Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, P.C.**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

The Plan Administrator
Kennametal Inc. and UAW Including Local 1059 Pension Plan
for Hourly Rated Production and Maintenance Employees
Fort Mill, South Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Kennametal Inc. and UAW Including Local 1059 Pension Plan for Hourly Rated Production and Maintenance Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Kennametal Inc. and UAW including Local 1059 Pension Plan for Hourly Rated Production and Maintenance Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan was originally established on November 27, 1954. The Plan has been amended from time to time to bring it into compliance with current changes in federal laws and rules. The Plan is a noncontributory defined benefit plan covering all hourly rated production and maintenance employees who were previously employed by Kennametal Inc.'s (the Company) Kingston, Chestnut Ridge, Latrobe and Loyalhanna plant locations prior to their closure. Prior to January 1, 2018, all plan participants have either commenced pension payment or are classified as terminated vested participant.

Pursuant to a collective bargaining agreement between the Company and UAW Local 1059, the Plan was amended effective June 20, 2011 to increase the benefit multiplier or unit of benefit for participants retiring on or after January 1, 2012. Further effective June 20, 2011, no new hires/rehires are eligible to participate in the Plan. Those employees have been and will continue to be enrolled in the Kennametal Thrift Plus Plan, another qualified plan sponsored by the Company. The amendment also provides for certain benefits for a participant's surviving spouse in the event of a participant's retirement or death.

Administration - The management of the Company has hired CBIZ, Inc. to perform the general administration of the Plan. U.S. Bank, N.A. (US Bank) functions as the trustee.

The Plan is governed by the Company's ERISA Compliance Committee (Committee). This Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors.

Eligibility and Vesting - All eligible employees became participants of the Plan on the date of the first working day of the month coinciding with or following the completion of one (1) hour of service and participants cliff vested after five (5) years of continuous service, prior to the closure of the facilities.

Pension Benefits - Monthly benefits paid to participants retiring at age 65 (normal retirement) are generally determined from a formula in which a set dollar amount (called a unit of benefit) is multiplied by the total years of credited service, as defined within the Plan document, up to a certain maximum limit. The unit of benefit amount and maximum years of credit service change periodically throughout the life of the Plan. For retirements after January 1, 2015, the benefit accrual was changed to \$45.00 for each year of credited service before January 1, 2015 plus \$46.00 for each year of credited service after January 1, 2015. The Plan also offers an early retirement option after age 60 and ten (10) years of service with reduced benefits. The early retirement option was adjusted in conjunction with the closure of the Kingston Plant to permit those who were age 58 and had attained ten (10) years of service as of the date of the closure to elect the early retirement option. The Plan also provides for certain benefits for a participant's surviving spouse in the event of a participant's death, subject to an adjustment based on years of service.

Death and Disability Benefits - In the case of a participant who has a spouse, is vested in his or her accrued benefit and dies before his or her annuity starting date (which includes death before the date on which a participant's disability benefit is converted into a normal pension benefit), whether or not such participant is still employed by the employer immediately prior to death, a qualified retirement survivor annuity shall be payable to such surviving spouse. Notwithstanding the foregoing, if the participant died prior to age 60 and prior to July 1, 1996 and waived coverage of the qualified preretirement survivor annuity, no qualified preretirement survivor benefit shall be payable to the surviving spouse. (Prior to July 1, 1996, there is a charge for qualified preretirement annuity coverage prior to age 60.)

For participants prior to June 1, 1996, the disability benefit shall be an amount equal to the participant's accrued benefit as of the date he or she is eligible for disability benefits to commence. Plan participants who became disabled after May 31, 1996 shall not be eligible to receive disability benefits. However, if a disabled participant is not eligible, or could not become eligible, for a federal social security benefit for disability or an unreduced federal social security benefit for age, such disabled participant's disability benefit shall be equal to twice his or her accrued benefit for any month prior to his or her attainment of age 65 or becoming eligible for an unreduced federal social security benefit, whichever occurs first.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting - The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan holds an undivided interest in the net assets of the Kennametal Inc. Master Trust (Master Trust) as of December 31, 2024 and 2023. The Master Trust investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisors, investment consultants, and the trustee. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan interest in Kennametal Inc. Master Trust investment income includes the Plan's gains and losses on investments bought and sold as well as held during the year and interest and dividends.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Funding Policy - Each year, the Plan's consulting actuary makes an actuarial calculation and reports on the contribution required to fund the Plan for the year. The Plan was fully funded as of December 31, 2024 under the Employee Retirement Income Security Act of 1974 (ERISA), as amended; therefore, no contributions were required for 2024.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in the Plan interest in Kennametal Inc. Master Trust investment income presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Subsequent Events - Subsequent events are defined as events or transactions that occur after the Statement of Net Assets Available for Benefits date, but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through October 14, 2025, the date that the financial statements were issued and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements.

NOTE 3 - UNDIVIDED INTEREST IN THE KENNAMETAL INC. MASTER TRUST

The Plan invests in the Master Trust, which was established for the investment of assets of the Plan, and one other Kennametal Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions (if any) and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's undivided interest in the net assets of the Master Trust was approximately 3 percent. Investment income and certain administrative expenses, such as contract administrator and investment management fees, relating to the Master Trust are allocated to the individual plans based upon the average monthly balance invested by each plan.

The following table presents the investments of the Master Trust and the Plan's undivided interest as of December 31:

	2024		2023	
	Master Trust Balances	Plan's Undivided Interest in Master Trust Balances	Master Trust Balances	Plan's Undivided Interest in Master Trust Balances
Corporate fixed-income securities	\$ 318,239,223	\$ 10,374,129	\$ 340,214,515	\$ 11,023,532

The Master Trust has no other assets or liabilities for December 31, 2024 and 2023.

The Master Trust had the following investment income for the year ended December 31, 2024:

Net depreciation in fair value of investments	<u>\$ (6,107,153)</u>
Interest	19,789,180
Dividends	456,858
Total interest and dividends	<u>20,246,038</u>
Total investment income	<u>\$ 14,138,885</u>

Refer to Note 4 for a description of the valuation methodologies used.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices to active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value by the Master Trust. There have been no changes in methodologies used at December 31, 2024 and 2023.

The investments held by the Master Trust that are measured at net asset value (NAV) do not have any unfunded commitments as of December 31, 2024 and 2023.

Common/Collective Trusts - Investments in common/collective trusts are valued using NAV of units of a collective trust. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The following table outlines the investment, investment holdings, and fair value at December 31:

Investment	Investment Holdings	Fair Value	
		2024	2023
Russell 1000 Growth & Value	Domestic Equities	\$ 49,634,290	\$ 50,978,398

Corporate Fixed-Income Securities and State and Local Obligations - Investments in corporate fixed-income securities and state and local obligations consist of corporate debt and asset-backed securities. These securities were priced by third-party specialists utilizing prices for similar securities, treasury curve, swap curve, yield curve, and other observable market data as inputs to a standard pricing model.

Government Securities - Investments in government securities consist of fixed-income securities and asset and mortgage- backed securities. Investments in fixed-income securities consist of U.S. government and agency obligations and foreign government bonds. These securities were priced by third- party specialists utilizing yields, recent prices for similar securities, treasury curve, credit spreads and other observable market data as inputs to a standard pricing model.

Mutual Funds - Investments in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Short-Term Investments - Short-term investments consist of interest-bearing cash and collective short-term investment funds. These funds typically include cash, corporate notes, and various short-term debt instruments. Short-term investments are measured at fair value using quoted market prices.

Common Stocks - Investments in common stocks are valued at their quoted market price at the date of the statements of net assets available for benefits date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated benefits include benefits expected to be paid to a) retired or terminated employees or their beneficiaries, b) beneficiaries of employees who have died, and c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The following actuarial assumptions utilized in determining the actuarial present value of accumulated benefits as of December 31, 2024 and 2023 are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

The result of the changes in interest rate is reflected in the changes in actuarial present value of accumulated plan benefits for the year ended December 31, 2024. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences.

Interest rate - December 31, 2024 and 2023	6.40% and 6.50%, respectively.
Mortality basis - December 31, 2024 and 2023	Pri-2012 for employees and non-disabled annuitants with blue collar adjustment with generational projection Scale MP-2021 for 2024 and 2023.
Normal retirement age	Age 65 with 5 years of service

The actuarial present value of accumulated benefits consisted of the following as of December 31:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated benefits:		
Vested benefits:		
Participants currently receiving benefits	\$ 8,262,097	\$ 8,470,933
Other participants	<u>1,243,375</u>	<u>1,504,452</u>
Total Vested Benefits	<u>9,505,472</u>	<u>9,975,385</u>
Total Actuarial Present Value of Accumulated Benefits	<u>\$ 9,505,472</u>	<u>\$ 9,975,385</u>

Changes in the actuarial present value of accumulated benefits for the year ended December 31, 2024 are as follows:

Actuarial present value of accumulated benefits, beginning of year	<u>\$ 9,975,385</u>
Decrease during the year attributable to:	
Increase for interest	610,745
Change in actuarial assumptions	68,959
Actuarial losses	9,011
Benefits paid	<u>(1,158,628)</u>
Net decrease	<u>(469,913)</u>
Actuarial Present Value of Accumulated Benefits, End of Year	<u><u>\$ 9,505,472</u></u>

NOTE 6 - INFORMATION CERTIFIED BY THE TRUSTEE

Certain investment information disclosed in the accompanying financial statements related to the Plan interest in Kennametal Inc. Master Trust as of December 31, 2024 and 2023, and Plan interest in Kennametal Inc. Master Trust investment income for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by US Bank, the trustee of the Plan, a qualified institution.

NOTE 7 - TAX STATUS

The Plan obtained a determination letter, dated August 19, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving this determination letter. However, the Plan administrator and its advisor believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to suspend or terminate the Plan for any reason at any time, subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding a Plan termination.

- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Benefits to be provided via contracts under which Kennametal is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 - RISKS AND UNCERTAINTIES

The investments discussed in Notes 3 and 4 are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the values of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and actuarial present value of accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

NOTE 10 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions of the Plan are performed by employees of the Plan Sponsor at no cost to the Plan. No other officer or employee receives compensation from the Plan.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- Preretirement death benefit The later of death of participant or the date the participant would have attained age 55
- Deferred vested benefit Age 65

Form of payment

For valuation purposes, participants are assumed to elect form of payment according to the following table:

Form of Payment Election by Decrement and Percentage		
Decrement	Single Life	J&S 55%
Future Deaths	0	100
Current Terminated Vested	100	0

Percent married

80% of males; 70% of females

Spouse age

Wife three years younger than husband

Administrative expenses

Based on the administrative expenses paid in the prior year rounded up to the next \$10,000

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits

The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability benefits, Social Security benefits, death benefits and other ancillary benefits.

SCHEDULE SB ATTACHMENTS

Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Fair value of assets, including contributions receivable
Funding policy	Kennametal Inc.'s funding policy is to contribute an amount at least equal to the minimum required contribution under ERISA. Kennametal Inc. may increase its contribution above the minimum, if appropriate to its tax and cash position and the plan's funded status.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Kennametal regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Kennametal and, based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Kennametal Inc. furnished participant data as of January 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Assumptions

Except for those assumptions noted below, the rationale for all significant assumptions is detailed in the presentations sent to Kennametal dated July 17, 2024.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2023 to January 2024.
- The mortality table used to calculate the funding target and target normal was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The discount rate used for ASC 960 was updated from 6.25% to 6.50%.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Fair value of assets, including contributions receivable
Funding policy	Kennametal Inc.'s funding policy is to contribute an amount at least equal to the minimum required contribution under ERISA. Kennametal Inc. may increase its contribution above the minimum, if appropriate to its tax and cash position and the plan's funded status.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Kennametal regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Kennametal and, based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Kennametal Inc. furnished participant data as of January 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Assumptions

Except for those assumptions noted below, the rationale for all significant assumptions is detailed in the presentations sent to Kennametal dated July 17, 2024.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2023 to January 2024.
- The mortality table used to calculate the funding target and target normal was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The discount rate used for ASC 960 was updated from 6.25% to 6.50%.

Benefits Paid Upon the Following Events

Normal retirement

Retirement on or after January 1, 2011:
\$33.00 for each year of credited service before January 1, 2011, plus \$34.00 for each year of credited service after January 1, 2011.

Retirement on or after January 1, 2012:
\$37.00 for each year of credited service before January 1, 2012, plus \$38.00 for each year of credited service after January 1, 2012.

Retirement on or after January 1, 2013:
\$39.00 for each year of credited service before January 1, 2013, plus \$40.00 for each year of credited service after January 1, 2013.

Retirement on or after January 1, 2014:
\$41.00 for each year of credited service before January 1, 2014, plus \$42.00 for each year of credited service after January 1, 2014.

Retirement on or after January 1, 2015:
\$45.00 for each year of credited service before January 1, 2015, plus \$46.00 for each year of credited service after January 1, 2015.

Note: years of credited service shall not exceed 47; provided, however, any participant retiring or terminating employment with more than 48 years of credited service will be deemed to have accrued at least one year of such credited service under the future service multiplier (e.g. \$40.00 credited for one full year if terminating in 2013).

Prior to 2012, a Special Age 65 benefit of \$35.00 was payable monthly at age 65 to participants who retire no later than age 65. This benefit was removed during the April 26, 2011 negotiations.

SCHEDULE SB ATTACHMENTS

**Normal retirement
(continued)**

Effective August 1, 1997, monthly benefit amounts for retirees were increased according to the following:

Benefit Increases	
Calendar year of retirement	Percent increase
Before 1983	30
1983 to 1987	20
1988 to 1992	10
After 1992	0

Early retirement

The normal retirement benefit reduced ½ of 1% for each month that the benefit commences prior to age 62. An employee with 30 or more years of service who retires between 60 and 62 may receive his full unreduced pension plus a monthly supplement paid until age 62 equal to \$1,350 minus the total of all pension and other company-funded payments made to the employee. The age 60 eligibility was lowered to age 58 as of January 31, 2015.

Postponed retirement

The deferred retirement benefit is the benefit calculated including service after age 65

Vested termination

The normal retirement benefit deferred to age 65 or payable after eligibility for early retirement is satisfied. Assumes age 65 as plan provides for actuarial equivalence.

Disablement

An immediate monthly benefit equal to the normal retirement benefit credited to the participant at the date of disability. At the participant's normal retirement date, the benefit is recalculated based on the current plan provisions and credited service at the time disability benefits commenced.

Preretirement death

Death before age 60 with less than 10 years of continuous service:

An amount equal to the survivor's portion of a qualified joint and survivor annuity computed as if the participant had terminated employment on his or her date of death (or, if earlier, actual separation from service), received payment in the form of such annuity on his or her normal retirement date, and died the next day.

Death before age 60 with at least 10 years of continuous service:

An amount equal to the survivor's portion of a qualified joint and survivor annuity computed as if the participant terminated employment on his or her date of death, survived to age 60, commenced his or her early pension benefit subject to reduction for early commencement in the form of such annuity, and died the next day.

Death on or after age 60 with at least 10 but less than 30 years of credited service:

An amount equal to the survivor's portion of a qualified joint and survivor annuity computed as if the participant retired on the day before his or her death, commenced his or her early pension benefit subject to reduction for early commencement in the form of such annuity, and dies the next day.

Death on or after age 60 and completion of 30 years of credited service:

An amount equal to the survivor's portion of a qualified joint and survivor annuity computed as if the participant had retired on the day before his or her death with a 30-year early pension benefit (i.e., unreduced for early commencement), began to receive payment in the form of such annuity and died the next day.

Death on or after normal retirement age:

An amount equal to the survivor's portion of a qualified joint and survivor annuity computed as if the participant had retired on the day before his or her death, began to receive payment in the form of such annuity, and died the next day.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid in the form of an actuarially equivalent 55% joint and survivor annuity option if married, or a life annuity if single. If the participant elects and the spouse consents, other actuarially equivalent optional forms are offered by the plan. Optional forms include a 75% and 100% joint and survivor annuity, or a lump sum if the value is less than \$25,000.
Optional form conversion factors	The 55% joint and survivor annuity is 95% of the life annuity, adjusted for the difference in ages between the participant and his or her spouse. All other forms are actuarially equivalent to the life annuity.
Pension increases	Not applicable
Plan participants' contributions	None required or permitted
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.
