Independent Auditor's Report

Board of Directors
American Honda Motor Co., Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C)

We have performed audits of the financial statements of Honda Retirement Medical Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits on a modified cash basis as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits on a modified cash basis for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting as described in Note 2.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Honda Retirement Medical Program

Notes to Financial Statements (Modified Cash Basis)

Note 1. Plan Description

The following description of the Honda Retirement Medical Program (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan was established on January 1, 2014, by American Honda Motor Company, Inc. (Plan Sponsor) to provide health benefits to all eligible retired associates of certain Honda employers (the Companies). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Retired associates premium contributions for the Plan are based on continuous completed years of service as of their retirement date. The Companies are currently contributing to a Voluntary Employee Benefit Association (VEBA) trust to provide for payments of current and future benefits and expenses for retired associates of the Plan. The Companies also contribute discretionary amounts to a 401(h) account within the Honda Retirement Plan to help fund retiree benefits. All contributions made by the Companies are irrevocable.

The Honda Retirement Plan includes a medical benefit component in addition to normal retirement benefits to fund a portion of the post-retirement obligation for retirees in accordance with Section 401(h) of the Internal Revenue Code (IRC). In accordance with IRC Section 401(h), the Honda Retirement Plan's investments in the 401(h) accounts may not be used for, or diverted to, any purpose other than providing medical benefits to retirees. The assets of the Honda Retirement Plan are held in the American Honda Master Trust (Retirement Master Trust) with Northern Trust Company, the trustee. The related obligations for medical benefits are not included in the Honda Retirement Plan's statements of accumulated plan benefits but are reported as obligations in the financial statements of this Plan.

The 401(h) account transfers funds to the VEBA trust to fund retiree medical benefits. Funds transferred from the 401(h) account are formula based on specific retirees' demographics. Medical benefits are also directly funded and disbursed through the VEBA trust.

During 2025 the 401(h) account balance was transferred in its entirety to the VEBA trust. The Plan does not anticipate the 401(h) account to be used in the future.

Benefits: Retired associates are eligible to participate in the Plan if they retire from active service with one of the Companies upon reaching age 55 with 10 or more years of continuous service or age 65 or older with five or more years of continuous service. The Companies provide retired associates with medical and prescription drug benefits through the Plan, which are self-insured by the Companies. Generally, coverage for retired associates begins on the first day of the month following their retirement date. The Plan provides for payment of a portion of the reasonable and customary charges actually incurred by a participant or dependent for the necessary care and treatment of certain illnesses and injuries, provided that certain deductibles have been met and subject to certain maximum benefits. The Plan covers medical benefits through a managed care point of service plan, which includes choices of network, out of the network and out of area medical programs.

The cost of post-retirement benefits is shared by the Plan's participating companies and retired associates.

Honda Retirement Medical Program

Notes to Financial Statements (Modified Cash Basis)

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan have been prepared on a modified cash basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP). The following summarizes the significant accounting policies that comprise this modified cash basis. Plan additions and deductions are recorded when the cash is received or paid by the Plan. However, plan assets and plan liabilities may be recognized in cases where remittances by the Plan Sponsor are inadvertently transferred to or from other sponsored benefit plans.

Assets held in trusts: Certain assets of this Plan and the assets of the Honda Survivor Medical Program are held in the Honda Health and Welfare Benefits Trust (VEBA Master Trust) with Northern Trust Company, the trustee.

The trustee maintains the assets of the VEBA Master Trust and the assets of the 401(h) account in the Retirement Master Trust and pays benefits and administrative expenses for the Plan. The plan assets held in the VEBA Master Trust are managed by the trustee under the direction of the Plan Administrator and the plan assets held in the 401(h) account are managed by the trustee under the direction of the Honda Retirement Plan Committee. The trustee provides the Plan Administrator with separate reports for the Plan's portions of the master trusts.

Deposits: The Plan makes deposits to a certain claims processing company to fund future benefit claims that are recorded as an asset of the Plan.

Contributions: Contributions are recognized when received by the trustee.

Benefits: Benefits are recognized when paid by the Plan. The Plan participates in rebate programs with certain benefit providers. Rebates received are offset against benefits paid on the statements of changes in net assets available for benefits.

Administrative expenses: The Plan has entered into contracts with UMR, a UnitedHealthcare company, Blue Cross Blue Shield and Caremark Rx, LLC to perform certain administrative services, including the processing of medical and prescription drug claims. Administrative expenses are paid by the Plan and are recognized upon payment.

Investment valuation and income recognition: Investments and net assets held and restricted for the 401(h) account and VEBA trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded when settled. Interest income and dividend income are recognized when paid. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with the modified cash basis, which is a basis of accounting other than U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, incurred but not reported, claims payable and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan uses an actuary to determine the post-retirement benefit obligation. A change in the actuarial assumptions used could significantly change the amount of the post-retirement benefit obligation reported in the accompanying financial statements.

Honda Retirement Medical Program

Notes to Financial Statements (Modified Cash Basis)

Note 2. Summary of Significant Accounting Policies (Continued)

Post-retirement benefits: The amount reported as the post-retirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31. Post-retirement benefits include future benefits expected to be paid to or for:

(1) currently retired associates and their beneficiaries and dependents and (2) active associates and their beneficiaries and dependents after retirement from service with the Companies. The post-retirement benefit obligation represents the amount that is to be funded by future contributions from the Companies, retired associates, and existing plan assets. Prior to an active associate's full eligibility date, the post-retirement benefit obligation is the portion of the expected post-retirement benefit obligation that is attributed to that associate's service rendered to the valuation date.

The actuarial present value of the expected post-retirement benefit obligation is determined by Mercer, Inc., the Plan's actuary and is the amount that results from applying actuarial assumptions to the historical claims-cost data to estimate future annual incurred claims costs per participant and adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment and to reflect those costs expected to be borne by Medicare, the retired participants and other providers.

Risks and uncertainties: The VEBA Master Trust and Retirement Master Trust invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2025, the date the financial statements were available to be issued.

Note 3. Plan Termination

Although the Plan Sponsor has not expressed any intent to terminate the Plan, they may do so at any time upon advance written notice to the trustee and the participants. If the Plan was terminated, assets of the Plan, to the extent available, would be applied against claims.

Note 4. Information Certified by Northern Trust Company

The financial information included in Note 5 and Note 7 was obtained by management and agreed to or derived from information certified as complete and accurate by Northern Trust Company, the trustee of the Plan.

Honda Retirement Medical Program

Notes to Financial Statements (Modified Cash Basis)

Note 5. Honda Health and Welfare Benefits Trust

The Plan's investments are included in the investments of the VEBA Master Trust. The Plan's trustee maintains supporting records for the purpose of allocating the net assets and the net gains and losses of each of the investments in the specific Plans. The Plan's interest in the VEBA Master Trust was approximately 69% and 70% as of December 31, 2024 and 2023, respectively. The VEBA Master Trust also includes investment assets of the Honda Survivor Medical Program.

The following is a summary of the VEBA Master Trust as of December 31:

	VEBA Master Trust Balances 2024	Plan's Interest in VEBA Master Trust Balances 2024	VEBA Master Trust Balances 2023	Plan's Interest in VEBA Master Trust Balances 2023
Assets:

Investment income for the VEBA Master Trust for the years ended December 31:

	2024	2023
VEBA Master Trust:		
Interest and dividends	\$ 901,464	\$ 780,399
Net appreciation in fair value of investments	-	-
Total investment income	901,464	780,399
Less investment expenses	-	-
Investment income, net	\$ 901,464	\$ 780,399
Plan interest in investment income for VEBA Master Trust:		
Interest and dividends	\$ 555,109	\$ 477,348
Net appreciation in fair value of investments	-	-
Total investment income	555,109	477,348
Less investment expense	-	-
Investment income, net	\$ 555,109	\$ 477,348

During 2024 and 2023, the Plan received an allocation of approximately 62% and 61%, respectively, of the net investment income of the VEBA Master Trust. Investment income is allocated to each plan based on the plan's specific interest attributed to the underlying investments in the VEBA Master Trust.

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Honda Retirement Medical Program

Notes to Financial Statements (Modified Cash Basis)

Note 6. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the underlying assets in the VEBA Master Trust measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Northern institutional fund: Evaluated using observable, market based (bid evaluation) price using valuation techniques provided by non-proprietary vendors such as Interactive Data or Standard & Poor's (S&P).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the VEBA Master Trust believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the VEBA Master Trust's asset measured at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total

Note 6. Fair Value Measurements (Continued)

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require transfer of investments from one fair value level to another.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2024 and 2023, there were no transfers in or out of Level 3.

Note 7. American Honda Master Trust

The Plan's investments restricted for 401(h) account are included in the investments of the Retirement Master Trust. The Plan's trustee maintains supporting records for the purpose of allocating the net assets and the net gains and losses of each investment in the specific plans based on their respective ownership within the Retirement Master Trust. The Plan's interest in the Retirement Master Trust was approximately 1% and 3%, respectively, as of December 31, 2024 and 2023. Administrative expenses incurred for a specific plan are charged to that plan. The Plan has an undivided interest in the Retirement Master Trust.

The following is a summary of the Plan's interest in the 401(h) and the Retirement Master Trust's assets by general types of investments as of December 31:

	Retirement Master Trust Balances 2024	401(h) Plan's Interest in Retirement Master Trust Balances 2024	Retirement Master Trust Balances 2023	401(h) Plan's Interest in Retirement Master Trust Balances 2023

Note 8. Benefit Obligations (Continued)

The more significant assumptions and methods underlying the actuarial valuations of benefit obligations as of December 31, 2024 and 2023, for post-retirement benefits are:

Discount rate 5.50% and 4.95%, respectively

Assumed mortality Pri-2012 sex-distinct tables, blue collar adjustment fully generational scale

The change in actuarial assumptions during the year ended December 31, 2024 primarily relates to a change in the discount rate, partially offset by an increase from updating the assumed annual increase in monthly credits for Pre Medicare (pre-65).

The change in actuarial assumptions during the year ended December 31, 2023 primarily relates to change in the discount rate and updating the assumed annual increase of Honda's pre-65 RRA monthly credits.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post-retirement benefit obligations.

The post-retirement benefit obligations actuarial information is as of December 31, 2024 and 2023, which is the most recent benefit information date.

A 1% increase in the assumed annual trend of the Pre Medicare (pre-65) would increase the year-end obligation by approximately \$45,000,000.

Participants who retire and are not eligible for Medicare benefits are entitled to the following monthly post-retirement medical credit at December 31, 2024:

Years of service	Monthly credit
<10	None
10-19	\$568 + \$26 per year of service in excess of 10 years
20-29	\$828 + \$16 per year of service in excess of 20 years
30+	\$988

Participants who retire and are not eligible for Medicare benefits are entitled to the following monthly post-retirement medical credit at December 31, 2023:

Years of service	Monthly credit
<10	None
10-19	\$499 + \$23 per year of service in excess of 10 years
20-29	\$729 + \$14 per year of service in excess of 20 years
30+	\$869

Honda Retirement Medical Program

Notes to Financial Statements (Modified Cash Basis)

Note 8. Benefit Obligations (Continued)

Participants who retire and are eligible for Medicare benefits are entitled to the following monthly post-retirement medical credit at December 31, 2024 and 2023:

Years of service	Monthly credit
<20	\$7 per year of service
20-29	\$140 + \$5 per year of service in excess of 20 years
30+	\$190

In addition, upon retirement, all participant retirees receive a one-time lump sum credit of \$1,000 per year of service (limited to 30 years). The Plan's actuary calculates an increase in these credits for inflation. As of December 31, 2024, the initial trend rate was 5.83% for 2025 grading down to an ultimate long-term trend rate of 4.00% in 2049 and beyond. As of December 31, 2023, the initial trend rate was 5.84% for 2024 grading down to an ultimate long-term trend rate of 4.00% in 2048 and beyond.

The monthly credit is subtracted from an actuarially determined monthly premium to arrive at the associates' cost. Because of the method by which benefits are determined, the Companies' future cost (and therefore post-retirement benefit obligations) is determinable. Any increases in medical costs in future years will not affect the Companies' cost or post-retirement benefit obligations. Contributions are made to approximate the financial statement expense, but not to exceed the maximum federal income tax deductible amount.

Note 9. Federal Income Taxes

The Plan and related VEBA Master Trust are qualified pursuant to Section 501(c)(9) of the IRC and, accordingly, the VEBA Master Trust's net investment income is typically exempt from income taxes. The VEBA Master Trust obtained a favorable tax determination letter from the IRC dated February 9, 1989, and the Plan Administrator and the Plan's Counsel believe that the VEBA Master Trust, as amended, continues to qualify and to operate in accordance with applicable sections of the IRC.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Parties-in-Interest Transactions

Certain Plan investments in the VEBA Master Trust and 401(h) account are shares of money market funds managed by Northern Trust Company and shares of Northern Trust Company. Northern Trust Company is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
