Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CLIFTONLARSONALLEN LLP**

(2) EIN: **41-0746749**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		4000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of QBE Pension Equity Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of QBE Pension Equity Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of QBE Pension Equity Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about QBE Pension Equity Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the QBE Pension Equity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about QBE Pension Equity Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**QBE PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF THE PLAN

The following description of QBE Pension Equity Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan, which includes substantially all employees of QBE the Americas, Inc. and certain affiliates (the Company/Employer) who have completed one full year of service, have attained age 21 and were participants in the Plan as of December 31, 2010. QBE Holdings, Inc. is the Plan Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 31, 2010, both participation and retirement benefits were frozen. All benefits accrued as of December 31, 2010 are protected, though future benefits will not accrue.

The Plan is administered by the Company's Retirement Investment Committee (Committee), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Pension Benefits

Employees with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age (65). Credited service is based on completed full years and months of employment.

Such benefits are calculated as follows:

- (1) 10% of participant's final average compensation up to covered compensation; plus
- (2) 16% of participant's final average compensation in excess of participant's covered compensation;
- (3) Multiplied by participant's years of benefit service.

Final average compensation is the highest annual compensation a participant earned in any 60-consecutive month period (five-consecutive years) during the 120-consecutive months (10-consecutive years) ending on the date of termination of employment.

Compensation, for purposes of the Plan, is equal to the participant's total base salary or wages, excluding any irregular pay, such as overtime, commissions, or bonuses. Compensation includes participant's elective pretax contributions under any 401(k) plan and any cafeteria plan maintained by the Company.

**QBE PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (Continued)

The Plan permits early retirement at age 55 with five or more years of credited service. If a participant retires early and elects to receive benefits commencing upon the early retirement date, the annual retirement benefit will be reduced by 4% for each year that the early retirement date precedes the normal retirement date, depending upon the participant's length of service.

If the present value of the total retirement benefits payable to a participant is \$7,000 or less (\$5,000 prior to December 2023), the present value of the participant's accrued benefit will be paid in a lump-sum payment, or a direct rollover. If the participant's retirement benefit exceeds \$7,000, the participant will have the following optional forms of benefit payments:

- Lump sum. Provides a single lump sum payment, with no further benefits paid from the Plan.
- Single life annuity option. The single life annuity option provides a monthly benefit for the participant's life only, benefit ceases at time of death.
- Joint and survivor annuitant option. The joint and survivor annuitant option will pay a monthly benefit for the participant's life. After death, a benefit equal to 100%, 75%, 50%, or 25% (as elected) of the monthly benefit will be paid to the designated beneficiary for his or her life.
- Life annuity with period certain option. The life annuity with 180, 120, or 60 months (as elected) provides a monthly benefit payable for the participant's life only. If the participant dies before receiving 180, 120, or 60 payments, the same monthly payment will continue to the named beneficiary for the balance of the 180, 120, or 60 months.

If a participant does not elect an optional form of payment, and is single, benefits will be automatically paid out in the form of a single life annuity. A single life annuity provides a monthly benefit payable for the participant's lifetime only, and ceases at the time of death.

A participant becomes fully vested in the Plan after five years of vesting service, or attaining the normal retirement age of 65. If employment is terminated prior to rendering five years of credited service, they forfeit the right to receive their accumulated retirement benefits. Vesting service means the length of time a participant worked for the Company and any of its affiliates. Vesting service under the Plan is counted in full years and months. Service is measured from the first day an hour of service is completed through severance of employment.

Death and Disability Benefits

If a vested employee dies before normal retirement, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary in the form of a single life annuity. Employees who become totally disabled and qualify for a vested retirement or an early retirement benefit may elect to receive benefits prior to normal retirement date.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Company did not make any contributions. The Company's contributions for 2024 and 2023 met or exceeded the minimum funding requirements of ERISA.

Administration

The Company is the administrator of the Plan and has appointed Empower Annuity Insurance Company of America (formerly Prudential Retirement Insurance and Annuity Company) as record keeper, custodian and Insurance Company and Empower Trust Company as record keeper, custodian and trustee of the Plan. Under the terms of the trust agreement between the insurance company and the Plan, the insurance company manages the trust fund on behalf of the Plan and has been given discretionary authority concerning the purchases and sales of the investments in the trust fund. The net assets and changes therein of the trust fund have been reported to the Plan administrator by the insurance company as having been determined through the use of current values for all assets in the trust fund.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Investment Committee determines the Plan's valuation policies utilizing information provided by the insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Investment and Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 15, 2025, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered through December 31, 2010. Accumulated plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the freeze date. Benefits to be provided through annuity contracts are excluded from plan assets and are also excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2023 were:

- a) Life Expectancy of Participants (the Pri-2012 White Collar Dataset with Scale MP-2021).
- b) Retirement Age Assumptions (Normal retirement age of 65 years; based upon an estimate of the percent of eligible participants retiring at ages 55 through 70).
- c) Investment Return of 5.18% (5.45% as of December 31, 2022).

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1. Had the valuation been performed as of December 31, there would be no material differences.

The following is a summary of actuarial present value of accumulated plan benefits as of December 31, 2023:

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Pooled Separate Account: Valued at the net asset value (NAV) of units of an insurance company pooled separate account. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

**QBE PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Collective Trust: Valued at the net asset value (NAV) of units of a collective trust or pooled fund. The NAV, as provided by the insurance company and the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly manner.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities: Investments in the U.S. government securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate and Municipal Bonds: Investments in bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote is available.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 6 PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.

**QBE PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 6 PLAN TERMINATION (CONTINUED)

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter dated November 11, 2020, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

**QBE PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 8 RISKS AND UNCERTAINTIES (CONTINUED)

Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by Empower Annuity Insurance Company (formerly Prudential Retirement Insurance and Annuity Company), the insurance company as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees paid to the insurance company by the Plan for investment management, trust services, and other administrative services amounted to \$377,749 and \$440,944 for the years ended December 31, 2024 and 2023, respectively. These transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Differences between these financial statements and information combined in Schedule H, items I and II of Form 5500 were identified and are due to different classifications among various detail accounts. In total, these balances are in agreement.

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under “Actuarial assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

The funding target is developed based on the full yield curve published at the month prior to the valuation date.

Sponsor elections

Discount rate: Full yield curve

Mortality table: Prescribed IRS generational mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus \$700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is determined using an annual average of the adjusted fair market value of assets with the earliest determination 24 months prior to the valuation date. The fair market value of assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the fair market value of assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the fair market value of assets.

The actuarial value of assets is adjusted to be no less than 90% or no more than 110% of the fair market value of assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an actuarial value of assets slightly below the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Actuarial assumptions

Funding Assumptions:

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

The retirement age and form of payment assumptions consider the experience study completed in January 2018 based on plan experience from 2012 through 2016.

An annual review of actuarial assumptions is completed and there has been no consistent pattern of material gains or losses occurring for any non-prescribed assumptions.

ASC 960 Assumptions:

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption, the discount rate, and the assumed lump sum discount rate.

The mortality assumption reflects experience from representative populations, based on the Pri-2012 Private Retirement Plans Mortality Table Report issued by the Society of Actuaries (SOA) in October 2019 and the Mortality Improvement Scale MP-2021 Report issued by the SOA in October 2021.

The discount rate reflects an effective rate based on high quality corporate bond yields and the plan cashflow as of the valuation date.

The assumed lump sum rate reflects long term expectations of the yield rate on high quality corporate bonds.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan provisions

Effective Date

The plan was originally effective January 1, 2009. The plan is a continuation, restatement, and merger of the following Prior Plans:

- QBE North American Management, Inc. Pension Plan
- National Farmers Union Property and Casualty Company Pension Plan
- Insurance Corporation of Hannover Pension Plan
- The Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation

Effective December 31, 2010, the plan was frozen.

Participation Eligibility

Each employee (or former employee) who was a participant in a Prior Plan as of December 31, 2008 shall become a participant on the effective date. Each other employee who is hired after January 1, 2009 shall become a participant in the plan upon the attainment of the later of age 21 and 1 year of Eligibility Service.

Effective December 31, 2010, plan participation was frozen.

Eligibility for Benefits

Normal Retirement

Retire on Normal Retirement Date

Early Retirement

Retire before Normal Retirement Date and on or after attainment of age 55 and completion of 5 years of Benefit Service.

Postponed Retirement

Retire after Normal Retirement Date

Vested Retirement

Terminate for reasons other than death, retirement or disability after completion of 5 years of Vesting Service

<i>Preretirement Survivor Benefits</i>	Die while eligible for Vested, Early, Normal, or Postponed Retirement benefits, with a surviving spouse
Final Average Compensation (FAC)	Highest average annual Base Pay received for any 60-consecutive calendar months during the 120-consecutive calendar months of Employment as an Eligible Employee immediately preceding the Participant's Termination Date. Compensation earned after December 31, 2010 is not considered in the Final Average Compensation calculation as a result of the plan freeze.
Covered Compensation	The average of the taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the participant attains Social Security Retirement Age.
Normal Retirement Date	The first day of the calendar month coincident with or next following a participant's 65 th birthday.
Grandfathered Participant	An active participant as of December 31, 2008 in the Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation or the QBE North American Management, Inc. Pension Plan (and classified under that plan as a "grandfathered participant of the General Casualty Employee Retirement Plan"), with a Legacy Plan Accrued Benefit who has attained age 55 and completed at least 5 years of Benefit Service prior to January 1, 2009.
Legacy Plan Participant	An active participant as of December 31, 2008 in the Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation or the QBE North American Management, Inc. Pension Plan with a Legacy Plan Accrued Benefit and who is not a Grandfathered Participant.

Prior Plan Participant

An active participant as of December 31, 2008 with a Legacy Plan Accrued Benefit from participation in the National Farmers Union Property and Casualty Company Pension Plan or the Insurance Corporation of Hannover Pension Plan. In addition, an active employee of North Pointe Financial Services, North Pointe Insurance Company or Capital City Holding Company as of January 1, 2009 is also considered a Prior Plan Participant, even though these employees do not have a Legacy Plan Accrued Benefit.

Legacy Plan Accrued Benefit

A participant's frozen accrued benefit from a Prior Plan determined as of December 31, 2008.

Normal Retirement Benefit

A lump sum pension equity benefit as of the Normal Retirement Date equal to the participant's years of Benefit Service times the sum of the following:

- a) 10% of a participant's FAC up to Covered Compensation
- b) 16% of a participant's FAC in excess of a participant's Covered Compensation

Grandfathered Participants

A lump sum pension equity benefit equal to the participant's years of Benefit Service times the sum of the following:

- a) 12% of a participant's FAC up to Covered Compensation
- b) 18% of a participant's FAC in excess of a participant's Covered Compensation

In lieu of the above, Grandfathered participants are eligible for a "Conversion Benefit" equal to the sum of the following components if that sum produces a greater lump sum benefit than the amount calculated above:

- a) The Legacy Plan Accrued Benefit converted to an Actuarial Equivalent lump sum payment
- b) The pension equity benefit payable as a lump sum, calculated in the manner described above, but taking into account only years of Benefit Service earned after December 31, 2008

Legacy Plan Participants

A lump sum pension equity benefit equal to the participant's years of Benefit Service times the sum of the following:

- a) 10% of a participant's FAC up to Covered Compensation
- b) 16% of a participant's FAC in excess of a participant's Covered Compensation

In lieu of the above, Legacy Plan participants are eligible for a "Conversion Benefit" equal to the sum of the following components if that sum produces a greater lump sum benefit than the amount calculated above:

- a) The Legacy Plan Accrued Benefit converted to an Actuarial Equivalent lump sum payment
- b) The pension equity benefit payable as a lump sum, calculated in the manner described above, but taking into account only years of Benefit Service earned after December 31, 2008

Prior Plan Participants

A lump sum amount equal to the sum of the following components:

- a) The Legacy Plan Accrued Benefit converted to an Actuarial Equivalent lump sum payment
- b) A pension equity benefit equal to the participant's years of Benefit Service earned after December 31, 2008 times the sum of the following:
 - i) 10% of a participant's FAC up to Covered Compensation
 - ii) 16% of a participant's FAC in excess of a participant's Covered Compensation

Early Retirement Benefit

Equal to the normal retirement benefit reduced by 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date.

Grandfathered Participants

And Legacy Plan Participants

Equal to the normal retirement benefit (without consideration of the "Conversion Benefit"), reduced by 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date. In determining the early retirement "Conversion Benefit" the components of the normal retirement "Conversion Benefit" are reduced as follows:

- a) For the Legacy Plan Accrued Benefit component, the actuarial equivalent lump sum commencing on the Early Retirement Date, assuming the monthly annuity benefits commence on the Normal Retirement Date. For participants with a Legacy Plan Accrued Benefit from the Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation, the actuarial equivalent lump sum commencing on the Early Retirement Date, with the monthly annuity benefits reduced to the Early Retirement Date per the applicable Prior Plan early retirement provisions and assumed to be payable immediately.
- b) For the pension equity benefit component determined with Benefit Service earned after December 31, 2008, a reduction of 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date.

Prior Plan Participants

Equal to the normal retirement benefit, with the components of the normal retirement benefit reduced as follows:

- a) For the Legacy Plan Accrued Benefit component, the actuarial equivalent lump sum commencing on the Early Retirement Date, assuming the monthly annuity benefits commence on the Normal Retirement Date.
- b) For the pension equity benefit component determined with Benefit Service earned after December 31, 2008, a reduction of 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date.

Vested Retirement Benefit

Equal to the normal retirement benefit (without consideration of the “Conversion Benefit”), with the components of the normal retirement benefit, as applicable by participant type, reduced for early commencement as follows:

- a) For the Legacy Plan Accrued Benefit component, if the participant attains age 55 prior to commencement, the actuarial equivalent lump sum commencing on the Vested Retirement Date, assuming the monthly annuity benefits commence on the Vested Retirement Date, of the Legacy Plan Accrued Benefit reduced by a factor based upon the participant’s age at commencement and the applicable Prior Plan early retirement provisions. If the participant has not attained age 55 at commencement, the Legacy Plan Accrued Benefit is converted to an actuarial equivalent lump sum commencing on the Vested Retirement Date, assuming the monthly annuity benefits commence on the Normal Retirement Date.
- b) For the pension equity benefit components, if the participant attains age 55 prior to commencement, equal to the normal retirement benefit reduced by 1/3% for each month by which a participant’s Vested Retirement Date precedes his Normal Retirement Date. If the participant has not attained age 55 at commencement, the actuarial equivalent lump sum commencing on the Vested Retirement Date assuming commencement at his Normal Retirement Date of the actuarial equivalent single life annuity of the pension equity benefit at his Normal Retirement Date.

Preretirement Survivor Benefit

The amount equal to the participant’s vested Accrued Benefit as if the participant’s date of death was the participant’s termination date, and adjusted to an actuarial equivalent benefit based on the beneficiary’s age as of the Benefit Starting Date.

Disability Benefit	The amount equal to the Normal, Early, or Vested Retirement Benefit assuming Vesting Service and Benefit Service continue to accrue during the period of disability, as applicable to the participant's eligibility for such benefit and as elected by the participant.
Normal Form of Payment	Married participant: Joint and Survivor 50% Annuity Unmarried participant: Single Life Annuity
Optional Forms of Annuity	Single Life Annuity 25%, 50%, 75%, or 100% Joint and Survivor Annuity 5, 10, or 15-Year Certain and Life Annuity Lump Sum Payment
Actuarial Equivalence	
<i>For converting one form of annuity to another form of annuity</i>	a) Interest Rate: 5.00% per annum. b) Mortality: the RP-2000 combined Group Annuity Mortality Table with no collar adjustment and annuity values weighted 50% male and 50% female.
<i>For converting a lump sum to and from an annuity</i>	a) Interest Rate: the first, second, and third segment rates applied under rules similar to that of IRC 430(h)(2)(C) for the November preceding the Plan Year in which the distribution will occur, with phase-in applied to the applicable interest rates, substituting average yields for the month described in Code section 430(h)(2)(D)(ii) for the average yields for the 24-month period described in such section and Code section 430(h)(2)(G)(i)(II) applied by substituting Code section 417(e)(3)(A)(ii)(II) for Code section 412(b)(5)(B)(ii)(II). b) Mortality : rates consistent with the assumptions prescribed in IRC 417(e)(3).

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under “Actuarial assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

The funding target is developed based on the full yield curve published at the month prior to the valuation date.

Sponsor elections

Discount rate: Full yield curve

Mortality table: Prescribed IRS generational mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus \$700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is determined using an annual average of the adjusted fair market value of assets with the earliest determination 24 months prior to the valuation date. The fair market value of assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the fair market value of assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the fair market value of assets.

The actuarial value of assets is adjusted to be no less than 90% or no more than 110% of the fair market value of assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an actuarial value of assets slightly below the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Actuarial assumptions

Funding Assumptions:

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

The retirement age and form of payment assumptions consider the experience study completed in January 2018 based on plan experience from 2012 through 2016.

An annual review of actuarial assumptions is completed and there has been no consistent pattern of material gains or losses occurring for any non-prescribed assumptions.

ASC 960 Assumptions:

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption, the discount rate, and the assumed lump sum discount rate.

The mortality assumption reflects experience from representative populations, based on the Pri-2012 Private Retirement Plans Mortality Table Report issued by the Society of Actuaries (SOA) in October 2019 and the Mortality Improvement Scale MP-2021 Report issued by the SOA in October 2021.

The discount rate reflects an effective rate based on high quality corporate bond yields and the plan cashflow as of the valuation date.

The assumed lump sum rate reflects long term expectations of the yield rate on high quality corporate bonds.

Compensation earned after December 31, 2010 is not considered in the Final Average Compensation calculation as a result of the plan freeze.
Covered Compensation	The average of the taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the participant attains Social Security Retirement Age.
Normal Retirement Date	The first day of the calendar month coincident with or next following a participant's 65 th birthday.
Grandfathered Participant	An active participant as of December 31, 2008 in the Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation or the QBE North American Management, Inc. Pension Plan (and classified under that plan as a "grandfathered participant of the General Casualty Employee Retirement Plan"), with a Legacy Plan Accrued Benefit who has attained age 55 and completed at least 5 years of Benefit Service prior to January 1, 2009.
Legacy Plan Participant	An active participant as of December 31, 2008 in the Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation or the QBE North American Management, Inc. Pension Plan with a Legacy Plan Accrued Benefit and who is not a Grandfathered Participant.

Prior Plan Participant

An active participant as of December 31, 2008 with a Legacy Plan Accrued Benefit from participation in the National Farmers Union Property and Casualty Company Pension Plan or the Insurance Corporation of Hannover Pension Plan. In addition, an active employee of North Pointe Financial Services, North Pointe Insurance Company or Capital City Holding Company as of January 1, 2009 is also considered a Prior Plan Participant, even though these employees do not have a Legacy Plan Accrued Benefit.

Legacy Plan Accrued Benefit

A participant's frozen accrued benefit from a Prior Plan determined as of December 31, 2008.

Normal Retirement Benefit

A lump sum pension equity benefit as of the Normal Retirement Date equal to the participant's years of Benefit Service times the sum of the following:

- a) 10% of a participant's FAC up to Covered Compensation
- b) 16% of a participant's FAC in excess of a participant's Covered Compensation

Grandfathered Participants

A lump sum pension equity benefit equal to the participant's years of Benefit Service times the sum of the following:

- a) 12% of a participant's FAC up to Covered Compensation
- b) 18% of a participant's FAC in excess of a participant's Covered Compensation

In lieu of the above, Grandfathered participants are eligible for a "Conversion Benefit" equal to the sum of the following components if that sum produces a greater lump sum benefit than the amount calculated above:

- a) The Legacy Plan Accrued Benefit converted to an Actuarial Equivalent lump sum payment
- b) The pension equity benefit payable as a lump sum, calculated in the manner described above, but taking into account only years of Benefit Service earned after December 31, 2008

Legacy Plan Participants

A lump sum pension equity benefit equal to the participant's years of Benefit Service times the sum of the following:

- a) 10% of a participant's FAC up to Covered Compensation
- b) 16% of a participant's FAC in excess of a participant's Covered Compensation

In lieu of the above, Legacy Plan participants are eligible for a "Conversion Benefit" equal to the sum of the following components if that sum produces a greater lump sum benefit than the amount calculated above:

- a) The Legacy Plan Accrued Benefit converted to an Actuarial Equivalent lump sum payment
- b) The pension equity benefit payable as a lump sum, calculated in the manner described above, but taking into account only years of Benefit Service earned after December 31, 2008

Prior Plan Participants

A lump sum amount equal to the sum of the following components:

- a) The Legacy Plan Accrued Benefit converted to an Actuarial Equivalent lump sum payment
- b) A pension equity benefit equal to the participant's years of Benefit Service earned after December 31, 2008 times the sum of the following:
 - i) 10% of a participant's FAC up to Covered Compensation
 - ii) 16% of a participant's FAC in excess of a participant's Covered Compensation

Early Retirement Benefit

Equal to the normal retirement benefit reduced by 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date.

Grandfathered Participants

And Legacy Plan Participants

Equal to the normal retirement benefit (without consideration of the "Conversion Benefit"), reduced by 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date. In determining the early retirement "Conversion Benefit" the components of the normal retirement "Conversion Benefit" are reduced as follows:

- a) For the Legacy Plan Accrued Benefit component, the actuarial equivalent lump sum commencing on the Early Retirement Date, assuming the monthly annuity benefits commence on the Normal Retirement Date. For participants with a Legacy Plan Accrued Benefit from the Pension Plan of QBE Reinsurance Corporation and QBE Insurance Corporation, the actuarial equivalent lump sum commencing on the Early Retirement Date, with the monthly annuity benefits reduced to the Early Retirement Date per the applicable Prior Plan early retirement provisions and assumed to be payable immediately.
- b) For the pension equity benefit component determined with Benefit Service earned after December 31, 2008, a reduction of 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date.

Prior Plan Participants

Equal to the normal retirement benefit, with the components of the normal retirement benefit reduced as follows:

- a) For the Legacy Plan Accrued Benefit component, the actuarial equivalent lump sum commencing on the Early Retirement Date, assuming the monthly annuity benefits commence on the Normal Retirement Date.
- b) For the pension equity benefit component determined with Benefit Service earned after December 31, 2008, a reduction of 1/3% for each month by which a participant's Early Retirement Date precedes his Normal Retirement Date.

Vested Retirement Benefit

Equal to the normal retirement benefit (without consideration of the “Conversion Benefit”), with the components of the normal retirement benefit, as applicable by participant type, reduced for early commencement as follows:

- a) For the Legacy Plan Accrued Benefit component, if the participant attains age 55 prior to commencement, the actuarial equivalent lump sum commencing on the Vested Retirement Date, assuming the monthly annuity benefits commence on the Vested Retirement Date, of the Legacy Plan Accrued Benefit reduced by a factor based upon the participant’s age at commencement and the applicable Prior Plan early retirement provisions. If the participant has not attained age 55 at commencement, the Legacy Plan Accrued Benefit is converted to an actuarial equivalent lump sum commencing on the Vested Retirement Date, assuming the monthly annuity benefits commence on the Normal Retirement Date.
- b) For the pension equity benefit components, if the participant attains age 55 prior to commencement, equal to the normal retirement benefit reduced by 1/3% for each month by which a participant’s Vested Retirement Date precedes his Normal Retirement Date. If the participant has not attained age 55 at commencement, the actuarial equivalent lump sum commencing on the Vested Retirement Date assuming commencement at his Normal Retirement Date of the actuarial equivalent single life annuity of the pension equity benefit at his Normal Retirement Date.

Preretirement Survivor Benefit

The amount equal to the participant’s vested Accrued Benefit as if the participant’s date of death was the participant’s termination date, and adjusted to an actuarial equivalent benefit based on the beneficiary’s age as of the Benefit Starting Date.

Disability Benefit	The amount equal to the Normal, Early, or Vested Retirement Benefit assuming Vesting Service and Benefit Service continue to accrue during the period of disability, as applicable to the participant's eligibility for such benefit and as elected by the participant.
Normal Form of Payment	Married participant: Joint and Survivor 50% Annuity Unmarried participant: Single Life Annuity
Optional Forms of Annuity	Single Life Annuity 25%, 50%, 75%, or 100% Joint and Survivor Annuity 5, 10, or 15-Year Certain and Life Annuity Lump Sum Payment
