REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Participants and the AARP Benefits Committee
AARP Employees' 401(k) Plan

Opinion

We have audited the financial statements of AARP Employees' 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in

conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedule required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and

reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

AARP Employees' 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

Description of Plan

The following brief description of the AARP Employees' 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document and the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was established January 1, 1998 to provide retirement benefits to qualifying employees (and their beneficiaries) of AARP and affiliated entities ("AARP") and Retired Persons Service, Inc. and its subsidiaries ("RPS") (collectively, the "Sponsoring Employers"). The Plan was amended and restated effective January 1, 2021 for certain provisions in the Secure Act.

Eligibility and Benefits

Under the salary reduction feature of the Plan, participants may elect to contribute between 1% and 50% of eligible compensation as pre-tax contributions, not to exceed \$23,000 annually for 2024. Unless affirmatively elected otherwise, participants are automatically enrolled at 5% pre-tax deferral of eligible compensation and automatically increased 1% annually up to a maximum of 15%. The Plan allows eligible participants to make catch-up contributions over and above the pre-tax contribution limits. The catch-up contribution annual limit is \$7,500 for 2024. A participant must be over age 50 on or before December 31 to be eligible to make catch-up contributions. The Plan also allows participants to make after-tax contributions from their eligible compensation. The Plan limits the aggregate pre-tax and after-tax contribution percentage to 50% of compensation, but this percentage may be further reduced by the applicable Internal Revenue Code ("IRC") limitations. The Plan also includes a Roth 401(k) option which allows employees to make post-tax contributions of up to 50% of their salary to their retirement savings. Any employer match for employee contributions to a Roth 401(k) investment will be placed in a pre-tax investment account.

Employer matching contributions are made for participants equal to 100% of the amount of salary deferrals, if any, made on behalf of each participant during each plan year up to 3% of each participant's compensation, plus 50% of the amount of salary deferral, if any, made on behalf of each participant during each plan year on the next 2% of each participant's compensation. The employer matching contribution is invested in the participant's 401(k) account based on the participant's pre-tax investment elections. The Plan accepts rollovers from other tax-qualified plans.

Benefits and Vesting

Participants are immediately vested in their own contributions and the employer matching contributions. All income earned is allocated daily. The income earned on contributions is based upon the actual performance of each participant's individual investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. On termination of service due to death, disability, or other reasons, a participant will be entitled to receive a lump-sum amount equal to the value of the participant's vested interest in their account. For termination due to retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. Participants are required to make withdrawals based on IRS mandated guidelines. Participants are required to make withdrawals at age 73.

AARP Employees' 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Notes Receivable from Participants

Participant loans are available to all active participants. The minimum loan amount is \$1,000, and the maximum amount is the lesser of (1) \$50,000, as reduced by the highest outstanding loan balance in the previous 12 months or (2) one-half of the participant's account balance. The loans are secured by the participant's account balance and bear interest at the prime rate in effect on the first business day of the month the loan is approved, as published in the Wall Street Journal, plus 1%. As of December 31, 2024 and 2023, the interest rates applied to outstanding loans ranged from 4.25% to 9.50%. The repayment period is up to five years for general-purpose loans or up to 15 years for residential loans and are repayable in equal biweekly installments. Participants may only have one loan outstanding at a time. Participant loans are reported at unpaid principal balance plus accrued interest, which approximates fair value.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the employer's matching contribution, plan earnings or losses, and administrative expenses. Allocations are based on participant earnings or account balances, as defined.

Plan Termination

Although AARP has not expressed any intent to do so, AARP has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will receive the balance of their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Employer Contribution Receivable

Due to the timing of the employer's payroll periods, contributions that relate to the current year may be remitted to the Plan by the employer in the subsequent fiscal year.

For the year ended December 31, 2024, employer-matching contributions totaling \$1,497,932 were submitted to the Plan in 2025 and were recorded as contributions receivable as of December 31, 2024. For the year ended December 31, 2023, employer-matching contributions totaling \$1,299,163 were submitted to the Plan in 2024 and were recorded as contributions receivable as of December 31, 2023.

Investment Valuation and Income Recognition

Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for a discussion of fair value measurements.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on investments bought and sold, as well as held during the year. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

AARP Employees' 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Risks and Uncertainties

The Plan provides for investments in various investment securities that are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair value should be based on the assumptions market participants would use when pricing an asset or liability and a fair value hierarchy that prioritizes the information used to develop those assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets (observable inputs) and the lowest priority to the Plan's assumptions (unobservable inputs). The Plan groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets.

Level 2 - Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets/liabilities in active markets;
- Quoted prices for identical or similar assets in non-active markets;
- Inputs other than quoted prices that are observable for the assets/liability; and
- Inputs that are derived principally from or corroborated by other observable market data.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that cannot be corroborated by observable market data.

AARP Employees' 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The Plan uses quoted values and other data provided by a nationally recognized independent pricing service ("pricing service") as inputs into its process for determining fair value of its investments. The pricing service obtains market quotations and actual transaction prices for securities that have quoted prices in active markets. For securities that do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities based upon its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing.

The following is a description of valuation methodologies used for assets measured at fair value.

Mutual Funds - use quoted values and other data provided by a pricing service as inputs into its process for determining fair value of its mutual funds. The pricing service obtains market quotations and actual transaction prices for the mutual funds that have quoted prices in active markets. Accordingly, such funds are disclosed in Level 1 of the hierarchy.

Common/Collective Trusts - valued at the net asset value ("NAV") of shares held by the Plan at year end as provided by the investment manager. The NAV is used as a practical expedient to estimate the fair value of these funds. The NAV is determined from a market that is not active, there are no limitations on transactions with these funds, and the underlying investments are traded on an active market. NAV is based upon the value of underlying assets owned by the fund, divided by the number of shares outstanding.

Stable Value Fund - The stable value fund is a common trust fund that invests in fully benefit-responsive investment contracts, and it is designed to maintain a constant NAV and to protect the portfolio. The NAV is used as a practical expedient to estimate the fair value. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay plan benefits. Contributions to this fund are invested primarily in guaranteed and synthetic investment contracts issued by banks, insurance companies and other issuers.

There are no unfunded commitments related to these investments.

The following is a summary of the fair value measurements of the Plan's assets within the fair value hierarchy as of December 31, 2024 and 2023. The NAV is used as a practical expedient:

	December 31, 2024	Level 1	NAV
Mutual funds	\$ 149,402,168	\$ 149,402,168	\$ -
Common/collective trusts	783,733,523	-	783,733,523

AARP Employees' 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The following summarizes the nature and risk of the common/collective trusts and stable value fund as of December 31, 2024 and 2023:

	<u>Fair Value 2024</u>	<u>Fair Value 2023</u>
Large cap funds ^(a)	\$ 214,758,113	\$ 159,445,973
Small cap fund ^(b)	20,121,158	18,727,224
International equity funds ^(c)	25,936,097	23,681,403
U.S. fixed income funds ^(d)	41,728,370	36,620,411
Stable value fund ^(e)	57,514,022	60,589,523
Target date funds ^(f)	481,189,785	434,890,333
Total	<u>\$ 841,247,545</u>	<u>\$ 733,954,867</u>

These funds file as Direct Filing Entities (“DFEs”) in the 5500.

- (a) This category invests in two institutional equity funds. One fund employs a passive investment strategy of seeking to replicate the performance of a U.S. large cap market index. The other fund is actively managed and seeks an excess return over its benchmark.
- (b) This category invests in one institutional equity fund. The fund employs a passive investment strategy of seeking to replicate the performance of a U.S. small cap market index.
- (c) This category is comprised of two institutional mutual funds. One of the funds employs an active investment strategy while the other fund employs a passive investment strategy. Both funds seek to replicate or exceed well-known global market indices.
- (d) This category is invested in two fixed income funds. One fund employs a passive investment strategy of seeking to replicate the performance of a U.S. broad fixed income index. The other fund is actively managed and seeks an excess return over its benchmark.
- (e) This category is invested in one actively managed fund. The investment strategy of this fund is to provide for benefit-responsive participant withdrawals at contract value without penalty or adjustments. The fund invests in various contracts with financial institutions. These investments are intended to maintain a constant NAV.
- (f) This category is invested in 15 age-based funds. The investment strategy of these funds is to provide a portfolio whose asset allocation mix becomes more conservative as the target date approaches.

The common/collective trusts and stable value fund can be redeemed daily without any prior notice.

NOTE 3 - TAX STATUS

The Plan obtained its latest determination letter on May 31, 2017, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Committee and the Plan’s tax counsel believe that the Plan is currently designed and being operated, in all material respects, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

AARP Employees' 401(k) Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 - GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses of \$309,254 for the year ended December 31, 2024 were incurred directly by the Plan.

NOTE 5 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's interest of \$736,621,501 and \$663,798,025 as of December 31, 2024 and 2023, respectively, in certain investments are managed by T. Rowe Price, who is the trustee of the assets as defined by the Plan. Hence, transactions with them qualify as party-in-interest transactions. Fees paid by the Plan for investment services totaled \$109,225 for the year ended December 31, 2024. Notes receivable from participants are also considered party-in-interest transactions.

NOTE 6 - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2024 financial statements for subsequent events through October 14, 2025, the date these financial statements were available to be issued.

The Plan is not aware of any material subsequent events which would require recognition or disclosure in the accompanying financial statements.
