Administrative Committee
Jeans Warehouse, Inc.
Employee Stock Ownership Plan
Honolulu, Hawaii

Scope and Nature of the Employee Retirement Income Security Act of 1974 Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Jeans Warehouse, Inc. Employee Stock Ownership Plan (Plan), an employee benefit Plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the ERISA. As permitted by the ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024, and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due, or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Jeans Warehouse, Inc. Employee Stock Ownership Plan

The following description of the Jeans Warehouse, Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

Jeans Warehouse, Inc. (Plan sponsor) established the Plan effective as of January 1, 1999. The Plan holds common stock of Jeans Warehouse Holdings, Inc. (Company). The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC) as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. The Plan is administered by an administrative committee comprising up to three persons appointed by the Plan sponsor's board of directors. The trust department of Farmers National Bank is the Plan's trustee.

Eligibility

Employees of the Plan sponsor are generally eligible to participate in the Plan after completing one year of service, providing they worked at least 1,000 hours during the Plan year and are employed on the following January 1 or July 1, whichever occurs first. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Plan sponsor contributions for such year.

Participant Accounts

The Plan is a defined contribution Plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Plan sponsor as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

Participants with an hour of service on or after January 1, 2011, become 100% vested after completing three years of credited service. Participants without an hour of service on or after January 1, 2011, become 100% vested after completing five years of credited service. Participants terminating due to normal retirement (age 65), death, or disability will be 100% vested.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand the Plan sponsor buys any shares of Company stock distributed to participants for which there is no market. The put option permits the participant or beneficiary to sell the stock at any time during the two option periods. The first put option period shall be at least 60 days,

**Jeans Warehouse, Inc.

Notes to Financial Statements

beginning on the date of distribution. The second put option shall be for at least 60 days, beginning after the new determination of fair market value in the following Plan year. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies, in which case, payment shall be made to the participant's beneficiary or, if none, his or her legal representatives, becomes disabled, or otherwise terminates employment with the Plan sponsor. Distributions are made in stock or cash. Participants terminating employment after attaining age 65 or as a result of disability or death will receive distributions no later than the Plan year following the Plan year in which the participant terminates. Termination under any other circumstances will result in distributions no later than the sixth Plan year following the Plan year in which the participant terminates. The Plan sponsor may elect to distribute vested balances to participants in a lump-sum, annual installments over five years, or any combination of the preceding forms.

At December 31, 2024 and 2023, Plan assets include \$1,496,404 and \$2,274,562, respectively, allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan, but have not yet been paid.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time such rights are to be exercised. The trustee is not permitted to vote any allocated share for which a participant has not given instructions.

Diversification

A participant who has attained age 55 and completed at least 10 years of participation in the Plan shall be notified of his or her right to diversify a portion of his or her balance in the Company stock account as provided by the IRC. Diversification is offered to each eligible employee over a six-year period. In each of the first five years, a participant may diversify up to 25% of the shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants during December 31, 2024 and 2023, totaled \$2,306 and \$6,588, respectively.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the administration committee shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held as collateral, if any, to the extent it determines such sale to be necessary in order to repay the loan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value on December 31, 2024 and 2023. Fair value is determined by annual independent appraisals.

Purchases and sales of common shares of the Company are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Plan sponsor.

Note 3. Administration of Plan Assets

The trustee of the Plan holds the Plan's assets, which consist principally of Company common shares.

Company contributions are held and managed by the trustee, which invests cash received, interest income, and makes distributions to participants.

Note 4. Certification of Plan Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Farmers National Bank, the trustee of the Plan, has certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate.

- Investments as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Investment loss as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.

Notes to Financial Statements
December 31, 2024 and 2023

- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2024.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 5. Investments

The Plan's investments, all of which are nonparticipant-directed at December 31, 2024 and 2023, are presented in the following table:

	<u>2024</u>	<u>2023</u>

Note 6. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

**Jeans Warehouse, Inc.
Employee Stock Ownership Plan
Notes to Financial Statements

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	Fair Value Measured Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2024				
Common stock - Jeans Warehouse Holdings, Inc.	\$ 3,904,000	\$ -	\$ -	\$ 3,904,000
Money market funds	837	837	-	-
	<u>\$ 3,904,837</u>	<u>\$ 837</u>	<u>\$ -</u>	<u>\$ 3,904,000</u>
December 31, 2023				
Common stock - Jeans Warehouse Holdings, Inc.	\$ 6,131,000	\$ -	\$ -	\$ 6,131,000
Money market funds	796	796	-	-
	<u>\$ 6,131,796</u>	<u>\$ 796</u>	<u>\$ -</u>	<u>\$ 6,131,000</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets, pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently-sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Level 3 Valuation Process

Fair value determinations for Level 3 measurements of securities are the responsibility of the Plan sponsor. The Plan sponsor contracts with an independent valuation specialist to determine fair value estimates on an annual basis. The Plan sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting principles generally accepted in the United States of America.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Common Stock – Jeans Warehouse Holdings, Inc.
Balance January 1, 2023	\$ 6,960,000
Total realized and unrealized gains and losses included in net change in net assets available for benefits	(901,315)
Fair value of 6,500 shares contributed	701,909
Fair value of 5,242 shares redeemed	<u>(629,594)</u>
Balance December 31, 2023	<u>6,131,000</u>
Total realized and unrealized gains and losses included in net change in net assets available for benefits	(1,728,667)
Fair value of 4,812 shares redeemed	<u>(498,333)</u>
Balance December 31, 2024	<u><u>\$ 3,904,000</u></u>

Realized and unrealized gains and losses reflected in the table above are included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Jeans Warehouse Holdings, Inc. Common Shares

The significant unobservable inputs used in the fair value measurement of the Jeans Warehouse Holdings, Inc. common shares are the weighted average cost of capital, long-term revenue growth rate, forecasted debt-free cash flow and discount for lack of marketability.

Note 7. Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. These matters include the following:

Valuation of Jeans Warehouse Holdings, Inc. Common Stock

The common stock of the Company owned by the Plan is valued at its estimated fair value as determined by an annual independent appraisal. The estimated fair value per share of the Company common stock as of December 31, 2024, was \$71.77. The actual fair value of the Company common stock can only be determined based upon an ultimate sale of the Company.

Note 8. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as market and credit risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 9. Tax Status

The Plan obtained its latest determination letter on October 4, 2012, in which the IRS stated the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan administration to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Company provides certain administrative services at no cost to the Plan.

Note 11. Subsequent Events

Subsequent events have been evaluated through October 13, 2025, which is the date the financial statements were available to be issued.
