Independent Auditor's Report

To the Plan Trustee
United Laboratories, Inc. Combined
Employee Stock Ownership Plan

Opinion

We have audited the financial statements of United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023 and the changes in net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 3, the financial statements include investments valued at \$16,833,500 at December 31, 2024 and \$16,622,952 at December 31, 2023 whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on an independent appraisal and management's projections. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Trustee
United Laboratories, Inc. Combined
Employee Stock Ownership Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by United Laboratories, Inc. (the "Company") on August 1, 1975 and restated on August 1, 1996 and formerly known as United Laboratories Employee Stock Ownership Plan (ESOP). Effective January 1, 2015, United Laboratories, Inc. Leveraged Employee Stock Ownership Plan (LESOP) merged with and into United Laboratories Employee Stock Ownership Plan. The plan documents of the two plans were amended, restated, and renamed to create United Laboratories, Inc. Combined Employee Stock Ownership Plan. The Plan is designed to invest primarily in stock of the Company and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets

Invictus Fiduciary Services, LLC is the trustee of the Plan and the custodian of the cash balance portion of the Plan. The Plan's assets, which primarily consist of sponsor company common shares, are held by Principal Life Insurance Company.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Eligibility

The Plan is a defined contribution plan covering substantially all employees who have completed at least one year of service, providing they worked at least 1,000 hours during such plan year. Participants who did not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of company contributions for such year. Nonresident aliens are excluded from participation in the Plan.

Employer Contributions

Employer contributions are determined by the board of directors of the Company at its discretion, subject to conditions and limitations of the Plan. Employee contributions are not permitted.

Participant Accounts and Forfeitures

Each participant's account is credited with an allocation of (a) employer cash or stock contribution, (b) forfeitures of terminated participants' nonvested accounts, (c) company stock dividends, and (d) other plan earnings and losses. The employer's contribution and forfeitures are allocated to each participant in the ratio that each participant's compensation bears to the total compensation of all participants. Investment income or losses are allocated on the basis that the participant's investment account balance bears to the total account balance of all participants.

Note 1 - Plan Description (Continued)

Vesting

Vesting in the Company's contributions and earnings thereon is based on a participant's years of credited service. The vested portion is determined in accordance with the schedule below:

<u>Full Years of Service</u>	<u>Vesting Percentage</u>
2	20 %
3	40
4	60
5	80
6 or more	100

A participant will be eligible for normal retirement on the first day of the next month following the participant's 62nd birthday. Upon normal retirement, a participant will become 100 percent vested, regardless of years of service.

Payment of Benefits

Participants will be eligible to receive distributions from the Plan upon termination of service due to retirement or death. Benefits may be paid in cash, common stock of the Company, or a combination of both. Benefits are recorded when cash is paid or shares of stock are distributed.

Under terms of the plan agreement, shares of stock received as a distribution must be sold immediately by terminated participants to the Company. Participants with vested balances equal to or less than \$15,000 will receive a lump-sum payment. Distributions valued over \$15,000 will receive payment in annual installments over a period not to exceed five years. The total shares requested but yet to be paid in future years are 42,622 for a total of \$2,052,693.

Distributions will generally commence no later than 90 days after the valuation is approved following the year during which the latest of the following events occur: the participant reaches normal retirement (age 62), the date the participant reaches the 10th anniversary of his or her participation in the Plan, or the termination date of the participant.

Put Option

Under federal income tax regulations, the employer stock that is held by a plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The fair value of such shares shall be determined by an independent appraiser. The purpose of the put option is to ensure that the participant has the ability ultimately to obtain cash.

Voting Rights

Each participant (or beneficiary) is entitled to direct the trustee as to the exercise of any voting rights attributable to shares of stock then allocated to his or her account but only to the extent required by the Internal Revenue Code Section 409(e)(3) and the regulations thereunder. The trustee shall vote any unallocated stock and any allocated stock in the trust fund for which no voting instructions have been received.

Note 1 - Plan Description (Continued)

Postretirement Diversification Rights

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investments in company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of company shares credited to his or her account, less any shares previously diversified. In the 6th year, the percentage changes to 50 percent. Participants who elect to diversify receive distributions, as defined in the plan document.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on the participant's compensation, as defined. Allocations of forfeitures are considered additional company contributions and are subject to the vesting provisions of company contributions.

Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the Internal Revenue Code (IRC). Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Invictus Fiduciary Services, LLC or its affiliates (the "Trustee"). Invictus Fiduciary Services, LLC is the Trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Certain plan assets are in investments in the Company's stock. The Company is the sponsor of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The common shares of United Laboratories, Inc. are valued at fair value, as determined by an annual independent appraisal.

Cash is valued at fair value based on its outstanding balance. See Note 3 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from these estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 15, 2025, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The company common stock is classified as Level 3 in the hierarchy and is based on the fair value determined through third-party appraisal, which utilized a combination of both market and income approaches, including the discounted cash flow method, the guideline public company method, and the merged and acquired method. The unobservable inputs for the discounted cash flow method were the weighted-average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the merged and acquired method was revenue growth.

Notes to Financial Statements

December 31, 2024 and 2023

Note 3 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2024 and 2023:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2024

There were no transfers, purchases, or issuances of the Plan's Level 3 assets during the year ended December 31, 2024.

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service on July 28, 2015 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
