The Kinetic Group, Inc. (formerly known as Vista Outdoor Inc.) Pension and Retirement Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of The Kinetic Group, Inc. (formerly known as Vista Outdoor Inc.) Pension and Retirement Plan (collectively, the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedules required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024 and of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from

the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of The Kinetic Group, Inc. Pension and Retirement Plan (formerly the Vista Outdoor Inc. Pension and Retirement Plan) (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is a defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and is designed to provide employees with additional security for their retirement.

The Plan was established effective February 9, 2015 through a spin-off from an affiliated plan. On July 31, 2017, the Plan was amended to freeze the accrued benefits and cash balances within the Plan, except with respect to additional interest credits required to be made.

The Plan was most recently amended effective September 1, 2025 to change the legal name of the plan sponsor from Vista Outdoor Inc. to The Kinetic Group, Inc. (collectively, the "Company") and to change the legal plan name from Vista Outdoor Inc. Pension and Retirement Plan to The Kinetic Group, Inc. Pension and Retirement Plan (the "Plan" as defined above). All plan provisions remained unchanged as a result of the amendment.

General

The Plan covers certain employees of the Company who are not enrolled in another company pension or retirement plan and who are not in an excluded group under the provisions of the Plan. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary, meeting the minimum funding requirements of ERISA.

Pension Benefits

The Plan consists of multiple groups of employees with different benefit formulas and provisions based on applicable predecessor plans, which includes a frozen cash balance account for applicable employees with a 4% annual interest credit. Participants' benefits under the Plan vest according to provisions of their respective former plan. Participants become eligible to receive benefits at normal retirement age or according to the provisions of their former plans. Vesting is either five-year cliff vesting or three-year cliff vesting depending on the provisions of the former plans. The Plan document, which summarizes the provisions of the former plans, are provided to all Plan participants. Participants who are terminated from employment will be paid the normal form of payment as specified per the provisions of their former plan.

Participant's Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' cash balance accounts. The cash balance accounts became frozen on July 31, 2017 and, therefore, participants are no longer credited for compensation credits since that date. The participant's cash balance account receive interest credits at the end of the Plan year. The amount of the interest credit is fixed at 4.0% annually.

Disability and Death Benefits

Plan provisions include disability and death benefits. Participants should refer to the Plan document for detailed information regarding the amount and optional forms of benefits to which they are entitled.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting and have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment securities, including hedge funds and collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, which is generally determined by quoted market prices. When quoted market prices are not available, generally these investments have underlying securities that have fair values determined by quoted market prices. For certain assets where the fair market value is not readily determinable, estimates of the fair value are determined using the best available information, including the most recent audited financial statements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net investment appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Trustee, investment management, Plan administration, and audit fees are paid by the Plan. Actuarial and legal fees incurred in connection with the Plan administration and in determining the annual funding requirements of the Plan are also paid by the Plan. Pension Benefit Guaranty Corporation ("PBGC") premiums are paid directly by the Plan. The Company can, at its discretion, pay expenses on behalf of the Plan.

The Kinetic Group, Inc. Pension and Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Subsequent Events

The Plan has evaluated subsequent events for potential recognition and disclosure through October 8, 2025, the date the financial statements are available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements, except already disclosed within Note 1.

NOTE 3 - FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Benefits under the Plan are based, depending on location, on credited service years and/or an employee's eligible compensation over a specified period of time. Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via allocated annuity contracts are excluded from Plan assets and are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits represents the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023 were (a) life expectancy of participants (Pri-2012 with Scale MP-2021), (b) various retirement-age assumptions based on the Plan (the table of age-based retirement rates which start at 5.0% at age 55 and broadly increase to 100% at the ultimate age of 70. Terminated vested participants are assumed to retire at age 64. The Plan provisions defines normal retirement as age 65, and indicates that reduced retirement benefits can be elected as early as age 55 with varying years of service based on participant group), and (c) a discount rate based on the long term rate of investment return. The December 31, 2023 valuation included a discount rate of 6.25%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

The Kinetic Group, Inc. Pension and Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The actuarial present value of accumulated plan benefits as of December 31, 2023 is as follows:

	2023
Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 90,959,322
Other participants	56,243,146
Total Vested benefits	147,202,468
Total actuarial present value of accumulated plan benefits	\$ 147,202,468

The net change in accumulated plan benefits for the year ended December 31, 2023 is as follows:

Actuarial present value of accumulated plan benefits, January 1, 2023	\$ 147,599,600
Change due to:	
Interest accumulation	9,169,474
Benefits paid	(13,270,450)
Assumption changes	2,775,508
Other changes	928,336
Net Change	(397,132)
Actuarial present value of accumulated plan benefits, December 31, 2023	\$ 147,202,468

Plan assumption changes include an update to the retirement and termination rates, the assumed percent of participants that are married and the age difference between spouses, and a change in the interest rate assumption from 6.5% to 6.25%. These changes resulted in a increase to the liability of approximately \$2,775,508.

Other changes to the actuarial present value of accumulated plan benefits of \$928,336 represents actuarial losses resulting from experience differing from the assumptions, including retirement and other termination at different rates than expected and different lump sum election rates than expected.

NOTE 5 - PRIORITIES UPON TERMINATION OF THE PLAN

Although the Company has not expressed any indication to do so, the Company may terminate the Plan at any time. In the event the Plan terminates, net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

The Kinetic Group, Inc. Pension and Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2024, the ceiling is \$7,108 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Benefit improvements attributable to the Plan amendments may not be fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings. For example, none of the improvements would be guaranteed if the Plan were to terminate before the effective date of the Plan amendments. After that date, the PBGC would guarantee 20% of any benefit improvements that resulted in the benefits below the ceiling; with an additional 20% guaranteed each year the Plan continued beyond the effective date of the Plan amendments. If the amount of the benefit increase below the ceiling is also less than \$100, \$20 of the increase (rather than 20%) becomes guaranteed by the PBGC each year following the effective date of the amendments. As a result, only the primary ceiling would be applicable after the effective date of the Plan amendments.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan assets are invested in funds issued by AON plc. AON plc is the parent company of AON Consulting, Inc, the actuary of the Plan, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate:

- a. Investments, at fair value, as shown in the statements of net assets available for benefits, as of December 31, 2024 and 2023.
- b. Net investment appreciation, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.
- c. Schedule H, line 4(i) – Schedule of assets (held at end of year) as of December 31, 2024.
- d. Schedule H, Line 4(j) – Schedule of reportable transactions for the year ended December 31, 2024.

NOTE 8 - FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. For certain Plan assets where the fair market value is not readily determinable, estimates of the fair value are determined using the best available information, including the most recent audited financial statements.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and December 31, 2023.

Collective Trusts: Investments in a collective investment vehicle are valued by multiplying the investee company's net asset value (NAV) as a practical expedient to estimate fair value per share times the number of units or shares owned at the valuation date as determined by the investee company. There are no unfunded capital commitments.

Hedge Fund: The value is based upon the underlying investments held by the fund less the liabilities. The Plan evaluates the reasonableness of the hedge fund based on the audited financial statements, review of significant assumptions and comparable investments. Assets are valued at NAV as a practical expedient. There are no unfunded capital commitments.

December 31, 2024 and 2023

The following tables set forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV				134,357,594
Total Investments, at fair value				\$134,357,594

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV				138,758,045
Total Investments, at fair value				\$138,758,045

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a difference fair value measurement at the reporting date.

NOTE 9 - FEDERAL INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service dated April 18, 2018. The Plan administrator believes that the Plan continues to be designed and operated in accordance with the applicable requirements of the IRC; therefore, believe the Plan is qualified and tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the federal and state tax authorities.

Management has determined there are no uncertain tax positions at December 31, 2024 and 2023. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Mortality Rates

Healthy and Disabled

2024 generational mortality tables for annuitants and non-annuitants per section 1.430(h)(3)-1(b).

Withdrawal Rates

See Table 2.

Disability Rates

See Table 3.

Decrement Timing

Middle-of-year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Surviving Spouse Benefit

It is assumed that 70% of males and 60% of females have an eligible spouse, and that males are two years older than their spouses.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2022 Plan Year

5.50%.

2023 Plan Year

6.50%.

2024 Plan Year

6.25%.

Trust Expenses Included in Target Normal Cost

The average of the prior two years actual plan administrative expenses (excluding PBGC premiums), plus the estimated PBGC premiums for the current year, rounded to the nearest \$10,000 (\$1,720,000 for 2024).

Actuarial Method

Standard unit credit cost method.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

The Kinetic Group, Inc. Pension and Retirement Plan

The following is a summary of the major plan provisions as included in this valuation. See the plan document for a complete description of the plan benefits.

The Plan was effective February 9, 2015 due to a spin off from the Alliant Techsystems Inc. Pension and Retirement Plan.

Due to acquisitions and benefit plan mergers, the Plan contains various benefit formulas that apply to certain groups of employees. Since July 1, 2013, the pension benefit for active participants is calculated in two pieces: (i) the benefit earned as of June 30, 2013 under the prior formula and (ii) the benefit earned under a new cash balance formula for service and earnings beginning July 1, 2013. Earnings Credits under the new cash balance formula are frozen as of July 31, 2017.

The two portions of the pension benefit are payable separately—different payment forms and commencement dates may be elected for the different pieces of the benefit. The elements of compensation used in applying the various payment and benefit formulas generally include base salary plus annual incentive payments (actually paid through the month of termination of employment, or the applicable freeze date for benefits under the prior frozen formulas), up to the applicable IRS maximum compensation limit. Participants who terminated prior to the new cash balance formula effective date have benefits determined solely based on the applicable prior plan formulas.

Prior to the new cash balance formula, employees were vested after five years of vesting service, except for the former Retirement Plan (cash balance) formula and PEP formulas which used three years of vesting service. Effective July 1, 2013, all impacted employees who transitioned to the new Cash Balance formula became 100% vested in their entire pension benefit regardless of their years of vesting service.

The normal retirement age for the plan is defined in the Pension Plan as age 65.

There are no employee contributions required in the plan.

The following pages describe the new cash balance formula and the principle plan provisions for the prior frozen benefit formulas. Certain provisions not benefiting any active employees or prior plan provisions that do not impact the plan liabilities are not included in this summary. Please see the plan document for detailed plan provisions.

New Cash Balance Formula

The new cash balance formula applies to benefits for pay and service earned beginning July 1, 2013. Benefits earned prior to this date are frozen and separately determined under the applicable prior benefit formula. Separate benefit elections and commencement dates apply to each piece of the benefit (the new cash balance benefit and the prior frozen benefit).

Eligible Participants Active nonunion participants in the plan on June 30, 2013.

Cash Balance Benefit

Opening Account The initial cash balance account is \$0.

Earnings Credits Credits are added to the cash balance account at the end of the plan year based on points (age plus service) as summarized below. Earnings Credits are frozen as of July 31, 2017.

Points	Percentage of Earnings
Less than 40	2.5%
At least 40, but less than 60	3.0%
60 or more	4.0%

Interest Credits Interest is credited annually each December 31, based on the account balance at the beginning of the plan year. The interest crediting rate is 4.0%.

Accrued Benefit The cash balance account, or the Actuarial Equivalent monthly single annuity benefit.

Disability Benefit None (continued service credit for up to one year while receiving benefits under Company long-term disability plan).

Preretirement Death Benefit The cash balance account balance, or for married employees the Actuarial Equivalent monthly annuity.

Vesting All participants eligible for a new cash balance benefit are fully vested in their plan benefits (including any frozen prior benefit amount).

Normal Form of Benefit Married Participants: 100% joint and survivor annuity. Unmarried Participants: single life annuity.

Optional Forms of Benefits 100% or 50% joint and survivor monthly annuity, single life annuity, or lump sum.

Definitions

Actuarial Equivalent

417(e) basis is used to convert the cash balance account balance into a monthly annuity, using interest rates in effect for the second calendar month preceding the calendar quarter of the annuity starting date.

Earnings

Salary and wages including overtime and management incentive payments (actually paid through the month of termination of employment). Vacation payouts, severance payments, other bonus payments, deferred compensation, expense reimbursements, welfare benefits, stock options, and other fringe benefits are excluded. Earnings are limited as required by the Tax Reform Act of 1986.

Frozen Prior Benefit Plan Formulas

Benefits for plan participants earned for pay and service earned prior to the new cash balance formula effective date are determined under either the Pension Equity Plan formula or one of the prior Grandfathered Plan formulas, as described on the following pages. These benefits are frozen as of June 30, 2013. Participants have separate benefit election options and applicable commencement dates for these frozen prior benefit plan formula amounts.

Pension Equity Formula Benefits

The pension equity plan (“PEP”) formula applies to nonunion employees hired or rehired on or after January 1, 2003 and nongrandfathered employees from the former Retirement Plan, the Aerospace Pension Plan, the Federal Cartridge Plan, the SEG Plan, and the Thiokol Propulsion Plan as of December 31, 2003 (i.e., participants who had less than 15 years of service as of December 31, 2003). PEP benefits were frozen as of June 30, 2013 for active participants. The frozen PEP account benefits continue to grow with 4% interest (compounded annually) until benefit commencement.

Pension Equity Benefit

5.5% of the participants Final Average Earnings up to one half of the Social Security Taxable Wage Base (“SSTWB”) in effect on January 1 of the year of termination, multiplied by years of Credited Service, plus 11% of the participants Final Average Earnings in excess of one half of the SSTWB in effect on January 1 of the year of termination, multiplied by years of Credited Service.

For nongrandfathered PEP participants, the benefit is the greater of (i) the all service pension equity benefit determined above or (ii) the lump-sum value of the accrued benefit determined under the prior benefit formula through December 31, 2003, plus the pension equity formula applied to future service. *See the Grandfathered Plan formula section for a description of applicable prior benefit formulas.*

Accrued Benefit

The PEP lump-sum benefit, or the Actuarial Equivalent monthly single life annuity. For nongrandfathered participants eligible for the greater of all service PEP or prior accrued benefit plus future service PEP benefit, the annuity value of the prior benefit is determined based on the prior plan formula, including any applicable early commencement factors.

Disability Retirement

None (continued service credit for up to one year while receiving benefits under Company LTD plan).

Vesting

Three years of vesting service or age 65. Deferred PEP balances are credited with interest at 4% (compounded annually) until commencement.

Preretirement Death Benefit

100% of the PEP account balance, or for married participants the Actuarial Equivalent monthly life annuity.

Normal Form of Benefit

Married Participants: 100% joint and survivor annuity.
Unmarried Participants: single life annuity.

Grandfathered Plan Benefit Formulas

Nonunion plan participants who had at least 15 years of service on December 31, 2003, or who were participants in the Lake City Plan do not participate in the pension equity formula. Instead benefits are based on the applicable prior plan benefit formula which applied to them, including the former Retirement Plan, the Aerospace Pension Plan, the Lake City Pension Plan, the Thiokol Propulsion Plan, the Federal Cartridge Plan, and the SEG Plan formulas. These benefits were frozen as of June 30, 2013.

The table below describes the formulas and key benefit features of the Federal Cartridge and SEG plans. Summaries for the other grandfathered formulas are not included, as substantially all participants in those formulas remained in the Alliant Techsystems Inc. Pension and Retirement Plan in 2015. Additionally, certain other benefits or formulas that may apply to small subgroups of participants which are not included in the table summary below (see the plan document for details).

Schedule SB, line 24 – Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption change:

- A change in the expected rate of return on assets from 6.50% to 6.25%.

This assumption change was made to better reflect the anticipated plan experience. The change does not reduce the funding shortfall, as such, approval of the Commissioner is not required.
