant Accounting Policies - (continued)

Security Transactions and Income Recognition

Security transactions are recorded on trade date. Interest income is recorded on the accrual basis. Interest income includes coupon interest and amortization of premium and accretion of discount on fixed income securities which are recognized based on the effective interest method. For Treasury Inflation-Protected Securities (TIPS) the principal amount is adjusted daily to keep pace with inflation. Interest is accrued based on the adjusted principal amount. The adjustments to principal due to inflation are reflected as increases or decreases to interest in the accompanying statement of operations. Paydown gains and losses on mortgage, commercial mortgage, and asset backed securities are recorded as an adjustment to interest income. Realized gains and losses from the sale of investments are recorded on the specific identification basis.

Expenses

Each member of the Fund pays a management fee directly to the Manager and thus the Fund does not recognize such expense. The Manager pays all other operating expenses of the Fund.

Income Taxes

The Fund is treated as a partnership under the provisions of the Internal Revenue Code and applicable state income tax laws, which provides that taxable income and deductions are apportioned to the members. Thus no provision or liability for federal or state income taxes is recorded in the financial statements.

As of December 31, 2024, the Manager has reviewed the Fund's tax positions for all open tax periods (current and prior tax periods) and has determined that no provisions for income taxes is required in the Fund's financial statements.

3. Fair Value Measurements

The following table is a summary of the fair value hierarchy for the Fund's investments measured at fair value as of December 31, 2024. See Note 2 for more information on the fair value hierarchy and related inputs and levels.

Assets	Total	Level 1	Level 2	Level 3
Investments in:				
Asset Backed Securities	\$ 71,122,739	\$ -	\$ 71,122,739	\$ -

	<u>\$ 733,679,440</u>	<u>\$ 2,158,910</u>	<u>\$ 731,520,530</u>	<u>\$ -</u>

There were no transfers into or out of level 3 during the year ended December 31, 2024.

4. Members' Equity

Ownership Interests

Two members own an aggregate 35.56% interest in the Fund's members' equity as of December 31, 2024.

Subscriptions

All members of the Fund must be "accredited investors" as defined in federal securities laws. Subscriptions from new members and contributions from existing members are accepted each "Business Day". The Manager, in its sole discretion, may accept subscriptions in the form of in-kind contributions of securities based on the fair value of the securities on the contribution date.

Withdrawals

Members may make complete and partial withdrawals at the end of each "Business Day". The Fund may pay withdrawals in cash, or in the discretion of the Manager, through in-kind distributions of investment securities.

Transfers

Members' interests are not transferable without the written consent of the Manager.

IR&M Core Bond Fund LLC

Notes to Financial Statements December 31, 2024

4. Members' Equity - (continued)

Distributions

Earnings of the Fund will normally be reinvested. However the Fund may, at the Manager's discretion, make distributions to its members.

Allocations of Profits and Losses

Net profit or net loss, which includes net changes in unrealized appreciation or depreciation on investments, realized gains or losses on investments, and net investment income was generally allocated as of each "Business Day" thereafter, among the members' equity accounts maintained for members in proportion to the relative values of such members' equity accounts immediately prior to effecting such allocations.

5. Financial Highlights

The Fund is required to disclose financial highlights for the common interest in the Fund (i.e., members' equity). These highlights consist of total return and the net investment income ratio. No expense ratio is provided since all expenses are paid outside of the Fund.

The following summarizes the Fund's financial highlights for the year ended December 31, 2024:

<i>Total return</i>	1.86%
<i>Net investment income to average members' equity</i>	4.17%

Total return is calculated based on a time-weighted rate of return methodology. The total return and net investment income ratios are calculated for the members taken as a whole. The ratios for individual members may vary from the total return and net investment income ratio shown above because of the timing of member contributions or withdrawals from the Fund.

6. Other

Under the Fund's organizational documents, the Manager's officers, employees, and agents are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the course of business, the Fund may enter into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Fund. However, it is believed that the risk of loss under these arrangements is remote.

IR&M Core Bond Fund LLC

Notes to Financial Statements December 31, 2024

7. Market and Credit Risks

Market and Geopolitical Risk

The value of the securities the Fund holds may change due to economic and other events that affect markets generally, as well as those that affect particular regions, countries, industries, companies or governments. These price movements, sometimes called volatility, may be greater or less depending on the types of securities the Fund owns and the markets in which the securities trade. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, and global demand for particular products or resources. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, pandemics, epidemics, sanctions, social and political discord or debt crises and downgrades, among others, may also result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such events could have a significant adverse impact on the fair value and risk profile of the Fund's portfolio.

Credit and Interest Rate Risk

The Fund may be exposed to the risk that one or more securities in the Fund's portfolio will decline in price, or fail to pay interest or principal when due, because the issuer of the security experiences a decline in its financial status (credit risk). Credit risk is measured by the loss a fund would record if the major financial institution or other counterparties failed to perform pursuant to terms of their obligations. The Fund may maintain cash balances at one or several major financial institutions that may exceed federally insured limits and as such the Fund has credit risk associated with such financial institutions. In general, lower rated securities carry a greater degree of risk that the issuer will lose its ability to make interest and principal payments, which could have a negative impact on the Fund's NAV or distributions, if any. Interest rate risk is the risk that fixed income securities will decline in fair value because of changes in interest rates. Fixed income producing securities are subject to certain risks, including (i) if interest rates go up, the fair value of fixed income-producing securities in the Fund's portfolio generally will decline; (ii) during periods of declining interest rates, the issuer of a security may exercise its option to prepay principal earlier than scheduled, forcing the Fund to reinvest in lower yielding securities (call or prepayment risk); and (iii) during periods of rising interest rates, the average life of certain types of securities may be extended because of slower than expected principal payments (extension risk). The Fund may invest in obligations issued by agencies and instrumentalities of the U.S. Government that may vary in the level of support they receive from the government. The government may choose not to provide financial support to government sponsored

IR&M Core Bond Fund LLC

Notes to Financial Statements December 31, 2024

7. Market and Credit Risks (continued)

agencies or instrumentalities if it is not legally obligated to do so. In this case, if the issuer defaulted, the underlying investment fund holding securities of such issuer might not be able to recover its investment from the U.S. Government.

Short-Term Investment Funds Risk

Investments in short-term investment funds held by the Fund are subject to certain risks including interest rate risk, market risk and credit risk. Such investments are generally not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although short-term investment funds seek to preserve the value of investors' capital at \$1 per share, it is possible to lose money by investing in a short-term investment fund.

Mortgage-Backed Securities Risk

The risk that borrowers may default on their mortgage obligations or the guarantees underlying the mortgage-backed securities will default or otherwise fail and that, during periods of falling interest rates, mortgage-backed securities will be called or prepaid, which may result in the Fund having to reinvest proceeds in other investments at a lower interest rate. During periods of rising interest rates, the average life of a mortgage-backed security may extend, which may lock in a below-market interest rate, increase the security's duration, and reduce the value of the security. Enforcing rights against the underlying assets or collateral may be difficult, or the underlying assets or collateral may be insufficient if the issuer defaults. The values of certain types of mortgage-backed securities, such as inverse floaters, interest-only and principal-only securities, may be extremely sensitive to changes in interest rates and prepayment rates.
