Independent Auditor's Report

Plan Administrator
BMD 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the BMD 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at year end) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BMD 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the BMD 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution plan covering substantially all employees, except nonresident aliens, independent contractors/outourced workers and employees covered by union collective bargaining agreements, of Building Material Distributors, Inc. and subsidiaries that have adopted the Plan (the Company). Employees who have completed three months of service and are age 21 or older are eligible to make elective deferral contributions. Entry dates occur monthly. The Company's Board of Directors has appointed the Plan Administrative Committee to administer the Plan which currently consists of four employees of the Plan Sponsor including the Plan Administrator. The Plan Administrative Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code (IRC) provisions.

Contributions and investment options: The Plan allows for the following types of contributions:

Elective salary deferrals: The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation. The Plan applies a 1% automatic elective deferral rate increase on the anniversary of a participant's Plan entry date each year until an elective deferral percentage of 6% is reached. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may currently invest their contributions into a variety of mutual funds, collective investment trusts, pooled separate accounts and a guaranteed interest contract. Contributions are subject to certain Internal Revenue Service limitations.

Qualified Automatic Contribution Arrangement (QACA) Safe Harbor Matching Contributions: The Company makes matching contributions in an amount equal to 100% of elective deferral contributions that are not over 2% of compensation, plus 50% of elective deferral contributions that are over 2% of compensation but are not over 6% of compensation. Matching contributions are made to the Company's Employee Stock Ownership Plan. The Company made safe harbor matching contributions valued at \$860,740 and \$2,717,214, respectively.

Employer Discretionary Contributions: The Company may make employer contributions to the Plan at the sole discretion of the Plan Sponsor. Contributions are only allocated to accounts of participants that are employed on the last day of the Plan year and were credited with at least 1,000 hours of service during the Plan year. The Company elected not to make employer discretionary contributions to the Plan for 2024 and 2023.

Employer Qualified Non-Elective Contributions: The Company may make qualified non-elective contributions that are only applicable to non-highly compensated employees. Missed employee deferrals were identified during the 2023 Plan year. In 2024, the Company corrected these errors by contributing a total of \$10,081 to the affected participants' 401(k) accounts. These contributions represent employer-funded corrective amounts in accordance with applicable IRS and Department of Labor guidelines. The Company did not make any qualified non-elective contributions to the Plan in 2023.

Participant Rollover Contributions: Participants may make rollover contributions from another qualified plan.

BMD 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Participant accounts: Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contributions and Plan earnings, an allocation of the Company's discretionary and qualified non-elective contributions, if made, and is charged with withdrawals, Plan losses and an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are 100% vested in their elective salary deferral contribution, rollover contributions and employer qualified non-elective contributions. Employees are subject to a two year cliff vesting period where they are 100% vested after two years of service for employer QACA safe harbor matching contributions. Employer discretionary contributions vest 20% after two years and another 20% per year over a six year period. Upon termination of the Plan, participants shall be 100% vested and non-forfeitable as of the effective date of the complete termination of the Plan.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by any outstanding loan. The notes receivable are secured by the vested balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the time the funds are borrowed, as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions or as a lump sum for the outstanding note balances. Note terms range from one to 10 years. At December 31, 2024, the notes outstanding mature at varying dates through June 2034. Notes receivable outstanding for each of the years ended December 31, 2024 and 2023, bear interest at rates ranging from 4.25% to 9.50%.

Payment of benefits: On termination of service with the Company (including termination of service due to death, disability, or retirement) a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships. For mandatory distributions of balances between \$1,000 and \$5,000 where the participant has not elected distribution, the Plan will directly roll over the participant's account to an Individual Retirement Account designated by the Plan Administrative Committee. Accounts with a vested balance of less than \$1,000 will be distributed in a single sum.

Forfeitures: Any forfeitures occurring during the Plan year may be used to pay for Plan expenses or to reduce employer discretionary contributions. Forfeitures that have not been used to pay for Plan expenses or to reduce employer discretionary contributions will be allocated to participant accounts as of the last day of the Plan year. There were no forfeitures used to pay for Plan expenses, reduce employer discretionary contributions or allocated to participant accounts for the year ended December 31, 2024. At December 31, 2024 and 2023, the forfeiture balance was \$0.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Contributions: Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

BMD 401(k) Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Accounting estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments held by the Plan are stated at fair value, except for fully benefit-responsive contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion related to fair value measurements.

Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make the scheduled repayments and the Plan Administrator deems the participant to be in default, the participant's note receivable is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Payment of benefits: Benefit payments to participants are recorded when paid.

Subsequent events: Management has evaluated potential subsequent events through October 9, 2025, the date the financial statements were available to be issued.

Note 3. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain record-keeping fees paid by the Plan. Investment-related expenses are included in net appreciation of fair value of investments.

Note 4. Information Certified and Provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, the Plan Trustees

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, the trustees of the Plan, qualified institutions:

	2024	2023
Investments at fair value:		
Mutual funds	\$ 5,378,134	\$ 4,986,810
Pooled separate accounts	3,037,408	2,639,415
Common collective trusts	27,977,111	23,533,477
Investments at contract value, guaranteed interest fund	1,060,974	2,349,528
Notes receivable from participants	951,047	658,842

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company also certified to the completeness and accuracy of interest and dividend income from investments, interest income from notes receivable from participants and net appreciation in the value of investments (including investments bought, sold and held during the year) for the year ended December 31, 2024, as follows:

Interest and dividends	\$ 151,094
Net appreciation in value of investments	4,511,463
Interest income on notes receivable from participants	66,179

Note 5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the Topic establishes a fair value hierarchy for valuation inputs that give the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- Level 1:** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2:** Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

BMD 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Fair Value Measurements at December 31, 2024			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

* In accordance with the Fair Value Measurements topic, certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

BMD 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

A description of the valuation methodology used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2024, compared to December 31, 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Pooled separate accounts invest primarily in mutual funds. The NAV is used as a practical expedient to determine fair value for all pooled separate accounts. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Each pooled separate account provides for redemptions by the Plan at the NAV per share, with little to no advance notice requirement.

Common collective trusts: Common collective trusts are composed of investment contracts that are valued at the NAV of units of the common collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur immediately. The funds require a plan sponsor to provide advance written notice of five business days for plan sponsor directed withdrawals which will exceed \$1 million of the assets invested in each fund.

The following table sets forth additional disclosure of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2024 and 2023:

Investment	2024 Fair Value	2023 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 3,037,408	\$ 2,639,415	\$ -	Immediate	None
Common collective trust fund	27,977,111	23,533,477	-	Immediate	None
Total investments measured at net asset value	<u>\$ 31,014,519</u>	<u>\$ 26,172,892</u>			

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, stating that the form of the preapproved plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since adopting the preapproved plan document; however, the Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC.

BMD 401(k) Plan

Notes to Financial Statements

Note 7. Tax Status (Continued)

Under the accounting guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8. Related-Party Transactions

Certain Plan investments are shares of pooled separate accounts and a guaranteed interest contract managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, the trustees. These transactions qualify as party-in-interest transactions. Fees paid by the Plan to related parties totaled \$186,819 for the year ended December 31, 2024.

Note 9. Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Fully Benefit-Responsive Investment Contract

The Plan holds a guaranteed interest contract with Principal Life Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Principal Life Insurance Company, the contract issuer, is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan, which was 4.75% as of December 31, 2024. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed and reset on a quarterly basis. The contract cannot be terminated before the scheduled maturity date without 60 days' advance written notice to either party. Upon termination by the Fund, a market value adjustment may apply.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply. The Company does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.
