**INDEPENDENT AUDITOR'S REPORT**

Trustees  
WC Enterprises, Inc. Employee  
Stock Ownership Plan  
Maumee, Ohio

**Opinion**

We have audited the accompanying financial statements of the WC Enterprises, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the WC Enterprises, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the WC Enterprises, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

---

An Independent Member of the BDO Alliance USA

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**Note 1 – Description of Plan and Significant Accounting Policies**

Description of Plan

The following brief description of the WC Enterprises, Inc. Employee Stock Ownership Plan (the Plan and the ESOP) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

WC Enterprises, Inc. (Company and Plan Administrator) established the WC Enterprises, Inc. Employee Stock Ownership Plan (the Plan) effective January 1, 2020, to provide employees with the opportunity to accumulate capital ownership in the Company. The Plan is a leveraged ESOP, and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an Administrative Committee appointed by the Board of Directors.

The main purpose of the ESOP is to hold shares of the Company and allocate benefits to participants. During 2021, the Plan purchased Company common stock using the proceeds of a Company loan and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of nine years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated common stock (Allocated) and;
2. Common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year and are 18 years of age. Participants who do not have at least 1,000 hours during such Plan year or are not employed on the last day of such Plan year are generally not eligible for an allocation of Company contributions for such year.

**Note 1 – Description of Plan and Significant Accounting Policies (continued)**

Use of Management's Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, an estimate of the fair market value of WC Enterprises, Inc. stock, which is determined annually by an independent appraiser, is used by management in the preparation of the Plan's financial statements. Actual results could differ from those estimates.

Payment of Benefits

Payments on account of death or retirement are made in a lump sum in the Plan year following the event. Payments for other separations from service commence in the sixth Plan year following the separation from service and may be made in five annual installments.

Payments can be made in cash or Company stock. Under the provisions of the Plan, if the ESOP does not repurchase participant shares, then the Company has the right of first refusal to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company did not repurchase any shares in 2024 or 2023.

Voting Rights

Company securities held by the Trust shall be voted by the Trustee at the direction of the Plan Administrator. Each participant and/or beneficiary is entitled to direct the voting of any Company securities allocated to his or her account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of the Company. With respect to the unallocated Company securities, and in all other instances, the Trustee shall exercise the voting rights.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their individual accounts.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account as well as an allocation of forfeitures of terminated non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

**Note 1 – Description of Plan and Significant Accounting Policies (continued)**

Vesting

If a participant's employment with the Company ends for any reason other than retirement or death, he or she will vest in the balances in his or her account based on total years of service with the Company. The following schedule describes the Plan's vesting provision.

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 3	0%
3 or more	100%

Put Option

Under Federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market or subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, a participant may diversify up to 50% of shares not previously diversified, as discussed in the Plan document. Participants who elect to diversify have their funds transferred to an eligible retirement plan for participant direction.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Note 1 – Description of Plan and Significant Accounting Policies (continued)**

Investment Valuation and Income Recognition

The shares of Company common stock will be valued at fair value. See Note 4 for discussion of fair value measurements.

Money market funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in money market funds are valued at net asset value.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Plan Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from the financial statements.

Forfeitures

Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2024 and 2023, totaled \$0.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2025, the date the financial statements were available to be issued.

**Note 2 – Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 7, 2022, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Therefore, the Plan is qualified and the related trust is tax-exempt.

**WC ENTERPRISES, INC. EMPLOYEE STOCK OWNERSHIP PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**Years Ended December 31, 2024 and 2023**

---

**Note 2 – Tax Status (continued)**

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 3 – Administration of Plan Assets**

The Plan's assets are held by the Trustee of the Plan, Mark G. Mills. Company contributions are held and managed by the Trustee, which invests cash received and makes distributions to participants. The Trustee administers the payment of interest and principal on the loan, which is funded through contributions to the Plan made by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company. The Company acts as Plan Administrator utilizing Blue Ridge ESOP Associates for professional administrative services.

**Note 4 – Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at measurement date;
- Level 2: Inputs to the valuation methodology include
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability; and

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Note 4 – Fair Value Measurements (continued)**

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The fair value of the Company's common stock is based on an annual independent appraisal using Level 3 inputs. The December 31, 2024 and 2023 appraisals were based on a combination of the market and income valuation approaches. The appraiser considered historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums. The Plan Administrator, under the supervision of the Trustee, determines fair value measurement policies and procedures. These policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

	Investments at Fair Value as of December 31, 2024		
	Level 1	Level 3	Total
Money market fund	\$ 28	\$ -	\$ 28
Common stock	-	3,876,923	3,876,923
Total investments at fair value	\$ 28	\$ 3,876,923	\$ 3,876,951

	Investments at Fair Value as of December 31, 2023		
	Level 1	Level 3	Total
Money market fund	\$ 24	\$ -	\$ 24
Common stock	-	4,200,000	4,200,000
Total investments at fair value	\$ 24	\$ 4,200,000	\$ 4,200,024

For level 3 investments, there were no purchases for the years ending December 31, 2024 and 2023. There were no issuances or transfers into or out of level 3 of the fair value hierarchy for the years ended December 31, 2024 and 2023.

**Note 5 – Company Common Stock**

The Plan's investments in Company common stock for December 31, 2024, are presented in the following table:

	December 31, 2024	
	Allocated	Unallocated
Cost	\$ 987,161	\$ 412,839
Fair Value	\$ 2,733,674	\$ 1,143,249
Number of common shares	379,677	158,784

The Plan's investments in Company common stock for December 31, 2023, are presented in the following table:

	December 31, 2023	
	Allocated	Unallocated
Cost	\$ 879,825	\$ 520,175
Fair Value	\$ 2,639,474	\$ 1,560,526
Number of common shares	338,394	200,067

**Note 6 – Loan Payable**

The Plan entered into a \$1,050,000 term loan agreement with the Company during 2021. The proceeds of the loan were used to purchase the Company's shares from the stockholder. All unallocated shares of the Company will be collateral for the loan. The agreement provides for the loan to be repaid annually over 9 years in variable annual installments ranging from \$70,000 to \$210,000, including interest at an annual rate of 1.98%.

The following is a schedule of future minimum principal payments on the above loan.

	Amount
2025	\$ 98,000
2026	84,000
2027	84,000
2028	84,000
2029	70,000
Total	\$ 420,000

**Note 7 – Employer Contributions**

The Company is obligated to make contributions in cash to the Plan, which when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

**Note 8 – Related-Party Transactions and Party-In-Interest Transactions**

As more fully described in Note 1, the Plan invests in the Company's common stock and purchased such shares from the former stockholder. As more fully discussed in Note 6, as part of the purchase agreement, the Plan obtained a loan from the Company. Interest paid on this loan totaled \$10,395 and \$13,167 for the years ended December 31, 2024 and 2023, respectively.

The Company paid all Plan expenses. The Company and service providers are parties-in-interest under ERISA.

**Note 9 – Risks and Uncertainties**

The Plan investments consist primarily of the Company's common stock, as well as other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The investment in the common stock exposes the additional risk of valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and certain investment securities, it is at least reasonably possible that changes in the values of common stock and certain investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
