Trustees and Participants
Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Ferring Pharmaceuticals Inc. 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution, Fidelity Management Trust Company, the custodian of the Plan, as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis-of-Matter Plan Merger

As discussed in Note 9 to the financial statements, Ferring Pharmaceuticals Inc., the Plan's Sponsor, amended the Plan to merge the QualTech Laboratories, Inc. 401(k) Profit Sharing Plan (the QualTech Plan) into the Plan. Our opinion has not been modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Ferring Pharmaceuticals Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time employees (except for interns, leased employees, residents of Puerto Rico and non-resident aliens with no income from a United States source) of Ferring Pharmaceuticals, Inc. (the Sponsor or Company). The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Ferring Pharmaceuticals Retirement Plan Committee (the Committee) is responsible for oversight of the Plan. The Committee, under the guidance of an independent investment advisor, determines the appropriateness of the Plan's investment offerings and monitors investment performance. Fidelity Management Trust Company (Fidelity) serves as trustee of the Plan.

Eligibility: There are no minimum service requirements. However, an employee must be at least 18 years of age. Interns, paid and unpaid, may participate in the Plan after reaching age 21 and completing at least 1,000 hours of service during the plan year.

Participant contributions: Employee basic contributions are based on specified percentages of eligible compensation, as defined in the Plan document. The maximum percentage an employee may contribute to the Plan is 60% of annual compensation, as defined in the Plan document. Tax deferred contributions were limited to a maximum of \$23,000 for 2024. Certain participants (age 50 or older) were permitted to make an additional catch-up contribution of \$7,500 for 2024. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Newly hired employees are automatically enrolled in the Plan, deferring 3% of eligible wages.

Employer contributions: The Company matches 65% of the first 6% of eligible compensation that a participant contributes to the Plan. Additionally, the Company, at its discretion, may make other contributions on behalf of its eligible employees.

Discretionary contributions: The Company may make a discretionary profit-sharing contribution to the Plan each year in an amount equal to a percentage of annual compensation for the Plan year for participants who met the eligibility requirements discussed above. The allocation of the contribution to each employee is based on when the employee was hired. Any employee hired prior to January 1, 2011, receives 6.25%, employees hired on or after January 1, 2011, receive 3% and employees of an adopting employer that adopted the Plan on or after January 1, 2011, receive 3%. Employees are eligible to receive an allocation of this, the Company contribution if they have completed one year of service as of January 1 or July 1 and were employed at year-end. The contribution is not to exceed the maximum amount per IRS limits. For the year ended December 31, 2024, the Company made a discretionary profit-sharing contribution of \$4,171,232 .

Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participant accounts: Each participant's account is credited with the participant's contributions, the Plan Sponsor's matching contribution, allocations of any discretionary profit-sharing contribution, Plan earnings/losses and are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participant's interests in their own contributions are fully vested at all times. Participants hired on or after January 1, 2009, do not vest in the discretionary profit-sharing contributions and matching employer contributions until completing three years of service, at which time such participants are fully vested. Participants hired prior to January 1, 2009, are fully vested in discretionary employer contributions and matching employer contributions. Participants hired by Ferring Research Institute Inc. prior to January 1, 2011, are vested in the employer match after one year of service. A year of service is defined as at least 1,000 hours worked in a consecutive 12-month period. In the event participants leave the Company for any reason, they are entitled to receive their vested account balance. Participants become fully vested in all balances upon death, permanent disability and retirement.

Notes receivable from participants: Employees are allowed to borrow from their contributions and vested Company's contributions (collectively, the Accrued Benefit). Loan terms range up to five years or over a reasonable period of time for the purchase of a primary residence not to exceed 10 years, as established by the Plan Administrator at the time of the loan. Notes receivables are secured by the participant's account. The notes receivable balance outstanding cannot exceed the lesser of: (i) 50% of the employee's vested account, or (ii) a maximum of \$50,000. Interest rates range from 4.25% to 9.50% and loans mature at various dates through January 2033. Principal and interest are paid ratably through periodic payroll deductions.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options daily.

Payment of benefits: Upon termination of service, death, retirement or disability, a participant or beneficiary will receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Participants may request hardship distributions, as defined. Participants can request in-service distributions upon reaching the Plan's normal retirement age.

If the participant's vested account balance exceeds \$7,000, no distribution will be made from the Plan without the participant's consent. If a participant's vested account balance upon termination of service, death, disability or retirement is greater than \$1,000 but less than \$7,000, a participant can elect a distribution option or if no election is made, the Plan Administrator will pay the distribution in a direct rollover to an individual retirement account designated by the Plan Administrator. If a participant's vested account balance is \$1,000 or less, a lump-sum amount distribution is the required form of distribution on termination of service, death, disability or retirement.

Forfeitures: If a participant terminates employment with the Company and is less than 100% vested in the Company contributions, the participant will forfeit the nonvested portion of their Company match and discretionary contributions. A forfeiture will occur in the Plan year that the participant receives a distribution of their vested account. Any amounts forfeited would be used to pay administrative expenses and reduce current Company's contributions. Forfeited nonvested accounts totaled \$417,915 and \$187,549 at December 31, 2024 and 2023, respectively. During 2024, \$787,255 was used to reduce employer's matching contributions and no forfeitures were used to pay administrative expenses.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee confirms the Plan's valuation policies utilizing information provided by the Trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Contributions: Contributions from Plan participants and the matching contributions from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Employer discretionary contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant-directed.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. For the year ended December 31, 2024, \$243,107 of delinquent notes receivable were reclassified as deemed distributions.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: As provided by the Plan document, administrative expenses related to Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Plan Sponsor. Loan origination fees are charged to the borrower/participant.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Fidelity Management Trust Company (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company, a qualified institution:

	2024	2023
Investments:		
Registered investment companies	<u>\$ 231,334,267</u>	<u>\$ 200,375,122</u>
Notes receivable from participants	<u>\$ 1,431,619</u>	<u>\$ 1,347,664</u>

The Trustee also certified to the completeness and accuracy of \$24,342,313 of net appreciation in fair value of investments, \$7,904,423 of interest and dividends from the aforementioned investments and \$108,139 of interest income on notes receivable from participants for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the mutual fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 231,334,267	\$ -	\$ -	\$ 231,334,267

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 200,375,122	\$ -	\$ -	\$ 200,375,122

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. There were no transfers between levels during 2024 and 2023.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6. Related-Party and Parties-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity is the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan issues notes receivable to participants, which are secured by the balances in the participants' accounts, which also constitute exempt party-in-interest transactions. The Plan paid \$42,878 to Fidelity during the year ended December 31, 2024.

Certain officers and employees of the Plan Sponsor who are participants in the Plan perform administrative services related to the operation, recordkeeping, and financial reporting of the Plan. No such officer or employee receives compensation from the Plan. Some of the Plan's expenses were paid by the Plan Sponsor, and personnel and facilities of the Plan Sponsor are used by the Plan at no charge.

Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 7. Tax Status

The Plan has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service date June 30, 2020, stating that the form of the pre-approved plan document was in compliance with applicable requirements of the IRC. The Plan has been amended since adopting the preapproved plan document; however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Plan Merger

On January 25, 2024, the Company amended the Plan to merge the QualTech Laboratories, Inc. 401(k) Profit Sharing Plan (the QualTech Plan) into the Plan, effective February 29, 2024, when all eligible participants began participating in the Plan. Total assets of \$348,707 of the QualTech Plan were transferred to the control of the Plan on March 18, 2024.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2024 and 2023:

	2024	2023
Net assets available for benefits per the financial statements	\$ 237,348,506	\$ 205,796,059
Differences in:		
Receivables—employer matching contributions receivable	(411,388)	-
Receivables—employer profit-sharing contributions receivable	(4,171,232)	(4,073,273)
Net assets available for benefits per the Form 5500	<u>\$ 232,765,886</u>	<u>\$ 201,722,786</u>

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to net income per the Form 5500 for the year ended December 31, 2024:

Net increase in net assets available for benefits per the financial statements	\$ 31,552,447
Less: change in employee and employer contributions receivable	(509,347)
Net income per the Form 5500	<u>\$ 31,043,100</u>

Independent Auditor's Report

RSM US LLP

Trustees and Participants
Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Ferring Pharmaceuticals Inc. 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution, Fidelity Management Trust Company, the custodian of the Plan, as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis-of-Matter Plan Merger

As discussed in Note 9 to the financial statements, Ferring Pharmaceuticals Inc., the Plan's Sponsor, amended the Plan to merge the QualTech Laboratories, Inc. 401(k) Profit Sharing Plan (the QualTech Plan) into the Plan. Our opinion has not been modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Ferring Pharmaceuticals Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Ferring Pharmaceuticals Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time employees (except for interns, leased employees, residents of Puerto Rico and non-resident aliens with no income from a United States source) of Ferring Pharmaceuticals, Inc. (the Sponsor or Company). The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Ferring Pharmaceuticals Retirement Plan Committee (the Committee) is responsible for oversight of the Plan. The Committee, under the guidance of an independent investment advisor, determines the appropriateness of the Plan's investment offerings and monitors investment performance. Fidelity Management Trust Company (Fidelity) serves as trustee of the Plan.

Eligibility: There are no minimum service requirements. However, an employee must be at least 18 years of age. Interns, paid and unpaid, may participate in the Plan after reaching age 21 and completing at least 1,000 hours of service during the plan year.

Participant contributions: Employee basic contributions are based on specified percentages of eligible compensation, as defined in the Plan document. The maximum percentage an employee may contribute to the Plan is 60% of annual compensation, as defined in the Plan document. Tax deferred contributions were limited to a maximum of \$23,000 for 2024. Certain participants (age 50 or older) were permitted to make an additional catch-up contribution of \$7,500 for 2024. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Newly hired employees are automatically enrolled in the Plan, deferring 3% of eligible wages.

Employer contributions: The Company matches 65% of the first 6% of eligible compensation that a participant contributes to the Plan. Additionally, the Company, at its discretion, may make other contributions on behalf of its eligible employees.

Discretionary contributions: The Company may make a discretionary profit-sharing contribution to the Plan each year in an amount equal to a percentage of annual compensation for the Plan year for participants who met the eligibility requirements discussed above. The allocation of the contribution to each employee is based on when the employee was hired. Any employee hired prior to January 1, 2011, receives 6.25%, employees hired on or after January 1, 2011, receive 3% and employees of an adopting employer that adopted the Plan on or after January 1, 2011, receive 3%. Employees are eligible to receive an allocation of this, the Company contribution if they have completed one year of service as of January 1 or July 1 and were employed at year-end. The contribution is not to exceed the maximum amount per IRS limits. For the year ended December 31, 2024, the Company made a discretionary profit-sharing contribution of \$4,171,232 .

Note 1. Description of Plan (Continued)

Participant accounts: Each participant's account is credited with the participant's contributions, the Plan Sponsor's matching contribution, allocations of any discretionary profit-sharing contribution, Plan earnings/losses and are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participant's interests in their own contributions are fully vested at all times. Participants hired on or after January 1, 2009, do not vest in the discretionary profit-sharing contributions and matching employer contributions until completing three years of service, at which time such participants are fully vested. Participants hired prior to January 1, 2009, are fully vested in discretionary employer contributions and matching employer contributions. Participants hired by Ferring Research Institute Inc. prior to January 1, 2011, are vested in the employer match after one year of service. A year of service is defined as at least 1,000 hours worked in a consecutive 12-month period. In the event participants leave the Company for any reason, they are entitled to receive their vested account balance. Participants become fully vested in all balances upon death, permanent disability and retirement.

Notes receivable from participants: Employees are allowed to borrow from their contributions and vested Company's contributions (collectively, the Accrued Benefit). Loan terms range up to five years or over a reasonable period of time for the purchase of a primary residence not to exceed 10 years, as established by the Plan Administrator at the time of the loan. Notes receivables are secured by the participant's account. The notes receivable balance outstanding cannot exceed the lesser of: (i) 50% of the employee's vested account, or (ii) a maximum of \$50,000. Interest rates range from 4.25% to 9.50% and loans mature at various dates through January 2033. Principal and interest are paid ratably through periodic payroll deductions.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options daily.

Payment of benefits: Upon termination of service, death, retirement or disability, a participant or beneficiary will receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Participants may request hardship distributions, as defined. Participants can request in-service distributions upon reaching the Plan's normal retirement age.

If the participant's vested account balance exceeds \$7,000, no distribution will be made from the Plan without the participant's consent. If a participant's vested account balance upon termination of service, death, disability or retirement is greater than \$1,000 but less than \$7,000, a participant can elect a distribution option or if no election is made, the Plan Administrator will pay the distribution in a direct rollover to an individual retirement account designated by the Plan Administrator. If a participant's vested account balance is \$1,000 or less, a lump-sum amount distribution is the required form of distribution on termination of service, death, disability or retirement.

Forfeitures: If a participant terminates employment with the Company and is less than 100% vested in the Company contributions, the participant will forfeit the nonvested portion of their Company match and discretionary contributions. A forfeiture will occur in the Plan year that the participant receives a distribution of their vested account. Any amounts forfeited would be used to pay administrative expenses and reduce current Company's contributions. Forfeited nonvested accounts totaled \$417,915 and \$187,549 at December 31, 2024 and 2023, respectively. During 2024, \$787,255 was used to reduce employer's matching contributions and no forfeitures were used to pay administrative expenses.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee confirms the Plan's valuation policies utilizing information provided by the Trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Contributions: Contributions from Plan participants and the matching contributions from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Employer discretionary contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant-directed.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. For the year ended December 31, 2024, \$243,107 of delinquent notes receivable were reclassified as deemed distributions.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: As provided by the Plan document, administrative expenses related to Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Plan Sponsor. Loan origination fees are charged to the borrower/participant.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Fidelity Management Trust Company (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company, a qualified institution:

	2024	2023
Investments:		
Registered investment companies	<u>\$ 231,334,267</u>	<u>\$ 200,375,122</u>
Notes receivable from participants	<u>\$ 1,431,619</u>	<u>\$ 1,347,664</u>

The Trustee also certified to the completeness and accuracy of \$24,342,313 of net appreciation in fair value of investments, \$7,904,423 of interest and dividends from the aforementioned investments and \$108,139 of interest income on notes receivable from participants for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the mutual fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 231,334,267	\$ -	\$ -	\$ 231,334,267

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 200,375,122	\$ -	\$ -	\$ 200,375,122

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. There were no transfers between levels during 2024 and 2023.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6. Related-Party and Parties-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity is the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan issues notes receivable to participants, which are secured by the balances in the participants' accounts, which also constitute exempt party-in-interest transactions. The Plan paid \$42,878 to Fidelity during the year ended December 31, 2024.

Certain officers and employees of the Plan Sponsor who are participants in the Plan perform administrative services related to the operation, recordkeeping, and financial reporting of the Plan. No such officer or employee receives compensation from the Plan. Some of the Plan's expenses were paid by the Plan Sponsor, and personnel and facilities of the Plan Sponsor are used by the Plan at no charge.

Note 7. Tax Status

The Plan has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service date June 30, 2020, stating that the form of the pre-approved plan document was in compliance with applicable requirements of the IRC. The Plan has been amended since adopting the preapproved plan document; however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Plan Merger

On January 25, 2024, the Company amended the Plan to merge the QualTech Laboratories, Inc. 401(k) Profit Sharing Plan (the QualTech Plan) into the Plan, effective February 29, 2024, when all eligible participants began participating in the Plan. Total assets of \$348,707 of the QualTech Plan were transferred to the control of the Plan on March 18, 2024.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2024 and 2023:

	2024	2023
Net assets available for benefits per the financial statements	\$ 237,348,506	\$ 205,796,059
Differences in:		
Receivables—employer matching contributions receivable	(411,388)	-
Receivables—employer profit-sharing contributions receivable	(4,171,232)	(4,073,273)
Net assets available for benefits per the Form 5500	<u>\$ 232,765,886</u>	<u>\$ 201,722,786</u>

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to net income per the Form 5500 for the year ended December 31, 2024:

Net increase in net assets available for benefits per the financial statements	\$ 31,552,447
Less: change in employee and employer contributions receivable	(509,347)
Net income per the Form 5500	<u>\$ 31,043,100</u>
