Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of US Radiology Specialists 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of US Radiology Specialists 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of US Radiology Specialists 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about US Radiology Specialists 401(k) Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

Benefits Committee
US Radiology Specialists 401(k) Plan

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of US Radiology Specialists 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about US Radiology Specialists 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 1 DESCRIPTION OF PLAN

The following description of US Radiology Specialists 401(k) Plan (the Plan) provides only general information. The Plan includes participating employers of US Radiology Specialists, Inc. (the Plan Sponsor and participating Employer), Diversified Radiology of Colorado, P.C., Charlotte Radiology, P.A., Windsong Radiology Group, P.C., Radiology Ltd. LLC, Upstate Carolina Radiology, P.A., Larchmont Imaging Associates LLC, Radiology Associates of Burlington County, P.A., South Jersey Radiology Associates, P.A., Windsong Health Medical Alliance, PLLC, Windsong Radiology Management, LLC, Diversified Radiology of Texas PA, US Radiology Specialists of Colorado, Inc., US Radiology Specialists of New Jersey, LLC, US Radiology Specialists of the Carolinas, LLC, and US Radiology Connexia, LLC (participating Employers). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Effective January 1, 2024, the US Radiology 401(k) Retirement Plan was merged into the US Radiology Physician Practice 401(k) Retirement Plan. Also effective January 1, 2024, the US Radiology Physician Practice 401(k) Retirement Plan was renamed the US Radiology Specialists 401(k) Plan. During February 2024, substantially all individual accounts were transferred.

General

The Plan is a defined contribution plan covering substantially all employees of participating Employers. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Eligible employees of the participating Employers are eligible to participate in the deferral contributions of the Plan upon their date of hire. Eligible employees of the participating Employers are eligible to participate in the safe harbor and profit sharing contributions of the Plan once they meet the service requirements of one year of service in which 1,000 hours of service was credited. Employees enter the safe harbor and profit sharing portion of the Plan on January 1 or July 1 following the date they satisfy the service requirements. Participants eligible for the profit sharing contribution must be employed on the last day of the Plan year to share in the allocation.

Contributions

Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The participating Employers, at their discretion, may elect to make a safe harbor and profit sharing contribution to the Plan. For the year ended December 31, 2024, the safe harbor contribution was equal to the participant's employee deferral contribution, up to 3% of compensation. For the year ended December 31, 2024, the profit sharing contribution was approximately \$15,035,000.

**US RADIOLOGY SPECIALISTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the safe harbor and profit sharing contributions, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are immediately vested in their contributions, safe harbor contributions, plus actual earnings thereon. Vesting in the profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. A participant is 100% vested after five years of credited service. Notwithstanding the above, a participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum distribution or installments. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If the balance of the terminated participant's account is between \$1,000 and \$5,000, the Plan Sponsor may authorize that the benefit payment be rolled into an individual retirement account in the participant's name.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce future Employer contributions or to pay Plan expenses. Forfeited nonvested accounts as of December 31, 2024 and 2023 totaled approximately \$278,000 and \$187,000, respectively. Forfeitures of approximately \$200,000 were used to reduce Employer contributions for the year ended December 31, 2024. Forfeitures of approximately \$284,000 were used to pay Plan Expenses for the year ended December 31, 2023.

**US RADIOLOGY SPECIALISTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Plan Sponsor, as provided by the Plan document. Expenses paid directly by the Plan Sponsor are excluded from these financial statements. Certain investment related expenses are included in net investment income presented in the accompanying statement of changes in net assets available for benefits.

Transfer Activity

As part of the merger described in Note 1, approximately \$65,633,000 was transferred into this plan during February 2024.

**US RADIOLOGY SPECIALISTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Matrix Trust Company (Matrix), the qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statement of changes in net assets available for benefits for the year ended December 31, 2024, and the supplemental schedule of assets (held at end of year) as of December 31, 2024.

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

**US RADIOLOGY SPECIALISTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Collective Trust Funds: Valued at the NAV of units of the bank collective trust fund. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust fund, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Money Market, Mutual Funds, and Exchange Traded Funds: Valued at the daily closing price as reported by the fund. Money market and mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Certificates of Deposit: Investments in certificates of deposit are valued based on fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Bonds – Government and Corporate: Investments in bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote is available.

Corporate Stock: Investments in corporate stock are valued at the closing price reported on the active market on which the individual securities are traded.

Limited Partnerships: Investments in limited partnerships are valued at fair value based on net asset value of the partnership.

Pooled Separate Account: Investments in the pooled separate accounts are valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end.

**US RADIOLOGY SPECIALISTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 5 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Employer contributions.

NOTE 7 PLAN TAX STATUS

The Plan is placing reliance on an opinion letter received from the IRS on the prototype plan indicating that the Plan is designated in accordance with the applicable section of the IRC and is therefore not subject to tax under current income tax law. The plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions.

NOTE 8 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Matrix. Matrix is the qualified institution as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

**US RADIOLOGY SPECIALISTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 9 NONEXEMPT TRANSACTIONS

The Company failed to remit employee 401(k) deferral contributions for certain payroll periods within the time frame prescribed by the Department of Labor. These are deemed prohibited transactions in accordance with ERISA and the Internal Revenue Code. The Plan Sponsor is in the process of correcting the prohibited transactions by depositing the lost earnings, filing the required Form 5330 with the Internal Revenue Service and paying the appropriate excise tax.

NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:

Matrix Trust Company's Role in Assisting Plan Sponsors in Completing Schedule C

Plan sponsors are responsible for completing the annual Form 5500 filing and are tasked with identifying and reviewing the reportable Schedule C compensation paid to service providers for employee benefit plans (the "Plans" and each a "Plan"). The information contained in this communication is being provided to assist the Plan sponsor in its obligation to complete Schedule C for Form 5500 filing for the 2024 Plan year (which would be filed during 2025).

It is important for recordkeepers, third-party administrators, designated representatives, and authorized persons for the Plans (collectively, "**Designated Representatives**") and Plan sponsors to understand that Matrix Trust Company ("**Matrix Trust**") can only provide information related to its compensation as a service provider. Matrix Trust can provide activity related to payments made to other service providers only to the extent that the compensation flows through either the trust account, the custodial account, or a fund service fee account. Investment product disclosures, annual reports and prospectuses (as applicable) should be reviewed for other components of reportable compensation under Schedule C.

Where compensation can be classified as Eligible Indirect Compensation ("**EIC**"), Matrix Trust has provided the appropriate disclosures in this document rather than a set dollar amount for each plan, as permitted under guidance issued by the U.S. Department of Labor.

Reporting Requirements

Plan sponsors of retirement plans with over 100 participants at the beginning of the Plan year must identify persons who indirectly or directly received \$5,000 or more in compensation during the Plan year for services rendered to the Plan on Schedule C of Form 5500. Please visit: [Form 5500 Corner | Internal Revenue Service \(irs.gov\)](#) for complete information and consult with your legal and tax advisors.

Compensation

Compensation is received by, as applicable, Matrix Trust, Matrix Settlement & Clearance Services, LLC, ("**MSCS**") and MSCS Financial Services Division of Broadridge Business Process Outsourcing, LLC ("**MSCS Financial**") (collectively, "**Matrix**"), in connection with your Plan. All three of these companies are Broadridge Financial Solutions, Inc. ("**Broadridge**") subsidiaries and are therefore under common control. Thus, MSCS and MSCS Financial are both "affiliates" of Matrix Trust, and "affiliates" of each other.

Direct Compensation

To the extent Matrix is directed to assess Matrix's fees upon the account (i.e., the Plan), the fees represent direct compensation paid to Matrix. Direct compensation paid to Matrix Trust by your Plan is reported on your account statement or other reports provided by Matrix Trust, for example, a check register. These reports enable you to determine any payments that may have been made directly from Plan assets.

To the extent Matrix Trust fees are asset based, fees will be calculated utilizing a daily average balance for the invoice period.

To the extent that Matrix Trust fees are paid by the Plan sponsor and not reimbursed by Plan assets, the fees do not represent direct or indirect compensation paid to Matrix Trust for purposes of 408(b)(2).

Indirect Compensation

Matrix Trust, or an affiliate, may have received indirect compensation from sources other than your Plan during the past calendar year. Matrix Trust is providing a description of the formula used to calculate or determine indirect compensation so this compensation can be reported as “Eligible Indirect Compensation” paid to Matrix Trust or an affiliate on Schedule C of the Form 5500 for the 2024 Plan year, if compensation paid meets the reporting thresholds.

Matrix Trust may have received indirect compensation in connection with services:

- in the form of “float” income; and/or
- through its affiliate(s) and/or other parties as described below, and to the extent applicable, with respect to Mutual Fund Fee / Administrative Fee Services, NSCC Transaction fees, ETF/Closed End Fund Trading Services, Self-Directed Brokerage Accounts, Retirement Cash Account, Proprietary Funds, ModelTool(K)it™ Services, Level Compensation Services, Stale Dated Check Services, Lifetime Income Products, and/or Proceeds of Corrective Transactions.

Float Income

Matrix Trust maintains omnibus bank accounts at, and provides sub-accounting services with respect to such bank accounts to, certain banking institutions, with respect to cash held on a short-term basis in such omnibus bank accounts. As compensation for such sub-accounting services, Matrix Trust may derive compensation from the use of this short-term cash, which is referred to as “float income.” With respect to your Plan, this may occur where, for example, Plan funds are awaiting investment, distribution or other processing. Currently, Matrix Trust has arrangements with two banks – JPMorgan Chase Bank, N.A. (“**JPMorgan**”) and TD Bank, N.A. (“**TD Bank**”)– under which the banks pay float income to Matrix Trust in exchange for its sub-accounting services. Float income is reflected as an earnings credit or service fee on monthly bank invoices. JPMorgan and TD Bank are unaffiliated institutions to Matrix Trust.

The exact amount of float income credited from these three banks to Matrix Trust cannot be described in precise terms, because the rate of float income paid fluctuates over time (it generally tracks the Federal Funds Rate), and it is also impossible to predict exactly how much Plan cash will be held on a short-term basis, and for how long. Please see “*Rate on Float Earnings*” below. The disclosures contained in the following paragraphs have been prepared in accordance with U.S. Department of Labor guidance contained in Field Assistance Bulletin 2002-3 concerning service provider float disclosure obligations to employee benefit plan customers.

Float earnings are considered eligible indirect compensation for Schedule C of Form 5500 purposes and indirect compensation under ERISA Section 408(b)(2).

Matrix Trust Float Earnings

In connection with Matrix Trust’s provision of services to Plan customers, Matrix Trust maintains various banking arrangements to facilitate movements of cash as necessary to process Plan customer transactions, including arrangements with one or more banks. Under these arrangements, cash may be held in general or “omnibus” bank accounts established by or at the direction of Matrix Trust, pending investment, trade settlement, or the presentment of distribution checks for payment. These accounts generate float earnings for Matrix Trust. The proportionate share of those earnings attributable to the funds of a particular plan constitutes compensation that is paid by the plan and retained by Matrix Trust in connection with Matrix Trust’s services and is in addition to any other fees or compensation payable under the service arrangement.

Summary of Float Paragraphs

The paragraphs below describe the specific circumstances under which float will be earned and retained, the time frames applicable to float earnings periods, and a general description of the rate of float earnings.

Contributions - Plan Account Cash Sweep

Plans direct cash contributions to Matrix Trust through a demand deposit account Matrix Trust maintains for that purpose. Matrix Trust credits the amount of a plan's cash contribution to the plan's Matrix Trust account ("**Plan Account**") on the business day it is received. If the Plan Account uses a cash sweep, the cash contribution is swept from the demand deposit account and invested on the Plan's behalf on the next business day. Matrix Trust earns float on the cash contribution between the business day of deposit and the next business day. A "business day" is a day on which the New York Stock Exchange is open for business.

Contributions - Plan Account - No Cash Sweep

If a Plan Account does not use a cash sweep, Matrix Trust earns float on the cash contribution from the business day of deposit until Matrix Trust receives investment instructions from the Plan and the investment transaction settles. Upon Matrix Trust's receipt of investment instructions in good order, settlement of mutual fund trades generally occurs within one business day and settlement of individual securities trades (*i.e.*, stocks and bonds) generally occurs within three business days.

Purchases of Securities Timeline

When Matrix Trust receives instructions, in good order and in accordance with prescribed procedures, to purchase a security for a Plan Account, Matrix Trust places the purchase trade order that same business day if the instructions are received prior to Matrix Trust trading cut-off times. If instructions are received after the Matrix Trust trading cut-off times, the purchase trade order is placed on the next business day.

Settlement of Purchase Trade Order

When Matrix Trust settles a purchase trade order for a Plan Account, the Plan Account assets required to pay for the purchase are transferred to a demand deposit account maintained by Matrix Trust on the trade settlement date. When a purchase trade order is cancelled or rejected, the funds previously set aside to pay for the purchase are re-credited to the Plan Account and either invested through the cash sweep, if applicable, or retained in the deposit account pending other investment instructions, as described previously.

Same Day Placement of Sale Trade Order

When Matrix Trust receives instructions, in good order and in accordance with prescribed procedures, to sell a security for a Plan Account, Matrix Trust places the sale trade order that same business day if the instructions are received prior to Matrix Trust trading cut-off times. If instructions are received after the Matrix Trust trading cut-off times, the sale trade order will be placed on the next business day.

Plan Account Proceeds on Trade Settlement Date

When Matrix Trust places or settles a sale trade for a Plan Account, the Plan Account receives the sales proceeds on the trade settlement date. If the Plan Account does not use a sweep, Matrix Trust will earn float from the date Matrix Trust receives the sale settlement proceeds until Matrix Trust receives instructions to reinvest the sale proceeds as described previously.

Float When Issuing Checks

Matrix Trust may earn float when it issues checks on behalf of plans including checks for (i) distributions to participants and/or beneficiaries, (ii) participant loan distributions, or (iii) fees paid to Plan service providers. Matrix Trust does not earn float when payments or distributions are made by direct deposit (ACH) or by a federal funds wire transfer.

Float on Mailed Distribution Checks

Matrix Trust will mail a distribution check to a Plan participant or beneficiary on the payable date (the date printed on the check). On the same day, Matrix Trust debits the Plan Account in the amount of the check. Matrix Trust will earn float on the amount of the check from the date the check is issued until the date the check is presented and paid.

Float on Periodic/Recurring Distributions

Where Matrix Trust has been directed to establish periodic or recurring distribution checks, such payments are typically mailed to Plan participants and beneficiaries prior to the payable date (for example, periodic payments are mailed six business days prior to the payable date). Matrix Trust debits the Plan Account in the amount of the checks on the payable date. Matrix Trust is able to mail the checks before assets are withdrawn from the Plan Account and sold because periodic distributions are of a predictable amount (generally a set dollar amount each payment cycle). Matrix Trust will only earn float on the amount of the check from the date the check is payable until the date check is presented and paid.

Recredit to Plan Account of Outstanding Distribution Checks

On a periodic basis, Matrix Trust will notify Plans or their Designated Representative of outstanding periodic and lump sum distribution checks that Matrix Trust has issued. If an originally-issued check is reported lost or missing, Matrix Trust will re-issue the check upon receipt of direction from the Plan and/or other authorized party to instruct on the account. If the participant or beneficiary does not negotiate the check within a reasonable time, Matrix Trust reserves the right to re-credit (redeposit) the payment to the Plan Account and to invest these funds at the direction of a Plan Account fiduciary or authorized party to instruct on the account, or to disburse the funds as directed or otherwise in accordance with applicable law.

Rate on Float Earnings

The rate at which Matrix Trust earns float over the time periods described above is generally comparable to the effective Federal Funds Rate as reported in the Wall Street Journal over the applicable time frame. While the banks have discretion in the setting of the exact rates, the Federal Funds Rate at a given time is a reasonable estimate of the rate paid to Matrix Trust.

Mutual Fund Fees / Administrative Fee Services

Where Matrix Trust has been so authorized, Matrix Trust through its affiliate and registered broker dealer, MSCS Financial, may receive fees from certain investment companies, mutual funds, stable value funds, guaranteed investment contracts, guaranteed annuity contracts and similar investment vehicles (the “**Funds**”) in the form of 12b-1 fees or firm concessions, or in the form of shareholder servicing, sub-transfer agent and sub-accounting fees (“**Mutual Fund Fees**”). Mutual Fund Fees are paid by the applicable investment company(ies) or other Fund(s) to MSCS Financial or Matrix Trust pursuant to shareholder servicing and similar agreements. You can contact Matrix Trust at 888-947-3472 for specific information about the levels of Mutual Fund Fees paid with respect to Funds currently on the Matrix platform, which will allow you to ascertain the Mutual Fund Fees paid by those Funds actually held by your Plan in a Matrix Trust account.

In addition, the recordkeeper for your Plan (which may be the Designated Representative) will generally provide you with information about the fees and costs, and certain other aspects, of any Funds or other investments that are designated under your Plan as investment alternatives to be made available to participants (assuming your Plan permits participant investment direction), which in many cases may be provided through fund prospectuses, fact sheets or similar documents. We encourage you to review these materials carefully to better understand the various fees and costs associated with these investments, including the payments they may make to Matrix Trust and other parties.

In accordance with agreements related to your Plan (some arrangements will be stipulated in an Administrative Fee Collection Addendum while others will be determined by the agreement between Matrix and the Designated Representative), Matrix Trust may deposit administrative servicing fees (“**Administrative Fees**”) in an amount equal to a percentage of any Mutual Fund Fees collected for administrative services provided to the Plan. MSCS Financial is compensated by the collection of Mutual Fund Fees. In accordance with an intercompany agreement between MSCS Financial and Matrix Trust, MSCS Financial pays to Matrix Trust the Administrative Fees, which Matrix Trust, in turn, pays out in accordance with the Administrative Fee Collection Addendum or Matrix agreements with the Designated Representative.

Administrative Fees will either be: (a) credited to an Administrative Fee Account until Matrix Trust is instructed to disburse them; (b) applied to offset the fees the Designated Representative owes to Matrix; (c) directed by the Designated Representative for credit to a Plan's account; or (d) directed by the Designated Representative to wire out to third-party service providers. As compensation for the collection of Mutual Fund Fees, MSCS Financial may retain for its services an amount equal to a percentage of Mutual Fund Fees collected or charge an annual flat fee amount; the actual percentage or flat fee amount for the Mutual Fund Fee collection is reflected in your Plan's Fee Sheet or obtainable from the Designated Representative (if your Plan has a Designated Representative).

Administrative Fees are generated only to the extent that Mutual Fund Fees are collected by MSCS Financial. If a Fund has not paid to MSCS Financial or does not pay Mutual Fund Fees, then no Administrative Fees will be generated.

If your Plan is invested in the CMFG Life Insurance Company Guaranteed Account or the BANC Master Deposit Account B, the entire 0.25% (25 basis point) administrative service fee is retained by MSCS Financial unless otherwise stipulated in your Plan's Fee Sheet.

In addition, payments to parties other than MSCS Financial or Matrix Trust from the related Administrative Fee Account statement may be reportable as direct or indirect compensation paid to *those* parties.

NSCC Transaction Fees

For each Fund transaction processed through the National Securities Clearing Corporation ("**NSCC**"), the NSCC's parent the Depository Trust & Clearing Corporation ("**DTCC**"), a financial services firm unaffiliated with Matrix, assesses a \$0.06 to \$0.08 transaction-based fee, subject to change by the DTCC, for providing clearing and counterparty services. In accordance with the agreement between Matrix Trust/MSCS and the Designated Representative, DTCC transaction fees may be invoiced to, and paid by, the Designated Representative, unless otherwise stipulated in your Plan's Fee Sheet. Neither Matrix Trust nor its affiliates retain any portion of any DTCC transaction fees assessed.

ETF/Closed End Fund Trading Services

If the Plan offers one or more exchange-traded funds ("**ETFs**") and/or closed end funds ("**CEFs**") as investment options to Plan participants, a third-party unaffiliated subcontractor of Matrix, currently Virtu Americas LLC ("**Virtu**"), a broker-dealer, is paid certain commissions for executing ETF/CEF trades processed on the Matrix trading platform. Other unaffiliated third-party broker-dealers may be added as subcontractors (or replace Virtu) and may perform substantially equivalent services as Virtu. The commissions paid to such third-party broker-dealer(s) (including Virtu) (each an "**Outside BD**") are either: (a) passed through to the Plan by "netting" the commission amount from the trade in the Plan's account; (b) invoiced to the Designated Representative; or (c) paid by Matrix, with Matrix assessing additional basis points and/or minimum fees per the Plan's Fee Sheet. Currently, the Outside BD's commission charges, as the executing ETF/CEF broker, are:

- \$0.005 per share per ETF/CEF trade batch processed with execution by the Outside BD during market hours;
- \$0.01 per share per ETF/CEF trade, batch processed with standard Market-on-Close execution by the Outside BD;
- \$0.04 per share per ETF/CEF trade, batch processed with Market-on-Close execution by the Outside BD, with trade files received by the Outside BD after market close and with estimate files received by the Outside BD before market close (and with trade instructions received from the underlying Plan participant before market close requires special authorization from Outside BD and Matrix); or
- \$0.09 per share per ETF/CEF trade, batch processed with Market-on-Close execution by the Outside BD, with trade files received by the Outside BD after market close without pre-market close estimate files (but with trade instructions received from the underlying Plan participant before market close requires special authorization from Outside BD and Matrix).

Matrix does not retain any of the Outside BD's commissions described above; rather, the Outside BD retains 100% of these ETF/CEF commissions. Additionally, for ETF/CEF trades to receive pricing as of market close ("**Market-on-Close ETF/CEF Trades**"), the Outside BD will price such trades as of the closing price for such ETFs/CEFs, and in the process may incur gains and losses from such trades by executing hedging transactions in advance of the market close for the purpose of helping to ensure that the desired Market-on-Close ETF/CEF Trades can be timely processed at the closing price. As noted above, trade instructions for Market-on-Close ETF/CEF Trades may be received by the Outside BD after market close (but with trade instructions received from the underlying plan participants before market close). When this occurs, the resulting transactions may be processed the following business day. Because the price of an investment may change between the receipt of instructions and the execution of instructions, such transaction may result in either a shortfall or an excess. If the transaction results in a shortfall, the Outside BD would cover the shortfall to the extent necessary to process the transaction based on the price that would have been paid or realized by the Plan had the transaction been processed on the day the Outside BD received the instruction. If the transaction results in an excess, the Outside BD would retain the amount of the excess. Consistent with positions expressed by the U.S. Department of Labor, any such gains may be treated as compensation to the Outside BD for its services. The exact amount of any such net "compensation" cannot be predicted in advance, but it would be reasonable to assume that, over time, these transactions will involve both shortfalls (losses) and excesses (gains) to the Outside BD that should generally offset each other, and are therefore not expected to result in material net "profit" or "compensation" to the Outside BD.

Matrix may, as necessary to complete the processing of an ETF/CEF trade, process such trade in whole or fractional ETF/CEF shares by entering wholly or partially offsetting orders for the purchase or sale of ETF/CEF shares. In the process, Matrix will retain nominal trading gains and incur nominal trading losses as a result of its acquisition or disposal of fractional ETF/CEF shares necessary to complete such ETF/CEF trade and that such nominal gains and losses should generally offset each other, and are therefore not expected to result in any material net "profit" or "compensation" to Matrix.

Self-Directed Brokerage Accounts

If the Plan offers a self-directed brokerage account ("**SDBA**") option to Plan participants, SDBA balances remain subject to the services and fees described under other sections of this disclosure and any related Fee Sheet, to the extent applicable. Also, where the Plan sponsor or other Plan fiduciary of the Plan and/or its Designated Representative has directed Matrix Trust to establish SDBA that is a Schwab Brokerage Account, which Schwab refers to as the Schwab Personal Choice Retirement Account ("**PCRA**") pursuant to an agreement with Schwab, MSCS will provide account reconciliation services, account set-up and maintenance, movement of cash between the Plan's core accounts and PCRA's, and related administrative tasks. For these services and others, MSCS will receive quarterly, in arrears, an amount equal to 0.00375% (0.375 basis points) of the value of Plan assets in the PCRA's during such quarter, based on the daily average of the balance of all active PCRA's for each business day of the month during such quarter. Schwab pays these fees to MSCS.

In all cases, the fees described above do not include brokerage commissions or other fees payable to Schwab, or other SDBA provider, who are unaffiliated with Matrix Trust, MSCS and MSCS Financial.

Retirement Cash Account

Matrix Trust receives fees with respect to the Retirement Cash Account (if your Plan has selected the Retirement Cash Account as an investment option for participants), to the extent permitted by Applicable Rules (defined below), for providing services with respect to the account and the accountholders. Specifically, as provided under an agreement with JPMorgan, Matrix Trust receives a servicing fee in exchange for providing sub-accounting and support services, processing transactions and reconciling aggregate account activity with respect to funds deposited in the Retirement Cash Account with JPMorgan. The servicing fee is deducted by Matrix Trust from the total interest paid to Matrix Trust by JPMorgan, and is the difference between the total interest rate paid to Matrix Trust by JPMorgan, and the stated interest rate paid to Plan participants on their investments in the

Retirement Cash Account. In other words, the servicing fees paid to Matrix Trust reduce the interest rate paid to Plan participants by a corresponding amount.

At each rate of total interest paid by JPMorgan (from 0.00% up to 7.00%), the share of such total interest that is credited as the “stated rate” of interest to Plan participants on their Retirement Cash Account balances, and the share of such total interest that is retained by Matrix Trust as its servicing fees, are set forth under a pre-established rate table. Such servicing fees are based on the average daily deposit balances in the Retirement Cash Account. The rate of the servicing fee that Matrix Trust receives may exceed the interest rate or effective yield the depositors receive from the Retirement Cash Account. No portion of these servicing fees will reduce or offset the fees otherwise due to Matrix Trust unless required by Applicable Rules. “**Applicable Rules**” means all applicable federal and state laws, rules and regulations, rules of any self-regulatory organization, and the constitution and applicable rules, regulations, customs, and usages of the exchange or market and its clearinghouse. Unless stated otherwise in a separate schedule, other than the applicable fees charged on Plan custody accounts, there are no separate charges, fees (other than the servicing fee described above), or commissions paid to Matrix Trust or its affiliates as a result of, or otherwise in connection with, the Retirement Cash Account.

As the total interest rate paid by JPMorgan increases, the servicing fees will likewise increase, and if the total interest rate paid by JPMorgan decreases, the servicing fees will likewise decrease. While the full rate table is available and accessible (as explained above), it is very voluminous. However, the following summarizes the general ranges of the stated interest rates paid to Plan participants and Matrix Trust’s servicing fees at various rates of total interest, as determined under the rate table:

When the total rate of interest* paid (annually) by JPMorgan is between:	The stated interest rate paid to Plan Participants ranges from:	The servicing fees retained by Matrix Trust ranges from:
0.00% and 0.50%	0.00% and 0.13%	0.00% and 0.37%
0.51% and 1.00%	0.13% and 0.25%	0.38% and 0.75%
1.01% and 2.00%	0.26% and 0.50%	0.75% and 1.50%
2.01% and 3.00%	0.51% and 1.23%	1.50% and 1.77%
3.01% and 4.00%	1.23% and 1.90%	1.78% and 2.10%
4.01% and 5.00%	1.91% and 2.63%	2.10% and 2.37%
5.01% and 6.00%	2.64% and 3.45%	2.37% and 2.55%
6.01% and 7.00%	3.46% and 4.38%	2.55% and 2.62%

*With respect to the cash balances within the ModelTool(k)it™, this “total rate of interest” shown in the table is the net rate of interest paid by JPMorgan after applicable Bank Balance Based Charges billed to and paid by Matrix Trust Company.

For more specific information, Retirement Cash Account disclosures and the current interest rate payable at any given time will be available online at: <https://www.broadridge.com/assets/pdf/broadridge-msb-retirement-cash-account.pdf>.

A copy of the full rate table and the current interest rate payable at any given time may be obtained by calling Matrix Trust Client Services at 888-947-3472.

Based upon the total rates of interest paid by JPMorgan in recent periods, and the total rates of interest that Matrix Trust generally expects that JPMorgan would intend to pay in the future, a reasonable estimate of the servicing fees retained by Matrix Trust would usually be between 0% and 2.62%. However, we should emphasize that Matrix Trust cannot control or predict the total interest rates payable by JPMorgan in the future, which makes it impossible to predict the rate of Servicing Fees we will receive at any given time. Therefore, to help you make a fully informed decision about whether to utilize (or continue utilizing) the Retirement Cash Account at any given time, we strongly recommend that you access the online materials or contact Matrix Trust Client Services as described above, to be provided with more detailed information.

Lifetime Income Products

If the Plan offers one or more lifetime income investment products (e.g., annuities or other products issued by insurance companies) (“**Lifetime Income Products**”, each a “**Lifetime Income Product**”) to the investment offerings for participants and beneficiaries, such balances in Lifetime Income Products remain subject to the services and fees described in other sections of this disclosure and any related Fee Sheet, to the extent applicable. Also, where the sponsor or other responsible plan fiduciary of the Plan and/or its Designated Representative has directed Matrix Trust to provide connectivity to the IPX Retirement Edge Platform (“**IPX RE Platform**”) offered by Congruent, Inc. (“**IPX**”) to the Plan and its participants and beneficiaries access to one or more Lifetime Income Products, Congruent will pay Matrix Trust a fee (the “**Connectivity Fee**”) to establish and maintain connectivity with the IPX RE Platform. As part of providing connectivity to the IPX RE Platform, Matrix Trust will provide pursuant to directions, the transmission of account information to and from the third-party administrator/recordkeeper, Plans and participants, as applicable, transaction processing, settlement and money movement services. The Connectivity Fee is paid by Congruent to Matrix Trust at a rate of two (2) basis points annually, calculated pro rata and remitted quarterly, on the Plan’s balances in Lifetime Income Products on the IPX RE Platform. In all cases, the fees described above do not include brokerage commissions or other fees payable to Congruent or Congruent’s partner in offering the IPX RE Platform, LDI-MAP LLC dba iJoin (“**iJoin**”), or to any insurance provider or any other company unaffiliated with Matrix. Matrix is not affiliated with Congruent, iJoin, the IPX RE Platform or any insurance provider whose products are available on the IPX RE Platform.

Proprietary Funds

Proprietary funds (“**Proprietary Funds**”) are collective investment trusts or other funds for which Matrix Trust serves as trustee. Collective investment fund options that are currently indicated on the following website are considered Proprietary Funds: <https://www.broadridge.com/cit/matrix-cits>.

If the Plan has selected a Proprietary Fund as an investment option, Matrix Trust may receive compensation for providing trustee or investment management services to the Proprietary Fund. Such compensation varies by Proprietary Fund and generally ranges on a gross basis from 0.03% (3 basis points) annually to 0.85% (85 basis points) annually, not including audit fees, which are fixed amounts that may represent fees from essentially 0.00% (0 basis points) annually to 0.05% (5 basis points) annually. Larger compensation rates may be inclusive of advisory fees and custodian fees paid to advisors to plans or to custodians/platforms for plans. Matrix Trust generally retains as compensation a net of 0.03% (3 basis points) annually through 0.10% (10 basis points) annually. Compensation earned by Matrix Trust in connection with services provided to the Proprietary Fund is described in the Proprietary Fund’s participation agreement and disclosure materials, which you would have received from the recordkeeper for your Plan (which may be your Plan’s Designated Representative). We encourage you to review these materials carefully to better understand the various fees and costs associated with these Proprietary Fund investments, including the payments they may make to Matrix Trust and other parties.

Proprietary Funds may be selected to be included within your Plan, and any compensation Matrix Trust may receive for providing trustee or investment management service to the Proprietary Fund would be in addition to any fees that Matrix Trust or its affiliates may receive as described in this Fee Disclosure, including but not limited to fees in connection with ModelTool(k)it™ Services (discussed below).

ModelTool(k)it™ Services

Where the named fiduciary of the Plan and/or Designated Representative has entered into an agreement to subscribe to ModelTool(k)it™ (“**MTK**”) for the Plan, a total annual fee of 0.025% (2.5 basis points), the ModelTool(k)it™ Platform Fee, charged monthly in arrears applies to the market value of assets covered under the MTK agreement. This fee is deducted directly from the Plan Account from the assets covered under the MTK agreement. Of the total fee, a third-party subcontractor of MSCS, Envestnet Retirement Services (“**ERS**”) receives approximately (no less than) 0.02% (2.0 basis points) as its compensation for providing services detailed in the

Plan's MTK agreement, and MSCS itself will retain approximately (no more than) 0.005% (0.5 basis points) for facilitating MTK as a service on the MSCS trading platform. All other applicable services and fees will continue to apply, except that if investments subject to the MTK agreement generate Mutual Fund Fees, MSCS Financial will collect such Mutual Fund Fees as compensation, but Matrix Trust will pay an Administrative Fee in an amount equal to one hundred percent (100%) of such Mutual Fund Fees to the Plan's MTK unitized portfolio.

If ETF/CEF shares are part of a model, the ETF/CEF share trades will be assessed commission charges at the rate charged for ETF/CEF trades batch processed with execution during market hours, currently \$0.005 per share. ETF/CEF and mutual fund trade instructions may be received by MSCS after market close. When this occurs, the transaction may be processed the following business day. Because the price of an investment may change between the receipt of instructions and the execution of instructions, a transaction may result in either a shortfall or an excess. If the transaction results in a shortfall, Matrix Trust will promptly cover the shortfall to the extent necessary to process the transaction based on the price that would have been paid or realized by the Plan had the transaction been processed on the day Matrix Trust received instruction. If the transaction results in an excess, Matrix Trust will retain the amount of the excess to be applied to future shortfalls. Additionally, Matrix Trust will retain nominal trading gains and incur nominal trading losses as a result of Matrix Trust's acquisition or disposal of fractional ETF/CEF shares necessary to complete ETF/CEF trade instructions. Consistent with positions expressed by the U.S. Department of Labor, any such excesses or gains may be treated as compensation to Matrix Trust for its services. The exact amount of any such net "compensation" cannot be predicted in advance, but it would be reasonable to assume that, over time, these transactions will involve both shortfalls (losses) and excesses (gains) to Matrix Trust that should generally offset each other, and are therefore not expected to result in material net "profit" or "compensation" to Matrix Trust.

If ETF/CEF shares are part of a model, a portion of the unitized portfolio must be kept in a liquidity vehicle. Currently, this liquidity vehicle, or cash investment allocation, is a bank account maintained by Matrix Trust at JPMorgan, and Matrix Trust will credit interest on such liquidity vehicle. Matrix Trust may retain as part of its compensation, for sub-accounting services related to the liquidity vehicle, a reasonable fee based on the difference of the rate paid by the bank (after deduction of "Bank Balance Based Charges" representing JPMorgan fees billed to and paid by Matrix Trust) and the rate credited to the unitized portfolio for the liquidity vehicle.

Pursuant to an arrangement between Matrix Trust and JPMorgan, Matrix Trust receives a servicing fee in exchange for providing sub-accounting and support services, processing transactions and reconciling aggregate account activity with respect to funds deposited in the liquidity vehicle. The servicing fee is paid by JPMorgan; more specifically, the servicing fee is deducted by Matrix Trust from the total interest paid to Matrix Trust by JPMorgan, and is the difference between the total interest rate paid to Matrix Trust by JPMorgan under the arrangement described above (net of the Bank Balance Based Charges) and the stated interest rate paid to the unitized portfolio for the liquidity vehicle. In other words, the servicing fees paid to Matrix reduce the interest rate paid to unitized portfolio by a corresponding amount. As the total interest rate paid by JPMorgan increases, the servicing fees will likewise increase, and if the total interest rate paid by JPMorgan decreases, the servicing fees will likewise decrease.

While the full rate table is available and accessible, it is very voluminous. For a summary of the general ranges of the stated interest rates paid to the unitized portfolio for the liquidity vehicle and Matrix Trust's servicing fees at various rates of total interest, please see Table 1 under Retirement Cash Account section of this disclosure. For the current stated interest rate paid to the unitized portfolio for the liquidity vehicle and Matrix Trust's servicing fee rate, please see the Rate Table found by accessing the following link:

<https://www.broadridge.com/assets/pdf/broadridge-msb-retirement-cash-account.pdf>.

Please note, while the rates involved in the liquidity vehicle are comparable to the rates involved in the Retirement Cash Account, the unitized portfolio is not invested in the Retirement Cash Account.

Level Compensation Services (if elected and to the extent applicable)

Where the named fiduciary of the Plan has engaged a broker (registered representative) whose firm utilizes the Matrix Trust Level Compensation Services, in addition to any other applicable services and fees, MSCS Financial will serve as Broker of Record for investment transactions, and will retain up to 0.02% (2 basis points) of the Plan's total assets, with such fees coming from any 12b-1 fees and shareholder servicing ("**Level Compensation Fees**") it collects from Funds on behalf of the broker. For certain plans whose investment lineup pays differing compensation per investment, brokers may receive Level Compensation Fees based on an approximate weighted average ("**Weighted Average**") of fees paid by or on behalf of Funds. Where Weighted Average is in place, MSCS Financial may retain an overage in the amount fees received from or on behalf of the Funds. This overage amount may be an amount up to 0.05% (5 basis points) of plan assets because Weighted Average Level Compensation Fee percentages are set by MSCS on 0.05% (5 basis point) increments. If you have engaged an investment adviser for your Plan whose firm utilizes the RIA Remittance Services of the MSCS Level Compensation Services, in addition to any other applicable services and fees, MSCS will be paid a fee of up to 0.015% (1.5 basis points) of the Plan's total assets (also referenced as "**Level Compensation Fees**"). With respect to brokers, the Level Compensation Fees are in exchange for MSCS Financial's administrative services in collecting and distributing Level Compensation Fees to the broker. With respect to investment advisers, the Level Compensation fees are in exchange for MSCS's administrative services in collecting from the Designated Representative and distributing to the investment adviser the adviser's advisory fees (*i.e.*, facilitating RIA fee remittance services). Per the agreement setting forth the Level Compensation Services between MSCS and the broker-dealer or investment advisory firm, this compensation is deducted from Level Compensation Fees as received from the Plan's Funds.

Stale Dated Check Services

Matrix Trust provides services to assist with the resolution of Plan participants' stale dated checks, as directed by a Designated Representative. Where the named fiduciary of the Plan and/or its Designated Representative has elected to utilize certain services to assist in the resolution of participant related stale dated checks, an unaffiliated subcontractor to Matrix Trust and MSCS, PBI Research Services, Pension Benefit Information, LLC ("**PBI**"), receives \$40 per check as direct compensation which is deducted directly from the Plan (*i.e.*, from the stale dated check amount). This compensation to PBI is for its services which includes conducting a search, related communications, and distributing funds to affected Plan participants. Matrix Trust and its affiliates do not retain any portion of the \$40 per check fee that is payable to PBI. All float income to Matrix Trust will cease with respect to the stopped check from the time the check is stopped, but float income related to the period beginning with the issuance of the distribution check through the date the check was stopped will be retained by Matrix Trust.

Proceeds of Corrective Transactions

Matrix Trust receives investment instructions and, although rare, occasional errors in the instructions themselves or the processing of instructions may occur. The causes of such errors may include, but are not necessarily limited to, entry of an erroneous trade ("buy" vs. "sell," or vice versa), dollar amount or number of shares, incorrect identification of the security, duplication of orders (such as, instructions entered more than once), or untimely transmittal of instructions. When an error is discovered, action is taken to correct the transaction in a manner intended to avoid or minimize harm or disruption to the Plan. Because the price of an investment may change between the processing of erroneous instructions and the execution of corrective instructions, a corrective transaction may result in either a shortfall or an excess. If the error originates with Matrix Trust and the corrective transaction results in a shortfall, Matrix Trust will promptly cover the shortfall to the extent necessary to process the transaction based on the price that would have been paid or realized by the Plan had the transaction been processed as instructed. If the corrective transaction results in an excess, Matrix Trust will retain the amount of the excess to be applied to future shortfalls resulting from trade errors. Consistent with positions expressed by the U.S. Department of Labor, any such excess proceeds may be treated as compensation to Matrix Trust for its services. The exact amount of any such net "compensation" cannot be predicted in advance, but it would be reasonable to assume that, over time, corrective transactions will involve both shortfalls (losses) and excesses

(gains) to Matrix Trust that should generally offset each other, and are therefore not expected to result in material net “profit” or “compensation” to Matrix Trust.

Non-Monetary Compensation

Matrix Trust and MSCS Financial maintain policies that place limits on the circumstances under which gifts, travel and entertainment may be accepted by employees. Other than for modest gifts given or received in the normal course of business, employees are not permitted to receive gifts from clients and vendors. Under the 408(b)(2) regulation, a service provider's acceptance of these non-monetary items may involve the receipt of indirect compensation from a plan where the value attributable to the plan, on a pro rata basis, exceeds \$250 over the term of the plan's contract with the service provider. In light of the policies, Matrix Trust does not anticipate that the value of any such non-monetary items will approach the \$250 threshold with respect to the Plan.
