INDEPENDENT AUDITORS' REPORT

To the Retirement Board of and Participants in
The Southern Company Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Southern Company Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings and certain internal control related matters that we identified during the audits.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, and schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

1. DESCRIPTION OF PLAN

The following description of The Southern Company Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the official Plan document for complete information.

General

The Plan is a noncontributory defined benefit pension plan covering substantially all employees of The Southern Company and its affiliates (the Company) following completion of one year of service. The Plan Administration Committee, which is appointed by the Fiduciary Oversight Committee of the Board of Directors of the Company, controls and manages the operation and administration of the Plan. The Plan Administration Committee shall be referred to as the Retirement Board. The Pension Fund Investment Review Committee (PFIRC) monitors the performance of the Plan's portfolio of investments. J.P. Morgan Chase Bank, N.A. (the Trustee) serves as the trustee of the Plan and, together with several investment managers, manages the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan's investment assets are held in a trust account with the Trustee.

Pension Benefits

Participants with five years of vesting service, as defined by the Plan, are entitled to pension benefits upon retirement. If employees terminate before rendering five years of vesting service, the employee shall immediately forfeit any retirement income under the Plan based on service prior to such termination. Normal retirement age is 65; participants who are age 50 with ten years of accredited service may elect early retirement. Pension benefits are provided to participants under several types of retirement formulas based upon years of accredited service or accredited service and final average compensation, as defined by the Plan document. Retirement benefits are paid to pensioners or beneficiaries in various forms of single life or joint and survivor annuities.

Effective January 1, 2018, the Plan was amended to implement a cash-balance design for employees who are hired on or after January 1, 2018, and who are either not represented by a collective bargaining agent or represented by a collective bargaining agent whose bargaining unit has agreed to such change. The cash balance design also includes Southern Company Gas (covered and noncovered, as defined) employees who were not eligible for the former AGL Pension Plan as of January 1, 2018. The cash balance pay credits are 5.50% of eligible compensation, as defined, and interest is credited based upon the ten-year treasury rate (average for August, September and October from the prior year) with a 3.0% floor.

Effective January 1, 2018, the Plan was also amended to revise the definition of normal retirement date as it applies to participants hired on or after their 60th birthday, clarify the timing of participant elections of the voluntary lump-sum option and state that retirement income will not be suspended if a participant is rehired by an affiliated employer and is not eligible to participate under any pension plan maintained by such affiliated employer, as defined.

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

401(h) Account

The Plan includes a medical benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (IRC). A separate account has been established and maintained by the Plan for the net assets related to the medical benefit component [401(h) account]. In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the Plan in a qualified transfer of excess pension Plan assets (and any income allocable thereto) that are not used during the Plan year must be transferred out of the account to the Plan. The related obligations for health benefits are not included in the Plan's accumulated plan benefits but are reflected as obligations in the financial statements of a health and welfare benefit plan also sponsored by the Company. Plan participants do not contribute to the 401(h) account.

Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Company. Some of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The PFIRC determines the Plan's valuation policies utilizing information provided by its investment advisors and Trustee. See Note 4 for a discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are either paid by the Company or charged to or reimbursed by the Plan, as provided in the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Plan's funding policy is for the Company to make at least the minimum required contribution to the Plan in amounts as determined by the Plan's independent actuary in accordance with ERISA. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

The actuarial present value of accumulated plan benefits as of January 1, 2024, is as follows (in thousands):

VESTED BENEFITS

Participants and/or beneficiaries currently receiving benefits	\$ 5,348,184
Other participants	<u>2,890,888</u>

TOTAL VESTED BENEFITS	8,239,072

NONVESTED BENEFITS	<u>64,340</u>

TOTAL ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	<u><u>\$ 8,303,412</u></u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2024, are as follows (in thousands):

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	<u>\$ 8,044,873</u>

INCREASE (DECREASE) DURING THE YEAR ATTRIBUTABLE TO

Benefits accumulated and other	239,445
Benefits paid	(691,402)
Assumption changes	63,180
Interest due to the decrease in the discount period	<u>647,316</u>

TOTAL ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	<u><u>\$ 8,303,412</u></u>

The significant actuarial assumptions used in the January 1, 2024, valuations are as follows:

- Mortality Rates Healthy:
Amounts weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2021, as adjusted to reflect anticipated near-term and long-term endemic effects of COVID-19.
- Mortality Rates Disabled:
Blended table with 50% base rates of the amounts weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2021, and 50% of the amounts weighted disabled retiree rates from the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2021, as adjusted to reflect anticipated near-term and long-term endemic effects of COVID-19.
- Interest Rate: 8.30% (8.40% net of .010% for administrative expenses).
- Retirement Age for Terminated Vested Employees: Age 60-65.
- Current IRC section 417 (e) table for lump sums.
- Standard Unit Cost Method.
- Cash Balance Interest Crediting Rate: 3.75%.

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

A majority of the assumption changes, which resulted in assumption changes within the accumulated plan benefits, resulted from an adjustment in the interest rate in 2024 from 8.4% to 8.3%. The other assumption changes resulted from the following: 1) a change in the mortality basis for lump-sum payments from the 2023 Plan year IRC section 417(e)(3) mortality table to the 2024 Plan year IRC Section 417(e)(3) mortality table; 2) a change in interest rate conversion assumption for lump-sum payments from the 2023 funding segment rates (2.13%, 3.62%, 3.93%) to the 2024 funding segment rates (4.37%, 4.96%, 4.95%); 3) a change in the inflation rate from 2.50% to 2.30% to reflect market conditions; 4) a change in the national average wage increases from 3.50% to 3.30% to reflect market conditions; 5) a change in near-term base pay increases to reflect an additional increase of 75 bps in 2024, 50 bps in 2025 and 25 bps in 2026; and 6) a change in the cash balance interest crediting rate from 3.25% in 2023 to 3.75% in 2024.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Valuation was performed as of January 1, 2024; however, performing the valuation on December 31, 2023, would not result in a material difference.

4. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

The following is a description of the valuation methods of the primary fair value measurements of investments held by the Plan. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds, money market funds, real estate investment trusts and corporate stocks: Valued at the closing price in the active market.

Corporate debt securities, government securities, and foreign and agency securities: Valued based on prices reported in the marketplace. Additionally, the value of fixed income securities takes into consideration certain items such as broker quotes, spreads, yield curves, interest rates and discount rates that apply to the term of a specific instrument.

Common collective trust (CCT) funds and real estate open-end funds: Valued at the net asset value (NAV) of units of a trust fund. The NAV, as provided by the Trustee of the fund, is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no redemption restrictions on these funds.

Swap contracts: Valued by an independent pricing service that is widely used by market participants. The swap contracts are priced via observable market assumptions with appropriate adjustments for liquidity and credit risk and are cleared daily.

Futures contracts: Valued at the last settlement price at the end of each day on the exchange upon which they are traded.

Private equity and joint venture and real estate trust investments: Investments in joint venture and private equity are classified as NAV as a practical expedient, since the underlying assets typically do not have publicly available observable inputs. The fund manager values the assets using various inputs and techniques depending on the nature of the underlying investments. Techniques may include purchase multiples for comparable transactions, comparable public company trading multiples, discounted cash flow analysis, prevailing market capitalization rates, recent sales of comparable investments, and independent third-party appraisals. The fair value of partnerships is determined by aggregating the value of the underlying assets less liabilities. For those limited partnership funds and joint venture interest investments whose fair values are estimated (\$2.267 billion and \$2.149 billion, at December 31, 2024 and 2023, respectively), due to the inherent uncertainty of valuation, the estimated fair values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. There are no redemption restrictions.

The investment strategy of the private equity and joint venture investments is as follows:

Private equity and joint ventures – Traditionally, these are investments in private partnerships that invest in private or public securities typically through privately-negotiated and/or structured transactions, including leveraged buyouts, venture capital and distressed debt. These investments accounted for approximately \$2.2 billion and \$2.1 billion as of December 31, 2024 and 2023, respectively. These investments may also include special situation investments. These

investments have opportunistic strategies with the objective of diversifying and enhancing returns and exploiting short-term inefficiencies, as well as investments in promising new strategies of a longer-term nature. Special situation investments were approximately \$223 million and \$243 million as of December 31, 2024 and 2023, respectively.

The investment real estate joint ventures include investments in traditional private market, equity-oriented investments in real properties (indirectly through pooled funds or partnerships) and in publicly traded real estate securities. Real estate joint venture investments were approximately \$325 million and \$305 million as of December 31, 2024 and 2023, respectively.

*In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per unit (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits. If an investment is measured using the NAV per share (or its equivalent) as the practical expedient in ASC 820 and that investment is in a fund that files a Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

Gains and losses (realized and unrealized), included in changes net assets at December 31, 2024 and 2023, are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

5. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used primarily to rebalance the fixed income/equity allocation of the Plan's portfolio and to hedge the currency risk component of the Plan's foreign investments. Some of the fixed income investment managers are permitted to use certain specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures, forward agreements and options as substitutes for certain types of fixed income securities. Use of derivatives instruments for purposes of speculation is prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the Plan's related assets.

Forward Foreign Contracts

The Plan enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Plan's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal, as they are entered into with a limited number of highly rated counterparties.

The Plan reflects the fair value of all forward contracts as an asset or liability in the Plan's financial statements. The fair values associated with the foreign currency contracts have been estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the statements of net assets available for benefits, forward contracts to purchase foreign currency are shown as currency contract payables, and forward contracts to sell foreign currency are shown as currency contract receivables. Changes in fair value are accounted for as net appreciation in fair value of investments.

Futures Contracts

The Plan enters into futures contracts in the normal course of its investing activities to manage market risk associated with the Plan's equity and fixed income investments, including associated currency exposures, and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal, as they are traded on organized exchanges and settled daily.

During 2024 and 2023, the Plan was a party to futures contracts held-for-trading purposes for the Standard & Poor's 500 Index, S&P Mid-Cap 400 Equity Index, MSCI EAFE Equity Index, Russell 2000 Index, U.S. Treasury bonds and notes, and certain foreign indices, bonds and currencies. Upon entering into a futures contract, the Plan is required to deposit either in cash or securities an amount (initial margin) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the Plan, depending on the daily fluctuation

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

in the value of the underlying contracts. Changes in fair value are accounted for as net appreciation in fair value of investments. For the years ended December 31, 2024 and 2023, the net depreciation (unrealized and realized gains/losses) associated with futures contracts was approximately (\$24) million and (\$47) million, respectively.

6. SECURITIES LENDING

The Plan participates in a securities lending program through its Trustee. Securities lending is an investment management enhancement that utilizes certain existing securities of the Plan to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers. In return for the loaned securities, the Trustee, prior to or concurrently with delivery of the loaned securities to the borrower, receives collateral in the form of cash or U.S. government securities as a safeguard against possible default of any borrower on the return of the loan under terms that permit the Plan to re-pledge or sell the securities.

Each loan is initially collateralized, in the case of: (1) loaned securities denominated in U.S. dollars or whose primary trading market is located in the United States, or (2) loaned securities not dominated in U.S. dollars or whose primary trading market is not located in the United States. The collateral is marked to market on a daily basis. In the event the counterparty is unable to meet its contractual obligation under the securities lending arrangement, the Plan may incur losses equal to the amount by which the market value of the securities differ from the amount of collateral held. The Plan mitigates credit risk associated with securities lending arrangements by monitoring the fair value of the securities loaned, with additional collateral obtained or refunded as necessary.

The Plan maintained full ownership rights to the securities loaned, and accordingly, classifies loaned securities as investments. Because the securities received as collateral may be re-pledged or sold, the Plan recognizes the amount of collateral received and a corresponding obligation to return such collateral on the statements of net assets available for benefits. At December 31, 2024 and 2023, approximately \$785 million and \$784 million, respectively, of the fair value of the Plan's securities were on loan under the securities lending program. The fair value of the securities on loan was approximately \$803 million and \$802 million as of December 31, 2024 and 2023, respectively. Income from the program was \$1.8 million and \$3.9 million for the years ended December 31, 2024 and 2023, respectively.

7. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) determined and informed the Company by a letter dated May 2, 2011, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Company, PFIRC and the Retirement Board believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**THE SOUTHERN COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, including the IRS. The Plan is not currently under IRS examination for any Plan years.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of a participant's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

9. PARTY-IN-INTEREST TRANSACTIONS

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions qualify as party-in-interest transactions under ERISA.

10. INFORMATION CERTIFIED BY THE TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and the ERISA-required supplemental schedules, including investments held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee of the Plan.

The partnerships and joint venture interests and real estate trusts were not certified as of December 31, 2024 and 2023.

Administrative expenses and other	(77,176)	(1,896)	(79,072)

12. PLAN LITIGATION

On September 2, 2022, a putative class action was filed in the United States District Court for the Northern District of Georgia alleging that the Southern Company Pension Plan miscalculated certain joint and survivor pension benefits by using outdated actuarial tables in violation of the ERISA. The Plan, the Plan administrator and the Company have been named as defendants. Plaintiffs filed an amended complaint on February 3, 2023, which Defendants promptly moved to dismiss. On September 8, 2023, the Court permitted Plaintiffs to file a second amended complaint. Defendants promptly filed a motion to dismiss. On July 30, 2024, the Court granted Defendants' motion to dismiss and dismissed the case without prejudice. Plaintiffs filed a notice of appeal to the Eleventh Circuit and briefing was completed on March 20, 2025. The appeal is pending. The Company believes the lawsuit is without merit; however, the ultimate outcome of the litigation cannot be predicted at this time.

13. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 9, 2025, which is the date the financial statements were available to be issued and has determined that there are no subsequent events that require disclosure under ASC Topic 855, *Subsequent Events*.

Surviving Spouse Benefit	It is assumed that 85% of males and 65% of females have an eligible spouse, and that males are two years older than their spouses. Certain participants previously elected an enhanced death benefit (joint and 100% survivor annuity). The cost of this enhanced benefit is paid through a reduction in the accrued benefit and is considered to be cost neutral to the plan for purposes of the valuation. As such, these enhanced benefits are not explicitly valued in the valuation. Participant Group C receive coverage free of charge prior to attainment of age 50. Thereafter, the accrued benefit is reduced if coverage is elected. The cost of this benefit is paid through a reduction in the accrued benefit and is considered to be cost neutral to the plan for purposes of this valuation. As such, pre-retirement death benefits for Participant Group C deaths occurring on or after age 50 are not explicitly valued in the valuation.
Valuation Compensation	2023 pensionable earning rolled forward one year with the salary increase assumptions. Incentives assumed to be payable at 155% of target. Incentive target for covered employees assumed to be 10%.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

The value of irrevocable insurance contracts, based on premiums paid prior to the valuation date, is excluded from the assets. (The value of the benefits payable under the contract is also excluded from the target liability.)

Preretirement Death

Eligibility

Completion of five years of vesting service.

Benefit

Survivor portion of the joint and 50% survivor annuity converted from the participant's accrued benefit using applicable early commencement reduction factors and form of payment conversion factors.

Spouse survivor benefit payable as early as first of the month following death if eligible for lump sum, otherwise participant's age 50. Lump sum of survivor benefit is available up to \$100,000.

Nonspouse survivor benefit payable only as a lump sum as soon as feasible based on the 50% survivor portion payable at normal retirement, and assuming the survivor and participant are the same age. Participant Group C not eligible for nonspouse survivor benefits.

Form of payment conversion factors:

- Table F1-A for Participant Group A (spouse survivor and retirement eligible at death) and Participant Group B (spouse survivor)
- Table F1-B for all nonspouse survivors and Participant Group D
- Plan actuarial equivalence for Participant Group A (spouse survivor and not retirement eligible at death) and Participant Group C (spouse survivor)

Early commencement reduction factors:

- Table A1 for Participant Group A (spouse survivor and retirement eligible at death) and Participant Group B (spouse survivor)
- Table A2 for Participant Group A (spouse survivor and not retirement eligible at death), Participant Group C (spouse survivor and death prior to age 50) and Participant Group D

Certain participants previously elected an enhanced 100% survivor death benefit, which is paid through a reduction in the accrued benefit. Participant Group C is charged for survivor benefit coverage beginning at age 50, which is paid through a reduction in the accrued benefit. Charges for these coverages have been ignored for purposes of this valuation because data was not available to determine charges. In addition, the enhanced

EIN: 63-0274273 PN: 001

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in inflation rate from 2.50% to 2.30% to reflect market conditions
- A change in National Average Wage increases from 3.50% to 3.30% to reflect market conditions
- A change in near term base pay increases to reflect an additional increase of 75bps in 2024, 50bps in 2025, and 25bps in 2026
- A change in cash balance interest crediting rate from 3.25% to 3.75%.
- A change in the unadjusted expected long-term rate of return on plan assets from 8.50% to 8.40%

These changes were made to better reflect the anticipated plan experience. These changes did not result in a decrease in the funding shortfall of the plan in excess of \$50,000,000 or both 5% of the funding target of the plan and \$5,000,000. As such, approval of the Commissioner is not required.
