Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KREISCHER MILLER**

(2) EIN: **23-1980475**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

Independent Auditors' Report

The Pension Administrative Committee
Arkema Inc. Retirement Benefits Plan
King of Prussia, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Arkema Inc. Retirement Benefits Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Arkema Inc. Retirement Benefits Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan

The following description of the Arkema Inc. Retirement Benefits Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan that covers certain domestic employees of Arkema Inc. (the Company) and provides for retirement and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Pension Administrative Committee, which has overall responsibility for the operation and administration of the Plan. The Pension Investment Committee is responsible for the determination and the appropriateness of the Plan's investment offerings and monitoring investment performance.

Effective January 1, 2007, the Plan was closed to new participants. Current employees who were less than 50 years of age on December 31, 2007 will not receive any additional credit for years of service under the Plan after that date; the pension benefit for these employees will continue to be based on final average salary at the time of retirement. Employees who were active on payroll and who were age 50 and older on December 31, 2007, and grandfathered employees from certain previously acquired companies, will be unaffected by this change.

During 2015, the Company acquired Bostik, Inc. and subsequently transferred assets from the Total Petrochemicals & Refining USA, Inc. Pension Plan (TPRI Plan) into the Plan. Effective December 31, 2000, participation in the TPRI Plan was closed to new Bostik employees, and active participants who were in the plan at that time continue to accrue a pension benefit. Any employee or former employee of Bostik, Inc. who was a participant in the TPRI Plan as of February 1, 2015, subject to certain terms and conditions, became a participant in the Plan.

The Company's policy is to voluntarily contribute such additional amounts necessary to provide assets sufficient to meet the benefits to be paid to the Plan's participants, and in amounts sufficient to meet minimum Internal Revenue Code (IRC) and ERISA funding requirements. The Plan has met the ERISA minimum funding requirements in 2024 and 2023.

Information about the Plan, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation (PBGC) benefits guarantee is contained in the Plan's summary plan description, copies of which are available from the Company's human resources department.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Pension Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Expenses

Substantially all expenses of the Plan are paid from the plan assets. Investment related expenses are included in net appreciation in the fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued.

(3) Certified Investments

Certain information related to investments in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments for the years then ended, was obtained by management and agreed to or derived from the information certified as complete and accurate by Russell Investments Trust Company (Russell), a qualified institution.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codifications* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(4) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common collective trusts: Valued at the net asset value (NAV) of units of a trust company collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Partnership: Valued based on annual audited financial information provided by the investment adviser and/or general partner. The partnership invests primarily in real estate, either directly or indirectly, through partnerships or limited liability companies. Fair value of the real estate is determined by appraisal or discounted cash flows analysis. Redemptions are permitted at the end of any calendar quarter upon 60 days written notice.

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

Certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

	<u>\$ 126,460,203</u>	<u>\$ 126,253,810</u>			

(a) The Private Markets Fund 2019 LP invests in direct investment in a diversified portfolio of private market funds, secondary purchases of interests in such portfolio funds and co-investments alongside third-party investment managers.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who are deceased and (c) present employees or their beneficiaries.

Benefits under the Plan are based on employees' compensation during years of credited service. The accumulated plan benefits for active participants are based on their credited service and benefit rates on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances including retirement, death and termination of employment are included to the extent they are deemed attributable to employee credited service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Mercer and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money through discounts for interest and the probability of payment by means of decrements such as for death, withdrawal, or retirement between the valuation date and the expected date of payment.

Significant assumptions underlying the actuarial computations are as follows as of January 1, 2024 and 2023:

Actuarial method	Projected unit credit
Rate of return on plan assets	5.89%
Mortality basis:	
Lump-sum mortality	The Uninsured Pensioner 1994 Table projected to 2002 (blended 50% male/50% female).
All participants	The PRI-2012 separate employee and retiree tables with contingent survivor adjustments for existing survivors and no collar adjustments applied with future improvements using the MP-2021 projections scale for 2024 and 2023.

Arkema Inc. Retirement Benefits Plan

Notes to Financial Statements

December 31, 2024 and 2023

(5) Actuarial Present Value of Accumulated Plan Benefits, Continued

The actuarial present value of accumulated plan benefits is as follows as of January 1:

	2024	2023
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 95,475,911	\$ 97,081,226
Other participants	73,117,492	86,742,211
Total vested benefits	168,593,403	183,823,437
Nonvested benefits	345,733	289,149
Total actuarial present value of accumulated plan benefits	\$ 168,939,136	\$ 184,112,586

The changes in the actuarial present value of accumulated plan benefits are as follows for the years ended January 1:

	2024	2023
Actuarial present value of accumulated plan benefits at beginning of period	\$ 184,112,586	\$ 223,469,926
Increase (decrease) during the year attributable to:		
Additional benefits accumulated	4,952,370	17,761,376
Interest due to decrease in the discount period	9,938,145	11,301,240
Change in actuarial assumptions	(1,663,721)	(10,084,670)
Benefits paid	(28,400,244)	(58,335,286)
Net decrease	(15,173,450)	(39,357,340)
Actuarial present value of accumulated plan benefits at January 1	\$ 168,939,136	\$ 184,112,586

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024 and 2023. Had the valuations been performed as of December 31, there would be no material differences.

(6) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the plan provisions in effect at any time during the five years preceding plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, the financial condition of the plan sponsor, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

(7) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by Russell. Russell is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction provisions of ERISA and IRC.

Notes to Financial Statements

December 31, 2024 and 2023

(8) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 28, 2017, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provision of the IRC, and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In each cell, the top number is the count of active participants for each age/service combination and the bottom number is average pay for 2023 limited to \$330,000. Average pay is not shown for certain cells such as those with fewer than 20 participants. For grandfathered and Bostik participants, credited service is used for this exhibit. For non-grandfathered participants, an adjusted amount is used for credited service to incorporate the number of years that pay growth has been reflected in the plan formula.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2024 funding valuation**

Economic assumptions			
• Segment rates or full yield curve	Segment		
• Look-back months	4		
	Stabilized	Nonstabilized	PBGC
• First 5 years	4.75%	3.62%	5.01%
• Next 15 years	4.87%	4.46%	5.13%
• Over 20 years	5.59%	4.52%	5.15%
Mortality sponsor elections			
• All participants	Section 430(h)(3) prescribed generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.		
Non-417(e) lump sums			
• Mortality table	The Uninsured Pensioner 1994 Table projected to 2002 (blended 50% male / 50% female)		
• Interest rate	3.80% per year		
417(e) lump sum basis			
• Annuity substitution (if 417(e) basis produces the larger value)	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.		
Other economic assumptions			
• Salary increases	4.30% per year for participants age 40 and under, 3.60% per year for participants between ages 41 and 50, and 3.10% per year for participants age 51 and over.		
• Social Security wage base	3.25% per year		
• Inflation for limits and COLA	2.25% per year		
• Expenses	\$1,100,000 added to current year normal cost		
• Expected investment return	6.00% for 2024 and 2023 plan years, 5.00% for 2022		

Rationale for Economic Assumptions

- Non-417(e) lump sums – The assumed single equivalent rate is estimated based on the benefit-weighted average of the 30-year treasury rate projection from Mercer Investment Consulting's Capital Market Outlook.
- Salary increases – The assumption is based on the July 2019 experience study report.
- Social Security taxable wage base increases – The assumption is equal to 100 basis points higher than inflation based on historical experience of national real wage growth.
- Inflation – The inflation assumption is based on information periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
- Expenses – For target normal cost purposes, expenses are estimated based on actual administrative expenses for the prior plan year and an estimate of the current year PBGC premium.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Expected investment return – Based on the asset mix and the simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the provided target asset mix, net of adjustments such as for the investment expenses assumed to be paid from plan assets

– Percentage married	80%	80%		
– Spouse age difference	3 years younger	3 years older		
Form of payment	75% of active participants who terminate after early retirement eligibility with former Rohm and Haas service are assumed to elect a lump sum of the Rohm and Haas benefit with the remainder benefit paid as a life annuity. Of the remaining actives who terminate prior to early retirement eligibility, 50% are assumed to elect a lump-sum option. Of the remaining actives who terminate after early retirement eligibility, a lump-sum option is assumed at the following rates based on age: 53% for ages 55 through 62 and 58% for age 63 and over. 10% of participants commencing their benefit from deferred vested status are assumed to elect a lump-sum option. All other participants are assumed to elect a life annuity.

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan’s eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant’s benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan’s valuation date is the beginning of the plan year.
- An individual’s **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual’s **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to the funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: December 15, 1960 Restated plan: January 1, 2008 Plan year: Calendar year
Status of the plan	Effective January 1, 2007 the plan was closed to new entrants. Furthermore, credited service was frozen as of December 31, 2007 for all non-grandfathered participants.
Significant events that occurred during the year	None currently expected during the 2024 plan year.

Definitions

• Covered employees	Prior to January 1, 2007, employees became participants upon date of hire. Effective January 1, 2007, the plan was closed to new entrants. Effective February 2015, Bostik participants were merged into the plan and continued benefit accruals consistent with the provisions of their prior plan.
• Grandfathered participants	Participants age 50 or older as of December 31, 2007 will be considered grandfathered participants. Also, all participants with former Rohm and Haas or DuPont service will be considered grandfathered participants regardless of age. Effective February 2015, Bostik participants are considered as grandfathered but are subject to the prior Bostik plan provisions.
• Employee contributions	None
• Vesting service	A year of vesting service is granted for any consecutive 12 month period from hire date in which a participant works at least 1,000 hours of service.
• Credited service	Years and months of credited service are determined from participation date. An adjustment is made for part-time employees based on the number of regularly scheduled work hours. Credited service was frozen as of December 31, 2007 for all non-grandfathered participants.
• Compensation considered	Annual base rate of pay in effect at the end of each calendar year of service, not including overtime, commissions, bonuses, and other forms of additional compensation.
• Average annual compensation	Compensation is averaged over any five consecutive years within the last ten years immediately preceding retirement or termination during which compensation is highest.
• Social Security covered compensation	The 35 year average of Social Security Wage Bases ending at Social Security normal retirement age for a participant who attains age 65 in year of determination rounded to the nearest \$3,000.
• Integration level	Social Security covered compensation less \$7,800.
• Accrued benefit	The sum of (a) and (b) times (c) and plus (d) below: a. 1.1% times average annual compensation, up to the integration level b. 1.5% times average annual compensation in excess of the integration level c. Credited service, up to maximum of 35 years d. 1.25% times average annual compensation times credited service in excess of 35 years A flat \$50 per month minimum monthly benefit may apply.

Normal retirement

• Eligibility	The first day of the month coincident with or next following a participant's 65th birthday.
• Benefit	Accrued benefit

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	The first day of the month coincident with or next following a participant's 55th birthday and the completion of ten years of vesting service.
• Benefit	The accrued benefit, reduced as follows for retirement from active status: - The accrued benefit will be reduced by 3% for each year before age 62. There is no reduction on or after age 62 for participants eligible for early retirement. The accrued benefit, reduced as follows for retirement from deferred vested status: - Participants with at least 25 years of vesting service and age 50 at termination date: The accrued benefit will be reduced by 3% per year before age 62. - All other participants: The accrued benefit will be reduced by 5.5% for each year before age 65.
Late retirement	
• Eligibility	Continued employment after normal retirement date
• Benefit	The benefit is based on credited service and average compensation in effect at actual retirement.
Deferred vested	
• Eligibility	A participant is vested upon termination with five years of vesting service or termination after attaining normal retirement age. All participants active on April 1, 2005 are automatically vested regardless of vesting service. All active non-grandfathered participants are automatically vested on December 31, 2007.
• Benefit	Accrued benefit payable at normal retirement age.
Disability	
• Eligibility	Participants who have sustained a total and permanent disability.
• Benefit	Participants will earn future credited service, subject to the service freeze effective December 31, 2007 for non-grandfathered participants.
Pre-retirement death	
• Eligibility	A married participant with a vested accrued benefit.
• Benefit prior to early retirement	Active participant with at least 10 years of vesting service and age and vesting service total at least 70: Annuity payable the first of the month following death to surviving spouse equal to 50% of the accrued benefit. All other active participants: Annuity payable to surviving spouse equal to 50% of the benefit the employee would have received had the employee terminated employment the day before his/her death, retired when first eligible for retirement, and elected the joint and 50% contingent annuity. Benefit commences at date employee would have first been eligible for retirement if not yet eligible at time of death. Inactive participant: Same as above except that the reduction for retirement prior to normal retirement date is based on 5.5% for each year prior to participant's age 65 if deceased before retirement eligibility.
Unpredictable contingent event benefits	None
Form of benefits	
• Automatic form for unmarried participants	Life annuity.
• Automatic form for married participants	50% contingent annuitant option.

Schedule SB, Part V — Summary of Plan Provisions

• Optional forms	100%, 75% and 50% contingent annuitant options, level income option, and lump-sum option.
• Optional form conversion factors	• Annuity benefit adjustments will be based on the 1971 TPF&C Forecast Mortality Table with ages set back 1 year for participants and 5 years for beneficiaries, and an interest rate of 5.5%. • Lump sum benefits are computed using the normal retirement benefit and the greater factor from the following actuarial conversions: – PPA mortality and interest rates equal to the 3-tiered minimum present value segment rate for the fifth month preceding the plan year. – Uninsured Pensioner 1994 Table projected to 2002 (blended 50% male and 50% female) and an interest rate based on the 30-year Treasury rates with a five month look-back.
• Rohm and Haas provisions	Participants with former Rohm and Haas service are eligible for the following: • Additional accrued benefit formulas with alternative average compensation definitions • Different early retirement eligibility and reduction factors • Additional optional forms • Different actuarial equivalence factors for optional forms • Supplemental retirement benefits • Automatic cost of living adjustments for certain optional forms (including the lump sum option)
• DuPont provisions	Participants with former DuPont service are eligible for the following: • Additional accrued benefit formulas with alternative compensation and average compensation definitions • Different early retirement eligibility and reduction factors • Additional optional forms • Additional disability benefits
• Bostik provisions	Bostik participants are eligible for special provisions such as: • A different accrued benefit formula with alternative compensation definitions • Different early retirement eligibility and reduction factors • Supplemental retirement benefits
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases are only applied to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.

Schedule SB, Part V — Summary of Plan Provisions

- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.
