INDEPENDENT AUDITOR'S REPORT

To the Benefits Committee of
Farm Family Employee Retirement Plan:

Opinion on the 2024 Financial Statements

We have audited the financial statements of Farm Family Employee Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in net assets available for benefits for the year then ended, and the accumulated plan benefits as of December 31, 2023, and the changes in accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Farm Family Employee Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2024 financial statements.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Farm Family Employee Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Farm Family Employee Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Farm Family Employee Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditors' Report on the 2023 Financial Statements

The financial statements of Farm Family Employee Retirement Plan, which comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, were audited by Pannell Kerr Forster of Texas, P.C., who joined with WithumSmith+Brown, PC on June 1, 2025. Their report dated October 8, 2024, expressed an unmodified opinion on those financial statements.

Farm Family Employee Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The following description of the Farm Family Employee Retirement Plan (“Plan”) provides only general information. Participants should refer to the official plan document for a more complete description of the plan’s provisions.

General

The Plan is a defined benefit pension plan that provides benefits for eligible employees of American National Life Insurance Company of New York (formerly, Farm Family Life Insurance Companies) and Farm Family Casualty Insurance Company (“FFCIC”) (collectively, the “Companies”). American National Insurance Holdings, Inc. is the parent company of the Companies with the ultimate parent company being Brookfield Wealth Solutions Ltd. The Companies also are related through common management. The Plan was last amended on January 10, 2024, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Amendment

Effective January 10, 2024, the Plan was amended to incorporate a one-time retirement incentive offering window program, which permitted distributions to be made to certain vested active participants age 60 and older who had (a) not yet commenced their benefits under the Plan, or (b) had previously commenced benefits under the Plan but had continued employment with the company, and established section 401(h) accounts on behalf of certain eligible participants for purposes of funding retiree welfare benefits. The 401(h) account transfer payable and related transfer to 401(h) account are shown in the statements of net assets available and statements of changes in net assets available, respectively.

Eligibility

Effective January 1, 1997, the Companies elected to freeze the benefits available through the Plan. As a result, all participants became 100% vested at such time, and the Plan was closed to new participants. Participants of the Plan no longer accrue benefits; however, the Plan will remain in existence as long as necessary to pay benefits already accrued or until the Plan is terminated.

Pension Benefits

A participant's normal retirement benefit is a monthly pension benefit payable in an amount equal to 2% multiplied by one-twelfth of the average of the five highest years of total compensation within the last ten years of service, which is then multiplied by the participant's years of service up to 30 years, calculated as of December 31, 1996, when benefits available through the Plan were frozen. The Plan permits early retirement at age 55 upon completion of five years of service. Participants may receive their benefits as a life annuity, life annuity with period certain, joint survivor annuity, or in a lump-sum. A pre-retirement death benefit is payable to an eligible spouse or dependent children under age 18 of a participant who dies after ten years of service and before retirement benefits commence and is at least age 35.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Farm Family Employee Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and the changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

As of December 31, 2024 and 2023, there were two investments that represent a concentration of greater than 10% of the Plan's net assets available for benefits.

Investment Valuation and Income Recognition

Investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Related Party and Party-In-Interest Transactions

The Plan has entered into an unallocated group annuity contract with American National Life Insurance Company of New York and, therefore, this transaction qualifies as a party-in-interest transaction. The Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are also party-in-interest transactions under ERISA.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered prior to January 1, 1997, the date that benefits under the Plan were frozen, and valued as of the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary as of the beginning of the year and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2023, were:

Farm Family Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Retirement rates:

<u>Age</u>	<u>Rate</u>
55 - 61	5%
62	25%
63 - 64	10%
65 and over	100%

The expected return on assets rate was 5.75% compounded annually.

Mortality is based on the Pri-2012 Total Dataset sex-distinct Employee/Retiree Mortality tables with Contingent Survivor Table for current beneficiaries and Disabled Table for disabled retirees, with full generational projection using Scale MP-2021.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, 2023, there would be no material differences.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Companies. Expenses that are paid directly by the Companies are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2025, the date the financial statements were available to be issued. See Note 8 for discussion of subsequent events.

3. FUNDING POLICY

The Companies have agreed to make contributions to the Plan sufficient to provide the Plan with assets to pay benefits to Plan participants. The amounts contributed to the Plan are determined by the Companies on the basis of (a) annual actuarial valuations of the Plan by an independent actuary, (b) the maximum amount permitted by law and regulation as a federal income tax deduction, and (c) the minimum amount certified by the actuary as necessary during any Plan year to avoid an accumulated funding deficiency as defined by ERISA. For the years ended December 31, 2024 and 2023, the minimum funding requirements of ERISA have been met.

4. FAIR VALUE INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for asset measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Money market fund - Valued at the daily closing price as reported by the fund. The money market fund is an open-end mutual fund that is registered with the SEC. This fund is required to publish its daily net asset value ("NAV") and to transact at that price. The money market fund is deemed to be actively traded.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2024 and 2023:

	2024	
	<u>Level 1</u>	<u>Total</u>

Total investments at fair value	<u>\$ 28,521,839</u>	<u>\$ 28,521,839</u>

5. PLAN TERMINATION

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the plan termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. government agency, up to the applicable limitations.
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Companies and the level of benefits guaranteed by the PBGC.

6. TAX STATUS

The Plan's latest determination letter obtained from the Internal Revenue Service ("IRS"), dated October 1, 2020, stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Companies believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan is qualified, and the related trust is tax-exempt.

Farm Family Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. GROUP ANNUITY CONTRACT

The Plan entered into a fully benefit-responsive guaranteed investment contract with American National Life Insurance Company of New York. Contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting rate is based on a formula established by American National Life Insurance Company of New York but may not be less than 4%. During the years ended December 31, 2024 and 2023, the average interest rate earned under the contract was 4%.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

8. SUBSEQUENT EVENTS

Effective January 1, 2025, the Plan was amended to allow any excess balance remaining in the trust fund, after all liabilities to participants and their beneficiaries have been satisfied and after all expenses of the Plan have been satisfied, to be paid to the Companies upon the Plan's termination.

Effective October 1, 2025, FFCIC and Argonaut Insurance Company ("AIC"), a subsidiary of Argo Group International Holdings, Inc. ("AGII"), entered into a plan and agreement of merger, whereby FFCIC merged with and into AIC, with AIC surviving as an indirect, wholly owned subsidiary of AGII. Brookfield Wealth Solutions Ltd. is the ultimate parent of AIC.

Schedule SB, Part V – Summary of Actuarial Methods & Assumptions

Actuarial Cost Method

The valuation of retirement benefits is determined under the “Unit Credit Actuarial Cost Method”, as prescribed by the Pension Protection Act of 2006 (PPA). In this method, the regular Plan cost arises from two sources: a Target Normal Cost and an Amortization Payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target less the Actuarial Value of Assets as of the valuation date.

The Normal Cost is the Actuarial Present Value of benefits expected to accrue during the valuation year plus anticipated administrative expense, if any.

Asset Valuation Method: Adjusted Fair Market Value over two years using three data points as permitted under IRS Notice 2009-22, not less than 90% nor greater than 110% of Market Value of Assets on the valuation date.

Assumptions

PPA Funding Interest Rates: 2024 Segment Rate Stabilization Rates with a 2 month lookback (4.75%, 4.87%, and 5.59%).

PPA Funding Mortality Table: Generational Mortality Tables.

Expected Return on Assets: 5.75%, compounded annually.

Withdrawal: None.

Disability: None.

Retirement: Annual rates shown below for active participants who are eligible to retire.

Age	Rate
55 - 61	5%
62	25%
63 - 64	10%
65	100%

The assumed retirement age is 65 for terminated vested participants.

Beneficiary Assumption: 80% of participants assumed to have a beneficiary. Male participants are assumed to have a female beneficiary who is 3 years younger and female participants are assumed to have a male beneficiary who is 3 years older.

Schedule SB, Part V – Summary of Actuarial Methods & Assumptions

Administrative Expenses: \$75,000, equal to prior year's administrative expenses plus the current year's expected PBGC Premium, rounded to the nearest \$1,000.

Form of Payment: Active and terminated vested participants - 75% assumed to elect a lump sum, 25% assumed to elect a single life annuity.

Benefits were converted to lump sums for retiring members using interest rates as permitted under 430(h)(2) and applicable mortality as required under 417(e)(3) for benefits paid during 2024 under PPA.

Participant Data: As of January 1, 2024.

Schedule SB, Part V – Summary of Principal Plan Provisions

The actuarial valuation was prepared in accordance with the provisions of the plan, a summary of which is presented below. The summary describes the principal provisions only and is not intended to be authoritative. For questions about specific benefits, please refer to the plan document. This summary of plan provisions is intended to only describe the essential features of the plan.

Basic Information

Plan Name: Farm Family Employee Retirement Plan.

Effective Date of Plan: January 1, 1959.

EIN/PN: 14-1400831/001.

Plan Year: January 1 – December 31.

Participation: Age 21 and one Year of Service. No employees may enter the plan after December 31, 1996.

Average Compensation: The average of Compensation in the five consecutive calendar years within the last ten calendar years of service for which such average is the highest.

Compensation: W-2 earnings, including qualified pre-tax salary deferrals, but excluding fringe benefits. Compensation earned after December 31, 1996 is excluded from determining a participant's Average Compensation.

Credited Service: Based on elapsed time method. No credited service is earned after December 31, 1996. Partial years of Credited Service are credited in accordance with the following schedule:

Months	Years of Credited Service
5+	1.0
4	.88
3	.66
2	.44
1	.22

Vesting Service: Based on elapsed time method.

Schedule SB, Part V – Summary of Principal Plan Provisions

Benefit Formulas and Eligibilities

Normal Retirement

Normal Retirement Date: The first day of the month coincident with or next following the later of attainment of age 65.

Normal Retirement Benefit: 2.00% of Average Compensation multiplied by Credited Service (not to exceed 30 years), divided by 12.

Early Retirement

Early Retirement Date: The first day of the month coincident with or next following attainment of age 55.

Early Retirement Benefit: The actuarial equivalent of the participant's benefit described in Normal Retirement Benefit above, based on service credit and average monthly compensation at retirement. The Early Retirement Benefit is equal to the Normal Retirement Benefit, reduced by 0.25% for each month that commencement of payments precedes the participant's Normal Retirement Date if the participant has 15 years of service.

Vested Termination

Vested Termination Date: Employees who terminate employment after completing 5 years of vesting service are 100% vested.

Active participants as of December 31, 1996 are 100% vested on December 31, 1996.

Termination Benefit: The participant's benefit described in Normal Retirement Benefit above, based on service credit and average monthly compensation at termination reduced in accordance with Early Retirement for each month that commencement of payments precedes the participant's Normal Retirement Date.

Preretirement Surviving Spouse Coverage

Preretirement Surviving Spouse Benefit Eligibility: Eligible surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments.

Preretirement Surviving Spouse Benefit: 50% of the benefit which would have been payable had the deceased participant instead terminated service on the date of death, survived to his earliest possible benefit commencement date, elected a joint and 50% survivor annuity, and died on that same date. If the participant was at least age 35 and had 10 years of service as of his date of death, the benefit is 50% of the participant's vested Accrued Benefit, payable for the surviving spouse's lifetime.

Farm Family Employee Retirement Plan
EIN 14-1400831/ PN 001

Schedule SB, Part V – Summary of Principal Plan Provisions

Forms of Payment

Normal Forms: Single Life Annuity. A participant that is married must take the benefit in the form of a Joint and 50% Survivor benefit unless the spouse provides written consent to waive the Joint & 50% Survivor benefit.

Optional Forms: Life annuity; Actuarially Equivalent life annuity with 5, 10, 15 or 20 years certain; Actuarially Equivalent joint and 50%, 66-2/3%, 75%, or 100% survivor annuity; lump sum.

The normal form of benefit is converted to an optional form of benefit based on the Plan's definition of Actuarial Equivalence.

For purposes of Actuarial Equivalence, the Plan uses the 1971 GAM Unisex Table (50% Male and 50% Female) and an interest rate of 7.50% for all options except lump sums.

For lump sums, the applicable Code Section 417(e)(3) mortality table and the first, second, and third segment rates under Code Section 417(e) for November of the preceding year are used.
