Independent Auditors' Report

To the Administrative Committee of the
Messer Cutting Systems, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Messer Cutting Systems, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2024, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Correction of Error

As disclosed in Note 4 to the financial statements, the 2023 financial statements have been restated to correct an error related to the fair value measurement classification of certain investments. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), and Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2024 and 2023 (Restated)

1. Description of Plan

The following description of the Messer Cutting Systems, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective July 1, 2000, as restated January 1, 2020. The plan sponsor froze participation into the Plan effective October 1, 2006 and further froze additional accrued benefits being generated under the Plan as of December 31, 2007. The plan sponsor intends to maintain the frozen plan until sufficient assets exist to fund plan termination. Prior to the plan freeze, the Plan covered all employees, excluding union employees, leased employees and non-resident alien employees, of Messer Cutting Systems, Inc. (the Company) who have completed two years of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2024 and 2023.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights or reaching both age 62 and 30 years of vesting service. Participants become vested in the Plan upon completion of at least five years of service or attainment of the normal retirement age (65), although the Plan does allow for early retirement at the age of 55. If employees terminate before attaining the required years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

For participants selecting early retirement, the participants' normal retirement benefits accrued to date are reduced by 1/6th of 1% for each month prior to normal retirement date if the participant has both attained age 62 and completed 30 years of vesting service. If the participant has either not attained age 62 or not completed 30 years of vesting service, the normal retirement benefit accrued to date is reduced by 1/2 of 1% for each month prior to normal retirement date. Normal retirement benefits are determined based on a formula which considers the average of annual basic compensation, prior to the plan freeze on December 31, 2007, as defined in the plan document, received during the highest 36 consecutive months of service, with at least 10 years of service. The formula also considers a social security benefits offset and years of credited service not to exceed 35 years. The benefit computation is subject to maximum limitations. If the participant's accrued benefit is less than \$1,000, the participant is paid a lump-sum payment as soon as practicable after the participant's termination date. If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

Messer Cutting Systems, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023 (Restated)

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Messer Cutting Systems, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023 (Restated)

Recent Accounting Standards

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Subsequent Events

Subsequent events were evaluated through October 10, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computation of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material difference. The significant actuarial assumptions used in the valuation were:

Assumption	January 1, 2024
Discount rate	6.50%
Mortality	PRI-2012, MP2021
Retirement age	55-65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Messer Cutting Systems, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023 (Restated)

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Investments measured at net asset value: Consisting of common-collective trusts, valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common-collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Notes to Financial Statements

December 31, 2024 and 2023 (Restated)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024		Level 1		Level 2		Level 3		Total
Investments measured at NAV (a)	\$	-	\$	-	\$	-	\$	20,712,604

Assets at Fair Value as of December 31, 2023 - Restated		Level 1		Level 2		Level 3		Total
Investments measured at NAV (a)	\$	-	\$	-	\$	-	\$	21,828,019

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2024 and 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2024	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common collective trust fund	\$20,712,604	N/A	Daily	5 business days

December 31, 2023 - Restated	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common collective trust fund	\$21,828,019	N/A	Daily	5 business days

Correction of Error

Investments in certain common collective trust funds were incorrectly classified as Level 1 investments (mutual funds) as of December 31, 2023. The financial statements as of December 31, 2023 have been restated to correctly classify these common collective trusts as investments measured at NAV. The correction of error is summarized as follows.

	As Originally Reported	Correction	As Restated
Mutual funds - Level 1	\$ 21,828,019	\$ (21,828,019)	\$ -
Investments measured at NAV	-	21,828,019	21,828,019
	\$ 21,828,019	\$ -	\$ 21,828,019

5. Concentrations

As of December 31, 2024 and 2023, the Plan had investments of \$20,712,604 and \$21,828,019, respectively, that were concentrated in one fund.

6. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, for the year ended December 31, 2024 and the period from November 15, 2023 through December 31, 2023, Fidelity Management Trust Company and for the period from January 1, 2023 through November 15, 2023 BMO Harris Bank N.A., the trustees of the plan, have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024 and the information reported in the supplemental schedule, Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

7. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with Fidelity Management Trust Company, the Trustee of the Plan. Contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

Messer Cutting Systems, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023 (Restated)

8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status

The Plan adopted a volume submitter plan offered by Milliman Inc. The volume submitter plan received an IRS Determination Letter dated March 30, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the IRS Determination Letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes

ERISA Interest Rates as required by IRC Section 430 based on plan sponsor election of the look-back month for the segment rates:

“Minimum” means for the purpose of calculating the PPA funding liability and normal cost for the minimum required contribution.

“Maximum” means for the purpose of calculating the PPA funding liability and normal cost for the maximum tax-deductible contribution.

Purpose	2024 Plan Year		2023 Plan Year	
	Minimum	Maximum	Minimum	Maximum
Interest rate type	Stabilized	Non-Stabilized	Stabilized	Non-Stabilized
Segment rates or full yield curve	Segment	Segment	Segment	Segment

Next 15 years	4.87%	4.46%	5.00%	3.09%
Over 20 years	5.59%	4.52%	5.74%	3.58%
Applicable law for the segment rates corridor	ARPA	Not Applicable	ARPA	Not Applicable

Interest Rate for FASB ASC 960: 6.50% (unchanged from prior year) determined by the Company and supported by our Mean Variance model.

Expected Long-Term Return on Plan Assets: 6.50%. (unchanged from prior year), determined by the Company and supported by our Mean Variance model.

Salary Scale: Not applicable.

Increase in Consumer Price Index (CPI): Not applicable.

Increase in Social Security Taxable Wage Base: Not applicable.

2024 Plan Year

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Administrative Expenses included in Target Normal Cost: \$73,000 (previously \$0 for 2023).

Estimated administrative expenses are based on the prior year non-investment related administrative expenses paid from the Trust. This assumption is rounded to the nearest \$1,000.

Mortality:

ERISA: IRS 2024 Small Plan Combined Static Mortality Table using separate tables for annuitants and non-annuitants as prescribed by IRC Section 430. These tables include future mortality improvement of eight years for males and nine years for females with the following adjustments: For ages below 80, the projection period is increased by one year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80. (Previously IRS 2023 Static Mortality Table.) This plan does not have a large enough population to vary from the standard tables.

FASB ASC 960: Pri-2012 Mortality Table with MP-2021 Mortality Improvement Scale applied on a generational basis without collar adjustment (no change from prior year). The Society of Actuaries decided not to release any updates to the MP-2021 projection scale in 2023 due to the unique effects of COVID-19 on mortality trends in recent years. There has been and there is not expected to be any mortality experience that would cause a change to this assumption.

Retirement Rates: Rates varying by age are shown below for active participants based on the assumption used by the prior actuary for this Plan. There has been no pattern of significant, consistent gains or losses related to this decrement.

<u>Age</u>	<u>Rate</u>
55 – 57	2%
58-61	5%
62	20%
63-64	15%
65-69	50%
70	100%

Inactive participants are assumed to retire at age 65.

Termination Rates: Sample values varying by age and sex are shown below based on the assumption used by the prior actuary for this Plan. There has been no pattern of significant, consistent gains or losses related to this decrement.

Withdrawal Number of Occurrences per 1,000		
Age	Male	Female
20	256	290
30	135	198
40	77	90
50	46	60
60 and Over	0	0

Disability Rates: Not applicable.

Marital Status: 80% of males and females are assumed married, with females three years younger than males.

Qualified Preretirement Survivor Annuity (QPSA) Coverage: All participants are assumed to waive QPSA coverage.

Maximum Benefit: \$275,000 for 2024. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: Not applicable.

Form of Payment: All participants are assumed to elect a single life annuity. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Decrement Timing: Decrements are assumed to occur at the middle of the year, except that 100% retirement is assumed to occur at the beginning of the year.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Data Assumptions: Employee census data as of January 1, 2024 submitted by the Company and financial data provided by Fidelity and Midwest Institutional Trust Services (formerly BMO Financial Group). No data assumptions were made.

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 67% of the prior year, and
 - ii) 33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Actuarial Cost Method: The unit credit cost method is used for ERISA Funding Target (FT) and FASB ASC 960 purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Plan Provisions

Name of Plan: Messer Cutting Systems, Inc. Pension Plan

Employer Identification Number / Plan Number: 23-2888959 / 002

Effective Date: July 1, 2000. Effective date of most recent amendment, January 1, 2016.

Covered Employees: Eligible participants include any employee who attains 21 years of age and 1 year of Continuous service. Effective October 1, 2006, the pension plan is closed to new entrants.

Participation Date: Participation in the Plan was closed to any individual who first became an employee after October 1, 2006. However, Participation in the Plan was open to all individuals on the day of which they became an eligible employee for all employees hired or rehired before October 1, 2006.

Definitions:

Vesting service: A participant is credited with one year of vesting service for each Plan Year in which 1,000 hours are worked. This includes the Plan Year in which his Employment Commencement Date occurred. Vesting service is used to determine when an employee becomes a Participant eligible to receive a Monthly Normal Retirement Benefit.

Vesting: A Participant's vesting status is determined based on the following schedule:

Years of Vesting Service	Non-forfeitable Percentage
Less than 5	0%
5 or more	100%

A participant will be considered 100% vested in their Monthly Normal Retirement Benefit if they complete 5 years of continuous service by their Normal Retirement Date.

Credited service: A participant will accrue a Year of Service for each Plan Year in which the participant completes 1,000 hours of service. Credited service is used to determine the amount of a participant's Monthly Normal Retirement Benefit and Early Retirement eligibility.

Plan Provisions (continued)

QPSA Coverage Waive Date: The date at which a participant and their spouse elected to waive QPSA coverage. Married participants can waive QPSA coverage at any time. Single participants are not eligible for QPSA Coverage.

QPSA Reduction: Married participants who have attained Age 55 who have not waived QPSA coverage will have their benefit reduced by 1/12 of 1% per completed month from Age 55 to the earliest of:

- i. Age 65
- ii. Age at Benefit Commencement Date (or participant death, if applicable)
- iii. Age at QPSA Coverage Waive Date, if applicable

Monthly Normal Retirement Benefit: Amount of projected pension benefit payable at Normal Retirement Date which earned based on given number of years of participation in the Plan. Effective December 31, 2007, the Plan was frozen to service and benefit accruals.

Monthly Pre-retirement Spouse Death Benefit: If the participant dies before attaining Age 55, the surviving spouse is entitled to receive a benefit he or she would have received if the Participant had survived to their earliest retirement date, elected a 50% Qualified Joint & Survivor Annuity, and died immediately after making this election. The surviving spouse can defer the commencement of this benefit no later than the date the Participant would have attained age 65.

If the participant dies after attaining Age 55 and did not waive QPSA coverage, the surviving spouse is entitled to receive a benefit he or she would have received if the Participant elected a 50% Qualified Joint & Survivor Annuity and died immediately after making this election. The surviving spouse can defer the commencement of this benefit no later than the date the Participant would have attained age 65.

Normal retirement date (NRD): The first day of the month coincident with or following the date on which a Participant attains the later of age 65 or completion of at least five years of credited service.

Eligibility for Benefits:

Normal retirement: Retirement on NRD.

Early retirement: The first day of the month coincident with or next following the later of attainment of Age 55 or at least 5 years of Credited Service.

Plan Provisions (continued)

Late retirement: Retirement after NRD.

Deferred vested: Terminations for reasons other than death or retirement after completing five years of Vesting Service.

In-service distributions: The first day of the month coincident with or next following the later of attainment of Age 62 or at least 5 years of Credited Service while still actively employed by the Employer.

Pre-Retirement death: Death while eligible for Normal, Early, Postponed, or Deferred Vested Retirement benefits, with a surviving spouse, married for at least one year and QPSA coverage not waived if Participant death is after attainment of Age 55.

Benefits Paid Upon the Following Events:

Normal retirement: Monthly Normal Retirement Benefit determined as of NRD with QPSA Reduction, if applicable.

Early retirement: Monthly Normal Retirement Benefit based on service and earnings at date of termination. If payments begin before Normal Retirement Date, and the participant has either not attained age 62 or not completed 30 years of service the payments are reduced 0.5% for each month that payments preceded Normal Retirement Date; otherwise, the payments are reduced 1/6 of 1% for each month that payments preceded Normal Retirement Date. The QPSA Reduction is also applied, if applicable.

Postponed retirement: The Participant's postponed retirement benefit is equal to the Monthly Normal Retirement Benefit with QPSA reduction, if applicable, as of Normal Retirement Date with postponed retirement factor increase. The postponed retirement factor applied to the Monthly Normal Retirement Benefit is based on the actuarial and option form actuarial equivalence described below.

In-service distributions: The Participant's in-service benefit is equal to the Monthly Normal Retirement Benefit as of Normal Retirement Date, adjusted for early/late retirement as described above depending on the elected Benefit Commencement Date and QPSA Reduction, if applicable.

Pre-retirement death benefit: Monthly Pre-retirement Spouse Death Benefit is payable to the designated Beneficiary.

Plan Provisions (continued)

Post-retirement death benefit: Benefits will be paid to the designated Beneficiary based on the form of payment elected at retirement.

Forms of Payment:

Normal form (single participants): Single life annuity.

Normal form (married participants): 50% joint and survivor annuity.

Optional forms: Participants who retire may elect a 50%, 75%, or 100% joint and survivor annuity.

If the lump sum Actuarial Equivalent of the Single Life Annuity otherwise payable is \$5,000 or less, a non-elective single sum will be paid to the Participant upon termination or Surviving Spouse upon death. If vested interest exceeds \$1,000 and no elections is made, distribution will be rolled over to an IRA designated by the plan administrator.

Actuarial Equivalence:

For purposes of actuarial increase for postponed retirements and optional annuity forms of payment:

Mortality based off the UP-84 Unisex Mortality Table (no setback for participants, 3 years setback for contingent annuitant and beneficiaries) and an assumed interest rate of 8.0%.

For purposes of converting normal annuity form to calculate a lump sum:

Mortality table set forth in Code Section 417(e)(3) and the annual rate of interest set forth in Code Section 417(e)(3) for the November preceding the plan year in which the participant's distribution is made.

Maximum on Benefits: All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

A method change was reflected for the 2024 Plan Year to account for the plan sponsor's new precedence of paying administrative expenses from the trust. A load has been added to be included in target normal cost to reflect estimated administrative expenses. The load is equal to the prior year non-investment related administrative expenses paid from the trust and rounded to the nearest \$1,000.
