INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
The Taylor Community Savings Plan and Trust
Laconia, New Hampshire 03246

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Taylor Community Savings Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2024 and 2023, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Taylor Community Savings Plan and Trust performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financials are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, on the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matters

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by Hand Benefits & Trust Company (the "Custodian"), agrees to, or is derived from, in all material respects, the information prepared and certified by the Custodian that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE TAYLOR COMMUNITY SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Plan is provided for general information purposes only. Further information about the Plan Document and benefit provisions is available from the Plan Administrator.

General: The Plan was adopted on January 1, 1986 and was last restated on January 1, 2022. The Plan is a defined contribution plan qualifying under section 401(k) of the Internal Revenue Code (IRC). The Plan covers all non-seasonal employees of Taylor Community, (the "Plan Sponsor"). The Plan Sponsor is also the Plan Administrator. The Plan is subject to the provisions of ERISA. Effective July 1, 2023, the Plan was amended to include seasonal employees of Taylor Community.

Plan management is currently evaluating the provisions of the SECURE Act to determine which amendments will be made, if any, and how the Plan will adopt controls for mandatory provisions as applicable.

Age and services requirements: To become a participant, an employee must have attained age 18. There is no service requirement. Entry into the Plan takes place on January 1 and July 1 of the Plan year.

Contributions: Under the Plan, participants may elect to make pre-tax contributions ("deferrals") to their employee accounts up to maximum amounts allowed under Sections 415(c), 402(g) and 401(k) of the IRC. The Plan was amended to allow Roth contributions effective July 1, 2023. The Company contributes a safe harbor match of 100% of salary deferrals up to 3% of compensation, plus 50% of salary deferrals up to the next 2% of compensation that a participant contributes to the Plan. Contributions are invested as directed by the participants. The employer may also make a discretionary matching contribution and a discretionary profit-sharing contribution to employees meeting certain eligibility requirements. For the year ended December 31, 2024, the Plan made a safe harbor matching contribution of \$425,732 and applied \$10,644 of forfeitures to the safe harbor matching contribution. No discretionary contributions were made for the year ended December 31, 2024.

The Plan will accept participant rollover contributions.

Newly eligible participants are automatically enrolled into the Plan at a deferral rate of 4%.

Participant accounts: Each participant's account is credited with the participant's deferral and allocations of (a) the Plan Sponsor's matching and profit-sharing contributions, if any and (b) Plan earnings, and charged with an allocation of administrative expenses. Employer matching contributions are allocated to participant accounts based on the participant's elective deferral contributions. Additional discretionary profit-sharing contributions are allocated to participant accounts based on the individual's compensation as a percentage of total compensation of all eligible employees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Taxes: Participants are not taxed on their deferrals, on any employer contributions allocated to their accounts, or on earnings thereon until these amounts are distributed. Roth contributions are made with after-tax amounts. Roth contributions and earnings thereon are withdrawn tax-free provided all required of IRC Section 402A are met.

THE TAYLOR COMMUNITY SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Vesting: Participants in the Plan are 100% vested in the current value of their deferrals, plus actual earnings thereon. Participants are vested in the current value of the employer discretionary contributions portion of their account plus earnings thereon based on years of continuous service. A participant is 100% vested after six continuous years of service. Participants who received a safe harbor matching contribution are vested immediately in the contribution plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions into various investment options. Participants may change their investment options and transfer funds between investment options daily.

Payment of benefits: The Plan provides for participants to withdraw funds at any time after age 59 ½. The Plan also provides for withdrawals in the event of death, disability, retirement, hardship and termination. Benefit payments are in the form of a lump-sum amount equal to the value of the participant's vested interest in his or her account, as provided in the Plan Document.

Forfeitures: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. The Plan allows for forfeitures to be allocated to any reasonable plan expense or used to reduce employer contributions. Forfeited non-vested amounts totaled \$9 and \$49 at December 31, 2024 and 2023, respectively. Forfeitures used to offset Plan Sponsor contributions totaled \$10,644 for the year ended December 31, 2024.

Funding Policy: Deferrals are withheld from eligible participants' wages and are remitted bi-weekly to the Plan Custodian. Employer matching contributions are also deposited bi-weekly. Profit-sharing contributions are remitted annually. Employee and employer contributions are invested based on the instructions provided by the participant.

Notes receivable from participants: Participants may borrow from the Plan a minimum of \$1,000 to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Note repayments (borrowings) are treated as a transfer to (from) the investment fund from (to) the notes receivable account. Note terms range from one to five years (longer for the purchase of a primary residence). The notes are collateralized by the balance in the participant's account and bear interest at a rate that is commensurate with the prime rate plus one percent (8.50% at December 31, 2024). Principal and interest are paid ratably through bi-weekly payroll deductions.

Income tax status: The Company adopted a restated pre-approved plan document, and the IRS has determined and informed the sponsor of the pre-approved plan document by letter dated June 30, 2020, that the pre-approved plan document is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

The Plan adopted the provisions of FASB ASC 740, Accounting for Uncertainty in Income Taxes. Accordingly, management has evaluated the Plan's tax positions and concluded the Plan had maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal tax authorities for years before 2021.

Note 2. Significant Accounting Policies

Valuation of investments: The Plan includes investments in registered investment companies, self-directed brokerage account, and a common collective trust that are reported at fair value. See Note 3 for discussion on fair value measurement.

The changes in the difference between the current value and the cost of investments are realized gains and losses which are reflected in the statement of changes in net assets available for plan benefits - modified cash basis as an increase or decrease in appreciation or depreciation, in investments.

Accounting method: The Plan prepares its financial statements on a modified cash basis of accounting. Under this method, contributions, interest and dividends, and other amounts are recognized only when actually received by the Plan. Investments are stated at fair value. The modified cash basis of accounting is a basis of accounting other than accounting principles generally accepted in the United States of America.

Payment of benefits: Benefits are recorded when paid.

Estimates and assumptions: Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Accordingly, actual results may differ from these estimates.

Note 3. Fair Value of Investments

The Fair-Value Measurements topic of the FASB ASC 820-10 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair-value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs are other than quoted prices that are observable for the asset or liability. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

THE TAYLOR COMMUNITY SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Registered investment companies: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust (CCT): The Plan's interest in the fund is valued each day the exchange is open. The fund will attempt to maintain a stable value of \$10.00 per unit. However, there can be no assurance that the value of the units in the fund will not fluctuate. The value of each unit is determined by subtracting total liabilities from total assets and dividing the remainder by the number of units outstanding. The fund is valued at contract value, which is expected to approximate fair value.

Self-directed brokerage account: Consists of mutual funds, stock, corporate bonds, certificates of deposit, and exchanged traded funds. These items are deemed to be actively traded and are valued at NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	Level 1	Level 2	Total
Registered investment companies	\$ 6,316,702	\$ -	\$ 6,316,702

NOTES TO FINANCIAL STATEMENTS

Note 4. Costs and Expenses

Certain costs and expenses associated with the operations of the Plan for the year ended December 31, 2024 were paid by the Plan Sponsor.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Transactions with Parties-in-Interest

The Plan Sponsor provides to the Plan certain accounting and administrative services for which no fees are charged. The employees that provide these services, such as trustees and other employees, also are contributing participants in the Plan. These transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions. However, under the provisions of ERISA these transactions meet the criteria for exemption, are not considered prohibited transactions, and do not need to be reported in the supplementary schedules of form 5500.

Note 7. Risk and Uncertainties

The Plan provides for various combinations of investment options. Investments are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the value of investments in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits - modified cash basis and the statement of changes in net assets available for benefits - modified cash basis.

Note 8. Information Certified by the Plan's Custodian

The Plan Administrator has elected the methods of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Hand Benefits & Trust Company have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.
