Independent Auditors' Report

To the Participants and Plan Administrator of
Peoples Security Bank & Trust Co. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Peoples Security Bank & Trust Co. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2024, is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedules, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Plan Description and Basis of Presentation

The following description of the Peoples Security Bank & Trust Co. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan that was established effective January 1, 1984, and was last amended and restated effective as of January 1, 2015 and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended, (ERISA). Employees of Peoples Security Bank & Trust Company (the Company) who meet the eligibility requirements are participants in the Plan. The Plan is administered by an Employee Benefits Administration Committee (the Committee). The Trust Department of the Company is the Plan's Trustee.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after completion of one year of service and attainment of age twenty-one. Participants who do not have at least 1,000 hours of service during such plan year, do not meet the age requirement or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes disabled or otherwise terminates employment with the Company.

Upon retirement, death, disability or termination of service, if the participant's vested employer contribution account is greater than \$5,000, the participant may elect to receive (a) a lump sum amount equal to the value of his or her account, or (b) installments made in equal amounts over a term certain period of not more than the life expectancy of the participant or the life expectancy of the participant and his survivor.

Notwithstanding the above, if the vested employer contribution account is not greater than \$5,000 (or such higher amount as permitted by law), the benefit shall automatically be paid in a lump sum.

Note 1 - Plan Description and Basis of Presentation - (Continued)

Payment of Benefits - (Continued)

Unless the participant or beneficiary elects otherwise, distribution of benefits shall be made in whole shares of Company common stock. Balances representing fractional shares shall be distributed in cash. To the extent that Company common stock is not available for distribution when distribution of an amount is due hereunder, payment of such amount shall be delayed until the employer stock becomes available.

Under written request of a participant or beneficiary filed with the Committee and upon the Committee's approval of such request, a participant or beneficiary may elect, before commencement of payments, to receive their benefits in cash instead of Company common stock. Such election to receive a cash distribution shall become irrevocable after the Committee's approval.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee in writing prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any share for which instructions have not been given by a participant.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, all affected participants shall be one hundred percent vested and the interest of each participant in the plan will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (IRC). Upon termination of the Plan, the Committee shall direct the Trustee to pay all liabilities and expenses of the plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account shall be increased by the participant's share of employer contributions, forfeitures, investment income and market value appreciation of the common stock. It shall be decreased by the participant's share of market value depreciation of the common stock, by benefit payments and, if applicable, administrative expenses. Allocations are based on participant earnings or account balances, as defined. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Note 1 - Plan Description and Basis of Presentation - (Continued)

Vesting

Vesting is based on years of service. A participant is one hundred percent vested after five years of credited service.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified.

For Plan years beginning after December 31, 1986, each participant who has completed ten years of service as a participant and has attained age 55 may elect in writing, within ninety days after the close of each Plan year during the qualified election period, a distribution in Company common stock equal to twenty-five percent of the total number of shares of Company stock acquired by or contributed to the Plan after December 31, 1986 that have been allocated to such qualified participant's company stock account. The percentage is increased to fifty percent in the sixth year after the participant has met these requirements. Effective October 1, 2012, if a qualified participant elects to direct the investment of his post-1986 account, the Trustee shall convert the designated amount of Company common stock to its fair market value cash equivalent and distribute the cash to the participant. The participant may elect to roll the cash to an eligible retirement plan.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants as of December 31, 2024 amounted to \$547.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Investment Valuation and Income Recognition

The Company common stock is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

On July 25, 2025, the Board of Directors adopted a Resolution which states that the ESOP would be merged into the Peoples Security Bank 401(k) Profit Sharing Plan effective as of October 31, 2025.

The Plan has evaluated subsequent events through October 10, 2025, the date the financial statements were available to be issued.

Note 3 - Administration of Plan Assets and Parties in Interest

The Plan's assets, which consist principally of Peoples Financial Services Corp., the parent of the Company, common stock and special money market fund, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. All administrative expenses for trustee and accounting fees were paid directly by the Company and excluded from these financial statements.

Note 4 - Investments

The Plan's investments are held by the Trust Department of Peoples Security Bank & Trust Company. All investments in the Plan are nonparticipant-directed.

	<u>2024</u>	<u>2023</u>
Peoples Financial Services Corp. Common Stock		
Number of shares	<u>110,123</u>	<u>111,124</u>
Cost	<u>\$3,819,099</u>	<u>\$3,851,724</u>
Fair value	<u>\$5,636,095</u>	<u>\$5,411,739</u>

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common Stock: Valued at the closing price reported in the active market in which the individual security is traded.

Money market: Valued at the quoted net asset value of shares held by the Plan at year end.

Note 5 - Fair Value Measurements- (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

		December 31, 2024			
		Level 1	Level 2	Level 3	Total
Peoples Financial Services Corp. common stock, 110,123 shares		\$ 5,636,095	\$ -	\$ -	\$ 5,636,095
Money Market		-	370,557	-	370,557
	Total investments at fair value	<u>\$ 5,636,095</u>	<u>\$ 370,557</u>	<u>\$ -</u>	<u>\$ 6,006,652</u>

		December 31, 2023			
		Level 1	Level 2	Level 3	Total
Peoples Financial Services Corp. common stock, 111,124 shares		\$ 5,411,739	\$ -	\$ -	\$ 5,411,739
Money Market		-	226,741	-	226,741
	Total investments at fair value	<u>\$ 5,411,739</u>	<u>\$ 226,741</u>	<u>\$ -</u>	<u>\$ 5,638,480</u>

Note 6 - Employer Contribution

Each calendar year, the Company contributes to the Plan the smaller of an amount determined by the Board of Directors of the Company or the maximum amount allowable as a deduction under the IRC. There were no contributions made for the Plan year ended December 31, 2024 and 2023.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 27, 2016, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes the Plan continues to be operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
