Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **ERNST & YOUNG**

(2) EIN: **34-6565596**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		50000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 556015.

Report of Independent Auditors

The Employee Benefits Committee
Lear Corporation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Lear Corporation Pension Plan and Lear Combined Pension Plan (collectively, the Lear Corporation Selected Pension Plans) (the Plans), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investments of the Plans (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Shape the future
with confidence**

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining current plan instruments, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

**Shape the future
with confidence**

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of ERISA Section 103(a)(3)(C) audits is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Lear Corporation Selected Pension Plans

Notes to Financial Statements

December 31, 2024

1. Descriptions of the Plans

The accompanying financial statements include the employee pension plans of Lear Corporation (the Company or Plan Sponsor) that participate in the Lear Corporation Defined Benefit Plans Master Trust (the Master Trust). The Master Trust was established for the investment of assets of the Lear Corporation Pension Plan (the Lear Corporation Plan) and the Lear Combined Pension Plan (the Combined Plan) (each, a Plan and collectively, the Plans).

The Employee Benefits Committee of Lear Corporation (the Plan Administrator) is responsible for the general administration of the Plans.

The benefits provided by the Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following are general descriptions and summaries of the Plans. The descriptions are provided for general information purposes only. Participants should refer to the plan documents for a more complete description of each Plan's provisions.

Lear Corporation Plan

General

The Lear Corporation Plan is a noncontributory, frozen defined benefit plan that covers all eligible U.S. salaried employees of Lear Corporation, certain of its U.S. subsidiaries and certain of its former affiliates. The Lear Corporation Plan provides for retirement and death benefits.

Participation and Vesting

Effective January 1, 2007, benefits under the Lear Corporation Plan are frozen; no future benefits will accrue, and no new participants will be admitted.

Employees hired on or before December 31, 2006, prior to the plan freeze, became eligible to participate in the Lear Corporation Plan on January 1 or July 1 immediately following the completion of one year of continuous service and generally became fully vested upon the completion of five years of service.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

1. Descriptions of the Plans (continued)

Combined Plan

General

The Combined Plan is a noncontributory defined benefit plan that covers certain U.S. hourly employees at various current and former plants of Lear Corporation. The Combined Plan provides for retirement, death and disability benefits.

Participation and Vesting

Plan provisions vary by plant. Except as noted below, benefits under the Combined Plan are frozen; no future benefits will accrue, and no new participants will be admitted.

Eligible participants at two Lear Corporation plants continue to accrue benefits under the Combined Plan; however, no new participants will be admitted.

Participants generally became fully vested upon the earlier of the completion of five years of service or reaching age 65, or as otherwise provided for under historical vesting schedules. Effective January 1, 2010, participants covered under the cash balance provisions of the Combined Plan generally become fully vested upon the completion of three years of service.

All Plans

Plan Benefits

The normal form of benefits is a monthly annuity to all vested participants after reaching eligible retirement age. Unless a formal spousal waiver is submitted, married participants automatically receive reduced monthly retirement benefits in order to provide continuing benefits to the surviving spouse upon the participant's death. The amount of the retirement benefits is determined as set forth by the Plans.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

1. Descriptions of the Plans (continued)

In June 2024, the Plan Sponsor approved a plan amendment allowing certain terminated vested participants of the Plans to, during a limited period, voluntarily elect to receive their pension benefits in the form of a lump sum payment (the Lump Sum Payout) in satisfaction of all benefits payable to the participant under the Plans. In connection with the Lump Sum Payout, a portion of the Master Trust's investments were converted to cash and cash equivalents in the second quarter of 2024.

In December 2024, payments of \$32,765,834 and \$19,920,775 under the Lump Sum Payout were distributed from existing assets held in the Master Trust for the Lear Corporation Plan and the Combined Plan, respectively, and are included in benefit payments in the statements of changes in net assets available for benefits for the year ended December 31, 2024, for the respective Plans.

The Plans provide for mandatory lump sum distributions for terminated participants whose actuarial equivalent lump sum value of their accrued benefit is \$7,000 or less. Prior to January 1, 2024, the mandatory lump sum distribution amount was \$5,000.

Funding Policy

The Company contributes amounts it deems necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plans have met the ERISA minimum funding requirements for 2024 and 2023.

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plans to discontinue its contributions at any time and to terminate the Plans, subject to the provisions of ERISA. Upon the Plans' termination, the net assets of the Plans will be allocated for payment to the participants in order of priority as prescribed by ERISA and its related regulations and the plan documents.

Whether all participants receive their benefits should the Plans terminate at some future time will depend on the sufficiency, at that time, of the Plans' net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC), as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plans and the PBGC guarantee, while other benefits may not be provided for at all.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies

Administrative and Other Expenses

The Plans incur administrative expenses directly related to the Plans, which consist primarily of PBGC fees, trustee fees and actuarial fees. These expenses are included in administrative expenses in the statements of changes in net assets available for benefits. Expenses relating to purchases, sales or transfers of the Plans' investments are charged to the particular investment funds to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plans. Expenses that are paid by the Company are excluded from these financial statements.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plans' investments are held in the Master Trust and are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosure related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plans' gains and losses on investments bought and sold as well as held during the year.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump sum distributions, that are attributable under the Plans' provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) current employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent that they are deemed attributable to employee-credited service rendered to the valuation date.

The Plans' actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

3. Accumulated Plan Benefits

The accumulated plan benefits information as of December 31, 2023, is as follows:

	Lear Corporation Plan	Combined Plan
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Other participants	\$ 118,270,212	\$ 58,174,457
Participants currently receiving benefits	112,032,107	72,798,630

Total actuarial present value of accumulated plan benefits	<u>\$ 230,302,319</u>	<u>\$ 131,011,131</u>

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

Changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023, are as follows:

	Lear Corporation Plan	Combined Plan
Actuarial present value of accumulated plan benefits at beginning of year	\$ 228,088,315	\$ 131,937,000
Increase (decrease) during the year attributable to:		
Increase for interest due to decrease in discount period	13,368,004	7,667,463
Benefits paid	(10,576,494)	(8,310,377)
Assumption changes:		
Actuarial losses	(577,506)	(292,186)
Benefits accumulated	—	9,231
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 230,302,319</u>	<u>\$ 131,011,131</u>

The actuarial present value of accumulated plan benefits as of December 31, 2023, does not reflect the 2024 amendment, which allowed for a voluntary Lump Sum Payout (see Note 1) to certain plan participants.

The actuary estimated the accumulated plan benefits as of January 1, 2024. Other than the Lump Sum Payout, there were no significant changes to the Plans that would have changed the valuations had they been performed as of December 31, 2023.

3. Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial valuations are as follows:

Assumption	December 31, 2023	December 31, 2022
Lear Corporation Plan		
Mortality rates	Pri-2012 White Collar Mortality Tables with a 96.9% multiplier, projected using MP-2021 improvement scale	Pri-2012 White Collar Mortality Tables with a 96.9% multiplier, projected using MP-2021 improvement scale
Assumed rate of return, net of administrative expenses	6.00%	6.00%
Combined Plan		
Mortality rates	Pri-2012 Blue Collar Mortality Tables with a 103.5% multiplier, projected using MP-2021 improvement scale	Pri-2012 Blue Collar Mortality Tables with a 103.5% multiplier, projected using MP-2021 improvement scale
Assumed rate of return net of administrative expenses	6.00%	6.00%
Cash balance interest crediting rate	4.66%	4.00%

These actuarial assumptions are based on the presumption that the Plans will continue. If the Plans were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

Effective October 2, 2023, the Plan Administrator transitioned the trustee of the Plans and Master Trust to Northern Trust Company from BMO Harris Bank N.A.

With the exception of the fair value and related net appreciation (depreciation) of fair value of hedge funds and real estate income trusts, information related to the investments of the Master Trust, the fair value of investments held as of December 31, 2024 and 2023, and the net appreciation (depreciation) of fair value of investments, interest income and dividend income for the year ended December 31, 2024, and the period from October 2, 2023 through December 31, 2023, disclosed in the accompanying financial statements was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Northern Trust Company, the trustee of the Plans and Master Trust.

4. Investments (continued)

With the exception of the net appreciation (depreciation) of fair value of hedge funds and real estate income trusts, the net appreciation (depreciation) of fair value of investments, interest income and dividend income for the period from January 1, 2023 through October 1, 2023, disclosed in the accompanying financial statements was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by BMO Harris Bank N.A., the former trustee of the Plans and Master Trust.

Each Plan in the Master Trust has an undivided interest in the Master Trust. The Master Trust assets are allocated among the Plans by assigning to each Plan those transactions (primarily contributions, benefit payments and Plan-specific expenses) that can be specifically identified and by allocating among all Plans, in proportion to each Plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

As of December 31, each Plan's interest in the net assets of the Master Trust is as follows:

	2024	2023
Lear Corporation Plan	61.4%	61.1%
Combined Plan	38.6	38.9
Total investments	100.0%	100.0%

The Plan Administrator's investment policies incorporate an asset allocation strategy that emphasizes a balanced approach considering long-term growth combined with risk mitigation. The Plan Administrator believes that this strategy is consistent with the long-term nature of plan liabilities and ultimate cash needs of the Plans.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

4. Investments (continued)

Diversification within the investment portfolio is pursued by asset class and investment management style. The investment portfolios are reviewed on a quarterly basis to maintain the desired asset allocations, given the market performance of the asset classes and investment management styles. Alternative investments are redeemable at least annually, and the majority of the alternative investments are redeemable on a quarterly basis. Investments that are redeemable quarterly or semiannually require notice periods that do not exceed 90 days. Certain of these investments have customary gates.

The Plan Administrator utilizes investment management firms to manage these assets in accordance with the Plan Administrator's investment policies. Excluding alternative investments, mutual funds and exchange-traded funds (ETFs), retained investment managers are provided investment guidelines that indicate prohibited assets, which include commodities contracts, futures contracts, options, venture capital, real estate and investments in the Company's own debt or equity. Derivative instruments are also prohibited without the specific approval of the Plan Administrator. Investment managers are limited in the maximum size of individual security holdings and the maximum exposure to any one industry relative to the total portfolio. Fixed income managers are provided further investment guidelines that indicate minimum credit ratings for debt securities and limitations on weighted-average maturity and portfolio duration.

The Plan Administrator evaluates investment manager performance against market benchmarks the Plan Administrator believes are appropriate to the investment management style for which the investment manager has been retained. The Plan Administrator's investment policies incorporate an investment goal of aggregate portfolio returns that exceed the returns of the appropriate market benchmarks.

5. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

The fair value of the Master Trust's assets is measured on a recurring basis. The following is a description of the valuation technique and input used for the general type of investment measured at fair value by the Plans:

Market: This approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

5. Fair Value Measurements (continued)

- (a) Short-term investments include cash, savings accounts and money market funds classified within Level 1 of the valuation hierarchy. Money market funds are valued at net asset value (NAV) by the administrators of the funds.
- (b) Equity securities include ETFs, mutual funds, common stock, and collective investment fund classified within Level 1 and Level 2 of the valuation hierarchy. Level 1 mutual funds are valued at quoted market prices, which represent the NAV of shares held by the Plans at year-end. Level 1 common stock and ETFs are valued at the closing price on the active markets on which the individual securities are traded. Included within common stock are American Depositary Receipts (ADRs) on which the individual securities are traded. Level 1 ADRs are valued at the closing price on the active markets on which the individual ADRs are traded. Level 2 ADRs are valued using inputs that are derived principally from observable market data. The ADRs held by the Plans relate to large multinational companies, which are generally traded on reputable foreign (e.g., FTSE 100) and domestic exchanges. The Level 2 collective investment fund is valued at the NAV provided by the administrator of the fund. The fund has no redemption restrictions.
- (c) Government obligations and corporate bonds are valued using quoted prices in inactive markets and inputs that are derived principally from or corroborated by observable market data.
- (d) Hedge funds are valued at the NAV provided by the administrators of the funds. In general, the investment strategies of the hedge funds are to reduce volatility and risk while attempting to preserve capital and deliver positive returns under a wide range of market conditions. These investments are redeemable at least annually, and the majority of these investments are redeemable on a quarterly basis. Investments that are redeemable quarterly or semiannually require notice periods which do not exceed 90 days. Certain of these investments have gates, which are customary and are only applicable in extenuating circumstances.
- (e) Real estate income trusts are valued at the NAV provided by the administrators of the funds. The majority of these investments are redeemable on a monthly basis, and the remainder of these investments are redeemable at least annually. Investments that are redeemable quarterly or semiannually require notice periods which do not exceed 90 days. Certain of these investments have gates, which are customary and are only applicable in extenuating circumstances.

6. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service (IRS) dated October 30, 2017 (Corporation) and June 29, 2021 (Combined), stating that the Plans are qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore, the related trusts are exempt from taxation. Subsequent to these determinations by the IRS, the Plans were amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualified status. The Plan Administrator believes the Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plans, as amended, are qualified and the related trusts are tax exempt.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

6. Income Tax Status (continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plans and recognize a tax liability if the Plans have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plans' management has analyzed the tax positions taken by the Plans and has concluded that there are no uncertain positions taken or expected to be taken. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The assets of the Master Trust are invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plans' contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Related-Party and Party-in-Interest Transactions

Effective October 1, 2023, the investments of the Plans and Master Trust are managed by Northern Trust Company, the trustee of the Plans and Master Trust. The Plans hold an investment managed by the trustee. The transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

Prior to October 1, 2023, the investments of the Plans and Master Trust were managed by BMO Harris Bank N.A., the former trustee of the Plans and Master Trust. The Plans held an investment managed by the former trustee. The transactions qualified as party-in-interest transactions; however, they were exempt from the prohibited transaction rules under ERISA.

Administrative services for the Plans are provided by Willis Towers Watson US LLC.

Lear Corporation Selected Pension Plans

Notes to Financial Statements (continued)

8. Related-Party and Party-in-Interest Transactions (continued)

Prior to October 1, 2023, Northern Trust Company was the Plans' paying agent appointed to make benefit payments to participants and beneficiaries and held a non-interest-bearing cash account restricted as to use for the disbursement of benefit payments and other distributions, as directed by the Plan Sponsor.

In addition, certain expenses incurred by the trustee of the Plans and Master Trust in the performance of its duties were paid out of the assets of the Plans.

9. Subsequent Events

The Plan Administrator evaluated subsequent events for the Plans through October 10, 2025, the date the accompanying financial statements were available to be issued.

most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Lear Corporation regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Lear Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Decrement Timing Model

Rounded Middle of Year – All decrements are assumed to occur at the middle of the year to approximate the pattern of decrements that occur throughout the year.

In addition, eligibility for benefits, commencement and cessation of benefits, and other commencement factors will reflect the middle of the year timing.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor or trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash balance Interest crediting rate

The cash balance projection rate, according to the plan document, is set at the 30-year Treasury rate for the November preceding the start of the plan year with a minimum of 4.0%. Our long term estimate of the 30-year Treasury rate is 4.66% based on a combination of current conditions, past history and future economic expectations.

Increases in statutory limits (CPI)

The assumed CPI is based on current conditions and future forecasts by economists.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding Methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Changes in assumptions since prior valuation	• The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. • The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430. • The assumed plan-related expenses added to the normal cost were changed from \$2,239,472 for the prior valuation to \$2,104,948 for the current valuation to account for lower expected expenses to be paid from the trust.
Changes in methods since prior valuation	None.

B.7 Lear Combined Pension Plan (Former Delphi Hourly-Rate Employees' Pension Plan)

Plan Provisions

Participation

Bargaining employees who were formerly employed by Delphi Automotive Systems and who were participating in the General Motors Hourly-Rate Employees' Pension Plan (the "GM Plan") on August 31, 1998 automatically participated on September 1, 1998. Other bargaining employees at the former Delphi locations become eligible for the Plan after attaining age 21 and completing one year of service. The valuation reflects all employees, including those who had not yet satisfied the plan's eligibility requirements.

The Auburn Hills plant was closed on June 30, 2004. The Grand Rapids plant was closed on November 30, 2005.

Definitions

Service

Vesting Service is each anniversary year (beginning on the employee's date of hire and each anniversary of such date) in which an employee completes 750 hours of service. Credited Service is determined as 1/10 of a year for each 170 hours of service (or major portion thereof) in a calendar year. "Credited Service" is generally limited to Credited Service earned after September 1, 1998; however, for employees who were not vested in the GM Plan on August 31, 1998, Credited Service includes credited service under the GM Plan. "Combined Service" is the sum of credited service under the GM Plan as of August 31, 1998, Credited Service under this Plan, and Vesting Service after December 31, 2006.

Pre-retirement death

The surviving spouse of a participant who dies while active and retirement eligible (excluding those only eligible for “mutually satisfactory retirement”) who was married for at least a year is eligible to receive a Pre-retirement Survivor Benefit. Such benefit is equal to the benefit that the spouse would have received if the participant had retired on his date of death (or any later date elected by the spouse up to the participant’s normal retirement date) and elected the joint and 65% survivor benefit. For a participant eligible for the “pop-up” of the basic benefit at age 62, the post age 62 benefit level is immediately payable to the surviving spouse. Surviving spouses do not receive the Early Retirement Supplement or the Interim Supplement.

The spouse of a terminated vested participant or an active participant not eligible for retirement who dies (who has been married at least a year) receives 50% of the benefit the participant would have received as a single life annuity had he commenced benefits on his date of death (or any later date elected by the spouse up to the participant’s normal retirement date).

Benefit Credits

As of the later of (i) the last day of each Plan Year after the Effective Date or (ii) the last day of the Plan Year following a Participant's employment, the Account of each Participant shall be credited for each month of credited service during the Plan Year, based on the number of Points credited to the Participant at the beginning of such Plan Year.

Points at Beginning of Calendar Year	Monthly Credit for Calendar Year
Under 40	\$17.50
40 – 49.999	\$21.50
50 – 59.999	\$26.50
60 – 69.999	\$32.00
70 – 79.999	\$42.50
80 – 89.999	\$53.00
90 – 99.999	\$64.00
100 or more	\$75.00

Benefit Credits will accrue in accordance with the table above times a 2.6 multiplier.

Interest Credits

As of the last day of each calendar year beginning after the Effective Date and ending with the year preceding the Benefit Commencement Date of a Participant, the Account, valued as of the beginning of such calendar year, shall be credited with an Interest Credit equal to the Periodic Interest Rate (the average 30-year Treasury rate in effect in November of the preceding year) for the calendar year in which such year falls. In the year in which a Participant's Benefit Commencement Date falls, the Account shall be credited with an Interest Credit equal to the Periodic Interest Rate for the calendar year in which the Benefit Commencement Date falls times the number of complete calendar months between January 1 and the Participant's Benefit Commencement Date, divided by twelve. The Interest Credit in a given year has a 4% minimum and a maximum of 10%.

Accrued benefit

The Accrued Benefit is equal to:

The benefit determined as for Normal Retirement, based on Average Monthly Compensation at termination of employment and assuming Credited Service had continued to the Normal Retirement Date, multiplied by a fraction (not greater than 1) equal to the number of years of Credited Service as of the date of termination divided by the number of years of Credited Service, up to 35 years, that the participant would have had if Credited Service had continued to the Normal Retirement Date.

The Accrued Benefit of a Gold Mills participant shall be frozen as of December 31, 2004 if as of that date he had not both attained age 55 and completed 10 years of Vesting Service and as of December 31, 2007 for any other Gold Mills participant.

Normal retirement

A Participant is eligible for a Normal Retirement Benefit on the first of the month coincident with or following the Participant's 65th birthday or 5th anniversary of participation, if later.

Monthly Pension Benefit

The amount of monthly pension payable for life to a Participant is equal to 1. plus 2. below:

1. 29% of Average Monthly Compensation up to Monthly Covered Compensation multiplied by years of Credited Service, up to a maximum of 25 years.
2. 43% of Average Monthly Compensation in excess of his Monthly Covered Compensation multiplied by years of Credited Service, up to a maximum of 25 years.

Increases in Covered Compensation do not reduce a participant's accrued benefit.

Participants who have not attained age 55 or have not completed 10 Years of Service as of December 31, 2004 will not accrue any additional benefits under the Plan after December 31, 2004. All other participants will not accrue any additional benefits under the Plan after December 31, 2007.
