Board of Directors

Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE A | DESCRIPTION OF THE PLAN

1. General

Thouvenot, Wade & Moerchen, Inc. (Company or Sponsor Company) established the Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan (Plan or ESOP) effective January 1, 2003. As of January 1, 2015, the Plan was amended and restated and was designed to comply with the applicable sections 401(a), 409 and 4975(e)(7) of the Internal Revenue Code (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

2. Eligibility

Employees of the Company are eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year and are age 21 or older. Employees covered by a collective bargaining agreement, leased employees, and employees who are nonresident aliens are not eligible to participate. Participants who do not have at least 1,000 hours of service during such Plan year and are not employed on the last working day of a plan year are not eligible for an allocation of Company contributions for such year.

3. Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year, or retire, die, or become disabled during the Plan year will receive an allocation. Employer contributions are allocated to participants' accounts pro rata according to participants' eligible compensation for the year. Plan earnings are allocated to each participant's account based on the ratio of shares in the participant's account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE A | DESCRIPTION OF THE PLAN

4. *Vesting*

A participant who resigns or is dismissed from employment is subject to the following vesting schedule, where a year of service is defined as 1,000 hours or more. A participant that dies or becomes disabled becomes 100% vested.

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 2	0 %
2 but less than 3	20
3 but less than 4	40
4 but less than 5	60
5 but less than 6	80
6 or more	100

5. *Employer Contributions*

The Company is obligated to make contributions in cash to the Plan, which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest on its term loan. Employees are not required, nor permitted, to make contributions to the Plan.

6. *Benefit Payments*

Distribution of a participant's entire balance of his or her ESOP accounts will be made when the participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company, providing the participant has completed six years of service. If a participant terminates employment with the Company after completing less than six years of service, then the participant will receive a distribution equal to his or her vested portion of his or her ESOP account. The amount to be distributed is based upon the immediately preceding valuation date. If a participant's vested balance is less than \$ 50,000 (\$ 35,000 prior to June 19, 2024), then the distribution will be made in a lump sum. If a participant's vested balance is greater than \$ 50,000 (\$ 35,000 prior to June 19, 2024), then the distribution will be made in the form of substantially equal installments over a period not to exceed five years. If a participant terminates employment but has not attained retirement age, then the participant must wait either six years or attain retirement age before receiving distributions if their balance is over \$ 50,000 (\$ 35,000 prior to June 19, 2024). The period over which distributions are to occur may be increased by one year, up to five additional years, for each \$ 210,000, or fraction thereof, by which the total balance of the participant vested balance exceeds \$ 1,070,000, subject to certain cost-of-living adjustment as prescribed by the Secretary of the Treasury.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE A | DESCRIPTION OF THE PLAN

6. Benefit Payments

The Trust may distribute participants' plan benefits entirely in cash or entirely in Company Stock, or a combination of each. Any distribution eligible for floor price protection is distributed in shares only. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan, and in its sole discretion, may liquidate the Company stock accounts of participants who have terminated employment and have not yet received a full distribution of their accounts.

The Plan was amended effective January 1, 2024, to include a provision under which the Company adopted a segregation policy allowing the Company, in its sole discretion and in a uniform and nondiscriminatory manner, liquidate the Company Stock of participants who have terminated employment for reasons other than mandatory cash-out age or attainment of early or normal retirement age on or prior to the date on which employment terminates.

7. Forfeitures

If a participant terminates prior to completing six years of service, the nonvested portion of his or her account is forfeited and credited to a forfeiture account. The balance in the forfeiture account will be allocated and credited to the remaining participant accounts in the year of forfeiture based upon the relation of the participants' eligible compensation to the total eligible compensation for the Plan year. If the Participant returns to employment with the Company within five years of termination, the amount forfeited will be restored to his or her participant account. For the year ended, December 31, 2024, there were 6.92428 shares of stock and \$ 23.23 forfeitures allocated to participants.

8. Voting Rights

All Company stock held by the Plan shall be voted by the Trustee in accordance with instructions from the Plan Committee. Notwithstanding the foregoing, participants and/or beneficiaries shall be entitled to direct the Trustee as to the voting of any voting shares of Company stock allocated to their participant accounts with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of a trade or business, or other similar transactions prescribed by regulation. In accordance with instructions from the Plan Committee, the Trustee shall vote any unallocated shares held by the Plan as well as any allocated shares for which a participant has failed to give timely voting direction.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE A | DESCRIPTION OF THE PLAN

9. Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination, all participants employed on the termination date will become fully vested in all of their accounts.

10. Operating Expenses

The administration costs and expenses of the Plan are paid by the Company.

11. Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

12. Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in employer stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. The election to diversify is made subsequent to year-end based upon the shares of Employer stock in the participant's account at year-end. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. No participants elected to diversify company stock for the plan year ended December 31, 2024.

NOTE B | SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE B | SUMMARY OF ACCOUNTING POLICIES

2. Allocations

The financial statements of the Plan represent separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares committed to be released. Shares are released from collateral and become generally allocated in the period in which debt service is actually paid.

3. Cash and Cash Equivalents

The Plan's cash and cash equivalents consist of cash in checking accounts and money market accounts.

4. Investment Valuation and Income Recognition

The Plan's investments consist of the common shares of the Company and are stated at fair value. Fair value is determined by annual independent appraisals. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains (losses) on investments bought and sold as well as held during the year.

5. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

6. Payment of Benefits

Benefits are recorded when paid.

Thouvenot, Wade & Moerchen, Inc. Employee Stock Ownership Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE B | SUMMARY OF ACCOUNTING POLICIES

7. Subsequent Events

Management has evaluated subsequent events for recognition and disclosure in the financial statements through October 14, 2025, which is the date the financial statements were available to be issued. Through October 14, 2025, no subsequent events required recognition or disclosure in the financial statements.

NOTE C | TAX STATUS

The Plan obtained its latest determination letter on May 27, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since its last determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code, and therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE D | ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist of principally Sponsor Company common shares, are held by the Trustees of the Plan.

Effective December 14, 2016, the Company appointed an independent Trustee for the Plan.

Company contributions are held and managed by the third-party Trustee, who invests cash received, interest and dividend income, and oversees distributions to participants.

NOTE F | FAIR VALUE MEASUREMENTS

The Plan follows the fair value measurement guidance for financial assets and financial liabilities. The guidance defines fair value, establishes a framework for measuring value and expands disclosure about fair value measurement.

Fair value is defined to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level hierarchy has been established for fair value measurements based upon the inputs to the valuation of an asset or liability as follows:

Level 1 - Valuation is based on quoted prices for identical assets and liabilities in active markets.

Level 2 - Valuation is derived from inputs, other than quoted prices included in Level 1, which are observable for the asset or liability either directly or indirectly. Investments classified as Level 2 are generally valued by benchmarking model-derived prices to quoted market prices and trade data for identical or comparable securities. The significant inputs used in this approach include interest rates, prepayment timing, yield spreads, maturities, credit losses and credit ratings of the securities.

Level 3 - Valuation is derived from unobservable inputs that are not corroborated by market data.

The asset's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE F | FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023. Fair value of the Sponsor Company’s common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of income and market capitalization approaches consistent with prior year. The Sponsor Company was valued as a going-concern based on business, economic, market and other conditions as they exist and can be evaluated as of the valuation date. Such valuation techniques are consistent with prior years as illustrated in the following table:

<i>Instrument</i>	<i>Fair Value</i>	<i>Principal Valuation Technique</i>	<i>Unobservable Inputs</i>
Sponsor Company common stock	<u>2024</u> \$ 42,081,099	Income & Market	Adjusted net worth Capitalization of earnings Discounted cash flow
	<u>2023</u> \$ 36,159,824		

The valuation process involves the Independent Trustee’s selection of an independent appraiser under contract for a term of one year with the right to cancel that contract at any time. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report and Plan management, along with the ESOP trustee, reviews in detail, discusses and approves the valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE G | LONG-TERM DEBT

On July 17, 2017, the ESOP entered into a \$ 7,036,917 term note from the Company. The proceeds of this note were used to acquire shares of the Company. Unallocated shares of 9,820.00 were used as collateral for this note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year principal and interest paid divided by the current year payment plus all of future years' principal and interest payments. This resulted in 497.38 shares being released and allocated for the Plan year ended December 31, 2024. The note bears interest at 2.60% and is to be repaid in thirty annual installments of principal and interest. Final payment is due December 31, 2046.

On December 31, 2024, the ESOP entered into a \$ 2,857,184 term note from the Company. The proceeds of this note were used to acquire shares of the Company. Unallocated shares of 1,100.00 were used as collateral for this note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year principal and interest paid divided by the current year payment plus all of future years' principal and interest payments. The loan was entered into on December 31, 2024 resulting in no shares being released and allocated for the Plan year ended December 31, 2024. The note bears interest at 4.53% and is to be repaid in thirty annual installments of principal and interest. Final payment is due December 31, 2054.

Maturities of the notes payable for the five years following December 31, 2024, are as follows, should the minimum required payment be made:

2025	\$	124,884
2026		119,772
2027		123,826
2028		128,028
2029		132,384

NOTE H | RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE I | RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by Company common stock. These are related party and party in interest transactions. As described in Note A, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

NOTE J | PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan Provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of common stock held as collateral to the extent it determines such a sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE K | FLOOR PRICE PROTECTION

Distributions of stock are subject to a mandatory put to the Company. For participants who acquired certain shares prior to July 1, 2017, the put option price is the greater of the current appraised value as of the plan year immediately preceding the distribution or the floor price. For all other participants, the put option price is the current appraised value. For distributions of stock, fair value is guaranteed by the Company at the floor price. The floor price is the appraised value of the Company Stock, adjusted as if the Company had not incurred the debt resulting from the ESOP Stock Purchase Agreement effective July 17, 2017. Once the current appraised value equals or exceeds the floor price, the floor price protection ceases, and all puts of stock will be paid using the current appraised value. On April 30, 2022 the floor price protection was released, as related debt was extinguished and all distributions were paid at 2022 appraised value.
