Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☐ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☒ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **WITHUMSMITH+BROWN, PC**

(2) EIN: **22-2027902**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		15000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Independent Auditor's Report

To the Participants and Administrator of
Chevron Master Pension Trust and Chevron Corporation Employees' Retirement Plans:

Opinion

We have audited the financial statements of Chevron Master Pension Trust (the "Trust"), and of the Chevron Retirement Plan, the Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements, the Chevron - SUP Marine Pension Plan, the Chevron-MEBA Marine Pension Plan and the Pasadena Refining System, Inc. Retirement Plan (the Chevron Corporation Employees' Retirement Plans, referred to collectively as the "Plans"), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the Trust's and Plans' net assets available for benefits as of December 31, 2024 and 2023, and the changes in the Trust's and Plans' net assets available for benefits for the years then ended and the Plans' accumulated plan benefits as of December 31, 2023, and the changes in the Plans' accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Trust and Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust and Plans' ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust and Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust and Plans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), and Schedule H, line 4j - Schedule of Assets (Acquired and Disposed of Within Year), and Schedule H, Line 4j - Schedule of Reportable Transactions, as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Note 1 - Description:

On January 1, 2004, ChevronTexaco Corporation entered into a Master Trust Agreement with State Street Bank and Trust Company, as trustee of the ChevronTexaco Corporation Master Pension Trust and as custodian of its assets.

On May 9, 2005, ChevronTexaco Corporation, Plan Administrator of the Plans, changed its corporate name to Chevron Corporation.

On July 1, 2006, the ChevronTexaco Corporation Master Pension Trust was renamed the Chevron Master Pension Trust.

The Chevron Mining Plan has no active participants.

On April 1, 2016, Chevron Corporation entered into a Master Trust Agreement with Northern Trust Company, as trustee of the Chevron Master Pension Trust and as custodian of its assets. Effective June 1, 2019 the Plan record keeper was changed from Conduent to Willis Towers Watson.

Effective January 1, 2023, the assets of the Pasadena Refining System, Inc Retirement Plan were transferred, via a trust-to-trust transfer, into the Chevron Master Pension Trust (USMPT). Plan assets were transferred to Northern Trust Company as trustee of the USMPT on and after January 3, 2023. This asset trust merger will not reduce Pasadena Refining System, Inc Retirement Plan participants' accrued, vested benefits and the Plan will continue as a separate benefit plan, although the Plan was closed to new entrants as of January 1, 2023. Effective January 1, 2023, new full-time hires of Pasadena Refining System, Inc. are eligible to participate in the Chevron Retirement Plan ("CRP") subject to the CRP service vesting requirements.

Master Trust

The assets of the following plans (the Plans) were held in the Master Trust during the years 2024 and 2023:

Chevron Retirement Plan (CRP);

Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements (Chevron Mining Plan);

Chevron-SUP Marine Pension Plan (SUP Marine Plan);

Chevron-MEBA Marine Pension Plan (MEBA Marine Plan);

Pasadena Refining System, Inc. Retirement Plan (PRSI Retirement Plan)

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Trust assets and liabilities, net appreciation (depreciation), interest and dividend income, other income, and trust expenses are allocated proportionally each month among the Plans based on each Plans' share of the Master Trust. However, certain income and expenses that are plan-specific, such as employer contributions, benefits, and certain recordkeeping fees remain with the specific plan and are not allocated.

The individual Plans are reporting entities subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. United States Department of Labor (DOL) regulations require that a separate Master Trust filing be submitted to the DOL. Such filings are integral parts of the annual report filed with the DOL by each participating Plan.

Benefits

The Plans are noncontributory defined benefit pension plans that are maintained primarily to provide retirement and death benefits for eligible employees and their spouses, joint pensioners and beneficiaries. Certain former participants of the Retirement Plan of Texaco, Inc. who are now participants of the Chevron Retirement Plan, had the option of making non-forfeitable contributions and receiving an additional amount of pension benefits. This option of making non-forfeitable contributions was terminated on July 1, 2005. A more detailed description of the eligibility & vesting requirements, normal & early retirement rules, benefit formula, and death benefits provided by the Plans, are included in the "Summary Plan Description" of each Plan.

Plan Administrator

Chevron Corporation (the Corporation) has been designated as the Plan Administrator of the Plans.

Allocation Upon Termination/Reversion

It is the intent of the Corporation to continue the Trust and the Plans in full force and effect; however, the right to discontinue the Trust or Plans is reserved to the Corporation. To the extent required to provide all of the accrued benefits under any of the Plans that are terminated, the Corporation will allocate the terminated Plan's share of the assets of the Master Trust, on an actuarial basis, among the Plan's participants and their spouses, joint pensioners and beneficiaries in the manner prescribed by Section 4044 of ERISA. If the terminated Plan or Plans have assets in excess of the amount required to fully provide for the accrued benefits thereunder the excess assets will be returned to the Corporation, subject to any restriction imposed by applicable law. With respect to the Chevron Master Pension Trust, if the assets of the terminated Plan or Plans are insufficient to fully provide for the vested accrued benefits thereunder (other than benefits that are vested solely by reason of the plan termination and benefits that are guaranteed by the Pension Benefit Guaranty Corporation (PBGC)), the Corporation has guaranteed to contribute sufficient funds to provide such benefits. In addition, certain benefits under the Plans are insured by the PBGC if the Plan or Plans terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

Frozen Plan

The MEBA Plan was frozen as of December 31, 1997. For each participant, the Plan Administrator calculated the accrued benefit under the Plan as of the frozen date. This accrued benefit was used to determine the Plan's obligations.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Trust and the Plans have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are carried at fair value which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, Fair Value Measurements and Disclosures. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price"), in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plans' assumptions about inputs market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities own judgments and estimations or some other pricing method using unobservable inputs.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

In determining fair value, FASB ASC 820 allows various valuation approaches. The specific method for each of the Plans' investment classes are presented below.

Valuation Methods

U.S. Government and Government Agency Obligations and Foreign Government Securities. The fair value is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer provided prices (level 2).

Corporate Obligations. The fair value of corporate obligations is generally determined based on a model that uses inputs that may include interest-rate yield curves that are similar to valued obligations in terms of issuer, maturity and seniority (level 2).

Equity Securities and Exchange Traded Funds. The fair value of common stocks is generally based on quoted market prices in active markets (level 1). When quoted prices are not available, valuation is determined from dealer prices based on a model where consideration is given to recent transactions and comparable securities (level 2 and 3).

Common/Collective Trusts and 103-12 Investment Entities. The fair value of the units in common/collective trusts and 103-12 investment entities is estimated based on the net asset value per unit of the investments. The net asset value is used as a practical expedient to estimate fair value. The underlying asset values of the common/collective trusts may be calculated based on quoted market prices or other observable inputs.

Real Estate Fund. The fair value of the Real Estate funds are estimated based on the net asset value per unit (or equivalent) of the investments. The net asset value is used as a practical expedient to estimate fair value. The underlying investments of the funds are estimated based on quarterly appraisals or other observable inputs. An independent appraisal is also performed at least annually.

Insurance Co. Account (PRISA II). The fair value of the units in PRISA II is estimated based on the net asset value per unit of the investments. The net asset value is used as a practical expedient to estimate fair value. The underlying investments in PRISA II real estate accounts are valued at estimated fair value, based upon appraisal reports or other observable inputs prepared by independent real estate appraisers no less frequently than annually.

Infrastructure Partnerships. The fair value of Infrastructure Partnership investments is generally estimated based on the ownership interest in the partners' capital. The ownership interest in the partners' capital is used as a practical expedient to estimate the fair value.

Insurance Co. General Account. The Insurance Co. General account is carried at contract value in accordance with FASB ASC 960 (*Reporting by Defined Benefit Pension Plans of Investment Contracts*), which represents cost, plus interest income, less distributions and administrative expenses. Contract value estimates fair value (level 3).

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Cash Equivalents. Cash Equivalents are determined using quoted prices in active markets (Level 1).

Other Investments. Other Investments generally consists of the following: Publicly traded real estate investment trusts (Level 1), Municipal obligations fair value that is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer provided prices (Level 2), and Derivative cash collateral valuations based on unobservable inputs that are supported by little or no market activity using proprietary pricing models, discounted cash flow models that include the investment entities own judgments and estimations or some other pricing method using unobservable inputs (Level 3).

Derivative Use

Derivatives are used by some of the investment managers. The use of derivatives within the Master Trust is related to these activities: (1) achieving a targeted market (and/or specific segment/sector) exposure at lowest possible cost, (2) achieving timely market exposure until actual securities may be purchased or sold, and (3) reducing the price volatility of securities denominated in foreign currencies.

Valuation Methods, Consistency

The valuation techniques used in the accompanying financial statements have been consistently applied.

Contributions from the Corporation

The Plans record employer's contributions when the amounts are approved by the employer.

Transaction and Investment Recognition

Purchases and sales of securities are reflected on a trade date basis. Interest and other income are recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

In accordance with the policy of stating investments Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The administrative expenses include trustee, consultant, actuarial, accountant, external administrators and certain administrative services performed by the Plan Administrator a related party and party-in-interest, which are applicable to the Master Trust as a whole. In addition, the Plan Administrator provides certain other administrative services for which no charges are made.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Note 3 - Funding Policy:

The Plans' Administrator annually determines the normal cost of the Plans and the amount of unfunded past service cost. This determination is based on an actuarial estimate of the amount required to provide benefits ultimately due each Plans' participants. The Plans are subject to the funding provisions of ERISA. The funding policy of the Plan Administrator is to make the Corporation's contributions to the Plan at least equal to the minimum funding requirements of ERISA.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits payable under all circumstances: retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plans are dependent upon contributions received from the employer and income from investments.

Since information on the accumulated Plan benefits at December 31, 2024 and the changes therein for the year then ended are not included in the financial statements or the notes thereto, these financial statements do not purport to present a complete presentation of the financial status of the Plans as of December 31, 2024 and the changes in its financial status for the year then ended, but only a presentation of the net assets available for benefits and the changes therein as of and for the year ended December 31, 2024. The complete financial status is presented as of December 31, 2023.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024. Had the evaluations been made as of December 31, 2023 there would be no material differences. No amendments were adopted on January 1, 2024.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Note 5- Securities Lending Program:

On April 1, 2016, the Corporation entered into an agreement with The Northern Trust Company (the Bank), the custodian for the Master Trust's investments effective April 1, 2016. This agreement authorizes the Bank (while it is the custodian of the Master Trust's investments) to lend securities held in the Master Trust's accounts to third parties. The Bank must obtain collateral from the borrower in the form of cash, letters of credit issued by an entity other than the borrower, or acceptable securities. Both the collateral and the securities loaned are marked to market on a daily basis so that all loaned securities are fully collateralized at all times. In the event that the loaned securities are not returned by the borrower, the Bank will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Plans' accounts with cash equal to the fair value of the loaned securities.

Investment income includes \$619,109 and \$558,289 earned by the Master Trust during 2024 and 2023, respectively, in connection with securities lending activities.

Although the securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the custodial bank require the Bank to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize their loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that the Bank's investment of the cash collateral received from the borrowers of the Plans' securities may be subject to unfavorable market fluctuations.

Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

The market value of loaned securities was \$95,608,760 and \$124,967,542 as of December 31, 2024 and 2023, respectively, while the collateral held was \$97,889,752 and \$128,404,630, respectively. In accordance with FASB ASC 860, the Plan has segregated securities on loan to third parties from other investments and the value of the collateral held and a corresponding liability to return the collateral are reported on the accompanying statements of net assets available for benefits.

During 2024 and 2023, the Master Trust's investments including gains and losses on investments bought and sold, as well as held during the year, appreciated / (depreciated) in value by \$184,618,746 and \$722,699,044, respectively.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following tables set forth a summary of changes in the fair value of the Trust's level 3 assets for year ended December 31, 2024 and 2023.

December 31, 2024	Equities	Corporate Obligations	Insurance Co. General Account	Other	Total
Purchases, at cost	\$ -	\$ -	\$ 1,603,144	\$ 42,050,335	\$ 43,653,479
Issuances	\$ -	\$ -	\$ -	\$ -	\$ -
Transfers into Level 3	\$ -	\$ -	\$ -	\$ -	\$ -
Transfers out of Level 3	\$ -	\$ -	\$ -	\$ -	\$ -

December 31, 2023	Equities	Corporate Obligations	Insurance Co. General Account	Other	Total
Purchases, at cost	\$ -	\$ -	\$ 1,142,507	\$ 23,068,440	\$ 24,210,947
Issuances	\$ -	\$ -	\$ -	\$ -	\$ -
Transfers into Level 3	\$ 250,308	\$ -	\$ -	\$ -	\$ 250,308
Transfers out of Level 3	\$ -	\$ -	\$ -	\$ -	\$ -

For fair value measurements categorized within Level 3 of the fair value hierarchy, the following table presents quantitative information about the significant unobservable inputs used.

<u>Instrument</u>	Fair Value 12/31/2024	Fair Value 12/31/2023	Principal Valuation Technique	Unobservable Input	Range of Significant Input Values
Insurance Co. General Account	\$ 43,745,450	\$ 42,477,930	Interest Crediting Method	Interest	2.9%-3.02%

The unobservable inputs for equities, corporate obligations, and other investments are not disclosed as management has deemed the disclosure to be quantitatively and qualitatively immaterial to the financial statements.

Note 8 - Investments in Certain Entities That Calculate Net Asset Value:

FASB ASC 820 permits entities to use new asset value (NAV) per share (or its equivalent) as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value.

The following is a summary of the Trust's investments measured at fair value based on NAV, per share (or its equivalent).

{a} These investments are direct filing entities with the Department of Labor; therefore, information regarding the investments' strategies is not disclosed.

{b} This category includes investments in real estate funds that invest primarily in U.S. commercial real estate (UBS Trumbull Property Fund, JP Morgan Strategic Property Fund, and the Principal U.S. Property Separate Account). The fair values of the investments in this category have been estimated using the net asset value per share/unit (or equivalent) of the investments. The objective of the UBS Trumbull Property Fund is to actively manage a core portfolio of primarily equity real estate investments located in the United States. The JP Morgan Strategic Property Fund, and the Principal U.S. Property Separate Account are direct filing entities with the Department of Labor; therefore, information regarding the investments' strategies is not disclosed. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund.

{c} These investments are direct filing entities with the Department of Labor; therefore, information regarding the investments' strategies is not disclosed. The investments in this category cannot be redeemed. As of December 31, 2024, the termination date of the fund is December 31, 2025.

{d} The Infrastructure Partnerships category consists of an investment in the IFM Global Infrastructure (U.S.), L.P. (IFM) and Global Infrastructure GP III, L.P. (GIP). The objective of IFM is to acquire and maintain a diversified portfolio of global infrastructure investments within targeted sub-sectors with varied maturities that realize a 10% annual return over a three-year rolling period. A partner may withdraw all or a portion of such Limited Partner's Capital Account balance as of the end of each quarter upon at least 90 days prior written notice to the fund, subject to a minimum withdrawal amount of \$1 million (unless such amount represents the entirety of its account). The objective of GIP is to invest in infrastructure assets in the energy, transport and water/waste industries, globally, with a primary focus on Organization for Economic Co-operation and Development ("OECD") markets in North America, Europe and Australia. The capital balance of GIP cannot be redeemed. The Fund will dissolve and its affairs shall be wound up on the tenth anniversary of the Final Closing (January 26, 2017), unless dissolved earlier or extended in accordance with the provisions in each Master Fund and each Feeder Fund's Limited Partnership and Limited Liability Company Agreements.

Note 9 - Financial Instruments:

The Master Trust investment policy defines its primary objectives as paying trust benefits due or expected to become due, preserving fund assets, and achieving results that allow asset levels to increase beyond the requirements of the previous objectives, but within acceptable risk parameters.

As part of their total investment strategy, and to meet the primary objectives established, several of the Master Trust's investment managers utilize derivatives for risk reduction. Risk reduction provides for achievement of desired portfolio characteristics that allow the Trust to meet its investment objectives. Risks associated with derivatives vary widely, but generally may be

AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS

categorized as market risk and credit risk. Market risk is defined as that risk associated with fluctuations in market price. Credit risk is defined as that risk associated with an entity not paying.

To monitor the Trust's investment portfolio, reports are reviewed, and investments monitored by the Corporation's personnel and its investment managers on a monthly basis. Specific reports related to accounts with derivative transactions are prepared by the investment custodian in which market values, realized and unrealized gains and losses, and duration gaps are presented for Trust investment advisors' review.

Some of the Trust's investment managers enter into futures and foreign currency exchange contracts. These contracts are standardized agreements between two parties to buy and sell domestic and foreign currency, treasuries and indexes at a set price on a future date. The Trust invests in these contracts in order to gain exposure to certain classes and securities at a lower cost than buying the specific assets. Should market conditions move unexpectedly, the Trust may not achieve the anticipated benefits of these contracts and may realize a loss. These derivatives are not designated as hedging instruments under ASC 815, *Derivatives and Hedging*. At December 31, 2024 and 2023, \$3,968,000 and \$6,648,000 respectively, has been pledged against the derivative contracts to cover the initial margin and collateral requirements. The following sections provide detail on the specific derivatives that were held by the Trust at December 31, 2024 and 2023 and the gain (loss) information on such derivatives for the year ended December 31, 2024 and 2023.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Note 10 - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11 - Tax Status:

The Plans' Administrator believes the Plans continue to fulfill the requirements for qualified plans under Section 401 (a) of the Internal Revenue Code and were, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plans have been amended since receiving its determination letters. The Plans' administrator and the Plans' tax counsel believe that the Plans are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Master Trust that forms a part of each Plan is not subject to income tax. Accordingly, no provision for federal or state income taxes has been made.

The Plans' administrator has analyzed the tax positions taken by the Plans, and concluded that as of December 31, 2024 and December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 12 - Plan Amendments, Assumptions, Mergers and Other:

Effective January 1, 2024, the changes in Plan assumptions for the Chevron Retirement Plan are as follows:

- 1) A change in the mortality assumption for lump sum payments from the 2023 plan year IRC section 417(e)(3) mortality table to the 2024 plan year IRC section 417(e)(3) mortality table.
- 2) A change in the interest rate assumptions for lump sum payments from PPA full yield curve as of December 2022 to PPA full yield curve as of December 2023.
- 3) A change in the retirement assumption for active participants.
- 4) A change in the retirement assumption for deferred vested participants.
- 5) A change in the withdrawal rates for active participants.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Effective January 1, 2024, the changes in Plan assumptions for the Chevron Mining Plan are as follows:

- 1) There have been no assumption changes.

Effective January 1, 2024, the changes in Plan assumptions for the Chevron SUP Marine Pension Plan are as follows:

- 1) A change in the lump sum conversion interest rate from 95% of the PPA full yield curve as of October 2022 to 95% of the PPA full yield curve as of October 2023.
- 2) A change in the lump sum conversion mortality from the 2023 plan year IRC section 417(e)(3) mortality table to the 2024 plan year IRC section 417(e)(3) mortality table.

Effective January 1, 2024, the changes in Plan assumptions for the Chevron MEBA Marine Pension Plan are as follows:

- 1) A change in the lump sum conversion interest rate from 95% of the PPA full yield curve as of October 2022 to 95% of the PPA full yield curve as of October 2023.
- 2) A change in the lump sum conversion mortality from the 2023 plan year IRC section 417(e)(3) mortality table to the 2024 plan year IRC section 417(e)(3) mortality table.

Effective January 1, 2024, the change in Plan assumptions for the Pasadena Refining System, Inc. are as follows:

- 1) There have been no assumption changes.

Note 13 – Related Party and Party in Interest Transactions

During 2024, the Plan paid for certain administrative services performed by the Plan Administrator totaling \$1,622,451 and reimbursed the Plan Administrator for certain expenses totaling \$5,857,798. During 2023, the Plan paid for certain administrative services performed by the Plan Administrator totaling \$1,506,978 and reimbursed the Plan Administrator for certain expenses totaling \$5,478,693. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment fees to various service providers that qualify as exempt party in interest transactions. These transactions are party in interest transactions under ERISA; expenses paid during the years ended December 31, 2024 and 2023 rendered by parties in interest were based on customary and reasonable rates for such services. Management has determined the services provided qualify as exempt party in interest transactions.

Certain service providers of the Trust own shares of common stock in the Corporation. The common stock shares were bought and sold in the open market at quoted fair value at the date of purchase or sale. The service providers qualify as parties in interest. Management has determined the services provided qualify as exempt party in interest transactions. In 2024 and 2023, Blackrock Institutional Trust Company was an interested party to the Plan.

Note 14 – Merger

Effective January 1, 2023, the net assets of the Pasadena Refining Systems, Inc. Retirement plan (PRSI Retirement Plan) were transferred, via a trust-to-trust transfer, into the Chevron Master Pension Trust (USMPT). PRSI Retirement Plan net assets were transferred to Northern Trust Company as trustee of the USMPT on January 3, 2023. The amount transferred totaled of \$55,056,185 and appears on the statements of changes in net assets as a net transfer into the Trust.

Note 15 - Subsequent Events

In preparing these financial statements, management of the Plan has evaluated events and transactions that occurred after December 31, 2024, for the potential recognition or disclosure in the financial statements. These events and transactions were evaluated through the date on which the financial statements were available to be issued which is approximately the same as the independent auditor's report date.

Management reports that the Company acquired Hess Corporation on July 18, 2025, including its U.S. pension and other retirement plan obligations. To achieve operational synergies, the Company has expressed an intention to incorporate the assets of the Hess Corporation Pension Plan into the Chevron Master Pension Trust effective January 1, 2026, subject to approval by Hess Corp and the Chevron Master Pension Trust Investment Committee.

For ERISA Requirements

Interest Rates for Minimum Funding Purposes

Based on segment rates with no lookback (as of January 2024), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor

1st Segment Rate	4.75%
2nd Segment Rate	4.96%
3rd Segment Rate	5.59%

Interest Rates for Maximum Tax Purposes

Based on segment rates with no lookback (as of January 2024), without regard to interest rate stabilization

1st Segment Rate	4.37%
2nd Segment Rate	4.96%
3rd Segment Rate	4.95%

Salary Increases

Minimum Funding Target Normal Cost	See Table 1
Maximum Tax Expected Benefit Increase	See Table 1

Social Security Wage Base Increases

Future wage indices are based on a national wage increase of 3.50% per year.

Social Security COLA Increases

None; reflected in withdrawal and retirement rates

Decrement Timing

Beginning of year decrements

Surviving Spouse Benefit

It is assumed that 90% of males and 90% of females have an eligible spouse, and that males are three years older than their spouses.

Valuation Compensation

2023 pensionable earnings rolled forward to future years with salary increase assumptions assuming 100% of target bonus paid in future years

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 15 — Reconciliation of Differences
Between Valuation Results and Amounts Used to Calculate
AFTAP

The 2024 AFTAP for the Plan was certified on September 25, 2024. Valuation results were subsequently updated, resulting in a change in Funding Target as shown below. A comparison of the results is outlined below.

	September 25, 2024 AFTAP Certification	Valuation Results Reported on this Schedule SB
Funding Target	\$ 7,831,619,556	\$ 7,787,701,109
Value of Plan Assets	\$ 9,971,348,765	\$ 9,971,348,765
Funding Standard Carryover Balance	\$ 0	\$ 0
Prefunding Balance ¹	\$ 3,662,528,292	\$ 3,662,528,292
Annuities Purchased for NHCE's	\$ 0	\$ 0
Security Posted	\$ 0	\$ 0
AFTAP	127.32%	128.03%

¹ Since the Value of Plan Assets was equal to at least 100% of the Funding Target for the 2024 Plan Year, the Value of Plan Assets was not reduced by the Funding Standard Carryover Balance and Prefunding Balance in the determination of the AFTAP.

Schedule SB, line 24 — Change in Actuarial Assumptions

Assumption Changes

The funding valuation reflects the following assumption changes:

- A change in the retirement assumption for active participants to the assumption shown in Table 2.
- A change in the retirement assumption for deferred vested participants to the assumption shown in Table 3.
- A change in the withdrawal rates for active participants to the assumption shown in Table 4.

The non-regulatorily-prescribed assumption changes decreased the Funding Target by about \$78 million, which caused the funding shortfall to decrease by more than the threshold stated in IRC section 430(h)(5). However, in total, all plans in the controlled group with unfunded vested benefits on a PBGC premium basis have less than \$50 million in unfunded vested benefits on that basis before any assumption changes. Therefore, approval from the IRS Commissioner is not required.

The rationales for selecting each of the assumptions used in the funding valuation and for the assumption changes summarized above are to comply with regulatory requirements and to best reflect future anticipated plan experienced.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes

Based on segment rates with no lookback (as of January 2024), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor

1st Segment Rate	4.75%
2nd Segment Rate	4.96%
3rd Segment Rate	5.59%

Interest Rates for Maximum Tax Purposes

Based on segment rates with no lookback (as of January 2024), without regard to interest rate stabilization

1st Segment Rate	4.37%
2nd Segment Rate	4.96%
3rd Segment Rate	4.95%

Salary Increases

Minimum Funding Target Normal Cost	See Table 1
Maximum Tax Expected Benefit Increase	See Table 1

Social Security Wage Base Increases

Future wage indices are based on a national wage increase of 3.50% per year.

Social Security COLA Increases

Decrement Timing

Beginning of year decrements

Surviving Spouse Benefit

It is assumed that 90% of males and 90% of females have an eligible spouse, and that males are three years older than their spouses.

Valuation Compensation

2023 pensionable earnings rolled forward to future years with salary increase assumptions assuming 100% of target bonus paid in future years

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Death

Eligibility

Five years of service.

Benefit

Employees Hired Prior to January 1, 2008

Lump sum value of benefit had the participant terminated or retired on the date of his death. Surviving spouse beneficiaries may elect payment in an actuarially equivalent life annuity. Surviving spouses may defer payment of the lump sum for 5 years or the annuity until the participant's age 70-1/2.

Employees Hired on or after January 1, 2008

Full lump sum calculated under Vesting, Early, or Normal Retirement as applicable.

Employee Contributions

Applicable for former Texaco employees only. Employee contributions were stopped effective June 30, 2005.

Normal Form of Annuity

Without Spouse

Life.

With Spouse

Joint-and-survivor annuity actuarially equivalent to the retirement benefit payable for employee's lifetime. Participant receives reduced lifetime benefit, and, in event of participant's death, 50% of reduced benefit continued to surviving spouse. Benefit payable to participant is adjusted if beneficiary dies within first 60 months of retirement.

Optional Form of Annuity

Termination with Deferred Vested Benefit

Deferred vested members will receive, beginning at normal retirement date, the amount of retirement income credited before the date of termination.

Disability Benefit

After 15 years of service, the member is due his accrued retirement benefit with no deduction.

Preretirement Spouse's Benefits

If a member dies and has completed five years of continuous service before retirement, the member's spouse, if surviving, will receive a monthly benefit that is 50% of the monthly benefit payable to the member had the member retired early and elected the 50% joint and survivor option.

Plan Changes Since the Prior Year

The Funding and plan reporting valuations reflect the following plan changes:

- An update to the mortality and interest rates for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.
- An increase in the annual pay limit under IRC section 401(a)(17) from \$330,000 in 2023 to \$345,000 in 2024 and an increase in the IRC section 415 dollar limit for defined benefit plans from \$265,000 in 2023 to \$275,000 in 2024.

Schedule SB, line 24 — Change in Actuarial Assumptions

Assumption Changes

The funding valuation reflects the following assumption changes:

- A change in the retirement assumption for active participants to the assumption shown in Table 2.
- A change in the retirement assumption for deferred vested participants to the assumption shown in Table 3.
- A change in the withdrawal rates for active participants to the assumption shown in Table 4.

The non-regulatorily-prescribed assumption changes decreased the Funding Target by about \$78 million, which caused the funding shortfall to decrease by more than the threshold stated in IRC section 430(h)(5). However, in total, all plans in the controlled group with unfunded vested benefits on a PBGC premium basis have less than \$50 million in unfunded vested benefits on that basis before any assumption changes. Therefore, approval from the IRS Commissioner is not required.

The rationales for selecting each of the assumptions used in the funding valuation and for the assumption changes summarized above are to comply with regulatory requirements and to best reflect future anticipated plan experienced.
