Zimmerman Associates, Inc. Employee Stock Ownership Plan
Fairfax, Virginia

Opinion

We have audited the accompanying financial statements of Zimmerman Associates, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the Statements of Net Assets (Deficit) Available for Benefits as of December 31, 2024 and 2023, and the related Statement of Changes in Net Assets (Deficit) Available for Benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of Zimmerman Associates, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets (deficit) available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Zimmerman Associates, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Zimmerman Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Report (continued)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Zimmerman Associates, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Zimmerman Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

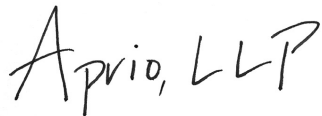

Independent Auditors' Report (continued)

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

- 1. Description of the Plan** The following description of the Zimmerman Associates, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: Zimmerman Associates, Inc. (the "Company") established the Plan effective January 1, 2018. The Plan is a defined contribution plan covering substantially all employees of the Company who are at least 21 years old and who have completed one year of service, except for temporary status employees, independent contractors, and employees covered by a collective bargaining unit. Each eligible employee shall become a participant on the January 1st or July 1st coincident with or next following the date eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a leveraged employee stock ownership plan (ESOP) and is designed to comply with Internal Revenue Code Section 4975(e)(7).

As discussed in Note 6, the Plan purchased shares of the Company's stock using proceeds of a loan agreement with the Company. The borrowing is collateralized by the unallocated shares acquired. The financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated Company stock (allocated), and the Company stock not yet allocated to employees (unallocated).

Contributions: Employer discretionary contributions to the Plan are determined by the Company. The Company is obligated to make contributions to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments on the note payable to the Company. Participants must complete 1,000 hours of service and be employed on the last day of the Plan year to be eligible to receive an allocation of employer contributions, unless termination was due to retirement, disability, or death. Employer discretionary contributions for the year ended December 31, 2024 were \$2,013,914. Contributions are subject to certain limitations.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Participant accounts: Each participant's account is credited with the allocation of Company discretionary contributions, if applicable, investment earnings and losses, forfeitures of terminated participant's non-vested accounts, if any, and charged with an allocation of administrative expenses, as necessary. Allocations of employer contributions and forfeitures, if any, are based on participant compensation, as defined by the Plan document. Allocations of investments earnings and losses and administrative expenses are based on the account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of benefits: Benefits are payable upon retirement at the later of age 65 or the fifth anniversary of the date the participant commenced participation in the Plan, disability, death, or termination of employment. Benefits are payable in lump sum and installment payments not to exceed five years. If termination was due to death, disability, or retirement, payments will begin as soon as administratively possible after the end of the Plan year in which termination occurred. If termination was as a result of any other reason, benefit payments will commence as soon as possible after the close of the fifth Plan year following termination.

Vesting: Vesting in the Company discretionary contributions is based on years of continuous service of at least 1,000 hours per year. A participant is 20 percent vested after two years of service is completed, and vests an additional 20 percent per year until full vesting after six years.

Forfeited accounts: Forfeitures of terminated non-vested accounts are allocated to remaining participants on an annual basis as of the last day of the Plan year. Participants must complete 1,000 hours of service and be employed on the last day of the Plan year to be eligible to receive an allocation of the forfeitures. For the year ended December 31, 2024, 20,138.98 forfeited shares were reallocated to participants. There are no forfeited nonvested accounts at December 31, 2024 and 2023.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year the percentage changes to 50 percent.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Voting rights: Participants will be entitled to exercise voting rights attributable to the shares of Company stock allocated to their accounts in the Plan with respect to certain major corporate matters, such as mergers, consolidations, sale of all assets, or the liquidation of the Company. The Plan Trustees vote on all other corporate matters.

Put option: Under federal income tax regulations, any Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no active market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Company.

2. Significant accounting policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash: Cash consists of readily liquid assets and investments with initial maturities of ninety days or less. The Plan maintains cash balances that may exceed the FDIC insured deposit limit of \$250,000 per financial institution. At December 31, 2024 and December 31, 2023, the Plan's cash balance did not exceed the FDIC limit. The Plan sponsor has not experienced any losses through the date when the financial statements were available to be issued.

Contributions: Employer discretionary contributions, if any, are recognized in the period the related eligible compensation is paid to the participant.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan has evaluated subsequent events for disclosure in these financial statements through October 10, 2025, which is the date the financial statements were available to be issued.

- 3. Investments** Information concerning the Plan's nonparticipant-directed investment in the Company's stock as of December 31, 2024 and 2023, and for the year ended December 31, 2024 is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	253,397	746,603	213,387	786,613
Cost	\$ 7,601,907	\$ 22,398,093	\$ 6,401,607	\$ 23,598,393
Fair value	\$ 5,987,755	\$ 17,642,245	\$ 5,063,659	\$ 18,666,341
Unrealized depreciation in fair value of investments	\$ 21,338	\$ 78,662		

- 4. Fair value measurements** The Plan reports its assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

The Plan's investment in shares of the Company's common stock is reported at its fair value as determined by an independent appraiser retained for the purpose by the Plan's trustee. The independent fair value appraisal is dependent upon historical and forecasted operations of the Company as represented by management, and general industry and market conditions affecting the Company's business. The fair value appraisal was determined using a combination of the income and market approaches. Within the income approach the discounted cash flow method was used. Within the market approach the guideline public company and the merger and acquisition methods were used.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

The fair value of assets is as follows:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 23,630,000	\$ 23,630,000

Company common stock	\$ -	\$ -	\$ 23,730,000	\$ 23,730,000

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

There were no changes in assets classified in Level 3 in the fair value hierarchy during the year ended December 31, 2024.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value 12/31/2024	Fair Value 12/31/2023	Principal Valuation Technique	Significant Unobservable Inputs
Company stock	\$ 23,630,000	\$ 23,730,000	Income	Weighted average cost of capital EBITDA Net income Terminal multiple Discount Rate Discount for lack of marketability
			Market	Public comparables Revenue multiple EBITDA multiple Discount for lack of marketability

- 5. Risks and uncertainties** The Plan provides for investments in various securities that are exposed to both Company specific and general economic risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets (deficit) available for benefits.

- 6. Note payable** On August 31, 2018, the Plan purchased 1,000,000 shares of Company stock from the Company for \$30,000,000, financed in its entirety with a note payable to the Company. This note is payable in 26 annual payments with the first payment of \$571,048 in 2018, followed by 24 equal installments of \$1,713,252 and the final payment in 2043 of \$1,132,884, bearing interest at 2.95 percent. Unallocated shares of Company stock are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. At December 31, 2024 and 2023, 253,379 and 213,387 shares, respectively, have been allocated.

Zimmerman Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

The following is a schedule of future maturities of long-term debt for the note payable at December 31:

Year Ending December 31	Amount
2025	\$ 995,823
2026	1,025,199
2027	1,055,443
2028	1,086,578
2029	1,118,632
Thereafter	19,039,061
Total	\$ 24,320,736

7. **Plan termination** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.
8. **Tax status** The Internal Revenue Service ("IRS") has determined and informed the Plan administrator by letter dated April 28, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
